The National Camp Meeting.

The correspondent of the Baltimore *Sun*, writing from Oakington National Camp, July 12, says:

The fifth national camp meeting of the M. E. Church opened here, two miles south of Havre de Grace, to-day. The trains both north and south have been for the past two days crowded to their utmost capacity with passengers for this great camp meeting. The Philadelphia, Wilmington and Baltimore railroad have proved equal to the emergency, having opened in Baltimore an extra ticket-office and at Oakington a new and beautiful depot, and two platforms, each 640 feet long, have been erected, besides a long range of shedding for shelter to persons waiting for the trains.

Up to the present time of writing it is estimated that there have been erected about six hundred tents, and as this is the opening day only, it is presumed that this number will be largely increased.

The grove in which the camp-meeting is held is the property of Mr. Jacob Hoke. It consists of eighty acres, heavily wooded, mostly with white oak, furnishes a shade which cannot be excelled The railroad passes directly through it from east to west.

The ground is beautifully laid off in avenues, affording accommodation for 1,000 tents. By means of underdrains the ground is thoroughly drained, and even after heavy rains will be comparatively dry. The water arrangements are complete; first, a reservoir, holding ten thousand gallons; a steam engine and pump forces this water up a high embankment into a tank holding eighty thousand gallons. From this it is carried by pipes into large casks distributed throughout the encampment.

An erroneous impression has gone abroad that the grounds will be closed on Sabbath. No trains will be run upon that day, but the grounds will be open upon that as all other days.

As before remarked, there are about 600 tents now erected, and they represent the following States: Maryland, Delaware, Massachusetts, Rhode Island, New York, Connecticut, New Jersey, Pennsylvania, Ohio, Mississippi, South Carolina, Virginia, West Virginia, District of Columbia, Europe and Asia, the latter by a tent each.

A neat building has been erected and occupied by Rev. S. W. Thomas, of Philadelphia, as a bookstore.

Two newspapers are published, "The National Camp Journal," by John F. & Bro., and distributed gratuitously, and "The Camp-Meeting Journal," edited by Rev. Thos. L. Poulson. The former has been published principally as an advertising medium, but the latter will give a full report of all the meetings held.

THE HOTTEST JUNE ON RECORD.—The records kept at the Pennsylvania Hospital show that the month just passed has been the hottest June ever experienced in Philadelphia. The mean temperature reached 77.35 degrees, which is greater by more than one third of a degree than the highest point attained as the mean temperature of the corresponding month in any preceeding year. The hottest Junes previously known were those of 1831, when the mean temperature was 77 degrees, and 1828, when the same mean was attained.

The highest point attained by the thermometer during the month which has just closed was 95.5 degrees, which occurred on Tuesday the 28th; but on three other days—Saturday, the 25th, Sunday, the 26th, and Wednesday the 29th the thermometer marked 95 degrees, and since the 18th it had mounted to the neighborhood of 80, or, soared above it, with the exception of the 21st and 23rd, on which the highest points attained were 79 and 79.5 degrees respectively.

ADDING FUEL TO THE FIRE.—A writer of the Memphis Avalanche, who was on board the R. E. Lee during the late steamboat race, says that he found that the coal on board was bituminous, and that it was all in nice lumps, not less than a pound each, with rosin scattered through it, just as one would scatter bran through chopped feed. One of the hands informed the reporter that the pine-knots were nearly all out, but it was a pleasure to discover that there were at least twenty barrels of coal oil still unused. The oil was used with judicious calmness. A man of judgment and nerve took a bucketful of it round, and, with a large dipper, while a fireman opened the doors of the fire-boxes, he dashed half a gallon into each, with periodical precision.—This was done to add a little tone to the sluggishness of the bituminous coal mixed with rosin.

THE manufacture of cotton in the South seems to yield handsome profits. The annual report of a cotton mill at Augusta, Georgia, recently submitted to the stockholders, shows the following results. The capital stock of the company is $600,000, and during the past twelve months the factory used 2,907,675 pounds of cotton, at an average cost of 24.29 cts. a pound, and manufactured 8,222,181 yards of muslin. The hands employed were 489 in number, and the annual wages amounted to $159,976. The gross earnings, including interest, amounted to $175,380, and after deducting expense account, repairs, taxes and water rent, the net earnings were $127,779, out of which four dividends of five per cent. each were declared, leaving $7,779 to be added to the surplus fund, which has been increased to the sum of $233,295.

LOST HIS SPEECH FROM A FIRE-CRACKER.—On Monday evening, a little boy named Lambert Knorr, about ten years of age, was playing with some other boys in front of his father's house, on Liberty street, Allegheny, when a fire-cracker by some accident was thrown into his mouth, where it exploded. He fell to the ground and was taken into the house, when a physician was summoned. The boy seemed uninjured in every respect, except that his voice was completely gone. It has not yet returned, and it is feared that he will be permanently speechless.—*Pittsburg Post.*

AN Episcopal Camp Meeting, only that it is called a "mission meeting in a grove," will shortly be held near Easton.

THE Emperor Napoleon has mourned for his deceased Baltimore relative by wearing a black hatband for eight days.

