Ten Good Reasons Why.

Here are ten reasons why the people are going to turn the Radical politicians out of power:

1. Because the foreign policy of the Administration is craven and un-American.
2. Because the head of the party is openly lobbying to "stick" the country with the San Domingo swindle.
3. Because the Union is still dismembered and States are still refused representation in Congress, though they have submitted to every exaction.
4. Because the Radical party is controlled by a few rich New England manufacturers and Pennsylvania iron monopolists, and the people are made to sweat under the burdens imposed by these cormorants.
5. Because ignorant negroes and infamous carpet-baggers are elevated to high places to make laws for millions of decent white men.
6. Because an enormous standing army is kept up (for political purposes,) though the last Confederate laid down his arms over five years ago.
7. Because the public domain is squandered upon huge railroad corporations, who gobble up whole counties and pay not a dollar in return.
8. Because corruption is the rule, not only in the national capital, but in every State capital where the Radicals are uppermost.
9. Because the expenditures of the Departments are wickedly extravagant, while Congress refuses to reduce the unnecessary taxes, such as the oppressive income tax under which the people suffer.
10. Because the President is weak, incompetent and frivolous, indisposed to attend to the duties of his office, and anxious only for idle amusement.

Here are ten reasons why the people are going to put Democratic Statesmen in office:

1. Because the Democratic party recognizes the supremacy of the white race over negroes, Asiatics and aborigines.
2. Because it favors a tariff for revenue only.
3. Because it believes in a union of coequal States, each independent of the other, within the limits prescribed by the Constitution.
4. Because it demands a bold foreign policy; no truckling to the effete despotisms of the old world.
5. Because it insists upon the reduction and extinction of the national debt.
6. Because it opposes the system of bayonet coercion established by the General Government in the Southern States, and favors the restoration of political power to native population.
7. Because it demands that honest men only shall be chosen to responsible public positions.
8. Because it requires economy in administration of the national and State finances.
9. Because it favors a general amnesty for old political offences.
10. Because it will give the country the good old Democratic gold and silver to replace the present dirty rags of the Radical paper mills.—*N. Y. News.*

BISHOPS LEAVING THE COUNCIL AT ROME.—A letter from Florence dated the 16th ult., says:

From information which reaches the public in various ways, no room is left for doubt that the opposition in the Council to the infallibility scheme is more and more pronounced. You may rely upon what I say when I tell you that Bishops, dissatisfied toward predetermined plans, are leaving Rome; for several have just passed through Florence. They have actually stolen away, without paying regard to the rules fixed by the authority of the Papal police. An order was strictly given that no member of the Council should be allowed to pass the frontier without the signature of the officer appointed to see that the paper was in hand giving permission to leave. Whether it pleases or not, the truth must be stated that some of the Fathers in Council, of the opposition, who will not compromise their opinions, have been badgered and threatened in a manner little becoming to the dignity of members of the great Catholic Episcopacy. The leading points in discourses pronounced by various German, Hungarian and French prelates of the opposition, reach us in a form which leaves little room to doubt of the authenticity, and their tone is one of fear and of warning. The Roman Court is plainly told that the great measure which the Council is called together to vote, is one which must weaken rather than strengthen its authority; an expression of opinion entirely in accord with the declared views and purposes of the leading Catholic States.

WHAT AN EDITOR MAKES OFF A VIRGINIA FARM.—Daniel Dechert, Esq., editor and proprietor of the Hagerstown Mail, purchased a farm in Halifax county, Virginia, some eighteen months since.—This is the first season that he has had a full crop out, and he writes as follows:

"I wish you would run down and see me this summer, while I am at my farm. I expect my crops this year to net me not less than $10,000, and they may reach $12,000. I will have 1,500 bushels of wheat, 1,000 barrels of corn, (5 bushels to the barrel,) about 5,000 bushels of oats, 10 tons of broom corn (besides the seed,) and about $3,000 worth of tobacco. I begin to see more money in farming South than in printing in Maryland, and am preparing to locate permanently on my plantation.

A FEATHER BED NOT A SURE PROTECTION FROM LIGHTNING.—The very general belief, or superstition rather, that a feather bed is a sure protection from lightning, receives direct refutation in a circumstance which transpired in Greenfield county, Connecticut, a few days ago.—Lightning entered the apartment of Mr. and Mrs. Banks, tore open the feather bed upon which the parties mentioned, with a small child, were sleeping, and set the bed-clothes on fire, singed off the hair and eyebrows of Mrs. Banks, blistered her chest from the neck down, and knocked her completely senseless. Mr. Banks was also momentarily stunned, but recovered in time to extinguish the fire. The child, although lying on its mother's arm, was not hurt.

A MAN in Memphis gave his three little children bed bug poison for whiskey, and killed them.

END OF THE MISSISSIPPI BOAT RACE—*Victory of the R. E. Lee and Fastest Time on Record.*—St. Louis, July 4.—The steamer R. E. Lee arrived at 11.25 A. M., making the run from New Orleans in three days eighteen hours and fourteen minutes, beating the time of the steamer Natchez on her last trip three hours and forty-four minutes, and the Jas. W. White's famous time about five hours. The Natchez is detained by a heavy fog 120 miles below, and had not arrived at 6 P. M. A million dollars changed hands on the result. Thousands of people were out to witness the arrival. The race has been a complete ovation from first to last. The steamer Lee is a Louisville boat, and as stated heretofore, the Natchez is a new Cincinnati boat, built expressly to beat the Lee, which was notedly fast before this contest.

All along the river thousands flocked from many miles in the interior to see the racers pass; and bonfires, cannon, anvils, and everything that could shoot were brought into use to give vent to the feeling on the occasion. The crowd at the levee here was immense. The banks of the river, from Carondolet to the above city, a distance of six miles, were lined with people, and the windows and housetops along the city front were filled with enthusiastic spectators. No similar event ever caused such an excitement or brought out such crowds.

