TO WHEAT GROWERS.

"EXCELSIOR."

Containing Ammonia - - - - 6 per cent.
Super-Phosphate eqivalent to Bone Phosphate of Lime - - - - 57 per cent.
Potash and Soda - - - - - 5 " "

We again call the attention of the farmers of Maryland and Virginia to our EXCELSIOR, composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of Soluble Phosphat of Lime (bones dissolved in sulphuric acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of many close calculating Farmers, after ELEVEN years experience in testing it side by side with other popular fertilizers that an application of 100 pounds of Excelsior is equal to 200 to 200 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

The very best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities.

Formers should see that the ANALYSIS and name of J. J. TURNER & CO., are branded on every bag in *RED LETTERS*. All others are counterfeits.

PRICE $70 PER TON.

RUTH'S CHALLENGE Soluble Phosphate!

The Most ACTIVE and DURABLE Fertilizer ever offered to the Farmer.

This article is made expressly to supply the place of A No. 1 Peruvian Guano, and will be found as active as Guano and much more durable in its effects. It is made upon the principle that the measure of our prosperity is the prosperity of the farmer, and every farmer who uses it may confidently rely upon large crops, unless injured by providential acts.

It is indeed the "CHALLENGE" Fertilizer of the times, and in order that it may always remain such we have engaged in its preparation the very best Chemical skill in this country. Give it a trial.

WM. CRICHTON & SON'S AMMONIATED SOLUBLE PHOSPHATE OF LIME

Containing SIXTY PER CENT. of BONE PHOSPHATES—of which 12 per cent. is immediately SOLUBLE in WATER—3 per cent. of Ammonia, 3 per cent. of Potash, Sulphuric Acid, Magnesia, &c., &c.

Furnishing the essential elements of WHEAT, CORN, TOBACCO, COTTON, and of all Cereals which are removed from the soil in every crop.

To Agriculturists.

An extensive experience of twenty years, as importers and dealers in GUANO and Fertilizers of various descriptions, and by direct intercourse with farmers and planters, as Grain Merchants, has enabled us to learn their experience and results from all sorts of natural and artificial Manures and to form a practical knowledge of their wants in a fertilizer adapted generally to the various soils and crops of the Southern States, and at a price commensurate with present values and a proper regard to economy in outlay.

We have been induced to establish a manufactory in this city upon an extensive scale, with the appliances of steam and with every recent improvement in machinery for grinding, mixing and thoroughly combining the various chemical constituents, now well ascertained as forming the elements of a first-class fertilizer, and absolutely required to build up the truly vegetable part of the plant, and restore to the soil the elements of direct "PLANT FOOD," which previous crops may have drawn from it, and which can be relied upon for uniformity, containing the valuable properties claimed for it, and at a LESS PRICE *than any other similar manure offered in this market.*

Extracts from Letters from parties who have used this Fertilizer.

FROM REV. S. A. GAYLEY.

COLORA, Cecil co., Md., June 20, 1869.

Messrs. Wm. Crichton & Son—Dear Sirs: Your "Ammoniated Soluble Phosphate" I regard as the best manure I have ever used. I dressed a lot of corn with it in the hill, putting one bag on *two and one-eighth* acres by actual measurement, (you will see the allowance to each hill was very small.) *It has acted like a charm.* That lot of corn is the best in the neighborhood of any planted at the same time. The corn has a very rich green color, and is growing rapidly.

From what it has done for me I give it the preference to any I have ever tried.

Yours, respectfully, S. A. GAYLEY.

OAKVILLE, St. Mary's county, Md., July 12, 1869.

I applied your "Ammoniated Super-Phosphate" on wheat and oats—top-dressed the wheat. The crops, where it was used, show a decided improvement, and present at this day a remarkably fine appearance.

I am perfectly satisfied with its effects, and its comparatively low price will induce me to use it again next season.

Yours truly, W. O. REEDER.

Annapolis Junction, Md, July 31, '69.

I used the Ammoniated Super-Phosphates, manufactured by you, with the greatest success on my wheat and vegetable garden.

I planted corn with it last May, and upon present appearances it will not be surpassed by any in the county. I prefer your combination of Plant Food to Peruvian Guano, even at the same cost. A. P. GORMAN.

PAW PAW, Morgan county, W. Va., June 27, 1869.

It gives me great pleasure to let you know that my Wheat upon which I applied your fertilizer last fall, is very fine. I used it entirely on corn stubble, and it is better than any I ever had or ever saw. It will, I am certain, yield over 20 bushels per acre

I applied it on oats and corn in the spring, using about 200 pounds per acre on each, (stiff clay land.) The oats will double, I think, while the corn I never saw anything to equal it. I planted about 10th May, using a handful to two hills of corn, and after it started it seemed incredible to see it grow. It is now waist high, while on a *highly manured* piece of land by its side it is not over six inches.

Yours respectfully, N. N. CLABAUGH

Centre Cross, Essex co., Va., July 27,'69.

In relation to your Guano, I take pleasure in stating that I regard it as a valuable fertilizer. I used about two hundred pounds per acre on oats, which, notwithstanding the excessive drought, produced 25 to 30 bushels per acre. The corn upon which this fertilizer was applied at the same rate looks stout, vigorous and promising, and the "oldest inhabitant" does not claim to have ever seen a more flourishing sweet potato and watermelon patch than I have this season, from the use of a handful of this manure to the hill.

