CHESTERTOWN:
SATURDAY MORNING.....Sept. 9, 1882.

Chesterville and Vicinity.

Messrs. Editors:—Mr. J. W. Jarman, residing near the village, is building a front to his house; it is 22x40, of modern style, and is certainly a great improvement—the building now fronting on the road.

Gatsmer's new hotel at Crumpton is about completed. He has combined city taste with city conveniences in the erection of the building, and while it is one of the nicest looking, it is also said to be one of the best arranged hotels on the Shore. Among other conveniences it is to be lighted by gas.

Messrs. Boyd & Medders, who are canvassing for the Mutual Aid Society of Baltimore, are doing a good business in that line. Their plan of insurance seems to take well.

Our public school was re-opened on Monday, under charge of Miss Etta Jones, its former teacher. The attendance is fair.

A few days ago, a little four-year-old boy heard his father say he intended to shoot some little puppies in the morning. Up earlier than usual next morning, the little fellow went blustering around looking for a book. "What do you want with a book, son?" asked his mother. "I want to go *preach* to them puppies!" he excitedly exclaimed. The book in his possession, he went out and delivered his sermon to the innocents, and then coming in said complacently, "now, mamma, papa can shoot 'em."

Mr. N. E. Pennington, who has been health seeking at Atlantic City, has returned. He says that he and Mr. W. B. Ginnedo, (well known here) did some excellent fishing and plenty of it while there. So numerous were the finny tribe that it took a little or no time to catch a boat full, and although they were so delicious, it was with difficulty that they could be *given* away. He regretted exceedingly that he could not ship a few barrels each day to Chesterville, where we know so little of such luxuries. He says it rains copiously and spasmodically at this "City by the Sea;" the water descends in sheets, and the streets are flooded to the depth of ten inches in as many minutes. The sun will suddenly appear and you will start out for a promenade; before you walk a square the rain is coming down in torrents again. He says, also, it is the *dampest* place (don't mistake the adjective) he ever saw. The humid atmosphere penetrates every nook and corner and your clothes become so saturated, while hanging in your room, that you can wring water out of them. Mr. P. returned improved in health and with his descriptive powers—always good—not the least impaired.

Mr. John Stevens has sold his 'Shad-in-Reach' farm to Geo. Taylor—at present a tenant of Mr. John W. Hines,—for $1,300. This is considered a good sale, as Mr. S. bought it several years since for $500. WALTER.

SIMON'S MYSTERY SOLVED.

Messrs. Editors:—Farmers have fences, that they may be able to keep their stock on their own premises—the place they should be.

The angel will never be found in Simon's pen, for that will never put a fence around Salem church. A FARMER.

BI-CENTENNIAL CELEBRATION AT PHILADELPHIA.

We are pleased to give to our readers in this issue a general outline of the more prominent features of the Bi-Centennial celebration in Philadelphia. It is promised by those in charge that the observance of the two hundredth anniversary of the founding of Philadelphia and the Commonwealth of Pennsylvania will be the grandest celebration ever held in Philadelphia, not excepting the Centennial.

Grand Civic, Musical and Military Pageant for Four Days.

FIRST DAY.

Parade of civic bodies, including thirty-five companies from the State, the old firemen of Philadelphia, the Paid Fire Department, who will entertain the visitors; the United States Departments, the Post Office, showing the rise and progress of the postal service. The U. S. mint will display the process of coining, striking off a commemorative medal; the City and State Departments, the secret and benevolent societies, temperance organizations, the butchers in magnificent costume. The Marine Band of Washington will be at the head of the U. S. Department. Grand tableaux of the landing of Penn at Dock street wharf, naval display on the Delaware, ending with magnificent display of fireworks in the Park, with pieces illustrating the early history of Philadelphia. At least 25,000 men will be in the procession.

SECOND DAY.

