THE RICHARDSON-MCFARLAND TRAGEDY IN NEW YORK.—In regard to this affair, concerning which so much has been said *pro* and *con*. by the press, the following affidavits submitted by McFarland two years ago, soon after his first shooting of Richardson, will interest the general reader seeking for light on a dark subject:

Samuel Sinclair, publisher of the Tribune, deposed mainly as follows: When Mr. Richardson was wounded (at the Amity street shooting) and came to my house, he occupied the second story back room, and Mrs. McFarland occupied mainly or most of the time the adjoining; they were connected by two openings between said rooms; there were no doors to these openings; she took her meals with him a portion of the time, and with my family a portion of the time; I had a conversation with Mrs. McFarland about the separation; I remarked to her that many of her friends thought it was very imprudent and very strange that she should engage herself to be married so soon after leaving her husband; she replied that she thought she was free, having separated from her husband. I was present at an interview between Mr. and Mrs. McFarland at my house on the Sunday evening after she left him; he stated, on her refusal to return home with him, that she was taking a step that seriously concerned not only himself, but their children; he finally said that if she persisted in her determination he would only bow and submit to it the best he could; there was no agreement for a separation further than this; I did not hear Mrs. McFarland charge her husband with any acts of violence towards her; she charged that he was subject to fits and violent paroxysms; Mr. Sage, her father, was one of those present at the interview; he said he had never before heard of any trouble between them, or anything against Mr. McFarland; afterwards Richardson told me that he had heard Mrs. McFarland was engaged to be married; thinks she was present at the time.

WHAT SINCLAIR'S WAITER SAID.

Wm. D. Morris, employed as a waiter at Mr. Sinclair's residence, stated: Mr. Richardson, when he came to Mr. Sinclair's, always inquired for Mrs. McFarland while she was stopping there; received letters for Mrs. McFarland; they were brought by a boy, Joseph; took letters handed me by Mrs. McFarland directed to Mr. Richardson, and handed them to Joseph; Mr. Richardson and Mrs. McFarland spent their time in Mr. Richardson's room while he was wounded and remained at Mr. Sinclair's; *have seen Mrs. McFarland throw her arms around Richardson's neck and kiss him; they were together all the time;* Mr. Richardson had his meals in his bedroom all the time; Mrs. McFarland carried them to him; she had her meals in his room during this time; she held the waiter on her lap at his bedside, and they would eat together; *Mrs. McFarland took care of his room and made his bed;* her room was a middle room, all open to his room; when you are in one room you are in the other one; I call it all one room.

ONE DAY'S RECORD IN CHICAGO.—The Chicago Tribune of December 5 contains the following suggestive record of a single day's doings in that fast city: Confessions of embezzlement by two responsible cashiers. Attempt to burn down a house full of people. Escape of prisoners from a police station. A police sergeant accused of various misdemeanors. Burglars at the Opera House. Arrest of a woman counterfeiter, three burglars and a railway swindler. A riot. A man garroted. Twenty thousand men out of employment. The streets filled with idlers and vagrants. Country laborers out of work crowding into the city. Disastrous consequences to industry and public order. This is a catalogue of misrule and misery that cannot be excelled even in New York.

OFFICIAL SALARIES AND RESUMPTION.—The New York Tribune raises its voice against any increase of office-holders' salaries. If these gentlemen are not well enough compensated already, the editor has a better plan in store to help them—and that is, a resumption of specie payments. It very truly says that a resumption of specie payments would give all the functionaries, with very few exceptions, from twenty to forty per cent. more compensation that they have received for the last seven years. If we ever resume we shall do it over the heads of those who resist every movement which suppresses inflation and speculation, not with their concurrence. Yet there is just that one way to increase safely and equally the compensation of underpaid office-holders.

EXPENSES OF TAKING THE CENSUS.—General Garfield stated on Saturday, in committee of the whole, that the expense of taking the various federal censuses was as follows: Census of 1790, $44,000; 1800, $66,000; 1810, $178,000; 1820, $208,000; 1830, $378,000; 1840, $833,000; 1850, $1,313,000; 1860, $1,786,000. Perhaps a resolution of inquiry on the last mentioned estimate may not be amiss. There's money in the management of the census, and it will be well to know exactly how much there is, and into what particular congressional districts a preponderance of the spoils will be thrown.—*National Intelligencer.*

REPEAL OF TEST OATHS.—The New York Post (republican) says that Senator Ferry's bill for the repeal of the test oaths act ought to be passed without delay.—There is a general agreement among the people and the press on this question, which shows the country is ready for this.

