THE VIRGINIA LEGISLATURE.—The annexed from the Richmond correspondent of the Petersburg Index, indicates that General Canby gives a wider and more liberal interpretation to Attorney General Hoar's opinion on the test oath case than had heretofore been supposed justifiable:

"In conversation with a gentleman yesterday, Gen. Canby declared that he construed the opinion of Mr. Hoar to mean that the test-oath should neither be exacted of the Legislature now nor at *any time* hereafter; that it would be entirely optional with the Legislature to elect Senators at their first meeting, as the only preliminary to admission was the adoption of the fifteenth amendment and the organization of the State government; that the Legislature might elect temporary or permanent officers as they thought proper, and that he saw no objection to the appointment of standing committees, as they would be merely deliberative bodies, 'capable of discussing matters of interest, drafting of bills, and other business as private individuals or political caucuses.' Should the Virginia constitution not be acceptable to Congress, the ratification of the fifteenth amendment will be of no effect of course.—There are three seats contested, General Canby says, but none of the claimants have strong supporting evidence. This is a matter for the attention of the Legislature itself, and it will be referred to them at the proper time."

GEN. RAWLIN'S LAST MOMENTS—*His Anxiety About Cuba.*—Postmaster General Creswell, it seems, took notes of the last utterances of the late Secretary of War, Gen. John A. Rawlins, which now appear in print in the columns of the Washington Republican. Mr. Creswell and others at the bedside questioned Gen. Rawlins in regard to matters apparently troubling his mind, and gave him assurances as to the future care of his family. The report in the Republican adds:

Gen. Rawlins then closed his eyes, apparently feeling a great weight of anxiety removed from his mind. Here a few moments, pause interrupted the conversation. Mr. Creswell soon broke the silence, saying, "General, is there anything more you would like to say?" Gen. Rawlins again opened his eyes, which now beamed with unusual brightness, and said, "Yes, I have something more to say.—There is Cuba, poor, struggling Cuba.—I want you to stand by the Cubans.—Cuba must be free. Her tyrannical enemy must be crushed. Cuba must not only be free, but all her sister islands. This republic is responsible for this. I am passing away, but you must look after this. We have been together; now, you must see to this."

But this notes taken by Postmaster General Creswell of these last utterances of Gen. Rawlins, and of which the above is the substance, do not mention the subject of reconstruction at all. The conversation was confined to three things; his love for the President and his attachment towards his associate ministers, all of whom he honored; second, provision for his family, and third, the independence of Cuba.

LAST HOURS OF SENATOR FESSENDEN.—Since the adjournment of the Senate his friends had generally remarked upon his improved health and unwonted cheerfulness, and had augured for him a prolonged age, vigorous as his ancestors. On Tuesday, the 31st ultimo, he was in the street and in his usual health. During the night following he experienced a painful attack of the disease incident to the season, but was relieved, and was considered to be recovering. Dangerous symptoms presented themselves on Thursday, and the evening following his medical attendants became aware of inflammation of the bowels, which did not yield to the most active treatment, and that his life was in imminent danger. During Friday it was quite generally believed in this city that he was dying, and the rumor went abroad by telegraph that he had actually deceased. But on Saturday and the three following days he was free from pain, and exhibited so much strength that the hope of his recovery up to Tuesday evening steadily increased. His condition through the night was favorable until about three o'clock in the morning, at which time, in moving himself in bed, it is believed that an intestine was ruptured, and under the intense pain that followed, partially alleviated by opiates, he sank away, and expired at 6.20 o'clock on Wednesday morning. His three sons, who are the only surviving children, his physicians, Dr Thomas F. Perley and Dr. William Wood, and several other near relatives and friends were with him in his last moments of earthly life.—*Portland Press.*

THE AVONDALE MINING DISASTER—*Conclusion of the Inquest—Verdict of the Jury.*—The coroner's inquest at Plymouth, Penna., upon the victims of the Avondale mining calamity was concluded on Tuesday night in a verdict of censure against the company and the means of ventilation employed. The evidence taken was mostly from professional miners and civil engineers, who are intimate with the working and ventilation of mines, and whose testimony effectually refutes the theory that the fire could not have caught from the furnace. That it did catch from the furnace is most certain, and no person who is at all acquainted with the facts in relation to the catastrophe, or of the situation of the tunnel which has formed the basis of the incendiary theories, now believes that it was the work of an incendiary, but rather that this theory is the work of certain persons to whose obvious interest it is to suppress the truth.

DEATH OF A WELL-KNOWN STEAMBOAT MAN.—Mr. Charles K. Cannon, for some years connected with different steamboat lines, died suddenly on Sunday morning. The deceased was a native of Seaford, Delaware, but had resided in Baltimore for the last thirteen years. He was one of the original founders of the old Individual Enterprise steamboat line to the Eastern and Western Shores, and for the past two seasons was connected with the White Rock Retreat.—*Sun of Tuesday.*

REV. DR. BOND has withdrawn from the editorial conduct of the *Baltimore Episcopal Methodist*, the organ of the Methodist Church South.

