COMMUNICATED.

THE MONUMENT TO GENERAL LEE.

We take advantage of this Christmas season, when the charities of Christian men and women are so lovingly invoked by the sacred history and the time-honored traditions which unite to make it a holy season, and when the hearts and hands of the most worldly are quick to respond to the sufferings of humanity, to lay before the people of Kent county an undertaking which we think must commend itself to all just and thoughtful men, aye and women and children too. Many of our people already know that at a Convention held at Richmond during the fall it was resolved to build a monument at Richmond to the memory of that noble soldier and pure christian, General Rob't E. Lee. But it may not be so generally known that an Association has since been formed in Maryland, called the Lee Monument Association, the object of which is to organize the aid of Maryland for this purpose, and it is to this Association that we desire now specially to ask the attention and sympathy of the people of Kent county. It is characteristic of our age to be too material, to reverence too little in our day and generation those signal examples of piety and virtue which, in spite of the degeneracy of the times, sometimes are vouchsafed to our country, and still less to value for the sake of our posterity such permanent memorials of those private and public virtues which may serve at once to show our appreciation and to cultivate and perpetuate the same sentiment in those who succeed to our inheritance.

No appeal is made here to any sectional feeling. The fame of such a man as Lee, like that of Washington, is no more to be hemmed in by State lines or sectional prejudices, than the love of the true and beautiful is to be narrowed to one creed or race. As when the separation from the mother country was accomplished, whig and tory united to do homage to the military genius and lofty patriotism of Washington, so now should the adherents of North and South join hands in this movement to honor the name and perpetuate the glory of Lee—like Washington a mighty soldier and a noble citizen of America. The writer knows how generally in this community the animosities engendered by the war have sunk to rest, and believes that everywhere subsiding passion and a returning sense of justice will sooner or later accord to the leaders of the South the credit their conduct deserves; and while those who adhered to the lost cause are confidently expected to give character and weight by their numbers to this movement, it is yet believed that those who opposed it will bear a large share of the work. No federal soldier who in his military career imbibed a love for military genius and respect for high personal attributes in the service of his own beloved commander, but should recognize the preeminence of those qualities in the leader who is gone, and no citizen of the North who appreciates the purity and devotion of his own most favored son, should hesitate to add his voice to the acclamation which has forever established the lofty character of Lee. The concurrence of the whole nation in this tribute would be a fitting recognition of those eternal principles of truth and justice which must ultimately prevail, and would be an auspicious omen of the revival of that primitive national respect for private and public virtue, which constitutes a foundation stone in the fabric of our Republic.

This Association has been organized by the appointment of a President in Baltimore and a Vice President in each county, and books of subscription have been opened at convenient points in each county in the hands of responsible agents. Subscriptions may be made in Chestertown at the store of John L. Stam & Sons, at the Trappe with Messrs. Beck & Strong, at Kennedyville with Mr. C. W. Warren, and at Galena with Mr. T. H. Horsey. Each subscription has been wisely fixed at one dollar, the intention being to make the work a general one, and to bring it within the reach of all the friends of Lee and all admirers of greatness, whether rich or poor, and we trust that Kent county will not be slow to testify her appreciation of the plan.

SWALLOWED A MOUTH ORGAN.—A little son of J. C. Koudrup, the Danish consul, residing with his father on Capitol Hill, in Washington, has met with an unfortunate accident, which will prove a field of study for the medical world. It appears that on Friday last an elder brother, who had been playing with a common mouth organ, about two inches in length, threw it upon the floor, which, being within access of the child, he picked it up, and by some means it became lodged in his throat. Attempts were made to extricate it, but had the effect of forcing it down his throat, and causing him to swallow the instrument. The health of the child seems unimpaired, and, aside from the anxiety of the parents, the huge pill does not seem to incommode him in the least.—*Washington Chronicle.*

THE ATTEMPT MADE by certain Radical Grant men in the United States Senate to turn Mr. Sumner out of the Committee on Foreign Relations, because of his stand against the St. Domingo job, is precisely similar to the course pursued by Sumner himself against Senator Trumbull for his manly and independent course on the Impeachment trial of President Johnson — Sumner is getting paid off in his own coin, and he doesn't appear to like it. But it is the kind of currency the Radicals themselves have adopted, and it will be paid out to more of them hereafter, whether they like it or not. We are now about reaching the turning point in the long political lane.