Parade of the different trades, manufactories and foundries of Philadelphia, with wagons, all showing the various modes of manufacture; woodware, hardware, furniture, printing, dyeing, weaving, sewing machines, engine building, tinware, household goods, upholstering. Grand parade of the Pennsylvania Railroad, showing the rise and progress of Railroading and car-building; 300,000 mechanics and manufacturers in line. In the evening grand historical and moving tableaux, showing historical incidents in the history of Pennsylvania, followed by an epic poem, illustrated by tableaux in floats or cars, each car drawn by four horses, and shown by lights arranged and carried by men.

THIRD DAY.

Musical entertainment. Allison's Hall (old Machinery Hall) engaged, lighted by electric lights and fitted up to accommodate 15,000 persons; 2,000 singers on the platform; all the principal Welsh and German singing societies and choirs; $1,250 prizes; reception to the societies in the evening. Grand regatta on the Schuylkill by the navy. Bicycle race and Caledonian games in the Park. Parade of Knights Templars; all the leading commanderies from the principal cities; five to ten thousand knights with their magnificent costumes and Oriental drill, on parade; reception at the Academy of Music, Horticultural and Industrial Hall in the evening.

FOURTH DAY.

The greatest military display ever seen in Pennsylvania; 25,000 State and visiting troops and Grand Army posts; all the National Guards of Pennsylvania and New Jersey; visiting corps from Boston, Providence, New York, Baltimore and other points; 10,000 men of the Grand Army. Arrangements will be made to entertain all visiting delegations of soldiers. In the evening the city will be entirely illuminated, and receptions at the Academy of Music, Horticultural Hall and other places.

During the four days the city will be magnificently decorated: the United States will lend the assistance of all departments.

THE INFAMOUS RIVER AND HARBOR BILL.—The Hagerstown *Torch Light*, a thorough-paced Republican journal, has this to say about the river and harbor grab:

The condemnation of the measure is practically unanimous, by both Republicans and Democrats. Why so large a portion of the Republican members of the present Congress should have voted for such a swindle and steal of the people's money, is hard to conceive, and impossible to forgive. The Republican party is pledged, by its traditions, by its *former policy*, and by its promises and pledges to the people, to honesty and economy in the administration of public affairs. The stupendous river and harbor bill robbery is a violation of everything in the creed and *history of Republicanism*, and hence it is so generally denounced and condemned.

To which the *Westminster Advocate* very aptly replies:

"A violation of everything in the *history* of Republicanism," says our cotemporary! Has it forgotten the Credit Mobilier; the Sanborn Contract; the Safe Burglary; the Freedmen's Bank; the Indian Agencies; Black Friday; the Straw Bids; the putting of the Navy in the junk shops; the Star Route Contracts; Boss Shepherd; Dick Harrington; Babcock, Belknap, Orville Grant, *et id omne genus?* No, no, Messieurs of the *Torch Light* not in *violation* of Republicanism, but quite in consonance with it. No party since the foundation of this government has made such a record as the history of the Republican party presents, and strangest of all, its virtuous organs boast of it!

MR. JAY HUBBELL, as a Congressional committee, has taken two per cent. of the Federal salaries—in all possible cases—and will probably want as much more. If it takes two per cent. to get the right men nominated, it will take as much more to get them elected. Then the State committees step in and ask all Virginia clerks to pay five per cent., and all Pennsylvania clerks to pay two per cent. The county and city committees have not yet made their levy; but we hope they will not be too modest. The evil custom needed a thorough working to disclose its true character, and we hope the collectors will be thorough this year. The logic of the business is that the United States treasury belongs to the machines, and that the clerks are mere crank-turners to make the treasury "shell-out."—*The Methodist.*

IT is stated that Baltimore has over 150 miles of city passenger car tracks.

BALTIMORE has 720 physicians, and some of them equal to any in the world.

MAYOR WHYTE will surrender the keys of the city on velvet cushions to Lord Baltimore Sept. 13.

GEN. SHERMAN, it so happens, will be out of the military service when the national Republican convention meets in 1884.

