Helpful Hints For The Housewife . . .

HOUSEHOLD HELP, ETC. The fat side of beef should be placed meal may be made. nearest the flame when roasting. The melting fat will flavor and baste the Form the habit of serving jellied meat during the cooking.

pickles and pickled preserves. Do not jellied mixture. mix two different kinds of vinegar.

Lingerie must be tinted occasionally to preserve its dainty appearance. A faded blue garment will tint a delicate orchid with the aid of a pink dye, a pale yellow will shade into a delicate green if dipped in blue dye and a pink dye will/change the yellow to a shell pink. Be sure to use small quantities! of the dye for these pastel shades.

Annual seeds of such plants as annual larkspur, sweet alyssum if sown out of doors now in equal parts of soil and coarse sands will be strong enough to live through the winter if well protected.

Cloths saturated with polishing liquids if stored away in a closet often cause spontaneous combustion. Keep these cloths in a covered tin container.

Cut out old canes in raspberry bushes when they are through bearing fruit. These canes will never bear fruit again.

On washing day place a slice of raw lemon in the copper with the white clothes. It helps to whiten them. Use a little turpentine when cleaning! a dirty sink. It will remove all grease. and the smell evaporates quickly.

Try plain carbonated water with iced tea punch instead of gingerale occasionolly. A bunch of fresh mint, a quart of tea, sugar to sweeten, the juice of a lemon and an orange and two bottles of carbonated water make a delicious punch that will serve eight people.

The large black or deep red cherries which are in season now make a beautiful and delicious salad if the pits are removed and the cherries stuffed with cream cheese mixed with chopped salted almonds—as many almonds as the cheese will hold. Have the stuffed cherries very cold and arrange in a mound on lettuce, surround them with a ring of canned grapefruit segments and Serve with French dressing.

Sandwich lunches are in vogue all to serve a sandwich with plenty of pickle relish, or a pickled peach, etc.

Real Corn Pudding

Color.

Golden corn is a custardy mixture! Griddle cake and waffle batters are Fresh green peas and other tender And this is the good old kind-really thin. Since they lump easily, it is often vegetables, especially sweet corn, can be corn pudding, that used to thrill in helpful to beat them with a rotary egg "freshened" and made sweet as just- Whether a light breakfast, a moderaroma, beautiful color and gorgeous texture. Corn in this guise is at its Plaids And Colors finest and best when dotted with bits of green pepper.

Scalloped Corn Two eggs, 1 pint corn (green canned) 1 1-2 teaspoon salt, 1 teaspoon sugar, few drops onion juice, dash of cayenne, dash of pakrika, 1-2 cup chopped green pepper, 3-4 cup evaporated milk, 3-4 cup boiling water.

Beat eggs and add remaining ingredients in order given. Pour into a butfilled with hot water and bake until be tackled in such exciting toggery. firm in a moderate oven (350 degrees F.) Cut in squares for serving. Yield: 6 servings.

Eggplant Casserole

Crushing.

Dress fabrics have changed a good deal since Grandma was a girl. They even progress considerably from season to season. So the woman who buys clothes ready-made and the one who makes them at home both wish to know what new fabrics are on the market and how to use them. Some of the newest developments in summer fabrics are the wrinkle-resistant linens, cottons, and synthetics which have been treated with resin to withstand crushing. Though not proof against all wrinkles. they do not crease so badly as untreated fabric and they recover from creasing more quickly. They also soil less easily than ordinary fabrics. Many of the new men's shirts have wrinkle-resistant fabric for the collar.

Those who have been using these fabrics say that they have obtained better wear when the garments were not fitted too closely which may cause sagging. These fabrics also make up best in dresses without pleats or folds because the material tends to roll rather than hold a sharp edge. Edge-stitching at hems and around collars will help hold a sharp edge. Warm rather than hot water is recommended for washing because very hot water destroys the wrinkly-resistant quality.

Another new treatment for summer fabrics is permanent stiffening which holds the crispness without added starch. Some of the new summer lawns organdies, and other sheer materials have this natural stiffness which holds even after washing. But the shopper by reading the label on the fabric, can see what the manufacturer guarantees about the permanency of the treatment

Manufacturers have made great progress in recent years in producing sum mer wash fabrics which will not shrink and are fast in color. A label which guarantees that the material "will not shrink" or is "thoroughly shrunk," is more definite than the statement "preshrunk." Some labels also guarantee that the color is fast both to light and

That convention dinner is just the right event at which to wear a charmof the new bracelets are small lipsticks. Mix it up when it comes to color for ing dinner gown of champagne color cobwebby lace with matching chiffon introduced in bodice and sleeve sections. The sleeves are open from a point near the shoulder and fall gracefully over the elbow.

> Dive into a new bathing suit. A nice model is a halter suit of yellow cotton fabric with a white star design. There are edgings of rickrack braid, and the snug-fitting shorts are slit at the sides.

New alliances in the color world are of interest. A nice suit consists of a yellow coat with a matching dyed fox collar worn over a yellow blouse of embroidered organza and a powder blue

The whisper that you hear on gala evenings is that of taffeta, a fabric that still continues to be very popular. A useful evening frock is of black lace in a very fitted silhouette-posed over olive green taffeta and worn with a green taffeta cape.

Warm nights bring out pique, linen and gingham evening things. A grand dress is of white pique with straps, halter, hem and bodice border of checked gingham in red and white or blue and white.

Watch the game in spectator sports frocks that are more dressy than the models formerly worn. Typical of this trend is a white crepe frock with round yoke of sulphur yellow and navy crepe and broad matching sash. Short cape sleeves distinguish this model.

Not all is white or pastel shades when t comes to new nighties. A charming model is of violet chiffon with low back, tucking in front and shoulder frills of shirred violet and gray chiffon. Wine velvet ribbon ties the waistline. Godets mark the flared skirt.

Lessening The "Wash-Up" Job

sired color scheme.

FALL the alphabetized diseases, C.C. (Cleaning Odor) is probably the most common. Most suits that come from the average cleaner smell like a filling station. That's a big handicap to any man-socially or in business.

clean by a revolutionary new method that not only gives you better cleaning, and cleaning that stays clean longer, but there is positively NO ODOR. Every garment is returned to you with a fresh, sweet, clean smell. Garments of every material from lace-trimmed silk unmentionables to the finest furs are cleaned without fading or shrinking. And our service is the fastest in town.
