Miscellaneous Items.

INGENIOUS SEWING MACHINE.—Among the inventions shown in the International Exhibition in London is an ordinary sewing machine from France, the peculiarity of which is that it is driven by the clock work arrangement, which is wound up in the usual way. Fixed on the apparatus, which is enclosed in a case beneath the machine itself, is a set of vanes which can be adjusted at any angle, so that the machine is regulated by the greater or lesser resistance which they offer to the air.—They form, in fact, the governor of the machine. The application is ingenious, and will, of course, save much time and labor, but its price is high.

SUNDAY PROCESSIONS.—The police commissioners of New York recently refused permission to St. Patrick's Mutual Alliance Society to form in procession Sunday for the purpose of participating in the laying of the corner-stone of a church in Jersey City. It had been rumored consequently that the association would parade in violation of the law. Hence a heavy force of police were in readiness for service, but the members of the society, to the number of six thousand, crossed the ferry in groups and paraded in Jersey City. The procession of a society from Brooklyn was disbanded by the police.

ASSESSMENT OF NEW YORK.—The State board of assessment of New York has just finished its labors, and has reported the aggregate equalized valuation of the taxable property in the State at $2,088,627,445; or, real estate, $1,641,379,410, and personal estate, $447,248,035. In New York city and county the aggregate equalized valuation of taxable property amounts to $1,041,253,633, or very nearly one-half of that of the entire State.—In New York the real estate is valued at $734,306,410, and the personal estate valued at $306,947,223.

KENTUCKY SENATOR.—The Hon. Willis B. Machen, who has been appointed by the Governor of Kentucky to fill the unexpired term of the late Garrett Davis in the Senate of the United States, was a member of the Confederate Congress from Kentucky. He is from the first congressional district. Mr. Machen is between 50 and 60 years of age, his hair being well whitened with years, and is of a dignified carriage and impressive demeanor.

THE colored people's Liberal Republican National Convention met at Louisville, Kentuckey, last Wednesday, and passed strong resolutions in support of Greeley and reconciliation and peace.—It is a favorable sign of the times, that the colored people of the country are cutting loose from their slavery to Grant, and asserting their political freedom. Their condition will never be improved while they remain slaves of the Radical party.

R. B. BULLOCK, Georgia's absconding Governor, a London (Canada) correspondent of the New York *World* writes:—"The Governor lives in one of the finest suburban residences about this city.—His house is furnished magnificently, his stallion is of the finest stock, his turnout unsurpassed, and he says he has concluded to make London his residence for the future."

ELECTRIC RAILWAY BRAKE.—Successful experiments have been recently made, it is said, on the North London (England) railroad of a new brake worked by electricity. The invention consits in the application of electro-magnets, exerting a force of 600 pounds to pulleys on a swing shaft underneath the carriages. By merely pressing a key, the guard is enabled to bring the train to a standstill.

THE NAVAL FORCE OF FRANCE.—From statistics recently published it appears that the French fleet now consists of 104 war vessels afloat, of which seven are armor-plated and 73 on trial or in reserve, including 17 armor-plated, making a total of 181. The navy has 27,993 men.

A SHORT time since, Mr. Levin W. Robinson, residing near Denton, while digging muck from the marsh, broke in upon an old tanyard, the vats, &c., being in a good state of preservation. The oldest inhabitants know nothing of its existence.

FALL IN, FALL IN, DEMOCRATS.—Col. John D. Ashton, of Georgia, a distinguished "Straight-out," has thought the matter over, and concluded that it is his duty to support Greeley and Brown.—He gives his reasons as follows:

"I am anxious in this hour of peril, to act wisely; and my judgment convinces me that it is my duty as a patriot to support the adopted candidates of my party and my people. My passions, indeed, rebel, but reason conquers; my prejudices assail, but philosophy defends; my feelings revolt, but faith triumphs. There are three considerations particularly which have great weight with me. First, if Greeley be elected we have every reason to believe that the bayonets now held at a charge to the bowels of our brethren by Scott and his myrmidons in South Carolina will be withdrawn and returned to the arsenal from whence they issued.—Second, that Greeley, inspired alike by gratitude, and justice, will, if elevated to the Presidency by Southern votes, exercise the pardoning power in favor of the unhappy youths and gray-haired old men who now fill a prison, tried without law and condemned without a crime. And, thirdly, that under his Administration the swarm of vampires now sucking the life-blood of the Southern people; the carpet-baggers holding high carnival amid scenes of riot and plunder, and the still baser scalawags, rejoicing in their triumphs over the degradation of their own social order and public tranquility, will be silenced forever, or compelled to flee the righteous indignation of a restored and emancipated people.

