It took a real man to take such action and the Baltimore city press is asked as to what

they say about that. Did not the Speaker know all about these actions? This is why only alert, experienced and above all, fearless men are needed at the desk. This work cannot be learned in an hour. And then too, a man may be ever so honest, but lacking experience and fearlessness, his honesty would go for naught and he would be swamped and at the mercy of those who knew the ropes.

Amazon Wide in Places The Amazon is navigable for 3,000 miles, the distance between New York and London. In many places it is so wide that it looks more like a sea than a river. With its numerous tributaries it comprises the greatest river system in the world.