Truly yours, R. P. W. FAUNTLEROY.

Put up in strong bags of 167 pounds in each.

IMPORTANT TO FARMERS.

Super Phosphates.

THE MARYLAND

Fertilizing and Manufacturing Co.,

Incorporated January, 1867.

DIRECTORS:

WM. G. HARRISON, WILLIAM MUMFORD,
LAWRENCE SANGSTON, RICHARD J. BAKER,
ROBERT TURNER, WILLIAM TREGO.

WILLIAM TREGO, *Manufact'g Chemist.*
LAWRENCE SANGSTON, *Pres't.*

This Company, incorporated by the Legislature of Maryland for the Manufacture and Sale of Fertilizers, are now prepared to furnish the agricultural community with their products

Deriving their supply of material from the richest of the recently discovered deposits of Bone Phosphates in South Carolina, they have established, and will inflexibly maintain, a higher standard of Fertilizing value than any similar productions hitherto in the market.

While the material they use contains 60 per cent. of Bone Phosphate of Lime, it is guaranteed to contain a larger percentage of *Soluble Phosphate* than any heretofore used.

Fine Ground Bone Phosphates,

Price $30 per Ton in Bags.

Containing by the average of the Analysis of Professors Piggot, Leibig and Poplein, 60.20 per cent. of Bone Phosphate of Lime.

The unusual per centage of *Soluble* Phosphate will make this form very desirable to Farmers who prefer to use it in its natural state or to manipulate for themselves.

ALKALINE SUPER PHOSPHATE

Price $50 per Ton in Bags.

This Preparation has special reference to the growth and development of the Seed or Grain, and is intended for the soils that produce large crops of Straw, and small crops of Grain.

Ammoniated Super Phosphate,

Price $55 per Ton in Bags.

Adapted to Lands that require a full development of the crop, both Straw and Grain.

The superiority of the South Carolina Phosphate is fully demonstrated by the fact that most of the leading Manufacturers of Artificial Fertilizers are now using, or making arrangements to use it, as the Phosphatic base of their Preparations, and large quantities are being shipped to Europe.

The various preparations of the Maryland Fertilizing and Manufacturing Company are made under the personal supervision of a Manufacturing Chemist of thirty Years' experience, and are confidently recommended to the Agricultural Community.

MORO PHILIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME,

(Standard Guaranteed.)

For Sale at Manufacturers' Depots,
No. 27 N. Front Street, Philadelphia,
—AND—
No 95 South Street, Baltimore,
And by Dealers in general throughout the Country.

THE SOMBRERO GUANO, of which MORO PHILIPS' PHOSPHATE is, and always has been manufactured, (and of which he has sole control for the United States,) contains *fifty per cent more Bone Phosphate than Raw Bone*, therefore it is more durable. A large per cent. is *Soluble*, and will immediately yield its nourishment.

The *Ammonia* it contains is pure and ready to yield its value—*not* animal matter, capable of yielding its ammonia after decomposition in the soil.

Nothing is spared in its manufacture to render it the most valuable Super-Phosphate and Crop Producer in the market.

Eight years' experience has proved to the farmer that it is *durable* and can always be relied on as *uniform in quality;* and the numerous unsolicited testimonials continually received of its use in competition with other Fertilizers, attests that it has not been excelled.

PRICE: $56 per ton of 2000 pounds. Discount to Dealers MORO PHILIPS,

SHRINER'S BALSAMIC COUGH SYRUP

Will cure the ASTHMA, BRONCHITIS, BLOOD SPITTING, DIFFICULTY OF BREATHING, PAIN and WEAKNESS IN THE CHEST, TROUBLESOME COUGHING AT NIGHT, &c. It will effectually remove the Cough that frequently follows Measles, and any affection of the respiratory organs, no matter of how long standing, or whatever the age of the person. It acts as a specific, is purely vegetable, and is pleasant to the taste. Its effect is soothing, allaying the violence of the cough, facilitating expectoration, quieting the nerves and exhilirating the system.

Mothers, Save Your Children!

No child need die of CROUP, if this Syrup is used in time: *this is a fact demonstrated by experience.* No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, to steal away your little ones, when regular medical aid cannot be obtained.

Messrs. Lieutaud & Co., Dear Sirs:—The "Antidote" which you sent me for examination, and aplication to any obstinate case of Intermittent Fever which might come under my notice, has been received. I have analyzed the contents, and after discovering the ingredients, and recognizing them as applicable to the disease in question, I determined to give it a trial. I did so, and found the therapeutic effects precisely in accordance with the character claimed for it by you; in no instance has it failed, frequently half a bottle being sufficient for the complete cure of cases of long standing; even those in which chronic enlargement of the Liver and Spleen had been superinduced. I regard it as a decidedly scientific discovery. I would recommend it to all sufferers of Chills and Fevers. WM. D. M. LARKIN, M. D.

A DIALOGUE.

ONE who keeps his eyes and ears open, recently heard the following dialogue between two colored citizens:

Sambo—"Why am B. Strauss like a prize-fighter?"

Cuffee—"I dun know."

Sambo—"Well, I'll tell ye, bekase his is the same to gub you satisfacshun."

There is no doubt of this, for if you just call at my establishment corner of High and Cross streets, you will then convince yourself that I can satisfy you in
