FARMERS' DEPARTMENT.

"He who by the plow would thrive,
Himself must either hold or drive."

To Exterminate Rats.

Being sadly plagued with rats about my house and farm buildings, I tried in vain to catch them; they are too cunning to be trapped, and to lay poison I dare not for fear of killing my dogs, cats and hogs, and to wait for them with my gun was a loss of too much time, though I have dropped three at a shot. At last I purchased two goats, which I kept about my fold, barn and stables, the pigstyes being in the fold. In a short time all the rats emigrated—they evacuated the place, cleared right out, every Jack of them, and I have not seen a single rat about the place for upwards of three years, but my neighbors who are within eighty rods have plenty of all sizes and ages.—Perhaps it is not generally known that where there are many horses stabled together very little sickness prevails, if there is a goat kept about the yards and stables.

A friend of mine in Iowa was so infested with rats that they were to be seen running about his fold and farm buildings by the half dozen at a time, and playing like rabbits, (his farm buildings are extensive.) He tried the goat system, and all the rats to his astonishment have entirely quit his premises. He could not leave a rug or buffalo robe in the stable a single night without having it cut to pieces by the rats. The smell of a goat is obnoxious to the nostrils of rats, and the two won't be friends and companions on any account whatever.—Farmers and livery stable keepers, try the goat, and if it don't answer all expectations, write and blame John Whatmore, Bridgenorth Farm, Ill.—*Ger. Tel.*

What an Englishman Says.—Mr. W. Robson, of London, England, an associate editor of *The Field*, is traveling in the United States, and recently in a letter to *Hearth and Home* expresses himself delighted with the abundance and size of our fruit. He complains of the lack of gardens, and says that he has seen houses in nearly all parts of the country that he has visited "as bald and bare, and uninviting, from the absence of any trace of a garden, as the flank of any grim sea rock."

Of the American climate he says: "O, Americans, never blame the climate, for it is an admirable one. The succulent vegetables of the old world grow here, with very few exceptions, and by their side you gather the ears of the stately and graceful maize—most useful of its wonderfully useful family. Muskmelon, better than those which cost an English country gentleman six dollars each to produce in hotbeds and in glass houses, grow side by side with your delicious sweet potato, which I used to grow as a curiosity in a hot-house.

Our old popular Williams' pear (you call it the Bartlett,) larger sweeter, and more golden than with us, falls by the side of egg plants, with fruit so large as to be a constant source of surprise to me, who had often grown the fruit to the size of a turkey egg in hot-houses in England. Rosy cheeked English apples are seen above the quaint, large flower of the okra, which to us is an impossible exotic. Blessed be every variety of climate, and with its people not hedged out from each other's improvements by strange tongues. I look forward to the time when this vast country shall be more famous for rural beauty than for the wealth of her many cities."

Use of Bumble Bees.—Boys think it glorious fun to fight bumble bees, but they should not be encouraged in the warfare. Bumble bees, like all the *hymenoptera*, play an important part in the great field of nature. The vein winged insects, which fly from flower to flower, do not injure or destroy the flowers, but make them productive by distributing their pollen. They also rid us of our innumerable, noxious caterpillars and other insects, which they convert into wholesome food for their offspring. The ordinary honey bee performs its work well in the fertilization of white clover, but its probosis is not long enough to enable it to reach the nectaries of red clover. For the fertilization of the red clover we must rely to a great extent upon the bumble bee. Darwin has called attention to the intimate connection between the number of cats in a given district and the yield of red clover seed. The mice destroy bumble bees, and the cats destroy the mice; therefore the more cats the more bumble bees, and the more bumble bees the greater is the red clover yield. In order to make the red clover grow more abundant in New Zealand than it does, some enterprising gentlemen are talking of importing colonies of bumble bees from England. Boys will thus see how earnestly the bumble bee is desired in countries where he works not. Then should we not protect what we already have, and which performs such important services in our fragrant meadows?

Sodding.—Thousands of dollars are expended every year in sodding spaces in yards, gardens, &c., where hundreds of dollars would more than pay and secure a much better sod. Instead of hauling turf sometimes for a mile or more, containing generally old weeds and varieties of coarse grasses which injure the appearance of the grass-plat, prepare the ground as for a garden crop and sow the fine mixed seeds prepared for lawns, and to be purchased at the agricultural and our best grocery stores. In a month the plat will be a beautiful fresh green, and in two or three months it will be all that the most fastidious could desire, and incamparably superior to any old turf.—Such a grass plat or lawn can be secured with a tithe of the trouble and expense of the old, worn out weedy soil.

—*Germantown Telegraph.*

Accidents.—When a horse falls while drawing a vehicle—

1. Jump down and hold the animal's head, to prevent him from dashing it about to his own injury.

2. Loosen the check rein, (if you are so foolish as to use one,) and the parts of the harness which fasten on the vehicle.

3. Back the carriage so as to get the shafts and traces clear.

4. Steady and support the horse's head, and excite him, with hand and voice, to rise.

5. When you have got him up, pat and encourage the poor animal, and see if he is wounded or otherwise injured.

6. Let him stand still a short time to recover himself, and then proceed gently, and with greater caution than before.

Ducks are said to do good service in exterminating the potato bug. A gentleman of Piqua, Ohio, put a pair of Muscovies into his potato patch, which was literally swarming with the bugs.—The ducks ate the bugs with such avidity that the latter were soon exterminated, and the patch has not since been troubled with them. The ducks did not appear to suffer any ill effects from eating the bugs, and were not slow in "taking in" all that they could discover. The duck remedy is certainly worthy of attention.

Clear and Harmless as Water!