THE FIRST TRAIN AT MONTEREY.—The first passenger train on the Mexican National Railroad entered Monterey, Mexico, on the 1st instant. The road now extends from Corpus Christi, Texas, to Monterey, Mexico—330 miles. The opening of this line makes Monterey the great gateway to Mexico from the United States. Monterey is wild with delight, and the visitors received the most enthusiastic acclamations, thousands blocking the station to witness the arrival of the iron horse. The track is being vigorously pushed toward Saltillo, seventy miles south; also, from the City of Mexico to Acambara, which place they hope to reach in December. The intervening gap between Saltillo and Acambaro—490 miles—is provided for by London subscriptions. Efforts are being made to complete it by next summer. This will place a through rail connection with the City of Mexico from New York city.

REDUCED FARES TO THE GREAT BALTIMORE ORIOLE.—Whilst all the Railroad and Steamboat Companies have reduced their rates of passage to Baltimore for the three days of the grand Oriole Celebration, to take place in that city on September 12, 13 and 14, the great Baltimore Clothiers, C. N. Oehm & Son, Hanover & Pratt Sts., have also determined not to be outdone; so they have put the knife in their new Fall Stock for the three days during the celebration, and if you will call upon them they will show you the largest, best made and most serviceable stock of Clothing for Men, Boys and Children in that or any other market, at prices lower than ever.

THE GREAT MILK COW.—The Valma Hoffman, the greatest milch cow in the world, now the property of Samuel T. Earle, Esq., of this county, has produced in thirty days, last past, the enormous amount of 87 lbs. and ¾ of an ounce of nice, rich butter, being nearly 3 lbs. a day. This most extraordinary record is made without any especial effort. The cow is pasturing on Mr. Earle's lawn and is fed regularly on meal and other food in moderate quantities. Cows with not so good record have sold for as much as $4,500. This cow is held at $5,000.—*Cent. Obs.*

THE CAROLINE SHOOTING CASE.—The Caroline *Democrat* of Tuesday announces that William Ringgold, who was shot by Thos. G. Atkinson some ten days since, is pronounced out of danger by his attending physicians. Justice Cook released young Atkinson on bail, on Saturday evening last, fixing the bail bond at $3,500 and accepting Dr. E. E. Atkinson, Mrs. E. E. Atkinson and Benj. Taylor as sureties. This unfortunate difficulty, culminating as it did, is the source of much regret to the friends of both the parties. Messrs. R. J. Jump, Geo. M. Russum and Downes & Mutchler have been retained as counsel by Atkinson.

GUITEAU'S skeleton is now at the National Medical Museum in Washington, but will not be exhibited to the public. The final disposition of the bones of the assassin has not yet been determined upon, and cannot be until Judge Hagner decides as to the validity of Guiteau's will, in which he bequeathed his body to Dr. Hicks. The experts who were engaged in the microscopical examination of Guiteau's brain have completed their work. It is understood that they already disagree in their conclusions respecting his sanity, and that there will probably be two reports rendered.

A TRAMP on Saturday concealed himself at Hagerstown in a car partilaly filled with spokes and rims from the factory there. At Chambersburg, Pa., other freights were put in and the door locked. This did not suit the tramp who found the heat unbearable, and he made a racket until some of the train hands unlocked the door and he was allowed to breathe the fresh air again.

THE fruit evaporators of M. H. Davis & Co., of Milford, were destroyed by fire on Thursday night of last week. The loss was about $4,500, on which there was an insurance of $3,800. The fire is supposed to have originated from a spark.

MAYOR WHYTE has been invited to attend the celebration by the Old Defenders of the sixty-eighth anniversary of the Battle of North Point on Tuesday next in Druid Hill Park and to respond to a toast to Baltimore.

THE strike at the coal mines in Western Maryland has ended, by the men having knocked under and gone to work at the old rates. They lost five months and gained nothing.

PAUL BOYNTON, the acquatic voyager, offers for $5,000 to "shoot" Niagara Falls. Should he make the attempt he will have a new rubber suit made especially for the trial.

