The Franking Privilege.

Although everybody is opposed to the franking privilege, except those who profit by the wrong, we are satisfied that the great mass of the people have no idea of the extent to which the abuse is carried. We all know that wagon loads and car loads of useless printed documents are constantly passing over the country, many of which would not be printed, except for this facility of scattering them abroad without cost, but the private uses to which it is applied are the great points of its abuse. There is not a personage who enjoys this privilege who is not applied to a dozen times a day to defraud the government out of postage on private letters. A new member, who may be conscientious on the point of giving away that which does not belong to him, soon finds himself involved in endless discussion with the applicants. Those who seek franks are as pertinacious as office seekers, and the conscientious member soon finds that he must give his autograph to all who want it, either for free postage, or an application for office. To discriminate or refuse in either case is regarded as a political sin not to be forgiven.

During the session of Congress not less than two hundred thousand letters are mailed daily from Washington city. Of this immense mass of correspondence not more than one third has postage stamps upon it. Private letters by the bushel are dropped into the office daily with the franks of members on them, many of which are believed to be forgeries, but it is impossible for the clerks in the hurry of mailing to detect them, or even to know the signature of all parties entitled to franks. If we should peep into the writing desks of ladies at Washington, all the envelopes, ready for use, will be found franked. If a member drops in to pay an evening visit, all the members of the family bring forth their stock of envelopes for his autograph, and when Congress is about to adjourn a desperate effort is made to have a sufficient stock on hand to last during the recess.

Senator Conkling, a few days since, alluded to the annoyance that this privilege was to members, and the constant demands that were made upon them for franks, clearly showing that the only remedy for these abuses was its total abolishment.—*Balt. American.*

THE sub-committee of three appointed by the Postoffice Committee of the House of Representatives to consider the franking privilege, have agreed to report that, having examined all the bills, resolutions and papers that have been presented, relating to the franking privilege, and, in view of all the facts before them, they are satisfied that the only remedy for existing evils growing out of the franking privilege is its entire abolition; and therefore recommend the adoption by the committee of the bill introduced by Mr. Hill, as follows: "That the franking privilege be and the same is hereby abolished. That this act shall take effect on an after the 1st day of July, 1870."

"THE WRONG DONE TO VIRGINIA, AND THE REMEDY."—The New York Journal of Commerce, which endorses the position of the Tribune in regard to the admission of Virginia with unnecessary and humiliating conditions, says:

"The wrong done to Virginia consists not only in this wanton flourish of the Congressional whip over its back, intended as a spiteful assertion of its vassalage to its Congressional masters, but in the threat of future supervision which these provisors are intended to imply. There can be no peace, no settled, material prosperity until this hand of authority is wholly removed, and the equality of the State with all its sisters is fully admitted. The best that can be done to meet the present emergency is for Virginia to accept the terms gracefully, and to give the lie to all the slanders that have been uttered against her people, by a quiet, orderly government on the basis proposed."

THE PEABODY PROPERTY IN ENGLAND.—The real estate in England belonging to the late George Peabody, which has recently been seized by the crown on account of the alienage of Mr. Peabody, consists of between thirteen and fourteen acres of land, at Stockwell, on the London, Chatham and Dover railway. It was purchased ostensibly by Sir C. Lampson, for £15,625, and was intended as part of a third endowment by Mr. Peabody to the London working classes. The finding of the jury in favor of the seizure of the property is simply in accordance with the English law prohibiting aliens from owning real estate.

EXTRAORDINARY WEATHER ALL AROUND.—The report from the Pacific railroad for the 29th of January is that the track is clear through to San Francisco. No snow on the great plains, nor in the Black Hills, nor in the passes of the Rocky Mountains, nor in the lofty chain of the Sierra Nevada, to obstruct the trains, but a clear track from ocean to ocean. At the same time the record shows the Hudson river open from New York to Albany, and the same is reported of all the European rivers emptying into the North Sea and the Lower Baltic, which are usually fast locked in ice in midwinter. It is certainly an extraordinary winter so far over the whole face of the civilized world.

FRESH BEEF FOR NEW YORK.—The iron steamer Firefly, of 400 tons burthen, is being fitted up at Jersey City for the trasportation of meat from Texas to New York. When completed she will be an immense traveling refrigerator, so that the meat will be kept fresh for an almost indefinite period. If the experiment proves successful it will be a great advantage to consumers, and save the annual loss of a large number of cattle that die through exhaustion, on their way from Texas to the northern markets.

A FOND couple were recently married in Louisville, after a courtship of two days. On the wedding night the groom asked his bride to sell her property and give him the money. She refused and he beat and starved her; and now, two weeks after marriage, she has got him into jail.

A DETROIT paper states, for the gratification of young New York heiresses, that there is a live Count in that city, and that he is likely to remain there for two years. His name is Count Behrendas, and he is in prison for burglary.

DEATH OF GEORGE D. PRENTICE.—The death is announced of George D. Prentice, for many years the editor of the Louisville Journal, with which his name is almost identified.

