of the next General Assembly. Hence it may be important for me to look a little a head & to make all the interest I can with the Governor & Council. In the event of the Present Executive being called upon to make such an appointment, I feel pretty confident I should without doubt have the support of Mess.rs Nabb & Butcher but I am not sure whether I could calculate on any more, tho' I have reason to think Mr Wilkinson is not unfriendly to me. The sentiments of Mess.rs Stephen & Duvall & the Governor I have no knowledge of. The Book which contains copies of some letters I have rec.d, I would like to have the Governor run his eyes over when he has a leisure moment. Mr Carroll when here said he was intimate with the Governor & would with pleasure hand it to him & ask him to look at it. If he has not done it will you ask him to do me the favor to do it soon. Some of my Annapolis friends think I had better get such of the Members of the House of Delegates as are friendly to me to sign a recommendation to the Governor and Council just before the Legislature adjourns to be used when there is a Vacancy. What do you think of it?. Who has the most influence with Mr Stephen in your City?. Please to let me hear from you soon and remain

Dear Sir very truly yr friend —

Nath.l F. Williams
