Peach Trees!

I HAVE FOR THE FALL OF 1905 a Most SELECT LOT OF

PEACH, PEAR and APPLE TREES

And a FEW CHOICE GOOSEBERRY PLANTS.

These Peach Trees are grown on the Cumberland Mountains, in the State of Tennessee, from WILD PITS, where yellows, rosette, crown gall and the San Jose scale are unknown. These trees will be re-examined here by the State authorities, so the purchasers will know absolutely they are in PERFECT CONDITION. Trees will be true to name.

HARRY L. BOYD,
CHESTERTOWN, - - MARYLAND.

M. KRAMER, The New Blackiston Building

ROCK HALL, MD.

THIS ADVERTISING is a sort of mutual affair, which has a tendency to strengthen the confidence which must exist between the seller and the buyer. Little profits and judicious advertising is the foundation upon which a successful business can be built. We call the KENT NEWS readers attention to our special sale of MEN'S AND BOYS' CLOTHING. A summer suit at reduced prices right in the height of the season is somewhat of an innovation, yet a call for these goods will convince you that they are extra values at our reduced prices. Then our SHOE BUSINESS is a hobby of ours. We try to keep the Shoe to please each and every patron. This necessitates us to carry a very large stock of shoes, and from this stock the most fastidious can be suited.

We carry a full stock of MEN'S HATS, LADIES' AND GENTS' FURNISHINGS, DRY GOODS OF EVERY DESCRIPTION, CARPETS, MATTINGS AND OIL CLOTHS. A nice line of GENERAL MERCHANDISE.

We hope to receive a liberal share of your patronage in the future.

We are yours for business,

M. KRAMER, = ROCK HALL, MD.

Now For Your Feet

When you want a shoe for any occasion you want one that is "Just Right" not "nearly so" nothing but "just right" suits and nothing but giving satisfaction suits us, that's why we take pleasure in offering you our new spring styles, made on custom shaped lasts with the "Just Right" details that make them a winner. We have all kinds and grades in great variety in Pat Colt, White Canvass and Russett in Oxfords and high cuts. The only place in town where you can buy the celebrated W. L. Douglass Shoes for men and boys. White Canvass, Tan Shoes and Oxfords are the "right thing" this season. My stock in these is all new, every pair of them.

Buy Your Shoes From The Shoe Man

Under Stam's Hall.

where you can always find a large line to select from. Fifteen years experience in the business. One price to all. Prices the lowest. If you wish to be strictly in it this summer you will have to have a pair of white and tan shoes—8 styles in white and 20 styles in tan.

Thomas G. Wroth,
The Shoe Man, Under Stam's Hall.

THE MODERN WAY.

HENRY L. DAVIES, 825 NORTH MOUNT STREET, BALTIMORE.

A very great change has come in this age,
Since you and I were boys;
When boys knew scarcely anything,
Except to romp and make a noise.

We thought that the older a man became
The greater his title to honor and fame;
We had never heard of this modern reform,
That when a man becomes old he needs chloroform.

We thought that wisdom came with age,
That only an old man could be a sage;
We did not think the youth "knows it all,"
And shat "after forty" all men must fall.

Ah! John, this change is sad to see,
Boys in many places where men used to be;
Old folks pushed aside, thought to be of no use;
Save to wait on the young and to suffer abuse.

A man prominent in medical lore
Has caused the American people to be very sore;
By saying great good would be performed
If men over sixty were all chloroformed.

What need have we of doctors so skilled
If when over sixty all men should be killed?
Would it not be better to suffer disease
And go to the tomb when God should please?

REV. MR. STRAUGHN ELECTED

Field Secretary Of United Society Of Christian Endeavor.

At the meeting of the Christian Endeavorers held in Pittsburg last Tuesday Rev. James H. Straughn, of the Maryland Annual Conference of the Methodist Protestant Church, was elected field secretary of the United Society of Christian Endeavor. His wife, formerly Miss Clara Morgan, was elected superintendent of the junior work.

Rev. Mr Straughn is now stationed in Lynchburg, Va. He was prominently connected with the Endeavor convention in the city last July as president of the societies of the Methodist Protestant Church. He is a graduate of Western Marvland College in the same class as Miss Morgan. He was also graduated from the Westminister Theological Seminary.

At the meeting in Pittsburg Rev. Hugh L. Elderdice, president of Westminster Seminary, was recommended to fill the vacancy in the board of trustees of the united society caused by the resignation of Rev. George E. McManniman, of Ohio.

How To Cure Cow Peas.