"In concluding to vote for Greeley, I am also influenced by a feeling of affection for past associations. My friends, who are honest, brave and patriotic, have almost unanimously determined to support him and however widely I might differ with them, I should think it more probable that one, than a million men, should be mistaken."

Wheat Seeding.—The U. S. Commissioner of Agriculture in his 1870 report says, "J. J. Turner & Co.'s Excelsior, made in Baltimore, is used to a greater extent (in Maryland and Virginia) than all other Fertilizers combined, and has retained the good opinion of farmers longer than any other fertilizer.

"Applied at the rate of 150 pounds per acre, it hastens the ripening of Wheat about 5 days and benefits the succeeding crop of clover 30 per cent."

The Enterprising Firm of HINES & BURCHINAL, Chestertown, are selling "Turner's Excelsior," "Whitelock & Co.'s Phosphate," "Pacific Guano," "Moro Phillips' Eureka," "Excelsior," and "Horner's Pure Ground Bone," and will deliver them either on Chester or Sassafras river. o19.

Wheat Growers—Do not jeopardize your crops this year, by using untried fertilizers—The "Excelsior," manufactured by J. J. Turner & Co., has been used successfully for the past thirteen years, and it is the best.

NOTICE

To Hotel-Keepers, and all others who deal in Liquors.

FOR the information of all persons concerned, the following Act of the Legislature, passed March 24, 1865, is published:

CHAPTER 191.

AN ACT prohibiting the sale of Spirituous or Fermented Liquors in the several Counties of the State on the day of Election.

SEC. 1. Be it enacted by the General Assembly of Maryland, That it shall not be lawful for the keeper of any hotel, tavern, store, drinking establishment, or other place where liquors are sold, or for any person or persons, directly or indirectly, to sell, barter, give, or dispose of any spirituous or fermented liquors, ale or beer, or intoxicating drinks of any kind, on the day of election herein after to be held in the several counties of this State.

SEC. 2. And be it enacted, That any person violating the provision of this Act shall be liable to indictment by the Grand Jury of the County where the offence is committed, and shall, upon conviction before any Judge of any Circuit Court of this State, be fined a sum not less than fifty dollars, nor more than one hundred dollars for each and every offence, one-half of the fine to be paid to the informer, and the other half to the County Commissioners or the use of public roads.

THE EUREKA
FANNING MILL.

THE GREATEST INVENTION OF THE NINETEENTH CENTURY!

Farmers Look to Your Interest!

THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public.

It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras—EUREKA!—signifying in the Grecian language, "I have found it." This has given the name to this new Mill.

In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention:

It combines ECONOMY, UTILITY and PRACTICABILITY!

THE "EUREKA" MILL

Is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented.

IT IS THE ONLY MILL

that will successfully remove from wheat all such pests as Cockle, Garlic, Oats, Rye, &c.

Should an extra quality of grain or seed or gristing purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Here is made a great saving usually lost sight of: for nearly one quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.

HINES & BURCHINAL,
Chestertown, Maryland,

Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Noland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best manner. jel7-tf.

A LECTURE

on the nature, treatment & *radical cure* of Spermatorhoea, or Seminal Weakness, Involuntary Seminal Losses, Impotency, Mental and Physical Incapacity, Impediments to Marriage, etc.; also, Consumption, Epilepsy and Fits, induced by Self-Abuse, &c.—By ROBERT J. CULVERWELL, M. D., author of the "Green Book," &c.

The world-renowned author, in this admirable essay, clearly proves from his own experience, that the sad and alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife, pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically

THIS LECTURE WILL PROVE A BOON TO THOUSANDS AND THOUSANDS.

Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents. Address the Publishers.
