A Warning

TO

Those Concerned

THE TAKING OF FISH WITH

PURSE NETS

in the waters of Chesapeake Bay are prohibited by law in that portion of the Bay north and west of a line from Sandy Point to Love Point. Residents of Maryland are permitted to use purse nets below the line described by procuring a license from the Comptroller of the State, before engaging in the industry.

The law will be strictly enforced.

Yours very truly,
T. C. B. HOWARD,
Commander.

No one is immune from kidney trouble, so just remember that Foley's Kidney Remedy will stop the irregularities and cure any case of kidney or bladder trouble that is not beyond the reach of medicine. Sold by all druggists.

MANY SEEK FARMS.

State Bureau Of Immigration Office Crowded With Inquirers.

When the State Bureau of Immigration met Wednesday at 11 East Lexington street, a number of prospective settlers from the West and North crowded the office seeking information. Dr. M. Whitehill, of Frederick county, presided.

In the discussion the superintendent, Mr. W. Frank Hines, made a motion to issue every three months a printed list of the many names of applicants for farmlands in Maryland and provide each real estate firm and every other applicant with a copy. Commissioner J. Boon Dukes, of Caroline county, seconded the motion and it was adopted.

In his report Superintendent Hines said:

"During the first quarter of our administration the work of the State Bureau of Immigration has been more strenuous than any time in its existence. According to the report of the secretary, a large number of prospective settlers have visited the State and also a few foreigners have invested in farms. It seems as if Maryland is preferred by everybody on account of the good climatic and social conditions. One of the visitors told us that the movement for good roads in the agricultural sections attracted the attention of many farmers in the West.

"During the last three months we mailed to applicants 300 English, 164 German, 26 Hollandish, 8 Russian and a number of Danish pamphlets, farm lists and others printed matter, including maps of Maryland. In the same time 1,207 letters were received and promptly answered. We also mailed a number of letters, to which no answers have been received by August 1.

"Nearly 400 telephone calls were answered during the three months and more than 350 calls had to be sent out from this bureau.

"This office has been visited by at least 25 people every day. We make it a rule for all our office force to be polite and pleasant to everybody and give the desired information to the satisfaction of the caller.

"The secretary was compelled to escort a number of prospective settlers to different sections of the State and show them the farms they wished to see. A number of farmers, whose names appear in our farm lists, have neglected to answer letters written to them by prospective buyers and people from the West and from Germany requesting from us the desired information.

The farm labor problem has been solved by this bureau during our administration. We have had more people at our disposal than we could place. Some of the 240 men we have placed among farmers proved to be desirable men, but some were not worth the trouble of bothering with them.

"The immigration into the port of Baltimore during this summer has been very slack. Only 10 steamers arrived in three months bringing about 3,000 people. Of this number about 500 were Americans returning from abroad and of the remainder about 100 remained in Baltimore. The majority of the immigrants went West and about 250 were returned for various reasons mostly because they had not enough means of support.

"A burning question in Maryland is the demand for female help. We have requests daily over the telephone and by letters for domestics of all kinds, but none can be furnished. It would be a serious business for this office to attempt to import such.

"The immigration in general has fallen off from 145,923 in June, 1907, to 25,246 in June, 1908. During the last fiscal year 593,095 people returned from the United States to Europe.

"From the reports of the different sections of the State I can state that the crop conditions in Maryland are very satisfactory. The drought in July did some damage. The wheat crop fell short, as you know, this year. The corn promises a fairly good crop in certain sections; tomatoes will yield a fair revenue; strawberries brought a good price; the fruit crop is above the average all round and tobacco in Southern Maryland will yield a golden harvest for all the farmers.

Horses Poisoned.—Mrs. R. T. Turner, of near Betterton, has lost six horses, and several others are reported to be affected with forage poisoning. The horses got out into the wheat fields and ate some wheat that had been left around the stack yard after threshing and which had been made wet by the recent rains. The first horse was taken ill and died on Monday. Two others developed the disease and died on Tuesday evening, and several others are thought to be affected and may die. Mrs. Turner's loss is very heavy, as all save one horse and one colt of her stock of horses and colts has been affected and died.

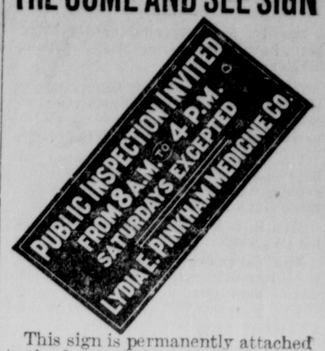
CASTORIA

For Infants and Children.

The kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

THE COME AND SEE SIGN



This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean?

It means that public inspection of the Laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and aboveboard."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound.

Is it a purely vegetable compound made from roots and herbs — without drugs?

Come and See.

Do the women of America continually use as much of it as we are told?

Come and See.

Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick woman are asked to write?

Come and See.

Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See.

Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See.

Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See.

This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted on Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by all druggists.