IT is not generally known (says a Richmond paper) that cotton is successfully cultivated on the eastern shore of Virginia, but such is the fact. Beautiful cotton is regularly raised in Accomac and Northampton counties, and shipped either to Norfolk or Crisfield.

A PATENT for warming piano forte keys, so as to make practicing a pleasure in the coldest weather, is announced in London. The improvement is made by means of little cylinders of hot water concealed under the keys, and is applicable to any piano forte or harmonium.

SPAIN'S lawyer in this country is Sidney Webster, a son-in-law of Secretary Fish. His salary is $40,000 in gold.—He hires spies and detectives for the Government of Spain, and is the adviser in contract purchases of arms, munitions of war and commissary supplies.

FRANK BLAIR ON THE PRESIDENT.—In a speech delivered before the National Democratic Club of New York, on Thursday night of last week, Frank Blair said of President Grant:

"He is ambitious, and he is fearless, and although some of our Democratic friends are in the habit of speaking in a very disparaging way of him, all I have to say is this, that anybody who thinks Gen. Grant is a fool is more likely to be a fool himself. He is a man of stubborn character; he may not be very broad in his views; he may be narrow and obstinate; but he is resolute and unflinching—and the most dangerous man that this country contains at this hour. He has a will that knows no swerving from any plan that he has entered upon. His courage is most determined; and though he may not have great capacity, or a very great intellect, yet when he has once entered upon the pursuit of an object he maintains it with invincible courage and untiring labor."

DR. LIVINGSTONE was alive in May last. A letter has been received from him by Sir Seymour Fitzgerald, the Governor of Bombay, bearing that date. It is now believed that we shall hear before long of the traveler's safe arrival in some civilized part of the world.

THE passage of the Suez Canal is described as a sail for some hundred miles along a broad ditch, with high sandbanks on either side, over which at rare intervals you get glimpses of a sandy desert.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1870, for distribution, *gratis*, throughout the United States and all civilized countries of the Western Hemisphere, will be published about the first of January, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it conitans. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter, and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDAR.

The nature, uses, and extraordinary sanitary effect of HOSTETTER'S STOMACH BITTERS the staple tonic and alternative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable receipes for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful, and *may be had for the asking.* Send for copies to the Central Manufactory, at Pittsburg, Pa., or to the nearest dealer in HOSTETTER'S STOMACH BITTERS. The BITTERS are sold in every city, town and village, and are extensively used throughout the entire civilized world.

B. A. FAHNESTOCK'S

VERMIFUGE.

Why is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first *symptoms of worms,* for so surely as they exist, can they be

SAFELY AND CERTAINLY

removed from the most DELICATE INFANT by the timely use of

B. A. FAHNESTOCK'S VERMIFUGE.

IT IS PERFECTLY HARMLESS—contains no Mercury, being a

Purely Vegetable Composition,

And may be administered with the UTMOST SAFETY TO CHILDREN OF ALL AGES.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are *B. A.* This is the article that has been so

FAVORABLY KNOWN SINCE 1829,

And purchasers must insist on having it, if they do not wish to have an imitation forced upon them.

RING'S VEGETABLE AMBROSIA.

This favorite Hair Restorer has been before the public long enough to have been thoroughly tested and its increasing sale and popularity are the best evidences of its superior merit.

As a Restorer of Gray Hair to its original color it has no equal.

For curing Humors of the scalp and preventing itching it is wonderfully successful.

For preventing the Hair from falling off it is unfailing.

For restoring Hair to Bald Heads it succeeds beyond Competition, although not always successful. Where the glands or follicles are not destroyed new Hair is sure to grow after using it properly.

As a dressing nothing surpasses it. It imparts to dry, faded and wiry Hair that beautiful glossy appearance so much admired.

Containing no oil or grease it does not soil the finest linen.

It is compounded upon Scientific principles of the purest ingredients and is entirely harmless.

Being perfumed with the most fragrant Extracts its odor is delightful.

TESTIMONIALS almost without number can be given if necessary but the AMBROSIA is too well known to require it. Use it once and you will never be without it.

HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,

and all Diseases arising from a Disordered Liver, Stomach, or

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with PURE *Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY,

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause food, enable the stomach to digest it, purify the blood, give it good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.
