SATURDAY - - - - MAY 17, 1873.

Jay Gould's Rail Road Enterprises.

THE Newark, N. J., *Sunday Call* says: "The New York papers note the fact of New Jersey Southern Railroad stock having been sold last week at $25@$30 per share, under the manipulation of Mr. Jay Gould, the reputed owner of a considerable quantity of that fancy. Some of the money writers in the metropolitan press are also throwing heavy baites to hook gudgeons on this stock, by giving daily hints regarding a great Southern and Western new through route, which is to be seventy-five miles shorter in distance from New York to St. Louis than the Erie, and of which the New Jersey Southern is to form an important link. New Jersey Southern Railroad stock to-day is not inherently worth five cents on a dollar, and if the road, franchise and all its belongings were put up at auction next week, enough money would not be realized by the sale to pay the first mortgage bonds.

The through road scheme amounts to just this: Mr Charles K. Landis, possessed of the idea that his modern paradise, yclept Vineland, was destined to become a great railroad centre, secured a charter to to build a road from Vineland to Atsion, where it connects with the New Jersey Southern, and south or west from Vineland to Greenwich, a small town at the north of Cohansey creek, on the Delaware Bay. To build this road Mr Gould loaned some $700,000 on its mortgage bonds, which have foreclosed and the property ordered sold in June next. Whenever the sale takes place, Mr Gould, or his agent, will be the undoubted possessor of another railroad, and have control of a line extending from Sandy Hook to Delaware Bay. To cross Delaware Bay at that point a ferriage of some twelve or fifteen miles would have to be mantained, and several months in the year it is impossible for anything short of a large steamship to cross, even when there is no ice. Once over, there is a narrow peninsula and then the Chesepeake Bay to navigate before reaching Baltimore. Mr. Garrett, or no other practical railroad man, ever had the remotest idea of joining Jay Gould in any such crazy project as attempting to establish a through passenger or freight line by such a route. Mr. Gould would probably like to unload his Southern New Jersey stock, and that is what his newspaper puffs of the projected enterprise mean."

STATISTICS OF POPULATION.—The *Memorial Diplomatique* gives the following interesting account of the density of population in the great centers of humanity throughout the globe. There are nine cities having a population exceeding one million souls, viz: London, 3,251,000; Soochow, 2,000,000; Paris, 1,825,000; Pekin, 1,648,000; Yeddo, 1,554,000; Canton, 1,236,000; Constantinople, 1,075,000; Siang-tan, in the providence of Hunan, 1,000,000; and Tchan-tchan-foo, in the providence of Fokien, 1,000,000. It will be seen that although London holds the first place, the Chinese empire can still boast of possessing more populous cities than all the civilized States of the West. The number of cities possessing a population ranging from above half a million up to a million is twelve, viz: New York, Vienna, Berlin, Hang-kaow, Philadelphia, St. Petersburg, Bombay, Calcutta, Fowchow, Tchehing, Bangkok, and Kioto. Twenty cities have a population of from 3,000,000 to 4,000,000 inhabitants, thirty-three of from 200,000 to 300,000, and ninety of from 100,000 to 200,000 inhabitants. Europe alone possesses one hundred and seventy-one cities containing more than fifty thousand inhabitants, at the head of which stands London, Paris, Constantinople, Vienna, Berlin and St. Petersburg.

THE TICHBORNE CASE.—The person who pretends to be Sir Roger Tichborne, an English gentleman who disappeared by the shipwreck of the Bella, in April, 1854, is likely to fare even worse in this, the second trial, than he did in the first one. The circumstances of the two trials are different. In the first one the "claimant" was the prosecutor, and the length of time—one hundred and three days—consumed in the trial was largely due to the amount of testimony introduced by him in support of his pretensions. Now, however, he is the defendant under an indictment charging him with "willful and corrupt perjury," the decision of which will cover the validity of his claim. The case in this form changes the order of presenting testimony, and if it is possible to prove that he is an impostor, as a dispatch from London hints has already been done, there will be no necessity of going through with the testimony brought forward by him at the former trial.

FACTS FOR THINKING PEOPLE.—There are a few, perhaps half a dozen sewing machines of real excellence, differing from one another more or less in principle, construction and adaptation; one being suitable for tailoring, another for bootwork, another for family use, &c., &c., the rest are inferior, and by far the greater number *comparatively worthless*.

It is noteworthy that the sewing machine for which the highest premium was awarded at the World's Fair in New York in 1853, long sunk into merited oblivion. The past fifteen years has seen numerous machines, with high sounding pretensions, rise with a flourish, confound the simple and vanish. So will it be while credulity lasts. *Time* tries all things.—*Use* only furnishes the final test. As the purchase of a Sewing Machine is or may be the act of a life time, care should be taken to get what *time* and *use* have approved. During the past six years the Howe Machine Co. have made and sold over 400,000 Machines, and to-day, though manufacturing at the rate of one per minute can hardly supply the demand. What better evidence is needed to prove that the public have decided as to THE BEST.