GOV. HOFFMAN has transmitted to the Secretary of State, at Washington, his official certificate that New York has ratified the fifteenth amendment.

A MISSISSIPPIAN of prominence in his State, and formerly connected with the Republican party there, who passed through this city on Saturday on his way North, represents that the Conservatives of the State are united to a man—and that man is Dent! He says the plucky Judge is master of the situation, and will carry the State by the largest majority ever cast by her voters. He says that the pungent letter written by him recently, addressed to Secretary Boutwell, instead of damaging, had the very opposite effect upon his chances of being elected, for the Mississippi people are plucky and enthusiastic, and they recognize in his letters and speeches that sort of dash, off-hand good sense and frankness of character that invariably inspires admiration, confidence and respect; and that, moreover, they know and feel that the interests of the State may safely be trusted to his management. He represents that thousands of Radical Republicans are flocking to the Dent Standard daily, and the dismissal of Federal officers, such as the case of Warmouth by the Administration for supporting him, serves Dent's purpose better than anything else, as it excites the disgust of all sensible men of every shade of politics, and is looked upon as an evidence of spite and narrow-mindedness, such as long characterized Radical leadership.—*Washington Repub.*

SENATOR SUMNER AND THE ADMINISTRATION.—A special dispatch to the New York Times, from Washington, says:

"There is good reason to believe that Senator Sumner, who is to preside at the Massachusetts Republican State Convention at Worcester, on the 22nd inst., designs on that occasion to make an important and possibly very significant speech on the present condition of public affairs. He is known to be dissatisfied with the present attitude of the administration on the foreign questions, Cuba and Alabama claims, and will strongly oppose any step for the recognition of Cuba, to which he fears the administration is already committed. He is for maintaining the high ground of non-interference, thus enforcing a great moral example upon England's attention, and increasing by its effect the enormity of her wrong-doing in the hasty and complete recognition of the Southern belligerency."

THE BATTLE OF LAS TUNAS, CUBA.—Late intelligence from Cuba, via Key West, gives full accounts, from insurgent sources, of the battle of Las Tunas, which is regarded as the most important that has yet taken place. The fight lasted five hours. The Spanish forces were under General Valmaseda, and numbered over 4,000 effective troops. The insurgents were about 6,000 strong. The Cuban loss, as reported, is: killed, 72; missing, 47; wounded, 257. The Spanish lost in killed and wounded over 600. Two hundred of their dead and wounded were left on the field, 270 prisoners were captured, and nearly 400 deserted. The result of the battle compelled Valmaseda to give way and fall back on his fortifications. There is great rejoicing throughout the Cuban army. Since the engagement the mails and telegraphs at Havana have been closely watched.

GO IN NIGGER.—The richest thing we have heard of for some time occurred in Frederick county recently. A Mr. Smith, editor of the *Examiner* in that county, an extreme radical sheet, went upon his knees to Grant's office givers for an appointment but was turned empty away. A short time after a negro named Sanders, of the same county, without much effort, obtained the appointment of special agent of the Postoffice Department at a salary of $2,295, and all expenses paid. If this negro equality? No, it is negro supremacy. Tell it not in Gath, publish it not in the streets of Askalon, that a Postmaster General born and raised in Maryland has come to esteem the negro more highly than his own color.

THE CALIFORNIA ELECTION.—The good news from California is full of significance. The people of that new and great State say, No, most emphatically, to the Fifteenth Amendment. They are not ready to give up control of the elective franchise, but with true manhood and honest State pride, have determined to hold on to the sacred boon bequeathed to them by the founders of the Republic. Let the people of Maryland take example by the people of California.

SAD ACCIDENT.—On Wednesday evening of last week a most heart rending accident occurred in Miles River Neck, at the residence of a Mrs. Tilghman, whereby two ladies lost their lives, and a third is lying in a precarious condition. As far as we have been able to learn, it was caused by the explosion of a kerosene lamp. Three persons were badly burned, two died on Thursday, and the third is not expected to live.—*St. Michaels Comet.*

AN examination to discover the cause of Senator Fessenden's death showed a stricture where the small intestines join the larger. The difficulty was chronic, and had doubtless been coming on for a month. The immediate cause was the rupture of a small intestine, as he moved in bed some three hours before his death, which caused him great suffering until he ceased to breathe.

ST. MICHAEL'S (MD.) COMET.—G. E. Haddaway, Esq., the founder of this paper, and for three years past its editor, has disposed of his interest in the establishment to N. C. Killan. The Comet is an enterprising weekly journal.