During the existence of the whig party the Louisville Journal was the most able advocate of its policy in the West. Mr. Prentice was a native of Connecticut, and was born in Preston, in 1804. He was a graduate of 1823 at Brown University, and resided for a time in Hartford, where he was associated with Whittier in the conduct of a literary weekly. In 1831 he removed to Louisville, where he has ever since resided. As a journalist he was brilliant, easy, rapid, but unsparing and reckless in controversy. He was personally very intrepid. As a poet he was distinguished by great sparkle and tenderness, and some of his verses have been embodied in the selections of the best English poetry of the age. Of these, perhaps "The Closing Year" is his best performance. With some weaknesses Mr. Prentice combined many excellencies of character. His failing health has long prepared the public mind for the intelligence of his death, which will be received everywhere with regret.

THE FRANKING PRIVILEGE.—The Davenport (Iowa) Gazette says the beauties of the franking privilege had an apt illustration at the post-office in that city a few days ago. It was on the arrival of a registered letter, duly franked, in the shape of a large trunk, weighing at least three hundred and fifty pounds. This pretty little letter was mailed at Washington, and is directed to San Francisco. It bears the name of a gentleman appointed to an important diplomatic position abroad, and is consigned with all care to the charge of a United States consul general.

ALEXANDER H. STEPHENS.—A letter from Alexander H. Stephens, of Georgia, to a friend, dated 17th instant, says: "I am now a little better than I have been—am able to sit up, read and write a little, but I cannot walk or even stand without assistance." He also writes very hopefully about his future and peace in the next world, but is gloomy and despondent about the country.

THOSE irreverent lads who called names after a certain "bald head" of old deserved their untimely end, because at that time no panacea had been discovered to restore the human hair upon the bald spots. But now Ring's Vegetable Ambrosia is known to possess the rare merit of invigorating the roots and filling them so full of life, where not entirely dead, that they cannot help putting forth a new growth which rivals in beauty the locks of youth.

CORRUPT BLOOD is the source of Scrofula, Consumption, White Swelling, Hip Disease, Chronic Rheumatism, Diseases of the Skin or Spine, Tumors, Sore Eyes, Enlargement and Ulceration of the Glands, Joints, Bones, Liver, Kidneys, Uterus, &c. To be rid of any of these horrible afflictions the source of the disease must be attacked; in other words, the blood must be purified. There is no specific on earth that will do this like "Irisin."

Let Common Sense Decide.

What is the rational mode of procedure in cases of general debility and nervous prostration? Does not reason tell us that judicious stimulation is required. To resort to violent purgation in such a case is as absurd as it would be to bleed a starving man. Yet it is done every day. Yes, this stupid and unphilosophical practice is continued in the teeth of the *great fact* that physical weakness, with all the nervous disturbances that accompany it, is more certainly and rapidly relieved by Hostetter's Stomach Bitters than by any other medicine at present known. It is true that general debility is often attended with torpidity or irregularity of the bowels, and that this symptom must not be overlooked. But while the discharge of the waste matter of the system is expedited or regulated, its *vigor must be recruited*. The Bitters do both. They combine aperient and antibilious properties, with extraordinary tonic power. Even while removing obstructions from the bowels, they tone and invigorate those organs. Through the stomach, upon which the great vegetable specific acts directly, it gives a healthy and permanent impetus to every enfeebled function. Digestion is facilitated, the faltering circulation regulated, the blood reinforced with a new accession of the alimentary principle, the nerves braced, and all the dormant powers of the system roused into healthy action; not spasmodically, as would be the case if a mere stimulent were administered, but for a continuance. It is in this way that such extraordinary changes are wrought in the condition of the feeble, emaciated and nervous invalids by the use of this wonderful corrective, alterative and tonic. Let common sense decide between such a preparation and a prostrating cathartic supplemented by a poisonous astringent like strychnine or quinia.

BLACK

CHESAPEAKE

INK.

I have discovered a Chemical Combination by means of which I produce an Ink

VASTLY SUPERIOR IN EVERY RESPECT TO ANY OTHER WRITING FLUID EVER BEFORE INVENTED.

IT IS OF A JET BLACK COLOR,

and is perfectly indelible, does not change in the least even when subjected to acids which entirely erase and destroy all other inks; consequently it is the

ONLY RELIABLE INK KNOWN

for signing BANK NOTES, writing or recording DEEDS, &c., and will doubtless last as long as the paper or parchment on which it is written.

It flows easily from the pen; does not corrode or gum up; does not blot. It can be written with across the sheet over the wet writing without blurring the first writing.

It is an excellent substitute for India ink in making drawings or fine line ruling, and can be written on the thinnest paper without spreading.

It is sold for one half the price of the many worthless fluids bottled and sold as writing ink, and is a home manufacture.

This ink is now for sale by the bottle, dozen, or gross, and a liberal discount allowed to merchants.

