The Kent News.

SATURDAY ..... JUNE 5, 1880.

THE General Conference of the M. E. Church, which had been in session at Cincinnati for a month past, adjourned on Friday of last week. The next General Conference will be held at Philadelphia in 1884.

THE Maryland Episcopal Convention in session the past week in Baltimore has had some exciting episodes. Bishop Pinkney, who succeeds to the Episcopate by the death of Bishop Whitingham, has taken very positive grounds against Ritualism and his influence is seen in the workings of the Convention. Two candidates for holy orders who represent the churchmanship at Mount Calvary have been refused ordination, and the delegation to the General Convention representing conservatism defeated the candidacy of those who were delegates three years ago, by very decided majorities.

WE are indebted to Hon. Jesse K. Hines, Insurance Commissioner, for a copy of his annual report made to the Governor, June 1st, 1880. After a brief introduction, in which he gives a summary of the business of the companies for the past year, Mr. Hines says: "The administration of my department during the past year has been entirely satisfactory in its results, not only in preventing the influx of irresponsible companies, but of arranging many cases of disagreement between the companies and policy-holders, wherever it has been possible for me to do so, either under the law or by reason of my official relations with the companies." No doubt without some such protection the people would suffer from irresponsible foreign and even home companies, and as it costs the State nothing to supply this protection, an objection to it looks captious. Accompanying the report are full tables of statistics showing the business and condition of the various companies doing business in this State.

A MARYLAND CENSUS SUPERVISOR.—Mr. Henry introduced a resolution a few days ago, which was referred to the Committee on Census, to the follow effect:

WHEREAS, The census act provides that the enumerators shall be selectly solely with reference to their fitness and without reference to their political or party affiliations.

Resolved, That the Secretary of the Interior is hereby requested to furnish the House with a list of the enumerators appointed for the Second census district of Maryland, together with the political or party predilections of each:

Mr. Henry states that he has reason to believe that the enumerators appointed by Supervisor Graham have not been appointed with reference to their fitness but for party reasons. Of the 104 enumerators appointed in the district only 18 are Democrats, and in Dorchester county, where he himself recommended four, but one recommendation was successful. The facts in the case will all be developed by the investigation resulting from this resolution, and if Mr. Graham has not done his duty it is not improbable that he will be removed, as Supervisor White, of Philadelphia, was removed upon similar charges last week. The resolutions will be reported back from the committee at once and will be so amended in the committee as to include several other districts besides the Eastern Shore.

FAVORITISM IN THE ARMY.—The Secretary of War, in answer to a resolution of the House of Representatives, has furnished the names and lineal rank of all officers of the army not on duty with their regiments or corps, but doing duty elsewhere, and the nature of that duty, length of time absent, etc. The Secretary's report shows a list of two hundred, the majority being legitimate details of engineering and signal officers, and the amount of extra emolument has been calculated up to December 31, 1879, since when the double salaries have, however, been drawn with the utmost promptness. Lieut. Frederick Dent Grant, Gen. Grant's son, has been absent from his regiment for seven of the ten years of his army life, and his extra pay and allowances amount to $16,531. A wounded (Forsythe) was removed from Gen. Sheridan's staff to make room for young Grant, with the rank of colonel. Capt. J. C. Audenreid, with the rank of colonel of Gen. Sherman's staff, is said to have never served a day with his regiment since his graduation in 1862, and his extra compensation at $2,620 has been paid him yearly, amounting up to the end of last year to $34,131 01. His proper salary is $2,000 per year. J. E. Tourtelotte, who occupies a similar position on Sherman's staff, has drawn $25,638 extra compensation, and M. V. Sheridan, brother of Lieut. Gen. Sheridan, who is a captain in the seventh cavalry, is receiving pay as his brother's secretary, and has had $21,209 above his regular salary in all. T. H. Bradley, a first lieutenant of infantry, at $1,500 a year, has never joined his regiment, but is assigned to special duty in the War Department, with extra pay at $1,082, and rank as major, having received in all $8,084 75 extra.

GEO. GORDON'S FATHER DEFENDS HIM.—Mr. Z. H. Gordon, the venerable father of Gen. Jno. B. Gordon, has written a letter, in which he pronounces as "infamously and shamefully false" the report that his son sold out the United States senatorship. He says Gen. Gordon has ever been a dutiful, obedient and confiding son, and that in March last he informed him that he was tired of public life and craved the peace and quietude of his home and home affairs, besides which he could not save up any money out of his salary, and that the idea of dying and leaving his family without a competency troubled him no little. Mr. Gordon, Sr., says he urged his son to resign, and was only surprised that he did not do so sooner.