MY WIFE SAID I WAS A FOOL when I brought home a bottle of Parker's Ginger Tonic. But when it broke up my cough, drove away her neuralgia and cured baby's dysentery, she thought I had made an excellent investment.

BALTIMORE MARKET.—The Baltimore papers of Friday quote as follows:

WHEAT—Longberry $1 11@1 14; Fultz $1 05@1 08 for fair to good. CORN—White, prime 83@84; yellow, 86@88. OATS, Maryland, 45.

TO PEACH GROWERS.—If persons who contemplate planting an orchard of peach trees in the fall of '83 or spring of '84, would give their orders at this time to nurserymen from whom they wish to get their trees they would have no trouble in getting exactly what they want. This is budding season and trees budded now will be ready for planting at that time. If any person having a special variety they wish to plant largely will drop me word by mail I will come for the buds, (would like to see the peaches on the tree;) those wishing a good selection of yellow fruit for this fall or next spring's planting can yet be supplied at my nursery. I understand some parties are representing my stock as all sold; such is a mistake.

N. B.—Orders to be budded should be sent in at once. Respectfully, R. G. NICHOLSON.

WALTON, WHANN & CO.'S
Diamond Soluble Bone
THE EVIDENCE.

MR. RICHARD L. PRICE, MIDDLETOWN, DEL., says:—
Last fall I used Walton, Whann & Co.'s Diamond Soluble Bone on my Wheat crop just harvested, side by side with an ammoniated fertilizer which cost $6 more per ton than the Diamond Bone. The Diamond Bone beat the high price fertilizer badly; raised four bushels more wheat per acre.
The extra yield of wheat grown by the Diamond Soluble Bone, over that grown by the other fertilizer, more than paid for its application.

MR. GEO. DERRICKSON, MIDDLETOWN, DEL., says:—
I used on my wheat last fall Walton, Whann & Co.'s Diamond Soluble Bone, which cost me $25 per ton. I also used 5 tons of an ammoniated fertilizer made by another manufacture, which cost me $30 per ton. The Diamond Soluble Bone raised more wheat than the ammoniated fertilizer and cost 25 per cent. less.

MR. B. J. GREEN, WARWICK, MD., says:—
"I used on my wheat last fall five tons of Walton, Whann & Co.'s Diamond Soluble Bone, which cost me $25 per ton. I also used five tons of a popular brand made by another manufacturer, which cost $30 per ton. Where I used the Diamond Soluble Bone my yield was thirty (30) bushels of wheat to the acre. Where I used the other fertilizer I had but twenty (20) bushels per acre. Walton, Whann & Co.'s Diamond Soluble Bone cost twenty per cent. less than the other and raised fifty per cent. more wheat.