HORRIBLE OUTRAGE NEAR LAUREL, DEL.—A correspondent in Laurel, Delaware, sends the following to the Saulsbury (Md.) Eastern Shoreman:

"On Tuesday last a negro man named Ben Johnson, said to be a fugitive from your town, but temporarily sojourning between this place and Sharptown, followed a respectable married woman of the neighborhood and little daughter into the swamp, where she had gone for the purpose of picking whortleberries, frightened the child away, and then perpetrated the most heinous possible act upon the mother. The husband of the injured woman and about a dozen of his neighbors surrounded the villains house through the night, and on Wednesday morning found him under the building, nearly buried in the soil. The infuriated husband endeavored to take summary vengeance, but was restrained by some more considerate persons. The fiend was brought to town—the evidence of the outraged wife having been taken at the house—and committed to jail by Justice Tyre to await trial at the October term of court. While here he acknowledged several similar offenses, which we knew to have been perpetrated and attempted in the neighborhood without being able to detect the author, one upon the person of a young white woman, about four miles from town last spring. It is some consolation to hope that the foul deed of Tuesday is the villain's last."

Health's Best Defence.

"The weak eateth herbs," says St. Paul, so that eighteen hundred years ago the value of medicinal plants was appreciated. In the Old Testament botanical remedies are repeatedly recommended, but in no passage of sacred history is man recommended to swallow calomel, or blue pill, or any other mineral preparation. The sick were directed to eat herbs to strengthen them, to purify them, to heal them, to restore them. In that day the art of making vegetable extracts was unknown. The herbal medicines were mere infusions.

It was reserved for a later age to unite the sanitary essences of tonic, apperient, and antibilious roots, barks and plants, with an active stimulant, and thus secure their rapid diffusion through the debilitated or disordered system. The crowning triumph of this effective mode of concentrating and applying the virtues of medicinal vegetables was achieved in the production of Hostetter's Stomach Bitters. Never before had a perfectly pure alcoholic stimulant been combined with the expressed juices of the finest specifics of the vegetable kingdom. Never yet, though eighteen years have elapsed since its introduction, has this great restorative been equalled. It is taken at all seasons, in all climes, as the most potent safeguard against epidemics, as a protection against all unhealthy exhalations that produce debility or beget disease; as a remedy for intermittent and other malarious fevers; as an appetizer; as a sovereign cure for dyspepsia; as a general tonic and invigorant; as a gentle, painless aperient; as a blood depurent; as a nervine; as a cure for bilious affections; as a harmless anodyne; and as the BEST DEFENCE OF HEALTH under unfavorable circumstances, such as sedentary pursuits, undue bodily or mental exertion, hardship, privation and exposure.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands Bear testimony to their wonderful Curative Effects.

WHAT ARE THEY?

For Female Complaints, whether in young or old, married or single, at the dawn of womanhood or at the "Turn of Life," these Tonic Bitters have no equal; are safe and reliable in all forms of disease.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar property of acting as a powerful agent in relieving Congestion of Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics" "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters, according to directions, and remain long unwell.

$100 will begiven for an incurable case, providing the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They invigorate the stomach, and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed.

For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French, and Spanish.

COUGHS, SORE THROAT, ETC.

No Medicine or Treatment can excel the Powerful Curative Power of

DR. SIMMS'
WHITE PULMONIC BALSAM.

It cures with a rapidity unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of *Coughs, Colds, Sore Throat, Asthma, Bronchitis, Croup, Blood Spitting, Hoarseness,* and even *Pulmonary Consumption,* where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted everywhere. Price, 50 cents, medium size, and $1 for large size bottles. Prepared only by

OBSTRUCTIONS ON RAIL ROADS.

PARTICULAR ATTENTION is invited to the following sections of the Public General Laws of Maryland, under the title "Crimes and Punishments:"

SEC. 159. If any person shall place anything, or cause anything to be placed, on any railroad in this State, calculated to obstruct, overthrow or direct from the track of such railroad any car, vehicle or carriage, travelling of passing on such railroad, or shall break or injure in any manner any railroad in this State, with the view or intent to obstruct or overthrow any car, vehicle or carriage, such person so offending shall be deemed guilty of felony, and upon conviction thereof, shall be sentenced to the penitentiary for not less than two years nor more than ten years.

SEC. 160. If the death of any person shall be occasioned by the overthrow or obstruction of any railroad car, vehicle or carriage, produced by the placing of any thing or obstruction on any railroad, or by breaking or injuring any railroad, or any bridge attached thereto, in violation of the preceding section, then the person so placing the thing, or obstructing, or breaking or injuring, shall be deemed guilty of murder.

The above law will be rigidly enforced so far as it relates to railroads under the control of the Kent County Railroad Company.

B. A. FAHNESTOCK'S VERMIFUGE.

Why is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, cannot be too observing of the first *symptoms of worms,* for so surely as they exist, can they be

SAFELY AND CERTAINLY

removed from the most DELICATE INFANT by the timely use of

B. A. FAHNESTOCK'S VERMIFUGE.

IT IS PERFECTLY HARMLESS—contains no Mercury, being a

Purely Vegetable Composition,

And may be administered with the UTMOST SAFETY TO CHILDREN OF ALL AGES.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are *B. A.* This is the article that has been so

FAVORABY KNOWN SINCE 1829,

And purchasers must insist on having it, if they do not wish to have an imitation forced upon them.