EARLY HARVESTING.—The Balto. *Sun* of Thursday says: Mr. Jas. H. Morgan, an enterprising farmer, residing near Pope's Creek, Charles county, Md., yesterday commenced harvesting a seventy-five acre field of wheat, which is fully ripe for the reaper. Samples harvested yesterday and sent the *Sun* show fine straw, well headed with wheat of the Fultz variety, and of splendid quality. The second of June is very early for the beginning of harvest in Maryland.

MR. G. S. GRIFFITH will sail for England on the 12th of June to attend the International Sunday School Convention to be held there. Mr. Griffith was elected a delegate to this convention from Baltimore several months ago.

Political Notes.

Senator Brown, of Georgia, is the first millionaire that the South has sent to Congress. He is not set down as worth three millions.

Nearly all the counties in Illinois that have chosen delegates to the State convention have instructed in favor of Hon. Wm. R. Morrison for President.

Senator Lamar has received a dispatch from reliable parties who assure him that the vote of the Mississippi delegation will be cast for Senator Bayard.

The Vicksburg *Herald* says every one of the sixteen delegates from Mississippi to the Cincinnati convention is opposed to the nomination of Mr. Tilden.

The Louisville *Courier-Journal*, a strong Tilden paper, says: "The Hon. Wm. R. Morrison, of Illinois, is a good man. The party might go further and fare worse."

Gen. Joseph E. Johnson, whilst on a visit to Atlanta, Ga., put himself squarely on the record for Gen. Hancock as the democratic candidate for the presidency.

Ex-Gov. Curtin, of Pennsylvania, says he, will "take off his coat in his congressional district against the nominee of Chicago convention."

TAMMANY GOING TO CINCINNATI.—The Tammany delegation to Cincinnati will have a special train and expect to go 1,000 strong, 500 of whom will be from New York city, and the other 500 from the interior of the State.

There was a time when Western candidates secured nominations by kissing babies, but now they can kiss a whole family and the dog besides and be left out in the cold if they are not on the right ticket.—*Detroit Free Press.*

The action reported of some of the back woods colored delegates to the Chicago convention, who arrived a day or two in advance, is amusing in the extreme and very characteristic of the race. It is reported that they would neither talk Grant, Blaine or Sherman until they had passed several hours in riding up and down in the elevators of the large hotels. After a surfeit of this novel pastime, they put on Grant, Blaine and Sherman badges, according to their predilections, and strutted around like peacocks.

It is reported in New York that ex-Gov. Seymour will shortly come out in a letter declaring in favor of Mr. Bayard as the democratic candidate for his locality. Mississippi, South Carolina and North Carolina are said to be solid for the Delaware Senator, who will secure the active co-operation of the delegates from his own State, and it is believed from Maryland and New Jersey, as well as Massachusetts, and a part at least of the delegates from Connecticut.

In the case of Edward F. Johns, late collector of taxes of Harford county, tried in the Circuit Court at Belair, as a defaulter in the collection of county taxes, the jury, after remaining out from Saturday afternoon until Monday morning, brought in a verdict of guilty. The amount of taxes not paid over is upwards of $6,000. Johns was previously convicted for collecting and not paying over State taxes amounting to $2,400.

THE prize fight between Goss and Ryan for $2,000 and the heavy weight championship took place near Collier's Station, W. Va., not far from the Pennsylvania State line, Tuesday. The fight was a brutal one. Eighty-seven rounds were fought and Ryan was declared the victor, though Goss claimed a foul.

THE celebration of the 130th birthday of Stephen Girard reveals the fact that 2,464 sons of widows have been educated in the college he founded. The record should impress the minds of men who have millions of dollars to dispose of.

A LARGE number of woman suffragists were at Chicago intent upon putting a plank in the republican platform. Among them are Miss Susan B. Anthony, Mrs. Spofford, of Washington, and Miss Phoebe Cozzens, of St. Louis.

FOUR crates of peaches, the first of the season, were shipped from West Point, Ga., Tuesday for the Northern market.

The introduction of the

English Condition Powders,

In our American market, exempt from duty, freight, &c., has proved to the thousands who are daily using them that they have been a long felt want.

