Resolved unanimously, that it is apparent that while the ordinary revenues of the Church appear to be adequate to defray the ordinary Charges, a debt exists to the amount of near nine hundred dollars, contracted four or five years since, in part for the erection of the Parsonage, for the payment of which the Vestry have no resource but in the liberality of the Members of the Church — therefore

Resolved that Jarvis Spencer and Joseph I Merrick be and they are hereby appointed a committee, charged to lay before the necessity of the case before the members and friends of the said church and to cause them to be called upon for such contributions as they may be willing to make for the payment of the debt —

Resolved that the subscription be not obligatory upon any unless the full

required sum be contributed, and that it will be payable in equal instalments on the first day of May and November next

The Vestry then adjourned to meet at the parsonage on the 24 Inst.
