B. A. FAHNESTOCK'S VERMIFUGE.

Why is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first *symptoms of worms*, for so surely as they exist, can they be

SAFELY AND CERTAINLY

removed from the most DELICATE INFANT by the timely use of

B. A. FAHNESTOCK'S VERMIFUGE.

IT IS PERFECTLY HARMLESS—contains no Mercury, being a

Purely Vegetable Composition,

And may be administered with the UTMOST SAFETY TO CHILDREN OF ALL AGES.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are *B. A.* This is the article that has been so

FAVORABY KNOWN SINCE 1829,

And purchasers must insist on having it, if they do not wish to have an imitation forced upon them.

BLACK
CHESAPEAKE INK

I have discovered a Chemical Combination by means of which I produce an Ink

VASTLY SUPERIOR IN EVERY RESPECT TO ANY OTHER WRITING FLUID EVER BEFORE INVENTED.

It is of a JET BLACK COLOR,

and is perfectly indelible, does not change in the least even when subjected to acids which entirely erase and destroy all other inks; consequently it is the

ONLY RELIABLE INK KNOWN

for signing BANK NOTES, writing or recording DEEDS, &c., and will doubtless last as long as the paper or parchment on which it is written.

It flows easily from the pen; does not corrode or gum up; does not blot. It can be written with across the sheet over the wet writing without blurring the first writing.

It is an excellent substitute for India ink in making drawings or fine line ruling, and can be written on the thinnest paper without spreading.

It is sold for one half the price of the many worthless fluids bottled and sold as writing ink, and is a home manufacture.

This ink is now for sale by the bottle, dozen, or gross, and a liberal discount allowed to merchants.

DAILY'S VENTILATED TRUSS.
RUPTURE CURED.

I BELIEVE there has never been a Truss to compare with my improvement, not only for a perfect and radical cure, but also for the comfort and convenience of the wearer: of the thousands on whom I have applied this Truss in Baltimore and vicinity, nearly all have been relieved.—Where the rupture is not complicated with other disease, any one wearing the Truss may be cured, some in a short space of three months especially young persons, although many over fifty years of age have also been cured.

The Cleanliness of the Pad,

not absorbing the sweat, but being ventilated, permitting the air to circulate around the injured part, makes it essential to the comfort of the wearer. Call and see it.
