## Sees Mild Winter

Pennsylvanian Says There'll Be No Blizzards And Few Snowfalls Danny Kratzer, Jr., of Bethlehem, Pa., weather prophet extraordinary, says you can keep your galoshes in the attic until December, and even then you won't have to use them very much. In other words, it's going to be a mild winter with not so much as one blizzard

Kratzer figured all this out from falling leaves, shooting stars and stationary astral bodies. He relies entirely on natural phenomena, he says, with a touch of mathematics to sharpen up the fine points of his forecasting.

While predicting mild weather for everyone else, he let it be known that he's nearly snowed under with his own

America has bought 1,130,000 Chevrolets during the past twelve months, thereby giving Chevrolet the greatest year in its history and the greatest measure of buyer preference it has ever enjoyed.

The builders of Chevrolet are thankful for many things, but most of all for the warm friendship of the American people.

And so again at this Thankagiving scason we say, "Thank you, America," for you have given Chevrolet a measure of good-will without parallel in the annals of modern industry. Consider, for a moment, all that you have done to inspire Chevrolet's appreciation during the past twelve months:

You have purchased 1,130,000 Chevrolets; you have made Chevrolet your favorite car for

every section of the country; you have conferred this same high honor upon Chevrolet trucks by purchasing more than 205,000 commercial units; you have made 1936 the most successful year in all Chevrolet history.

And new, to chimax these expressions of friendship, you are displaying even more marked preference for the new Chevrolet for 1937.

It is difficult to express adequate appreciation for gifts so great and so generous as these.

All we can say is, "Thanks a million" for more than a million cars in 1936; and all we can do is offer you the still finer Chevrolet of 1937 in return for the finest friendship ever bestowed upon any motor car manufacturer.