☞ We give below the opinions of a few of our customers:
SUDLERVILLE, MD., August 6, 1882.
Messrs. Thompson & McFeeley—With pleasure I here answer your request regarding the result of your Phosphate, which I used last fall on wheat, on stock grown and which gave me 30½ bushels to the acre; expect to use it again this fall. That we bought of you this spring for corn is acting like a charm; expect to get 65 or 70 bushels to the acre if it keeps seasonable.
Yours, Respectfully, R. J. GOODHAND.
CENTREVILLE, MD., July 31, 1882.
Messrs. Thompson & McFeeley—Dear Sirs: I used your Reliable Phosphate by the side of a goods that cost me more money, and by actual experiment I found that your goods gave me more wheat per acre than the other, notwithstanding I had less of yours on the acre than of the other. I am very much pleased with the results and shall use it again. Respectfully Yours,
WM. H. PRICE.
CENTREVILLE, MD., July 25, 1882.
Messrs. Thompson & McFeeley—Dear Sirs: I used your Corsica Compound by the side of two other Phosphates that cost me more money, and it gave me a better yield of Wheat than either of them. The clover where I used your goods is also much better than on the rest of my field. I am perfectly satisfied with its results. Respectfully, Yours, WM. DEVER.
CENTREVILLE, August 1, 1882.
Messrs Thompson & McFeeley—Gentlemen: I am perfectly satisfied with your goods. I believe it to be as good as anything that I used. RICHARD T. EARLE.
CENTREVILLE, MD., August 1, 1882.
Messrs. Thompson & McFeeley—Dear Sirs: I used your Corsica Compound, costing me $30 per ton, by the side of a standard phosphate costing me $37, and got a much better yield from your goods than from the $37 goods. The grass is equally as good, if not better. I am especially pleased with its results and shall use largely of it this fall.
P. S.—It drills splendidly. Respectfully, Yours, WM. E. TEMPLE.
CENTREVILLE, MD., July 22, 1882.
Messrs. Thompson & McFeeley—Dear Sirs: I am very much pleased with both grades of your Phosphates; am more than satisfied with their results, and shall use them again this fall.
Very Respectfully, Yours, J. O. RASIN.
CENTREVILLE, MD., July 18, 1882.
Messrs. Thompson & McFeeley—Dear Sirs: In reply to your inquiry I can say that both your "Reliable" and "Corsica Compound" gave me entire satisfaction, giving me more wheat than any other goods I used—some of them costing more money. Your "Reliable" I am especially pleased with, and expect to use a considerable quantity of your goods this fall. J. B. THOMAS.
TEMPLEVILLE, July 23, 1882.
Messrs, Thompson & McFeeley—Sirs: I used your Phosphate (Corsica Compound) last fall on wheat and Rye; it acted well on both and I have an excellent stand of grass on land where it was used. *Shall use no other this fall.* Yours, &c., JOHN T. TEMPLE.

It is thought proper to publish in connection with this notice the subjoined sections of the registration law, which bear particularly upon the rights of the citizen and the powers and duties of the Register:

SECTION 3. *And be it enacted,* That each of the said officers of registration shall have, in addition to the other powers conferred upon him by this Act, or which may be hereafter conferred upon him by law, during the respective times of his appointed sittings, under the provisions of this Act, the powers of a Justice of the Peace to preserve order and enforce obedience to his lawful commands, at or around his place of registration—to keep the access to such place open and unobstructed, to prevent and suppress riots, tumult, violence and disorder and all other improper practices, at, around or near to his place of registration, tending to intimidation, or to the obstruction of the work of registration, or of the revision of the registration, and to protect and keep safe the registries of voters or poll-books, hereinafter referred to, while in his custody and possession; he may compel the presence of witnesses before him, while sitting as an officer of registration, for all purposes connected with the performance of the duties of his office, by summons and attachments; he may, while sitting as such officer of registration, commit for trial, any person committing, at or around his place of registration, any offence forbidden by this Act; he shall have the power to issue any of said summons, attachments or commitments, when sitting in any county of this State, to the Sheriff of said county, or to any Constable thereof; all such processes shall be served by said respective officers in the same manner as if they were issued by a Judge of a Court of Record, having jurisdiction of the subject matter, or by a Justice of the Peace, exercising police powers within such respective jurisdictions; the Sheriff or Constable, in any county of this State, who shall serve any of said processes, shall receive the same fees, and in like manner, as it is, or may be by law provided, that he shall receive fees in other State cases; but no officer of registration shall charge or receive any compensation for any service performed under this Act, except such as is provided by this Act.