Many of the farmers in Caroline county have planted a large acreaye in cow peas this year, and the crop gives every indication of an abundant yield. The season has been favorable, and the crop generally has made a luxuriant growth. The crop will soon be ready to harvest, and all who have grown cow peas will be interested to know the best means to save it. In answer to an inquiry, Prof. W. F. Massey, editor of the Practical Farmer, gives the following advice: "The time to cut cow peas for hay is when they have pods on them turning yellow. I mow in the morning only, and if the day is hot and drying I rake into windrows in the evening. These should be left lie and be turned the next morning and raked that afternoon. Next day turn windrows with the rake and put the hay into cocks made as narrow and tall as they will stand. When you can take a bunch in the hand and give it a hard twist and can see no sap run to the twist, it is right to go into the barn. It must go in while limp if the leaves are to be saved, and it should not be allowed to heat in the cocks. But haul it in and store it without tramping and then let alone, for it may heat and probably will, but if let alone will cure all right, and if stirred will mould." Prof. Massey is a practical farme of many years experience and is known to many of our farmers.

Dollie Madison footwear is designed for those women who demand superior shoes on the most reasonable price basis. The College Boot is the newest style. Look them up.

Eastern Shore Midget an Accomplished Woman.—Maryland noted for her beautiful daughters, can also boast of having as many small daughters as any other State in the Union. For several years some of the Western Shore counties have claimed "the smallest woman in the State" and, as far as is known, their rivalry still continues, but the champion small woman on the Eastern Shore of Maryland has been found in Kent county. Miss Ruby Sommers, of Rock Hall, is the young woman who can boast of this distinction, being only 3 feet 4 inches in height and tipping the beam at 60 pounds. Miss Sommers was born in Somerset county August 15, 1885, and is therefore 20 years of age. With her parents, she removed to Kent county "when quite small," to use her own words, and her gentle manners and diminutive size have made her a great favorite with almost everyone in the county where she resides. Intellectually Miss Sommers is well able to hold her own with any of her larger Kent county sisters, and she can converse at length upon almost any subject of national or local import. She seems to take more interest in politics than in anything else and eagerly scans the papers to learn the names of the newly elected United States senators from the far off States. Miss Ruby keeps up with the doings of the Maryland politicians, too, and is a good political prophetess. She is an uncompromising republican. Miss Sommers is the daughter of Captain and Mrs. John Davis Sommers and is the youngest of a family of four children. Captain Sommers, her father, is a man of towering height, being over 6 feet, and of muscular build. Mrs. Sommers is a large woman and the three other children are also large. Miss Ruby's good, common sense does not allow her to be sensitive about her tiny features, consequently she is a welcome visitor wherever she is known. She is a graduate of the Kent County High School and is a musician of no mean ability.

—FOR SALE BY—

KILBOURN & WARREN - Fairlee, Md.

WE, FOR THE 60TH SEASON PRESENT

...Our Fertilizers...

TRADE MARK

TO THE FARMERS AND PLANTERS OF KENT and adjoining counties. With pride we say that we are better equipped than ever, this year to give you your money's worth.

Many cannot understand why, after so many years doing business here, that Wilbur W. Hubbard's Fertilizers are more extensively used year after year. But the mystery is solved by a visit to our factory, which is always open for inspection to the public, and those who go down to our works marvel at the pains taken in manufacturing the goods.

First the bone is shoveled in the crusher with a scoop shovel and prepared for the Denmead mill, then it is dissolved, and after getting in good mechanical condition, if making a dissolved bone goods, so many pounds of bone is put in the mixer. The nitrate of soda, fish and high grade potash are added, the whole thoroughly mixed, passed through a phosphate mill and screened and thrown up in bulk, to remain until it is shipped, and then it is bagged in new treated acid proof bags and sent out in splendid shape. We are often asked, "why don't you run the goods when first mixed, right in the bags, and not go to the expense of treating the bags, as do other manufacturers?"

We are often asked if this is not a needless extreme, but we reply—it pays to make the best.

Whilst there is some loss by evaporation by bulking, an additional expense in rebagging and an expense to treat the bags, when we remember that a farmer appreciates a good goods, and in first class mechanical condition it pays to go to extremes as it is impossible to make a first class fertilizer otherwise, and by treating our customers right in their purchases, making the time of payment of the bill to suit them, we have gotten a personal hold upon our trade.

The Fertilizers for 1905 are the best we have ever put out. Each year has its experiences. We learned something in 1904—the users of Wilbur Hubbard's Fertilizers will get the benefit of it. A poor article may sell rapidly for a time if it is pushed energetically, but a record of steady gain over a period of 60 seasons among the same people, can only be achieved by a good, reliable article. You can only judge the future by the past. If you have used Wilbur Hubbard's Fertilizers in the past you may be assured they will give you satisfaction in the future. If you have not tried them, we ask you if a record of Thirty (30) successful years with the farmers of the Middle States is not a sufficient guarantee to justify you in using the goods.

Soliciting your patronage, and thanking all our friends for their substantial support in the past, we remain

Very truly yours,

Wilbur W. Hubbard,
Manufacturer of Standard Bone Fertilizers,
July 15, 1905. CHESTERTOWN, MD.

THERE is something SPECIAL about a Business and Shorthand School that has 115 GRADUATES with a firm in its own city, 30 with a firm in Philadelphia, and which receives students from ten States and the West Indies.
