SATURDAY, AUGUST 22, 1908.

To Speak for Bryan.—A. S. Goldsborough, Esq., private secretary to the Mayor of Baltimore, will make his first speech in the Presidential campaign next Wednesday, when he will be the principal speaker at a Bryan demonstration at Frederick, Md. Mr. Goldsborough is an enthusiastic supporter of Bryan, and he expects to make a number of speeches during the campaign.

Short Tomato Crop.—The present indications are that the tomato crop of Kent and adjoining counties on the Eastern Shore of Maryland will be extremely short, possibly not over half a crop, and surely not over three fourths. Tomato vines in many cases are large and healthy looking, but there is no fruit on them, nor can blossoms be found. In other places the blight is striking into the plants badly, while in some quarters the vines are severely scalded.

Large Shark Caught.—While hauling the seine in Reed's Creek last Wednesday, Mr. William Lucas, of Centreville Landing, caught a shark which measured eight feet and weighed about 375 pounds. Across the head the monster fish measured 14 inches. This particular specie of fish is becoming quite numerous in the local waters, several having been caught in Chester and Corsica rivers and tributaries during the past few weeks.

Of Interest To Young Men.—THE NEWS is in receipt of the recent issue of the Maryland Agricultural College. It is filled from cover to cover with valuable information to the parents of young men following agricultural pursuits. Six courses of instruction leading to the professional degree of B. S. are offered including tuition, books, heat, light, laundry, board, medical attention, and all fees, upon the payment of $60.00 per quarter in advance. The catalog giving full information will be mailed to any address upon application to R. W. Silvester, president, College Park, Md.

Hen Outwits Her Mistress.—Mrs. S. A. David, of Thoroughfare Neck, Del., has a most accommodating hen. Monday she drove to Smyrna with some eggs and other produce and while she was disposing of same at the store and getting other goods in exchange, a hen which before she left home had secreted itself in the box of her york carriage under the leather cover, was getting busy. When Mrs. David lifted the leather cover to stow away some of her goods, the hen flew out at the side of the carriage and cackled. A fresh egg was found in the bottom of the carriage, which Mrs. David added to the other eggs she brought to town.

School Notes.—Maryland Agricultural College has raised the salary of President Sylvester from $3,000 to $3,600, and that of Professor Patterson from $2,400 to $3,000.

President James W. Cain, with the consent of the Board of Visitors and Governors of Washington College, is about to purchase a large projecting lantern. The lantern will be used by the college during the coming winter in giving a course of illustrated lectures. Dr. Cain proposes to secure the services of several noted lecturers to come to the college during the winter months and give illustrated lectures upon instructive and entertaining subjects, and it is for the purpose of making these lectures a part of the college course that the Board of Visitors and Governors has given the order for the lantern.

Big Tournament.—The annual Tournament of St. Peter's Catholic Church, Queenstown, was held at My Lord's Gift Farm Wednesday. It was undoubtedly the largest and best attended in the history of these yearly occasions, between 3,500 and 5,000 persons present and 14 knights competing in the tilting. My Lord's Gift Farm, which received its name by virture of the fact that it was a gift from Lord Baltimore to the church, has since 1871, the beginning of these jousts, been the place where they have been held and is an ideal spot for the repetition of the scenes of old chivalric days. Immediately after dinner the knights were assembled in front of the judge's stand to listen to the rules and regulations and an elegant address by J. C. Linthicum, of Baltimore, who was introduced by Senator J. Frank Harper, of Centreville.

Will Welcome Mr. Oyster.—Just a fraction over two weeks from to-day, on September 1, the Maryland oyster season will open, and preparations are already being made in Kent for the reception of the bivalve. Oyster boats are being put in readiness and the oyster shippers are looking over their pails and cans, which will carry thousands of gallons of Maryland oysters to all parts of the world. As to the opening of the oyster season in Maryland, the oystermen are confined to tonging or catching oysters with tongs. This lasts until October 15, when dredging begins. After the opening of the dredging season the oyster packers, or as they are known in the trade, "steamers," begin work. The oyster-packing business in this State amounts to between $4,000,000 and $5,000,000, and the oysters go to all parts of the world.

APPROACHING NIGHT.

BY REV. E. S. FOOKS.

The night steals on apace,
And workmen struggle in life's weary race;
Weird objects rise before the vision,
Accentuating thought and pointing toward heaven.

Thy task though difficult was done,
Oftimes the heart grew faint, hope ceased to be—
And midst the sadness longed for night to come,
Its sombre hues to enshroud life's mystery.

