Miss Whittaker, a prominent club woman of Savannah, Ga., tells how she was entirely cured of ovarian troubles by the use of Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM:—I heartily recommend **Lydia E. Pinkham's Vegetable Compound** as a Uterine Tonic and Regulator. I suffered for four years with irregularities and Uterine troubles. No one but those who have experienced this dreadful agony can form any idea of the physical and mental misery those endure who are thus afflicted. Your **Vegetable Compound** cured me within three months. I was fully restored to health and strength, and now my periods are regular and painless. What a blessing it is to be able to obtain such a remedy when so many doctors fail to help you. **Lydia E. Pinkham's Vegetable Compound** is better than any doctor or medicine I ever had. Very truly yours, MISS EASY WHITTAKER, 604 39th St., W. Savannah, Ga."—*$5000 forfeit if original of above letter proving genuineness cannot be produced.*

The testimonials which we are constantly publishing from grateful women prove beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

A PLOT TO KILL.

Negroes Attack a Young White Man—Seven In the Plot.

A number of negroes, of Burrisville, Queen Anne's county, met sometime during the past week and planned to make short work of Mr. James Oscar Faulkner, son of Mr. James Faulkner. Mr. Faulkner was in Chestertown Saturday and told the following story of the incident. Thursday morning while Oscar was busily engaged with his work at his father's stable, in Burrisville, about half dozen negroes, some armed with shot guns and some unarmed went to the stable where Mr. Faulkner was and proceeded to make things exceptionally lively for him. Young Faulkner was, as is above stated, at work in the stable at the time. Perry Brooks and Howard Watson went in the stable and closed the door of the feed room behind them and fastened it. While Watson stood guard on the inside of the door with a gun Brooks proceeded to make his attack on Faulkner. Faulkner attempted to make his escape from the negro by climbing in the loft but could not. When he attempted to climb in the loft he was repeatedly pulled down by Brooks. Finally young Faulkner managed to reach a corner of the room in which were a number of empty beer bottles and after reaching these and breaking one or two over the head of Brooks, Watson unfastened the door and they made their escape. Young Faulkner at once came to town and swore out writs for the arrest of Brooks and Watson and they were arrested and lodged in Centreville jail Thursday night. After they were arrested they implicated Morris and Harrison West, Alex and John Stout and they were also arrested and lodged in jail Tuesday morning. These also implicated another negro, but he has as yet, not been arrested, but it is likely he will be. The fight is reported to have been started over the negroes accusing Faulkner of cursing them. They will have a hearing Monday afternoon before Justice Woodford. From the facts brought out at this writing it seems there was a plot among this class of negroes who frequent Burrisville to do young Faulkner serious injury, if not murder him. It seems to be a conspiracy similar to that which resulted in the murder of Dr. Heighe Hill, near Millington, some years ago. Mr. Faulkner was considerably bruised but not seriously injured.

Perry Brooks, the big strapping negro who made the assault on young Faulkner, was convicted and sent to the House of Correction for two years and Howard Watson, the leader of the gang of six negroes, was fined $51 and costs and committed to jail in default of payment, where he will reside for the ensuing sixty days.

Professor Watts Resigns—Western Maryland College reopened on Tuesday, September 13, for the 38th year with the usual or perhaps better attendance. The improvements made during the summer include the new gymnasium, grading of the grounds and laying cement walks, and the general remarks of the returning students and the new ones is how attractive everything looks. There have been several changes in the Faculty. The Science Department, vacated by Prof. Roland Watts and Dr. Rich, will be conducted by Prof. H. Morgan Campbell, Ph. B. (Dickinson,) and Miss Edith M. Brace, M. S., (University of Chicago). The chair of English, recently vacated by Prof. Wills to accept a position at his home in Greensboro, N. C., will be filled by Rev. E. A. Warfield, Ph. D., (Yale). Dr. Warfield is an alumnus of Western Maryland in the class of 1882.

PRICE OF WHEAT.

Of winter and spring wheat produced this year in the United States it was contended there is barely enough for bread and seed if every bushel of it were available, which is not possible, and the country is therefore face to face with the necessity of bringing in foreign wheat to help keep the wolf from the door till another harvest shall have been reached.

The strength of all outside markets increased the bull enthusiasm there, commission houses becoming heavy purchasers during the latter part of the session. Offerings continued inadequate to the demand, causing a sharp advance, the price of December mounting to $1.12¾. The close was quite strong, with December at $1.12⅝, a gain of 4 to 4½ cents over Saturday's closing quotations.

The demand from shorts, which caused the initial spurt, was augmented by heavy buying by commission houses. May sold up to $1.14¼. September advanced to $1.09⅝. December, which opened at $1.08½ to 1.08⅝, reached $1.12⅞ shortly before the end of the session. The sensational strength was maintained up to the last moment of trading, the market closing almost at the highest point. Final figures on May were $1.14⅝ September closed at $1.09¾ and December at $1.12⅝.

CLIFFE CITY ITEMS.

The peach season closes this week—a very successful one. Shipments have averaged a thousand baskets per day and good prices have been realized.

Fine pears are on now.

Farmers are cutting off corn and trying to induce peach pickers to remain to help out in this work at $1 per day.

Fish have been plentiful and high. Some Chestertown parties caught as high as 100 nice perch and rock one day this week.

Mr. Stoops has made quite an addition to his store having increased the room more than half.

Try for Health

222 South Peoria St.,
CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Georgia Dunbar

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?

INTEREST DAY and NIGHT WHILE YOU SLEEP.

WE believe the exigencies of the times is such that the Banker can no longer sit back on his Dignity and take all the profits. Banks always pay interest on deposits to a favored few—why not treat all alike?

We were fortunate in being undisturbed by the great Baltimore fire. Local demand for money outside the fire district will be unusually good for two years at least. We do not, however, depend entirely on the local demand, as our wide acquaintance with banks throughout the country affords us a continuous market for surplus money through the Spring trade, the coming season, the Western harvest and the cotton crop—these accommodations are in the form of short-time rediscounts for National Banks in these various sections—are the safest loans that can be made, and always at a good rate of interest.