NATTANS' CRYSTAL DISCOVERY

FOR THE HAIR!

A PERFECTLY clear preparation in one bottle, as easily applied as water, for restoring to gray hair its natural color and youthful appearance, to eradicate and prevent dandruff, to promote the growth of the hair and stop its falling. It is perfectly harmless and entirely free from any poisonous substance and will therefore take the place of all the dirty and unpleasant preparations now in use. In everything in which the articles now in use are objectionable, CRYSTAL DISCOVERY is perfect. It is warranted to contain neither Sugar of Lead, Sulphur, Lithurage, or Nitrate of Silver. Bear this in mind when you want anything for your hair.

Clear and clean as water, it does not soil the scalp or clothes, is agreeably perfumed, and makes one of the best dressings for the hair in use. It restores the color of the hair more perfect and uniformly than any other preparation, and always does so in from 3 to 10 days. Virtually feeding the roots of the hair with all the nourishing qualities necessary to its growth and healthy condition, it restores the decayed and induces a new growth of the hair more positively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp and gives the hair a glossy appearance.

☞ We call especial attention to the fact that a limited number of trial bottles will be given away gratuitously to those desiring to try it. You will notice that in pursuing this course our aim is to convince by the actual merits of the article. ARTHUR NATTANS, Inventor and Proprietor, Washington, D. C., to whom all orders must be addressed.

WASHINGTON, D. C., Aug. 5, 1870.

Mr. Arthur Nattans:

Dear Sir—I do not hesitate to say that your Crystal Discovery deserves to supercede all other preparations claiming to restore the growth and color of the hair. I have used it a week now, and my hair has already returned to its natural color, and has ceased falling almost entirely. I cheerfully recommend it.

Respectfully,
fe11y. MRS. ANNIE MORRAIN.

For Sale by C. F. STAM & BRO.

HALL'S Veg. HAIR RENEWER, Cheveliere's LIFE FOR THE HAIR, MONTGOMERY'S HAIR RESTORER, AYER'S HAIR VIGOR, and BURNETT'S ROLLISTON, For sale at WICKES' DRUG STORE.

A NEW ERA IN BELTING.

PAGE'S PATENT Tanned Leather Belt.

Tanned in Oil and by the same process as Lace Leather, by PAGE BROS., inventors and manufacturers of the celebrated Page's Lace Leather.

These Belts are perfectly soft, and hug the pulley like pure rubber, thus giving 25 per ct. more driving power than any other belt.

They also have eighty per ct. more strength than the best oak-tanned belts.

They have been placed on pullies running 9,000 turns per minute, and in places where all other belts have failed, have given entire satisfaction, outwearing every other belt 50 per ct.

The fact that they are driving out of the market in the East, very fast, the other kinds of belt, is sufficient testimony.

All the large Eastern Factories now use them.

The following are a few of the many testimonials we have received:

Messrs. Charles E. Inloes & Co.:

Gents:—We have been using Page's Patent Belt in our factories for over a year, and believe it to be the best and cheapest belt made. Best, because it is stronger and more durable than oak-tanned; and cheapest, because its adhesive qualities give it so much more driving power. Very respectfully,
R. H. THOMPSON,
Sup't Union Mfg. Co. of Maryland,
Ellicott's Mills.

Messrs. Charles E. Inloes & Co.:

Gents:—The fourteen-inch Page's Patent Belt, bought from you, has been in daily use ever since, and gives perfect satisfaction, and you are at liberty to use our name in endorsing the qualities you claim for it, in every respect, as we believe it to be the best Belt made, and shall adopt it altogether in our mills. Very truly,
W. W. TUNIS & BRO.,
Oakland Steam Saw Mills,
Talbot Co., Maryland.

The following are a few of the parties now using it in Baltimore:

R. Sinclair & Co.,	Murrill & Keiser,
W. E. Hooper & Sons,	W. Wilkens & Co.,
Magne & Chipman,	J. W. Butler & Co.,
Liberty Mining Co.,	Johnson & Waters,
P. S. Chappell,	L. M. Beebe & Bro.

Congressional Globe Printing Office, Washington.

The Laps are all short, and besides, the usual copper rivets and glue are fastened by two rows of pegs guaranteed not to come out, which is a great advantage.

Send for circulars and price lists to—

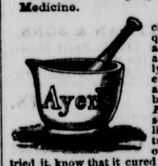
mh28. THOMAS B. BORDLEY.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.



Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia or Indigestion, Listlessness, Languor and Loss of Appetite,** they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers,** they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa,** but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins,** they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

COUGHS, SORE THROAT, ETC.

No Medicine or Treatment can excel the Powerful Curative Power of
DR. SIMMS' WHITE PULMONIC BALSAM.

It cures with a rapidity unequalled by any other remedy offered for Throat and Lung diseases. It is recommended by over 2,000 persons in Wilmington, and hundreds in Philadelphia, Baltimore and other cities and communities throughout the country. Mr. Pennington, of Wilmington, Illinois, writes that there is not (with a few exceptions) a family in that city who will be without it if possible to procure it. Such is its popularity wherever it is known—and this popularity arises from the fact that it universally cures all who use it. There is no case of *Coughs, Colds, Sore Throat, Asthma, Bronchitis, Croup, Blood Spitting, Hoarseness,* and even *Pulmonary Consumption,* where the system is not broken down with the wear of the disease, or pretended medicine, or inexperienced advice, that this Balsam will not cure if carefully used, according to directions. We guarantee it all we represent it to be, and invite a trial from the afflicted everywhere. Price, 50 cents, medium size, and $1 for large size bottles. Prepared only by
