The Kent News.

SATURDAY.....JULY 24, 1880.

A Novel Suicide took place recently at Goldsboro', N. C., the victim of which was a monkey owned by Mr. Rockwell Syrock. The animal was quite a favorite with all the children for miles around, and knew most of them. For several years past Jocko's owner has been in the habit of visiting all of the hangings in that portion of the State, taking the mischievous animal with him, who always seemed to take an especial interest in the horrible details of such proceedings. On the 25th of June Alex. Howard, colored, was to have been executed for the murder of an old man, but the Governor respited him. The gibbet was erected and all of the preliminary arrangements made for carrying out the man's sentence, when the executive interfered and postponed it. Syrock visited the jail with the monkey and examined these preparations. The animal seemed to be unusually curious, and watched the scaffold and traps with wistful eyes. Since that time he has been playing hanging in his master's barn and finally was found dead, suspended by a clothes line to one of the rafters of the building.

San Francisco's Wonderful Growth.—The San Francisco *Chronicle* of June 29, with the work of enumerators nearly completed, estimated the probable population of that city at 200,000, including 17,000 and 18,000 Chinese. If these figures are approximately correct, and they are borne out by a local estimate made in 1870, which fixed the population at 200,000, San Francisco has increased her population in a larger ratio during the last decade than any of the other great cities of the country, the gain being 88 per cent. since 1870, when the population was 159,473. In 1860 the population of the city was 56,802. In 1850 the city was incorporated, but there is no accurate census, while in 1847 the town had a population of only 450.

Prof. Bell, inventor of the telephone, is a favorite of fortune so far as both honors and emoluments go. He has made much money, and now is receiving decorations galore. The French Chamber of Deputies has recommended him to be the recipient of the Volta prize of 50,000 francs, and this recommendation must be doubly flattering to Mr. Bell since Dumas, the eminent chemist, was chairman of the committee which counseled the award. This Volta prize was founded several years ago as a reward to persons producing the best practical results in the development and application of the electric force, and the earliest prize was awarded to Rumkorff, the inventor of the electro-magnetic coil bearing his name.

Failures in the United States.—Dun, Barlow & Co., of New York, have issued their circular showing the number of failures in the United States and Canada during the last three months for the first half year of 1880 as compared with the corresponding period in 1879. During the last three months 1,065 failures, with liabilities of $20,111,689, were reported in the United States, and during the half year of 1880 2,497, with liabilities of $32,888,763. In the first six months of 1879 there were 4,058 failures, with $65,779,310 liabilities.

The St. Louis *Republican*, after paying Gen. Hancock a very high compliment as a soldier, speaks of the ticket as follows: "The ticket is built to run and to win. It unites all the elements of popularity, all the elements of success. It has no flaw in its armor, and the shafts of partisan malice will find no weak spot to touch. It will require neither apology nor defence. It is its own indorsement and recommendation. The democrats at Cincinnati have done their work wisely and well. The people will do the rest."

Prof. S. D. Gross, of Philadelphia, sailed for Europe last week to receive the degree of doctor of laws from Cambridge University. He has been selected by the vice-chancelor from among the most distinguished medical men of this country to receive the highest honor that Cambridge College can bestow. In August, 1872, Prof. Gross had conferred upon him by Oxford the degree of doctor of civil laws.

THE U. B.

Mutual Aid Society

OF PENNSYLVANIA,

Presents the following plan for consideration: The payment of $8 on application, $5 annually for four years, and thereafter $2 annually during life, with prorata mortality assessments at the death of each member of his class, which

For Division A is as follows:

Age.	Assess.	Age.	Assess.	Age.	Assess.	Age.	Assess.
15	60	28	73	41	92	54	1 70
16	61	29	74	42	94	55	1 80
17	62	30	75	43	96	56	1 92
18	63	31	77	44	98	57	2 04
19	64	32	79	45	1 00	58	2 16
20	65	33	81	46	1 06	59	2 28
21	66	34	83	47	1 12	60	2 40
22	67	35	85	48	1 18	61	2 45
23	68	36	86	49	1 24	62	2 50
24	69	37	87	50	1 30	63	2 55
25	70	38	88	51	1 40	64	2 60
26	71	39	89	52	1 50	65	2 65
27	72	40	90	53	1 60		

This secures One Thousand Dollars at death. To secure two thousand the payments are double the above; three thousand three times, &c.