THE CUBA PURCHASE.—It is stated in Washington that private letters from Minister Sickles express a sanguine hope that the Spanish government will accept the proposition of the United States relative to the purchase of Cuba. The Regent is personally in favor of it, but his cabinet are slow to accept it.

AUGUSTUS ALBERT, Esq., has been nominated for Sheriff of Baltimore city by the Democratic Conservative party. Colonel George P. Kane was his competitor.

Chestertown, Kent Co., Md., Aug. 19, 1869.—Messrs. O. P. Merryman & Co.—Gentlemen: I used one ton of your Phosphate last Fall, and my wheat where I applied it has turned out well. I think it a good Fertilizer.

Yours respectfully, SAMUEL ROLPH.

Chestertown, Md., July 26, 1869.

Messrs. O. P. Merryman & Co.,—Sirs: In answer to your inquiry, as regards the result of an application of your Raw Bone Phosphate upon my wheat crop, I will state that it gave entire satisfaction. It was used by the side of two different kinds of approved Fertilizers, which cost at least thirty-three per cent. more than yours; but throughout the entire season it was impossible to perceive the slightest difference in the wheat. Respectfully,

Furnishing the essential elements of WHEAT, CORN, TOBACCO, COTTON, and of all Cereals which are removed from the soil in every crop.

To Agriculturists.

An extensive experience of twenty years, as importers and dealers in GUANO and Fertilizers of various descriptions, and by direct intercourse with farmers and planters, as Grain Merchants, has enabled us to learn their experience and results from all sorts of natural and artificial Manures and to form a practical knowledge of their wants in a fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with present values and a proper regard to economy in outlay.

We have been induced to establish a manufactory in this city upon an extensive scale, with the appliances of steam and with every recent improvement in machinery for grinding, mixing and thoroughly combining the various chemical constituents, now well ascertained as forming the elements of a first-class fertilizer, and absolutely required to build up the truly vegetable part of the plant, and restore to the soil the elements of direct "PLANT FOOD," which previous crops may have drawn from it, and which can be relied upon for uniformity, containing the valuable properties claimed for it, and at a LESS PRICE *than any other similar manure offered in this market.*

Extracts from Letters from parties who have used this Fertilizer.

☞ FROM REV. S. A. GAYLEY. ☜

COLORA, Cecil co., Md., June 20, 1869.

Messrs. Wm. Crichton & Son—Dear Sirs: Your "Ammoniated Soluble Phosphate" I regard as the best manure I have ever used. I dressed a lot of corn with it in the hill, putting one bag on *two and one-eighth* acres by actual measurement, (you will see the allowance to each hill was very small.) *It has acted like a charm.* That lot of corn is the best in the neighborhood of any planted at the same time. The corn has a very rich green color, and is growing rapidly.

From what it has done for me I give it the preference to any I have ever tried.

Yours, respectfully, S. A. GAYLEY.

OAKVILLE, St. Mary's county, Md., July 12, 1869.

I applied your "Ammoniated Super-Phosphate" on wheat and oats—top-dressed the wheat. The crops, where it was used, show a decided improvement, and present at this day a remarkably fine appearance.

I am perfectly satisfied with its effects, and its comparatively low price will induce me to use it again next season.

Yours truly, W. O. REEDER.

Annapolis Junction, Md, July 31, '69.

I used the Ammoniated Super-Phosphates, manufactured by you, with the greatest success on my wheat and vegetable garden.

I planted corn with it last May, and upon present appearances it will not be surpassed by any in the county. I prefer your combination of Plant Food to Peruvian Guano, even at the same cost. A. P. GORMAN.

PAW PAW, Morgan county, W. Va., June 27, 1869.

It gives me great pleasure to let you know that my Wheat upon which I applied your fertilizer last fall, is very fine. I used it entirely on corn stubble, and it is better than any I ever had or ever saw. It will, I am certain, yield over 20 bushels per acre.

I applied it on oats and corn in the spring, using about 200 pounds per acre on each, (stiff clay land.) The oats will double, I think, while the corn I never saw anything to equal it. I planted about 10th May, using a handful to two hills of corn, and after it started it seemed incredible to see it grow. It is now waist high, while on a *highly manured* piece of land by its side it is not over six inches.

Yours respectfully, N. N. CLABAUGH.

Centre Cross, Essex co., Va., July 27, '69.

In relation to your Guano, I take pleasure in stating that I regard it as a valuable fertilizer. I used about two hundred pounds per acre on oats, which, notwithstanding the excessive drought, produced 25 to 30 bushels per acre. The corn upon which this fertilizer was applied at the same rate looks stout, vigorous and promising, and the "oldest inhabitant" does not claim to have ever seen a more flourishing sweet potato and watermelon patch than I have this season, from the use of a handful of this manure to the hill.

Truly yours, R. P. W. FAUNTLEROY.

Put up in strong bags of 167 pounds in each.

PRICE $50 PER TON.