CURE FOR LOCKJAW.—A correspondent of the *Scientific American* recommends turpentine as a cure for lockjaw. He says: "Let any one who has an attack of lockjaw take a small quantity of turpentine, warm it and pour it on the wound, no matter where the wound is, and relief will follow in less thon one minute. Nothing better can be applied to a severe cut or bruise, than cold turpentine; it will give certain relief almost instantly. Turpentine is also a sovereign remedy for croup. Saturate a piece of flannel with it and place the flannel on the throat and chest, and in every severe case three to five drops on a lump of sugar may be taken inwardly.

THE GIRARD ESTATE.—Stephen Girard, was at one time, considered the richest man in America, and was so at the time of his death, with the exception, probably, of John Jacob Astor. Since then many men have become the possessors of far greater wealth, but in his day he was the acknowledged money king. In a paragraph on the "Extent of the Girard Estate," the Doylestown Democrat says:

"The number of stores and dwellings in the city of Philadelphia belonging to the Girard Estate is 187; the number of farms (in the fifth ward,) 15; together yielding a rental of nearly $260,000 per annum. There are also about eighteen thousand acres of land in Schuylkill and Columbia counties, valuable for coal, farming, and timber purposes. The personal property of the Girard estate consists of stocks and loans having an approximate par value of $518,883 94. The income arising from these sources is expended for the maintaining of the Girard College for orphans, for the repairing of the real estate, and for the salaries of the officers of the estate, which about absorbs the whole of it. Besides this, Girard left two separate funds—one of $500,000 (executor's valuation,) for the improvement of the eastern front of the city and Delaware avenue, and another of $10,000 (which has since decreased to a little over $9,000,) to purchase fuel for poor white housekeepers. The income arising from both these funds has been regularly appropriated to the prescribed uses."

THE TARIFF CHANGES.—The changes in the tariff duties that have now come into effect, the 1st of January, have been heretofore noted. Some fifty drug articles go on the free list, and some forty others are much reduced. The duty on tea is reduced 10 cents—that is, from 25 to 15 cents, and coffee 2 cents (from 5 to 3) cents a pound, and the reduction on the bulk of the sugar imported is ⅜ of a cent per pound. These reductions might be expected to make themselves felt in cheapening prices, but whether the effect will be immediate or not remains to be seen, as it is claimed that a large part of the stock on hand in these articles has been laid in at the old rates. On the other hand, however, it may be urged that nothing except goods actually needed for consumption has been taken out of bond for the past two months, and therefore the stocks on hand with the dealers ought to be proportionately light. There are important changes also relating to iron and steel, steel getting more protection and pig iron less protection than by the old tariff. The change on steel rails is an addition of about five dollars per ton. When steel rails were first imported their cost abroad was £18 per ton, and at 45 per cent. the duty was $40 per ton; while now they are bought, or invoiced to agents rather, at £10 per ton, making the duty $22 50 nearly. By the tariff come in force now the rate is one and one-fourth cents per pound, or $27 per ton. On pig iron the duty, fixed in 1864, is nine dollars per ton, and now it is to be $7, which is to some extent neutralized by the maintenance of the former rate eight dollars per ton on old rails, or "wrought scrap-iron," as it is called in the law. "Cast scrap-iron" is to pay but six dollars per ton by the new law instead of $8, but the importation is of no consequence as to quantity. Worn rails, shipped from English and other foreign railroads, have come in immense quantities during the past five years. There are very considerable changes on brandies, wines, and other spirits, also.

SINGULAR ACCIDENT—*A Man Shoots Himself with a Pistol Cartridge from a Tobacco Pipe.*—A correspondent of the Somerset (Pa.) *Democrat* says one of the most singular accidents ever heard of recently occurred near Ursina, on the line of the Cumberland and Pittsburg Railroad. A man named Thomas Flanagan, a foreman on the works, took his pipe from his pocket, in which was a small pistol cartridge, which, it is supposed, got into the pipe, and Mr. Flanagan, not noticing it, filled the pipe with tobacco and commenced puffing away. After smoking for some time the fire reached the cartridge, which exploded and took an upward courses striking the unfortunate man in the temple over the right eye, cutting an ugly gash and filling his eyes with the ashes and tobacco from the pipe. A number of persons were in the house at the time, and all thought the report was occasioned by a shot fired from the outside. Mrs. Tissue (a lady in the house) fainted, and it was sometime before the real cause of the accident was discovered. Dr. Harrah was called, and attended the wounded man, and he is doing well.

