A TIME TO BE CAUTIOUS

With the opening of school for the Fall term, motorists are urged to give fullest cooperation to the movement being fostered by the Keystone Automobile Club of Maryland for the protection of school children.

Many dangers confront children returning to school after the summer vacation and the responsibility of motorists in safeguarding the lives of pupils cannot be emphasized too strongly. A factor having important bearing on the problem of child safety, is the appearance on the streets and highways of youngsters attending school for the first time. motor vehicles are operated, not only in the vicinity of ously entertain for President Roosevelt?" schools, but on all streets and roads where children are walking on their way to and from their classrooms.