St. Louis, July 5.—Captain Leathers, of the steamer Natchez, claims that, deducting six hours laid up by a fog between here and Cairo, and the thirty-six minutes lost in repairing a pump below Helena, the Natchez beat the Lee's time some twenty minutes. A banquet to both captains will be given to-night.

NEGRO JURIES.—Reconstruction is fairly under way in Louisiana, and negro juries are politically the first rose of spring—popular and interesting.

In Concordia Parish, not long since, a man was on trial for murder. He was popular with the negroes, who thought that because he was a good fellow he could be guilty of no crime. And, though the murder was clearly proven, so clearly that no one attempted to deny it, the jury brought in a verdict of "not guilty." A few minutes after the carpet-bag Judge of the Probate Court, with the negro foreman of the jury and the prisoner, walked up to a bar, called for whiskey straight, clinked glasses, and drank, "here's to the jury that knows its business."

In another case the jury intended to find the prisoner "not guilty" and brought in a verdict of "justifiable manslaughter." The judge informed them that by all rules, terms and contracts of law there was no such crime, and that they must change their decision.

So the jury retired to return in a few minutes with the following verdict:

"We, the jury sitting on this prisoner, find that he manslaughtered a man as the law directs."

And the judge sent the man who "manslaughtered a man" to the mansions of the State for one year.

Who says that the Republican party is not made up of the intelligence of the country?

THE second cargo of refrigerated Texas meat has been received in New Orleans and sold without difficulty. It was pronounced superior to meat slaughtered in that city. It is said to keep longer after being exposed to the heat than the meat cured in the old way.

A NEW GROUND FOR VETO.—One of the Southern Governors has vetoed a law passed by the Legislature of his State, on the ground that it is a mixture of "bad spelling and nonsense generally."

Health's Best Defence.

"The weak eateth herbs," says St. Paul, so that eighteen hundred years ago the value of medicinal plants was appreciated. In the Old Testament botanical remedies are repeatedly recommended, but in no passage of sacred history is man recommended to swallow calomel, or blue pill, or any other mineral preparation. The sick were directed to eat herbs to strengthen them, to purify them, to heal them, to restore them. In that day the art of making vegetable extracts was unknown. The herbal medicines were mere infusions.

It was reserved for a later age to unite the sanitary essences of tonic, apperient, and antibilious roots, barks and plants, with an active stimulant, and thus secure their rapid diffusion through the debilitated or disordered system. The crowning triumph of this effective mode of concentrating and applying the virtues of medicinal vegetables was achieved in the production of Hostetter's Stomach Bitters. Never before had a perfectly pure alchobolic stimulant been combined with the expressed juices of the finest specifics of the vegetable kingdom. Never yet, though eighteen years have elapsed since its introduction, has this great restorative been equalled. It is taken at all seasons, in all climes, as the most potent safeguard against epidemics, as a protection against all unhealthy exhalations that produce debility or beget disease; as a remedy for intermittent and other malarious fevers; as an appetizer; as a sovereign cure for dyspepsia; as a general tonic and invigorant; as a gentle, painless aperient; as a blood depurent; as a nervine; as a cure for bilious affections; as a harmless anodyne; and as the BEST DEFENCE OF HEALTH under unfavorable circumstances, such as sedentary pursuits, undue bodily or mental exertion, hardship, privation and exposure.

COUGHS, SORE THROAT, ETC.

No Medicine or Treatment can excel the Powerful Curative Power of

DR. SIMMS'

WHITE PULMONIC BALSAM.

It cures with a rapidity unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of *Coughs, Colds, Sore Throat, Asthma, Bronchitis, Croup, Blood Spitting, Hoarseness*, and even *Pulmonary Consumption*, where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted everywhere. Price, 50 cents, medium size, and $1 for large size bottles. Prepared only by

OBSTRUCTIONS ON RAIL ROADS.

PARTICULAR ATTENTION is invited to the following sections of the Public General Laws of Maryland, under the title "Crimes and Punishments:"

SEC. 159. If any person shall place anything, or cause anything to be placed, on any railroad in this State, calculated to obstruct, overthrow or direct from the track of such railroad any car, vehicle or carriage, travelling or passing on such railroad, or shall break or injure in any manner any railroad in this State, with the view or intent to obstruct or overthrow any car, vehicle or carriage, such person so offending shall be deemed guilty of felony, and upon conviction thereof, shall be sentenced to the penitentiary for not less than two years nor more than ten years.

SEC. 160. If the death of any person shall be occasioned by the overthrow or obstruction of any railroad car, vehicle or carriage, produced by the placing of any thing or obstruction on any railroad, or by breaking or injuring any railroad, or any bridge attached thereto, in violation of the preceding section, then the person so placing the thing, or obstructing, or breaking or injuring, shall be deemed guilty of murder.

The above law will be rigidly enforced so far as it relates to railroads under the control of the Kent County Railroad Company.

B. A. FAHNESTOCK'S VERMIFUGE.

Why is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first *symptoms of worms*, for so surely as they exist, can they be

SAFELY AND CERTAINLY

removed from the most DELICATE INFANT by the timely use of

B. A. FAHNESTOCK'S VERMIFUGE.

IT IS PERFECTLY HARMLESS—contains no Mercury, being a

Purely Vegetable Composition,

And may be administered with the UTMOST SAFETY TO CHILDREN OF ALL AGES.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are *B. A.* This is the article that has been so

FAVORABY KNOWN SINCE 1829,

And purchasers must insist on having it, if they do not wish to have an imitation forced upon them.
