THE Republicans actually lost *one* ward in the city election in Philadelphia last Tuesday. The "City party" elected Mr. Bayard Henry in a poll of over ten thousand votes by 200 majority.

IT is time the Legislature had awakened from sleep the Primary Election Law and the Corrupt Practice Act. The people demand the passage of these laws and there is no need for further delay. *Fulfill the party pledges.*

SENATOR CAMPBELL, of Baltimore, nobly came to the relief of Gov. Crothers in his efforts to please everybody, by introducing a bill to increase the number of magistrates in the city from 61 to 97 and notaries from 145 to 245—twenty of the latte may be women.

GOVERNOR CROTHERS has honored Kent County by the appointment of Dr. W. Frank Hines to the Bureau of Immigration. The Doctor is a gentleman of unimpeachable character and a Democrat that loves his State, and will fill the position with honor to himself, his party, his State and Governor Crothers.

WE are glad to be able to state that the depositors of Galena Bank will be paid in full and that payments will begin about March 1st. Cashier Wallis left the employ of the bank Saturday, the unpaid notes having been placed in the Chestertown Bank for collection.

THE condition of Kent's financial institutions as reported by Examiner is very gratifying and there is no need for anyone hoarding money at home. A case was reported this week of a woman hiding money in her garret, but when she had need for it, she discovered that rats had made nests out of the little pieces!

"JUSTICE" GOLDMAN, of Baltimore, is an original office-seeking patriot! Governor Crothers wisely turned him down and now he confesses that he *sold out twice* during the last campaign. He was a candidate for clerk and got "out of the way" of Mr. Pleasants—the candidate against him—and received $1500 for it from the Democratic organization. Then he sold out to the Republicans for $500 to beat Pleasants! That's a sample of graft hard to excel.

ONE of the most curious "farms" in the country is conducted by Miss Abby Lathrop, of Granby, Mass. She has a little place up among the hills, where she raises mice, weasels, ferrets, rabbits, guinea pigs and water rats. She has in her charge, all told, about 2500 animals, and her enterprise has been a success. She has a good market for rabbits and guinea pigs at medical colleges, where they are wanted for vivisection purposes. In one week she sold as many as 525 rats.

MANY people are interested in the fertilizer bill now before the Legislature. It has passed the House and is now in the Senate. A hearing will be given its friends and enemies next Tuesday by the judiciary committee. The bill as passed the House requires that on every bag or package of fertilizers there shall be stated not only the chemical analysis as now required by law, but also the material or materials from which the phosphoric, acid, ammonia and potash are derived, also accompained by a statement of the amount in pounds of each and every ingredient contained therein on a basis of a ton of 2,000 pounds.

REV. NATHANIEL S. THOMAS, rector of the Church of the Holy Apostles, in Philadelphia is most frequently mentioned as the successor of the late Bishop Coleman.

PARENTS cannot be too particular in restraining their boys from smoking cigarrettes. If they *must* smoke buy them a cigar. The cigarrette saps the mind and destroys health. Examples of their ill effects can be found right at our doors.

NO MORE important matter will come before our present Legislature than that of public road improvement. Governor Crothers deserves credit for the great interest he has taken in the matter, and a number of the most intelligent members of both houses are carefully considering the plans suggested. It is to be hoped that whatever system is adopted it will be based upon common sense and available resources. Don't jump "out of the frying pan into the fire," by loading on the counties a system of theoretical road making costly to execute and impracticable to keep in repair. Let us have an improved system, and that at the earliest date possible.

ALL HONOR TO GOV. CROTHERS!

Gov. Crothers sent in the last of his nominations on Wednesday night. It was a grave and arduous task he had to perform but his closest friends believed him equal to the task. And so he was found to be. His selections for the important city boards seem to be almost universally satisfactory. Not that everybody was pleased. That would be an utter impossibility. But his selections in every case are of the highest character. He could not give everybody an office, but those he did favor were first class in this respect is creditable alike to his head and heart and will redound to the good of his party throughout the State.

THE employes of the Mutual Reserve Life Insurance Company, of New York, with a few exceptions, were dismissed when they showed up at the company's office Wednesday. This was done by orders of the receivers who were appointed last Saturday.