For the past half century they have grown in public favor and general use in all quarters of the Globe, until their name and fame is world-wide.

There is not an ailment (known in Veterinary practice) of the Horse, Cow, Sheep or Pig, but yield to their miraculous influence.

Their rare balsamic properties are conveyed to every part of the brute creation, and immediate relief is given.

They heal Internal Ulcerations, banish all derangements, and give the stomach proper tone.

No Stock-owner need despair a cure, whilst this *never-failing remedy* can be obtained; and the reputation they bear from all quarters of the *Globe* is fully borne out by the success they have attained—corroborated by testimonials of all classes and countries.

They have cured Thousands of Cases conceded Incurable.

The many ailments of each class of animals and their various forms are too extended to discuss. But we *guarantee* in each case a tenfold remuneration for the small investment that places them within reach of the most humble who often have to rely on their stock for support.

The majority are more directly interested in Horses, and to them we say one trial will convince you that they work wonders; and no matter how doubtful the case is, you will invariably be benefitted, & your animals made & kept healthy by their use.

English Condition Powders

are a *certain* and *speedy remedy*, no matter what the disease is, or how complicated. They are not a temporary, but have *invariably* proved to be a *radical cure*.

They *restore health* and *produce flesh, milk and butter*. They aid digestion and assimilation, and thoroughly renovate the system, and will be found invaluable and remunerative to every stock-owner.

TO CONSUMERS.—They are only one-third the price of all others, and are as superior in quality as quantity.

The following TESTIMONIALS speak of their merits:

Baltimore, June 17, 1879.

Mr. P. Warren—Sir: We have been handling your English Condition Powders for some time past, and find that their merits as compared with similar compounds, meet a want seldom (if at all) found in goods of a similar class. With Patrons of Husbandry they are growing into favor rapidly. Signed: H. O. DEVRIES, Ag't Maryland State Grange.

Ashland House, 24th St. & 4th Avenue, *New York City*, Mar. 10, 1879.

I have used the English Condition Powders and can recommend them to the turf profession as being pure and similar to the imported, and would use no other.—For purity and quality they are *unequalled* and invaluable to horsemen.

Signed, HARRY HARTMAN, Late manager Budd Doble's Turf Stock.

Baltimore, Md., Aug. 6, 1879.

P. Warren, Esq.—Sir: The English Condition Powders are conceded by all my patrons to be the *purest, cheapest* and *best* on the market; and have worked wonders where used. I sell five times as many of *them* as all others combined.

Kennard & Co's Sterling Phosphate!

$23.00 CASH. $25.00 TIME.

THE GREAT SUCCESS of our Fertilizer last Spring has encouraged us to enlarge our Factory and adopt new and improved machinery, so that we are prepared to again offer our goods to the farmer, and guarantee a prompt and certain delivery of all orders. We respectfully invite the patronage of all, and are satisfied that a trial will insure the endorsement of those who use the "STERLING."

The following testimonials are a few of those received as to its work last Spring:

Chestertown, Md., Feb. 21st, 1880.

Dear Sirs:—Your Phosphate that I used on my Corn last Spring gave me great satisfaction. I also used your Wheat Phosphate last Fall; it is now looking as well as other Phosphates on the same land at a higher figure. I expect to use your goods next Spring. Yours, truly, COMEGYS BROWN.

Chestertown, Maryland, February, 1880.

KENNARD & Co.:—In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations. Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.

MESSRS. KENNARD & Co.—Gentlemen: I used your Phosphate last Spring on my Corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre; where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barnyard manure, and the result was about twelve bushels to the acre. Where I used your stuff the ear was large, well filled, and I could not find a worm in a hundred ears; the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this spring. Yours, truly, GEORGE W. LONG.

We also keep on hand a full stock of Pure Dissolved and Ground Raw Bone Potash and other Chemicals, which we furnish at prices equal to any offered.

We respectfully refer to the following testimonials and names of persons who have used Mogee's Schuylkill Lime:

MR. B. F. FLEMING:—We used 3,000 bushels Mogee's lime last year. It acts well and paid handsomely on corn. JAMES L. BECK, WALTER H. BECK, } Beck's Wharf.

This year 1880 I have rented from Major Hynson the Huntingfield farm; will use 5,000 bushels Mogee's Lime. Your Captains give good measure and deal fair. JAMES L. BECK.