HOMESTEAD and PRE-EMPTION

I HAVE compiled a full, concise and complete statement, plainly printed, for the information of persons intending to take up a Homestead or Pre-emption in this portion of the West, embracing Iowa, Dakota and Nebraska—and other sections. It explains how to proceed to secure 160 acres of Rich Farming Land for nothing, six months before you leave your home, in this most healthy climate. In short it contains just such instructions as is needed by those intending to make a home and fortune on the Free Lands of the West. I will send one of these printed Guides to any person sending me 25 cents. The information alone, which it gives, is worth $5 to anybody. Men who came here two and three years ago and took a farm, are to-day independent.

TO YOUNG MEN.—This country is being crossed with numerous railroads, reaching from every direction to Sioux City, Iowa. Six railroads will be completed to this city within one year. One is already in operation, connecting with Chicago and the U. P. Railroad, and two more will be completed before spring, connecting us with Dubuque and McGregor direct. Three more will be completed within a year, connecting us direct with St. Paul, Minn., Yankton, Dakota and Columbus, Nebraska, on the Union Pacific Railroad. The Missouri River gives us the Mountain trade.—Thus it will be seen that no section of country offers such unprecedented advantages for business, speculation and making a fortune. For the country is being populated, and towns and cities are being built, and fortunes made almost beyond belief. Every man who takes a homestead now will have a railroad market at his own door. And any enterprising young man, with a small capital, can establish himself in a permanent and paying business, if he selects the right location and right branch of trade. Eighteen years residence in the Western country, and a large portion of the time employed as a Mercantile Agent in this country has made me familiar with all the branches of business and the best locations in this country. For one dollar remitted to me, I will give truthful and definite answers to all questions on this subject, desired by such persons. Tell them the best place to locate and what business is overcrowded, and what branch is neglected. Address DANIEL SCOTT,

B. A. FAHNESTOCK'S

VERMIFUGE.

Why is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first *symptoms of worms*, for so surely as they exist, can they be

SAFELY AND CERTAINLY

removed from the most DELICATE INFANT by the timely use of

B. A. FAHNESTOCK'S VERMIFUGE.

IT IS PERFECTLY HARMLESS—contains no Mercury, being a

Purely Vegetable Composition,

And may be administered with the UTMOST SAFETY TO CHILDREN OF ALL AGES.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are *B. A.* This is the article that has been so

RING'S VEGETABLE AMBROSIA.

This Remedy has been before the public long enough to have been thoroughly tested and its increasing sale and popularity are the best evidences of its superiority.

As a Restorer of Gray Hair to its original color it has no equal.

For curing humors of the scalp and preventing itching it is wonderfully successful.

For preventing the Hair from falling off it is unfailing.

For restoring Hair to Bald Heads it succeeds beyond Competition, although not always successful. Where the glands or follicles are not destroyed new Hair is sure to grow after using it properly.

As a dressing nothing surpasses it. It imparts to dry, faded and wiry Hair that beautiful glossy appearance so much admired.

Containing no oil or grease it does not soil the finest linen.

It is compounded upon scientific principles of the purest ingredients and is entirely harmless.

Being perfumed with the most fragrant Extracts its odor is delightful.

TESTIMONIALS almost without number can be given if necessary but the AMBROSIA is too well known to require it. Try it once and you will never be without it.

FRUIT GROWERS

LOOK TO YOUR INTEREST.

I am still in the market with a LARGE and GENUINE ARTICLE OF

FRUIT TREES,

Such as PEACH, grown in New Jersey by Pullen and Bilyeau, and DWARF, grown in New York, and the different varieties of Small fruits, such as RASPBERRY, BLACKBERRY, STRAWBERRY, GRAPES, and in fact every variety grown in a first class Nursery.

My Peach will compare in quality and genuineness with any in the U. S. In regard to Mr. S. G. Bilyeu's Fruit, we will offer Col. R. Wilkins as a reference. Among our list of Peaches we have three prime varieties of late Peach, two of them white with a beautiful blush, ripening with Smock, being much larger, and in color there is no comparison. We have a fine stock of the Salway, which is ten days later than Smock or Heath, a very fine size round Peach, with beautiful blush and perfectly free to the seed—the buds Mr. Bilyeu went to Europe to procure. Two other varieties are Keyport White and Steven's Rareripe.

I think I can furnish anything in the Nursery line as cheap and as good, and on as good terms as any other man in the county. From an experience of ten years in Nursery stock, I flatter myself I can furnish any article that can be procured from any other source. Feeling very thankful for past patronage, I still ask for a continuance of the same.

Any information concerning any of the different varieties gladly given by letter.

Manhood: How Lost, how Restored.

Just published, a new edition of DR. CULVERWELL'S CELEBRATED ESSAY ON the Radical Cure (without medicine) of Spermatorrhœa, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy, and Fits, induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

This Lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, *postpaid*, on receipt of six cents or two post stamps. Also, Dr. Culverwell's "Marriage Guide," price 25 cents.