One of those who were dismissed was George D. Eldredge, who has been regarded in insurance circles as the backbone of the company and one of the best known actuaries in this county. It was brought out at the time of the Armstrong investigation that he drew a salary of $31,000. The receivers were appointed just when Mr. Eldredge had about completed a plan for changing the methods of the company in collecting premiums.

Another who resigned was George W. Harper, the treasurer, and Mr. Allie Hyland, of Kent, and he had been connected with the company for over fifteen years. "While the employes have been hard hit," said one of the younger officers, "they are not the only sufferers. Perhaps those that feel it most are the persons who have death claims unpaid as yet."

ANNAPOLIS NEWS.

The greatest move for local option in Maryland for many years was made Tuesday. The results will not show for several weeks. With little white banners bearing the legend "We Want Local Option" fluttering from coats and shirtwaists an army of ministers, laymen and women moved on Annapolis, 1,700 strong, filled the House Chamber of the Legislature to overflowing and pleaded with the Temperance Committee to favorably report the Local-Option bill.

Senator Price, of Wicomico, has introduced a bill providing for the electrocution of all persons who under the present law meet death by hanging as a penalty for their crimes. The electrocution is to take place at the Maryland Penitentiary, where convicted persons are to be conveyed from the counties. To prevent the law from being retroactive it will not take effect until June 1, 1909. Such a law is in force in New York and New Jersey.

Many farmers in Kent express the opinion that the fertilizer bill now before the Legislature is not practical. It would require additional expense on the manufacturer, which, of course, would entail more expense on the farmer without any better results.

A subscriber writes suggesting that our county be provided with legislation allowing our authorities to employ on the roads all the able-bodied prisoners confined in jail, and notes the fact that at this time there are a half dozen strong negroes in that institution doing nothing, each one costing the county at least fifty cents a day. Such a law has effected a saving in many communities, and would do so in Kent county, it is claimed. Instead of a loss for board for the three prisoners there would be a gain of perhaps $3 every day they could be employed at work on the public roads. This saving would be appreciated by the tax-payers, no doubt.

A bill was presented in the house by Mr. Harris, of Kent county, extending the charter of the Kent and Cecil Light Power and Railway Company. The charter was originally granted in 1904, and was limited in its operation to five years. The railroad provided for under the bill is to be constructed within five years. Otherwise the powers and privileges conferred are revoked. The company is authorized to manufacture and sell electricity.

At the request of several members of the bench and a number of prominent lawyers, President Seth, of the Senate, introduced a bill allowing the court, in its discretion, to sentence a person found guilty of murder in the first degree to life imprisonment in the Penitentiary, as well as the right to sentence such persons to be hanged.

In the Circuit Court for Kent County In Equity. No. 1646.

THE object of this bill is to procure a decree for the sale of the real estate which Robert A. 25,000 Telegraph Operators

WANTED IMMEDIATELY

The great railroad sytems and commercial telegraph companies need more operators and the demand is growing continuously. The pay has nearly doubled within the past year and there is not a first-class operator who wants work out of employment to-day.

Telegraphy is one of the very best professions and the best stepping stone to positions of commercial and business influence. Operators receive salaries ranging from $40 to $225 per month and thousands who started as operators are now receiving salaries of thousands of dollars annually. More than half the great railroad officials began as operators. Hundreds of them have become bankers. At one time the Senate of the United States had six members and a score of clerks at salaries ranging from $2,500 to $5,000, all of whom began life as operators. Andrew Carnegie and W. H. Oliver, world-famous as successful business men, began as telegraphers, as did also Thomas A. Edison and hundreds of others.

Young Man, If You Want an Easy Pleasant and Profitable Position,

LEARN TELEGRAPHY—The Principal of the Atlantic Telegraph Institute has taught scores of operators and not a single one is now unemployed. During his twenty odd years of service as a telegrapher he has managed offices for the Western Union and Postal Telegraph Companies, and the Pennsylvania Railroad Co., and during the last administration of President Cleveland was the official telegrapher of the U. S. Senate, in which position, by unanimous endorsement of the Senate (with but a single exception) he was continued under President McKinley until forced by sickness in his family to relinquish the work.