MR. B. F. FLEMING:—I have used Mogee's Lime for the past 2 years on corn. It acts well; keeps the corn green and largely increases the yield. It slakes fully double, contains no core and is as near genuine Lime as any I ever used. GEO. H. SNITCHER.

MR. B. F. FLEMING:—I have used 2,600 bushels of Mogee's Slaked Lime on Mrs. A. M. Hurtt's farm; it has given excellent satisfaction. STEPHEN CONSTABLE.

MR. B. F. FLEMING:—I used three car loads of Mogee's Schuylkill Lime on Corn last Spring. It slaked fully *double*. There was not a half bushel of core in the whole. It kept the corn green, and I believe it is the best lime I ever used. I shall use it on corn this Spring. PURNELL JEFFERSON, Chestertown P. O., Kent co., Md.

MR. B. F. FLEMING—Dear Sir: I used about 6,000 bushels of Mogee's Quick Lime last year. It gave me good satisfaction. ISAAC PARSONS, *Hanesville, Kent co., Md.*

MR. B. F. FLEMING:—We have used several different kinds of Lime. The 1000 bushels of Mogee's Schuylkill lime we tried on corn last spring slaked better, contained less core and coal, acted quicker, and gave the best satisfaction of any lime we have ever used. Send us 2,000 bushels of the same lime this Spring. GEO. R. REED and S. A. REED.

MR. B. F. FLEMING:—I have used several thousand bushels of lime since I have been living on Mr. Wm. Vannort's farm; I used two cars of Mogee's Schuylkill lime last Spring. It slaked more than two bushels for one, and there was no core at all. I believe it is the best lime I ever used, and expect to use more of it this Spring. J. E. NEWCOMB.

MR. B. F. FLEMING:—I have used Mogee's Lime for two years past, and believe it to be the best lime sold. JOSEPH H. PORTER.

MR. B. F. FLEMING:—Before I commenced to use Mogee's Lime I could not raise enough corn and wheat to supply me. I am happy to say that I have been using it for 3 years; it slakes well, acts quick on corn and wheat, makes the clover grow, and I believe that where I used Mogee's lime the yield is double for corn, wheat and clover. If any one doubts this Mr. Fleming will give them a free ride to Worton and I will convince them. GEO. M. PORTER.

MR. B. F. FLEMING:—I have through the instructions of J. Frank Black, Esq., of Chester, Pa., used on the "Round Top" farm several thousand bushels of Mogee's Schuylkill Lime, and it gave good satisfaction. I have also used it on my farm near Crumpton, and it acted well. I believe it is the best lime in the market, and expect to use it largely this Spring. JOSEPH S. FOWLER, Round Top farm.

PLOWS! PLOWS! PLOWS!

"Ohio Chilled" & "Gibbs' Imperial"

At KENNARD & CO.'S.

Read the result of the late Plow Contest as shown by the report of the committee to the Kent Co. Agricultual Club, together with the opinion of the plowman, and be convinced as to which is the best Plow in the market:

Synopsis of Report:—"The Ohio Chilled Plow was the lightest and the Advance was the heaviest. The Ohio Chilled was 27.03 lighter to the cubic foot than the Oliver Chilled; 33.57 lighter to the cubic foot than the Roland Chill, and 169.08 lighter to the cubic foot than the Advance."

Chestertown, Md., March 6th, 1880.

J. E. NEWCOMB, ESQ.,—Dear Sir: You having been elected by the Judges, as plowman in the late plow contest, held on the farm of Mr. Wm. Morris, Tuesday, the 2nd inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" Plow, entered by ourselves. Respectfully requesting an early reply, we remain, very truly, Yours, &c., KENNARD & CO.

Worton Station, March 8th, 1880.

MESSRS. KENNARD & Co.—Gentlemen: In answer to your question of March 6, about the Plows tried at Mr. Wm. Morris', of which I was plowman, I will simply state to you what I said to the Kent Co. Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled & Gibbs' Imperial, that the Ohio Chilled and Gibbs' Imperial, as sold by you, were the best I have ever handled. I state this in justice to your Plows; not being pleased with them at first, am glad to say I was agreeably disappointed. J. E. NEWCOMB.

Very truly, yours,

We also intend carrying a full line of Agricultural IMPLEMENTS and are satisfied it will be to the purchaser's interest to examine our goods and prices.