The introduction of the

English Condition Powders,

In our American market, exempt from duty, freight, &c., has proved to the thousands who are daily using them that they have been a long felt want.

For the past half century they have grown in public favor and general use in all quarters of the Globe, until their name and fame is world-wide.

There is not an ailment (known in Veterinary practice) of the Horse, Cow, Sheep or Pig, but yield to their miraculous influence.

Their rare balsamic properties are conveyed to every part of the brute creation, and immediate relief is given.

They heal Internal Ulcerations, banish all derangements, and give the stomach proper tone.

No Stock-owner need despair a cure, whilst this *never-failing remedy* can be obtained; and the reputation they bear from all quarters of the *Globe* is fully borne out by the success they have attained—corroborated by testimonials of all classes and countries.

They have cured Thousands of Cases conceded Incurable.

The many ailments of each class of animals and their various forms are too extended to discuss. But we *guarantee* in each case a tenfold remuneration for the small investment that places them within reach of the most humble who often have to rely on their stock for support.

The majority are more directly interested in Horses, and to them we say one trial will convince you that they work wonders; and no matter how doubtful the *case* is, you will invariably be benefitted, & your animals made & kept healthy by their use.

English Condition Powders

are a *certain* and *speedy remedy*, no matter what the disease is, or how complicated. They are not a temporary, but have *invariably* proved to be a *radical cure*.

They *restore health* and *produce flesh, milk and butter*. They aid digestion and assimilation, and thoroughly renovate the system, and will be found invaluable and remunerative to every stock-owner.

TO CONSUMERS.—They are only one-third the price of all others, and are as superior in quality as quantity.

The following TESTIMONIALS speak of their merits:

Baltimore, June 17, 1879.

Mr. P. Warren—Sir: We have been handling your English Condition Powders for some time past, and find that their merits as compared with similar compounds, meet a want seldom (if at all) found in goods of a similar class. With Patrons of Husbandry they are growing into favor rapidly. Signed: H. O. DEVRIES,
Ag't Maryland State Grange.

Ashland House, 24th St. & 4th Avenue, *New York City*, Mar. 10, 1879.

I have used the English Condition Powders and can recommend them to the turf profession as being pure and similar to the imported, and would use no other.—For purity and quality they are *unequalled* and invaluable to horsemen.

Signed, HARRY HARTMAN,
Late manager Budd Doble's Turf Stock.

Baltimore, Md., Aug. 6, 1879.

P. Warren, Esq.—Sir: The English Condition Powders are conceded by all my patrons to be the *purest, cheapest* and *best* on the market; and have worked wonders where used. I sell five times as many of *them* as all others combined.

Mr. P. Warren—I used one pound box of your English Condition Powders on a mare which was so poor and weak she had to be raised when she laid down. She is now in perfect health and good flesh, and I credit it all to the Powders.

PLOWS! PLOWS! PLOWS!

"Ohio Chilled" & "Gibbs' Imperial"

At KENNARD & CO.'S.

Read the result of the late Plow Contest as shown by the report of the committee to the Kent Co. Agricultual Club, together with the opinion of the plowman, and be convinced as to which is the best Plow in the market:

Synopsis of Report:—"The Ohio Chilled Plow was the lightest and the Advance was the heaviest. The Ohio Chilled was 27.03 lighter to the cubic foot than the Oliver Chilled; 33.57 lighter to the cubic foot than the Roland Chill, and 169.08 lighter to the cubic foot than the Advance."

Chestertown, Md., March 6th, 1880.

J. E. Newcomb, Esq.,—Dear Sir: You having been elected by the Judges, as plowman in the late plow contest, held on the farm of Mr. Wm. Morris, Tuesday, the 2nd inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" Plow, entered by ourselves. Respectfully requesting an early reply, we remain, very truly, Yours, &c., KENNARD & CO.

Worton Station, March 8th, 1880.

Messrs. Kennard & Co.—Gentlemen: In answer to your question of March 6, about the Plows tried at Mr. Wm. Morris', of which I was plowman, I will simply state to you what I said to the Kent Co. Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled & Gibbs' Imperial, that the Ohio Chilled and Gibbs' Imperial, as sold by you, were the best I have ever handled. I state this in justiceto your Plows; not being pleased with them at first, am glad to say I was agreeably disappointed.

Very truly, yours, J. E. NEWCOMB.

☞ We also intend carrying a full line of Agricultural IMPLEMENTS and are satisfied it will be to the purchaser's interest to examine our goods and prices.