The evil deed that through day was done,
The unkind thought that added to life's tension?
Demanded some poor friend who could atone—
Alas! presumptious sins, what need for manumission!

But day like life a mission has for each,
The heft of which is utter sacrifice;
A love for others and life's duties plainly teach—
The Golden Rule—The Royal road to Paradise.

And so the night of death it comes to all,
To rich and poor both great and small;
We" sleep till Gabriel's note hath sounded,
And perfect day with life and death are blended.

The triumph of the perfect day will follow night,
The golden glory of a sun that ne'er shall set,
Shall shine on all who lived and loved the right,
Justice and truth prevail, the worthy wear a coronet!

AN ATTEMPTED BETRAYAL.

The action of the Baltimore Sun in coming out yesterday for the Republican Presidential Candidate indicates an attempt upon the part of that journal to influence the Democratic voters of this State to support that candidate. It also shows most conclusively that notwithstanding the claims of the Sun to be a paper for the people, it is a paper against the people, because it champions the cause of the trusts, represented by Mr. Taft's candidacy, against the interests of the people.

The excuse given, and the conclusions reached were the weakest, most flimsy and nonsensical ever offered by that frequent changing paper. They indicate no reasoning beyond the fact that those who control the Sun's policy are financially interested in the success of the Republican party, and for that reason, and that one alone, they propose to support that party in its attempt to continue the policies which have resulted in the oppression of the people.

The Sun condemns Roosevelt but supports his candidate. The Sun takes a positive stand for the corrupt use of money by the trusts in their efforts to continue a Republican President. They take the position of letting the trusts do as they please rather than disturb business conditions. They take the position of letting murder and pillaging be done rather than have trouble in arresting those guilty of crime. The position taken by the Sun is a betrayal of the interests of the farmer, the workingman, and all other toilers in the interest of those who have capital invested.

The Baltimore Sun is not a Democratic paper, and we urge upon our readers the discontinuance of a paper which is false to Democratic principles. Let us take a paper that is straight out Republican paper rather than one which parades as an Independent Democratic paper while its services are enlisted in electing Republican candidates. Next year the Sun will expect to have all the say in the nomination of Demodratic candidates. If Mr. Bryan is elected, it will expect to say who shall be the Presidential appointees for Maryland. Democrats, all over the State, should cut out this paper which is as false to the Democratic party as was Judas Iscariot to his Savior. We need a Democratic Daily in Baltimore and if properly conducted the people will support one.—Cambridge Banner.

HORTICULTURISTS MEET.

Plans Great Show at Fifth Regiment Armory in Baltimore, December 1, 2 and 3.

The executive board of the Maryland State Horticultural Society met last week in the old Colonial house at Carroll park, Baltimore, occupied by Superintendent C. L. Seybold, who is president of the society. Prof. C. P. Close, state horticulturist and secretary of the society, outlined the program for the summer and winter meetings and exhibits. R. J. Vincent invited the society to hold its summer meetings at his extensive establishment at White Marsh September 22. He promises a good exhibit of geraniums and dahlias, embracing the largest collection in existence.

The winter meeting will again be held in the Fifth Regiment Armory, Baltimore, December 1, 2 and 3. This exhibition will include all the products of the soil of the state. Many hundreds of dollars will be offered to exhibitors of fruits, flowers and vegetables, besides certificates of merit. E. P. Cohill, of Hancock, known as the apple king of the state, also W. Irving Walker, near Church Hill, president of the Farmer's League, promises to do their utmost to make the show and meetings a success. Each has more than a thousand acres in fruit and corn under cultivation. The best speakers on horticultural subjects have been selected. The meetings and exhibits will be open for three days free to the public. Arrangements have been made for luncheon in the hall at a nominal price in order to facilitate business sessions.

At a meeting of the directors of the Maryland Cereal and Forage Crop Breeders' Association in Baltimore, Monday it was decided to hold the second annual cereal exhibit in Baltimore December 1, 2 and 3, at the Fifth Regiment Armory, in conjunction with the meeting of the Maryland Horticultural Society and the Maryland Grange. Premiums are to be offered for the best 10-ear samples of yellow corn, best 10-ear sample of white corn, best individual ears of corn, best samples of breeds of wheat, oats, rye, barley, cow peas, soybeans, scarlet or crimson clover, red clover and other cereals and forage crops, as Maryland farmers are securing an enviable reputation for growing. Prizes will also be offered for county exhibits, in which county-grown grain will compete At the exhibition held last winter 18 out of the 23 counties entered 265 lots of grain in competition.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherrybark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as the above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive *free* booklet giving extracts from writings of all the above medical authors and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.
