TRADE

WILBUR W. HUBBARD'S FERTILIZERS

MUST HAVE

Superior quality and absolute Uniformity and Purity. This spring makes their 64th season in business and their trade has increased each year in spite of competition, their sales for the past year having been larger than ever before. Can the sales of an inferior article constantly increase all these years?

Our fertilizers are not better than all others, but they have been, and we are willing for you to try them in competition with any goods on the market.

WE PRESUME

you are now thinking about Asparagus, Corn, Potatoes, Peach Trees and top dressing your hay. Well we have the goods to apply and at all right prices.

BUT FOR TOMATOES

Everybody knows that our Peerless is the goods to use on them, for it has quality and is made of the very best materials known to the trade and one ingredient we use in it is the only phospate that contains this article outside of France where it has been used so successfully in tomato and truck fertilizer.

Mr. Jas. F. David of Smyrna says he grew with it last year the finest tomatoes he ever saw grow he picked a basket that weighed 1½ lbs. each. He grew onions that measured 13 inches in circumference. He grew corn some stalks 13½ feet high and ears 14 inches long. The late Captain Emory grew on one occasion 17 tons per acre. Mr. Zac T. Gilbert grew 19 tons to the acre. Mr. G. W. Collins has bought as high as 50 tons per year, and his men grew from 12 to 15 tons per acre. We have sold already in Anne Arundel county, the lower counties and New Jersey, hundreds of tons. Messrs. Baker and Morgan have bought as high as twelve hundred dollars worth; Captain Dashiel says he would have it if he had to give $50.00 per ton for same. Mr. Joseph Downey says when he was canning that he could actually tell the difference in tomatoes grown with Peerless when brought to his cannery. Mr. Numsen says he knows that tomatoes grown with our goods are fine. Mr. Frank Moore, who runs Assaw Bains & Co's cannery, says the best tomatoes brought there are from Peerless. Mr. Loose, a customer of his, says a ton of Peerless grew him $96.00 worth more tomatoes than another goods costing $7.00 less per ton. Mr. Money says it is certainly good. We could go on, but with a testimonial will close.

Unsolicited some time ago Mr. J. W. Elburn & Son came in our office and said: "I believe your Peerless to be the best tomato goods I ever saw. You remember what an advocate I was of it when I lived out at the mill. Well, wherever I have lived since, on the Western Shore or elsewhere, I would have it, and last year I put some of this same goods on some onions grown from the seed, and they were as fine as Burmudas. Many measured 4 inches in diameter, and I grew over 600 bushels per acre, or at rates of 1162 baskets. I used it on strawberries and picked 8000 quarts per acre."

WILBUR W. HUBBARD,

CHESTERTOWN, MD.

A NATURAL TONE TALKING AND SINGING MACHINE

FREE

ABSOLUTELY. Upon the completion of a $50.00 purchase from our vast stock whether it is Furniture, Carpets, Mattings, Mattresses, Lace Curtains, Portieres Window Shades, Wall Papers, Paints, Leads, Linseed Oil, Window Glass of which we carry in stock about sixty sizes, Oil Cloth or Linoleum. JOHN BARTLEY, Chestertown, Md.

MECHANICAL MILKING.

Cleanliness One Of The Chief Advantages Of New Method.

A study of milking machines carried on at the Kansas Experiment Station discloses the fact that this device, which has only come into extensive use recently, had its first practical application nearly 30 years ago, and that since then over 70 types of machines have been built, besides the innumerable others that have been designed, but have never reached this state of development.

Aside from the score of economy, which does not figure in dairies containing less than 50 cows, the real merit of machine milking versus hand milking is the greater cleanliness of the mechanical operation. In 12 experiments conducted at the Kansas Station milk taken from the milking machine remained sweet for a long time, varying from one to ten hours, than that obtained by hand even when the samples were kept at ordinary temperatures, and when refrigeration preservation was resorted to the relative superiority of the mechanical method was even more apparent.

The cleanliness of mechanical milking is further confirmed by the results of microscopic examination, the number of bacteria per unit being markedly fewer when the milk was drawn artifically.

THE FIRST THUNDER SHOWER.

It came the other evening—the flashf the reverberating roar and downpour o, the first thunder shower—an unquestionable and authentic harbinger of spring. Groundhog signs offer diversion and speculation, the note of the bluebird and robin gives hope, but, however sweet and thrilling their message, it is uttered in faith only and received with misgiving. But the first thunder shower removes all doubt and reaches the heart—relieves the tension and suspense and brings the sense of relief we feel when the shower comes at sundown after a long, heated and weary day. And what music it all is—the roll of the thunder, the patter of the rain and the slop and gurgle of the overflowing eaves and pipes! And after the damp stillness of night morning comes, nature's face washed clean after her long sleep and ready for her season-long day's work. God pity those who lack the capacity to sense the exhilaration and the soul inspiring benediction of the first thunder shower!

ARE YOU RHEUMATIC?

Sufferers from rheumatism are so very numerous that means for their relief are always welcome. A treatment reported as giving remarkably satisfactory results is as follows: From a druggist are obtained tablets compounded of 2½ grains Sodium Bi-carbonate, 3 grains Salicylic Acid and 1 minim Wine of Colchicum. One of these is taken before each meal, followed immediately by a glass of water. After each meal is taken a tablespoonful of a mixture of ½ ounce Fluid Extract of Buchu, 1 dram Fluid Extract of Horse Nettle, 1 ounce Amet Cordial, ½ ounce Fluid Extract of Liverwort and 14 ounces water. This treatment, preserved in for a month, is said to be extremely efficacious, even in most obstinate cases.—X

CASTORIA.

Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

S. SCOTT BECK, WILLIAM W. BECK. } Attorneys.

Order of Publication.

A. W. Emory, John L. Smith, versus Hester Pipes, William Henry Pipes, Carrie Pipes, Samuel G. Pipes, Julie Pipes.

In the Circuit Court for Kent County, in Equity. No. 1613.

The object of this Bill is to procure a decree for the sale of the real estate of Henry Pipes, deceased.

The Bill of complaint of A. W. Emory and John L. Smith, by Wm. W. Beck and S. Scott Beck, their solicitors, respectfully shows.

That Henry Pipes was in his life time indebted unto your orator, A. W. Emory, in the full and just sum of twenty eight dollars and thirty-five cents, with interest thereon from the 2nd day of March, 1901, upon a balance due on open account which account is filed herewith and marked Plaintiffs Exhibit No. 1.

That the estate of Henry Pipes is indebted unto your orator, John L. Smith, in the full and just sum of twenty dollars with interest thereon from the 16th day of October, 1899.

Upon a balance due on open account for the burial of said Henry Pipes which account is filed herewith and marked Plaintiff Exhibit No. 2.

That the said Henry Pipes being so indebted unto your orators as aforesaid and also unto divers other persons, and having Real Estate of some value, but no personal estate sufficient to pay his debts, departed this life in the year 1899, leaving a widow, Hester Pipes, who lives in Millington, Kent county, and the following children survive him as heirs at law:—William Henry Pipes, who married Carrie Pipes, both of whom are non-residents of this State and reside in the city of Wilmington, State of Delaware, and Samuel G. Pipes, who married Julie Pipes, both of whom are non-residents of this State, and reside in the city of Philadelphia, State of Pennsylvania—

And that the said Henry Pipes left a last will and testament which was probated in the Orphan's Court of Kent County aforesaid on the 30th day January, 1906—

A copy of which is filed herewith and marked Plaintiffs Exhibit No. 3—

And your orators are informed and believe that the said Henry Pipes left a small and insufficient personal estate for the payment of his debts, and that letters of administration have never been granted on his estate, and your orators are advised that in order to pay their claims and the other debts due from the said Henry Pipes, it is necessary for the said real estate to be sold, which said real estate is in the First Election District of Kent county aforesaid, on the left side of the public road leading from Millington to Smyrna, Delaware, and adjoining the property of Samuel Hines and others, containing two acres of land, more or less, which property was conveyed to the said Henry Pipes by Isaac M. Jones, administrator of Thomas McLaughlin, by deed dated the 18th day of October, 1873, and recorded in Liber J. K. H. No. 12, folio 427, etc., and there is nothing else out of which your orators can secure the payment of their claims.

To the end therefore, that the said real estate of the said Henry Pipes, deceased, be sold for the payment of your orators' claims, and the other debts which may be due from the said Henry Pipes, and that your orators may have such other and further relief as their case may require.—

It is thereupon this 9th day of April, 1907, ordered by the Circuit Court in Equity that the complainants, A. W. Emory and John L. Smith by causing a copy of this order to be inserted in some newspaper printed and published in Kent county, Maryland, once in each of four successive weeks before the 18th day of May next, give notice to the said non-residents defendants, Wm. Henry Pipes and Carrie Pipes, his wife, Samuel G. Pipes and Julie Pipes, his wife, of the object and substance of this bill, and warning them to appear in this Court in person or by solicitor on or before the 30th day of May, next, to show cause, if any they have, why a decree ought not to be passed as prayed.

JAMES T. DIXON, Clerk.

True Copt—test: JAMES T. DIXON, Clerk.

MRS. C. E. FINK

HEALTH OF WOMEN

In this nineteenth century to keep up with the march of progress every power of woman is strained to its utmost, and the tax upon her physical system is far greater than ever.

In the good old-fashioned days of our grandmothers few drugs were used in medicines. They relied upon roots and herbs to cure weaknesses and disease, and their knowledge of roots and herbs was far greater than that of women today.

It was in this study of roots and herbs that Lydia E. Pinkham, of Lynn, Mass., discovered and gave to the women of the world a remedy more potent and efficacious than any combination of drugs.

Lydia E. Pinkham's Vegetable Compound

is an honest, tried and true remedy of unquestionable therapeutic value.

This medicine made from native roots and herbs contains no narcotics or other harmful drugs and today holds the record for the largest number of actual cures of female diseases of any medicine the world has ever known, and thousands of voluntary testimonials are on file in the laboratory at Lynn, Mass., which testify to its wonderful value.

Mrs. C. E. Fink, of Carnegie, Pa., writes:—Dear Mrs. Pinkham:— "I wish every suffering woman would take Lydia E. Pinkham's Vegetable Compound and write to you for advice. It has done me a world of good and what it has accomplished for me I know it will do for others."

When women are troubled with Irregularities, Displacements, Ulceration, Inflammation, Backache, Nervous Prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Out of her vast volume of experience she probably has the very knowledge that will help your case.
