I hereby certify that the above is a list of the Registered Voters of the Fourth Election District of Kent county, as corrected by me on the 16th, 17th and 18th days of September, 1872.

J. EVAN THOMAS, Reg'r.

Wheat Growers—Do not jeopardize your crops this year, by using untried fertilizers.—The "Excelsior," manufactured by J. J. Turner & Co., has been used successfully for the past thirteen years, and it is the best.

Wheat Seeding.—The U. S. Commissioner of Agriculture in his 1870 report says, "J. J. Turner & Co.'s Excelsior, made in Baltimore, is used to a greater extent (in Maryland and Virginia) than all other Fertilizers combined, and has retained the good opinion of farmers longer than any other fertilizer.

"Applied at the rate of 150 pounds per acre, it hastens the ripening of Wheat about 5 days and benefits the succeeding crop of clover 30 per cent."

Valuable Hints.

A regular habit of body is absolutely essential to physical health and clearness of intellect. Nor is this all. Beauty of person cannot co-exist with an unnatural condition of the bowels. A free passage of the refuse matter of the system through these natural waste pipes, is as necessary to the purity of the body as the free passage of the offal of a city through its sewers is necessary to the health of its inhabitants.

Indigestion is the primary cause of most of the diseases of the discharging organs, and one of its most common results is constipation. This complaint, besides being dangerous in itself, has many disagreeable concomitants—such as an unpleasant breath, a sallow skin, contaminating blood and bile, hemorrhoids, headache, loss of memory, and general debility.

Hostetter's Stomach Bitters remove all these evils by removing their immediate cause in the digestive organs, and regulating the action of the intestines. The combination of properties in this celebrated preparation is one of its chief merits. It is not merely a stimulant or a tonic, or an antibilious agent, or a nervine, or a blood depurent, or a cathartic, but all these curative elements judiciously blended in one powerful restorative. It lends activity and vigor to the inert and enervated stomach, relieves the alimentary canal of its obstructions, and gives tone to the membrane which lines it, gently stimulates the liver, braces the nerves, and cheers the animal spirits. No other remedy possesses such a variety of hygienic virtues. It is to these characteristic virtues that it owes its prestige as a household medicine. Experience has proved that it is as harmless as it is efficacious, and hence it is as popular with the weaker sex as with the stronger.

Hostetter's Stomach Bitters are sold in bottles only, and the trade-mark blown in the glass and engraved on the label is the test of genuineness. Beware of counterfeits.

STATE SCHOLARS
—TO—
ST. JOHN'S COLLEGE.

A Competitive Examination for filling of vacant Scholarships in St. John's College will be held at the School Room, in Chestertown, on

Tuesday, September 24th, 1872,

AT 11 O'CLOCK, A. M.

The Act recently passed by the General Assembly provides that Six students from each Senatorial District in the State shall be educated free of charge for tuition, room rent and use of text books; and that these students shall pay $200 each for board, fuel, lights and washing. The Act furnishes board, fuel, lights and washing to two of this number of students, who are to be appointed by the Board of School Commissioners, after a competitive examination of the candidates—the appointments being subject to the approval or disapproval of the State Senator.

Special attention is called to the fact that the Act requires that these Students be prepared for the Collegiate course, and that they will not be received free of charge into the preparatory department of the College.

That they will be required to pursue the regular academic course as specified in the catalogue of the College, and will be examined for entrance into the Freshman Class upon the following studies: English Grammar, United States History, Ancient and Modern Geography, Arithmetic, Algebra, to quadratic equation; Geometry, first book; Hadley's or Kuhner's Greek Grammar, Greek Reader, Xenophon's Anabasis, Harkness' or Allen's Latin Grammar, Caesar's Commentaries, or some equivalent; Sallust's Virgil, Latin and Greek Compositiou.

That they must give bond to the amount of $750. This bond must be executed by the successful candidate, with at least two sureties (one of whom is to be the parent or guardian, if any) and is to the effect that he will teach school within this State for not less than two years after leaving College; and should any student neglect or refuse to teach the length of time required by this section, his bond shall be liable.

That he will present himself at College for examination on Monday, September 30th, and Tuesday, October 1st.

CHARLES G. RICAUD,
Sept. 7, 1872—tde. Examiner.

To FARMERS!
PACIFIC GUANO COMPANY'S
Soluble Pacific Guano!

THE attention of Farmers and other consumers of Fertilizers is invited to this Guano, as worthy of their especial notice. Its use for several years in Maryland, Virginia and other Southern States for all crops, has given it a standard character for excellence unequalled by any other.

It possesses all the QUICKNESS of Peruvian Guano, with PERMANENT QUALITIES not found in that article. 250 lbs. of this Guano are found more than equal to 300 lbs. of the best Super Phosphates.

It RIPENS the crop from five to seven days earlier than the Phosphates, which feat alone gives it incalculable advantages.

The Great Fertilizer.

WHANN'S
RAW BONE SUPER PHOSPHATE.

FARMERS who are about purchasing Fertilizers for seeding their WHEAT should by all means use WHANN'S RAW BONE SUPER PHOSPHATE, which, for the past ten years, has met with unexampled success on this important crop.

Wheat grown with Whann's Phosphate has a large well filled head, stiff straw, and is far less liable to smut and rust than when grown with stable or other manures.

Whann's Raw Bone Super Phosphate

is a COMPLETE MANURE, containing all the elements needed by growing plants. It is rich in SOLUBLE PHOSPHATES and AMMONIA, and while it possesses the prompt and active properties of *Peruvian Guano*, it has the more durable qualities of *Pure Dissolved Bones* from which it is made.

FARMERS

Who have not yet used WHANN'S RAW BONE SUPER PHOSPHATE,

would do well to try it on this year's crop.—That it has no superior in the market is attested by thousands who have used it.

Pamphlets giving full directions, with testimonials, mailed free on application.