A. M. GUDGEN, *Chestertown, Md.*

THE NASHVILLE INDUSTRIAL EXHIBITION.—The Industrial Exposition at Nashville, Tennessee, next month, promises to be one of the most successful and interesting exhibitions of the industries, arts and trades to be given in the West or South this year. Already applications from other States for space have been so numerous that the local press warn the people of Tennessee that they must be more prompt in their preparations if they do not wish their home interests to be eclipsed. The exposition building and grounds are described as being very handsome.

ADVANCE IN PRINTING.—It is stated that Col. B. F. Sawyer and Dr. R. I. Hampton, of Rome, Ga., have invented a printing press which will print both sides of a newspaper at the same time.—Its capacity is ten thousand impressions per hour. The patentees intend to apply for European and Canadian patents.

A PHILADELPHIAN, named Peniston, has just drawn a $400,000 prize in the Royal Havanna Lottery. He spent $500, $300 to get the prize. Quite a speculation.

No lie can be dangerous unless it be alloyed with some truth.

TO FARMERS!
"EXCELSIOR."
1873 1873

Composed of 800 lbs. of No. 1 Peruvian Guano, and 1200 pounds of Soluble Phosphate of Lime, (bones dissolved in sulphuric acid,) Potash and Soda,
Forming the most concentrated, universal and durable fertilizer ever offered to the farmer—combining all the stimulating qualities of Peruvian Guano, and the ever durable fertilizing properties of Bones. Excelsior is in fine, dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre; and it is the opinion of many close calculating farmers, after FOURTEEN years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of Excelsior is equal to from 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.
Look out for imitations and counterfeits. The popularity of Excelsior has induced *unscrupulous* parties in this and other cities to copy our trade mark, and resort to other dishonorable means to sell their *worthless* compounds.
Farmers should see that every Bag is branded as above, with ANALYSIS and OUR NAME in RED LETTERS. All others are counterfeits.

GAMBRILL'S and other brands of EXTRA and SUPER FLOUR, for sale by the barrel or pound, at J. B. SAPPINGTON'S
Jan. 4, 1873. Chestertown.

TO THE PUBLIC.
THE subscriber most respectfully informs the public that he has made arrangements with Dr. Thos. H. Whaland to carry on his
MILL
near Chestertown, for the present year.
His long experience in the business and his reputation as a Miller warrants him in the belief that he can give universal satisfaction.—As soon as practicable he intends to keep on hand a good supply of
CORN MEAL,
WHEAT FLOUR of all Grades,
HORSE FEED, &c., &c.,
which he is determined to sell at reduced prices.
He only wants to make the regular toll, and will be compelled to sell for Cash only as his capital is small and he does not intend to keep books.
He will use all means to make the Mill a public convenience as well as a source of profit.
A trial is all he asks.
Most respectfully,
SAMUEL A. ANTHONY.

A CARD.
To the Democratic and Conservative Voters of Kent County:
The undersigned respectfully announces himself a candidate for the office of SHERIFF of Kent county, subject to a regular nomination. Having served the party long and faithfully he considers his claims superior to those of a gentleman in the field. If elected he will live in the jail, and do all the business of the office himself. WM. J. PORTER.

THE EUREKA
FANNING MILL.
THE GREATEST INVENTION OF THE NINETEENTH CENTURY!
Farmers Look to Your Interest!
THE attention of Farmers and Mechanics is particularly directed to the combined economy, utility and practicability of the Eureka Mill, and to the many other advantages it possesses over every other Fanning Mill which has been introduced to the public.
It is the fruit of long and patient investigation by the inventor, who has made it his constant study for over twenty years. He has secured several patents for Mills, and has always been rewarded with the best of success. But not feeling satisfied with his former attainments, he determined to reach the climax, and he now believes that his new invention will warrant him in exclaiming in the joy of his heart, like the philosopher, Phythagoras—EUREKA!—signifying in the Grecian language, "I have found it." This has given the name to this new Mill.
In this Mill are all the former improvements to which have been added several more, adding still greater advantages than were at first anticipated, or even thought possible by the inventor himself. It embraces the three great essentials necessary in every invention:
It combines ECONOMY, UTILITY and PRACTICABILITY!
THE "EUREKA" MILL
is small and lighter, and is capable of doing more and better work in a given time than any other Mill ever invented.
IT IS THE ONLY MILL
that will successfully remove from wheat all such seeds as Cockle, Garlic, Oats, Rye, &c.
Should an extra quality of grain for seed or grinding purposes be required, it can be so arranged as to catch in one box perfect grain, and in the other, grain fit for market or mill. Heretofore a great saving usually lost sight of: for nearly one quarter of the grain cleaned in the common Mills is lost when sown, on account of shrunken kernels and inferior grain. The Eureka Mill saves all this, and gives seed every kernel of which will grow when put into the ground, and this saving will, in a short time, pay for the Mill.
HINES & BURCHINAL,
Chestertown, Maryland,
Owners of the Mill, are having them manufactured at the Sash Factory and Planing Mill of Niland & Co., Port Deposit, Md., which is a guarantee that they will be put up in the best manner. jel7-tf.