THE TERRITORY OF NEW MEXICO.—It is stated that New Mexico is growing rapidly, and will soon ask for admission to Congress. This Territory, which was formerly one of the States of Mexico, lies south of Utah and west of Kansas. There are many Indian tribes located there, numbering in all thirty or forty thousand souls. The greater portion of the Territory is mountainous, though there are tracts along the banks of rivers of great fertility. The Spaniards visited New Mexico nearly a century before the settlement of Plymouth, and settlements were made by them nearly three centuries ago. The Territory was conquered by the United States troops during the Mexican war, and was ceded to the United States by the treaty of 1848. A large portion of the white inhabitants are of Spanish descent.

TUNNEL UNDER THE DELAWARE RIVER.—The Philadelphia *Press* of yesterday says:

Now that the Mont Cenis Tunnel has been proved a success, and the Hoosac one is rapidly approaching completion, the project for tunnelling the Delaware between this city and Camden should be revived. The bridge, between the two cities will never, in all probability, be built. The opposition to it from our merchants and others doing business along the Delaware, as well as property owners in the suburban sections of the city, is too great to ever allow it to interrupt the navigation of the river and to build up Camden at the expense of our own city. The tunnel will cost us no more than the bridge and will serve the same end. Surely, when competent engineers assert that the English Channel can be tunnelled, there should be no doubt of the success of this scheme.

CARL SCHURZ, the talented United States Senator, occupies at this time in Missouri very much the same relation to the Democracy of that State that Governor Swann occupied towards the Democracy of Maryland in 1866, and it is not unlikely that the course of the talented German will take the same turn as that taken by the sagacious Governor. Both were ardent Union men. Both took a very prominent part in restoring the elective franchise to the proscribed Democrats of their respective States. Gov. Swann's action gave Maryland permanently to the Democratic party. Mr. Schurz's action has rehabilitated sixty thousand disfranchised Democrats, and will give the State permanently to the Democratic party. Gov. Swann had the sagacity to perceive that his political future could only be assured by identifying himself with those he had so materially served. His reward has been all that he has asked. Mr. Schurz can have no political future in Missouri except it comes of the free gift of the Democratic party. He has great influence with the Germans, and in the Democratic party he might become a power in the country far excelling anything yet attained by a naturalized citizen. His recent speech in the Senate arraigning the Republican party for its want of consistency, its intolerance and its flagrant corruptions, and his subsequent vote against President Grant's pet San Domingo swindle, gives reason to hope that he intends to keep on the right track. Every blow he aims at the Radical party before the public announcement of the severance of his relations to it, is worth thousands of votes to the Democratic party. When he strikes the final and crushing blow at it, it will create a political earthquake throughout the West and the Northwest, and his popularity with the Democracy of Missouri will be without a peer. The Brown-Schurz movement in Missouri was the most important political event of the past year.

UNITED STATES SENATOR FROM DELAWARE.—A letter from Dover to the Wilmington *Commercial* says:

The Senatorial contest is waxing warm in Lower Delaware, and as New Castle has now one of the Senators, it is considered that she has no "put" in the matter except to vote for one of the rival candidates of the Saulsbury party. Willard being in possession of the prize, which is considered "nine points in law," does not feel disposed to relinquish it; while Gove is just as determined to wrest it from him. All intimations in favor of Judge Houston or J. Glancy Jones are now treated with indifference by the knowing ones, and unless something unforeseen turns up the honor for another six years will still remain in the house of Saulsbury.

MIFFLINTOWN, Pennsylvania, a village on the Juniata river, 43 miles northwest of Harrisburg, suffered from a great fire on Saturday night. Seventy buildings in the centre of the town were burned, and the loss of property is nearly $200,000. Four steamboats were burned on the same day at New Orleans, and the steamship De Soto, while passing down the Mississippi, was destroyed by fire.

A Farm for Sale.

THE undersigned offers for sale his FARM situated in Caroline county, Md.,

Containing 140 ACRES

More or less. It lies on the public road between Denton and Greensboro', within two miles of the latter place, and within 1½ miles of Greensboro Station on the Md. & Del. Railroad.

Oct. 22, 1870. Chestertown.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.

A LECTURE TO YOUNG MEN.

Just Published in a Sealed Envelope. Price 6 cts.

A LECTURE ON THE NATURE, TREATMENT AND RADICAL Cure of Spermatorrhœa, or Seminal Weakness, Involuntary Emissions, Sexual Debility, and Impediments to Marriage generally; Nervousness, Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, resulting from Self-Abuse, &c.—By ROBERT J. CULVERWELL, M. D., Author of the "Green Book," &c.

The world-renowned author, in this Admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicines, and without dangerous surgical operations, bougies, instruments, rings, or cordials, pointing out a mode of cure at once certain and effectual by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically. THIS LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers,