SECTION 34. *And be it enacted,* That if any officer of registration shall fraudulently register, or fraudulently permit to be registered in any registry of voters, or in any list of qualified and registered voters in his charge as officer of registration, any person who is not entitled to be registered therein as a qualified voter, or if any other person not authorized by the proper Judges or Judge, shall inscribe the name of any person as a qualified and registered voter in any registry of voters, or in any list of qualified and registered voters, or if any officer of registration shall fraudulently refuse or omit to register, or shall fraudulently misspell in any registry of voters, or in any list of qualified and registered voters in his charge as an officer of registration, the name of any person entitled under the provisions of this Act to have his name inscribed in such registry of voters, or if any officer of registration shall fraudulently strike from any registry of voters, or from any list of qualified and registered voters in his charge as an officer of registration, the name of any qualified and registered voter entitled to remain inscribed upon such registry of voters or list of qualified and registered voters, or if any person not authorized by the proper order of the Judges or Judge, shall fraudulently strike from any registry of voters, or list of qualified and registered voters, the name of any person therein inscribed as a qualified and registered voter, or if any officer of registration shall enter the name of any person as a qualified voter in any registry of voters in his charge, as an officer of registration, at any time, except on a day appointed by this Act for one of his public sittings as an officer of registration, and except between the hours appointed for such public sitting, or if any officer of registration shall do any act which is by this Act forbidden to be by him done, or shall omit to do any act which is by this Act required to be by him done, such officer of registration, whether he be a principal or assistant officer, shall be guilty of a misdemeanor, and upon conviction thereof by a competent Court, shall be punished by fine, not exceeding five hundred dollars, or by imprisonment not exceeding three years, or both fine and imprisonment as aforesaid.

SECTION 35. *And be it enacted,* That if any person shall fraudulently register, or attempt to register, in any election district, or election precinct, in this State, in the name of any other person, living or dead, or under any fictitious name, or shall fraudulently cause himself to be registered, or attempt to cause himself to be fraudulently registered in any election district, or election precinct in this State, knowing that he has not the right to be registered in such election district, or election precinct, or shall, by force, threats, menace, intimidation, or other unlawful means, prevent or hinder, any person having a lawful right to register, from duly exercising such right, or who shall compel, or endeavor to compel, by any such means, any officer of registration to admit to registration any person not legally entitled thereto, or who shall unlawfully interfere with any officer of registration in the discharge of his duties under this Act, or who shall make and assault and battery, or incite or create any riot or any breach of the peace, at or near to any place of registration in this State during the sittings of any officer of registration provided for by this Act, he shall be guilty of a misdemeanor, and upon conviction thereof by a competent Court, shall be punished by a fine not exceeding five hundred dollars, or by imprisonment not exceeding three years, or by both fine and imprisonment as aforesaid.

SECTION 16. *And be it enacted,* That when any officer of registration shall, at any of his appointed sittings, in the year 1882, enter into his proper registry of voters of any election precinct or election district, of which he is an officer of registration, the name of any applicant for registration as a qualified voter, he shall immediately thereafter enter in the presence of the applicant, if he is in attendance, in its proper alphabetical place, in both of the poll-books, or lists of qualified and registered voters of such election precinct, or election district, the name and residence of said applicant, as the same are recorded in said registry of voters.

SECTION 21. *And be it enacted,* That each officer of registration appointed under this Act, shall, within five days after each of the several sittings, in the year 1882, make and publish in hand-bill form a complete list of all persons registered at said several sittings, and shall, in the year 1883, and in each year thereafter, within three days after the expiration of his September sitting, and within the same time after the expiration of his October sitting, make complete and publish two alphabetical lists, one of which alphabetical lists shall comprise the names of those persons whom said officers have stricken from any registry of voters, or list of qualified and registered voters, delivered to said respective officers by said respective Clerks of Courts; and the other, one of which alphabetical lists shall comprise the names and residences of the persons whom said respective officers of registration have newly registered as qualified voters in their respective election districts, or election precincts, at their said preceding sitting, and also the names of the persons whom the proper Judges or Judge, acting under the authority conferred by this Act, have or has ordered to be registered in said election district, or election precinct; the said respective officers of registration shall cause said respective lists to be published by hand-bills, posted in such public places as they may respectively select, in their respective election districts, or election precincts

SECTION 24. *And be it enacted,* That no officer of registration in this State shall register any name in any registry of voters, of which he may have the custody as an officer of registration, or strike any name from any such registry of voters, or make any other entry in such registry, except upon a day appointed by this Act, for a public sitting of such officer of registration, nor except between the hours appointed by this Act, for his sitting on such day, except by or under the order of the proper Judges or Judge, as in this Act provided.
