The Secrets of the Bowl.

A former Brooklyn saloon keeper, who has been converted by the Quaker ladies, has printed the recipes he used to keep secret. He says bourbon or rye whiskey is manufactured from high wines, commonly called fusel oil whiskey, made to-day and drank three days after. It also contains vinegar, syrup, oil of bourbon, French coloring, bluestone, and other poisonous chemicals. It costs from 80 cents to $1 a gallon, and retails for $5@$6 a gallon.

Cognac brandy is made from French or Cologne spirits, burnt sugar, oil of cognac, vinegar, bluestone, Jamaica rum, honey syrup, port wine, French coloring, alum, and aloes. It costs $2 a gallon, and retails from $6 to $10 a gallon.

Irish or Scotch whiskey is made from Canada high wines, or new distilled whiskey, one week old, saltpeter, fine salt, essence of oil of Scotch or Irish whiskey, fusel oil, syrup, bluestone, St. Croix rum, some imported Irish or Scotch whiskey for flavor. It costs $1.50 and retails for $6 a gallon.

What sells for the best old Holland gin is made from French spirits, water, oil of juniper, syrup, white wine vinegar, bluestone, New England rum, peach pips, with some imported gin for flavor.

Old Tom gin is made from the same ingredients, but double syrup is added to make it sweeter. It costs $1.25 a gallon, and retails for $5. It is also bottled as a medicine, and sold for the kidney disease.

Jamaica and St. Croix rum is made of double refined high wines, French coloring oil of rum, fusel oil, vinegar, bluestone, burnt sugar, with some imported Jamaica, Cuba, or St. Croix rum for flavor, alum, aloes, and prune juice.

Stock ale or porter is diluted with oil of vitriol, strychnine, and aqua fortis to make it keep. New ale is diluted with oil of vitroil and damaged molasses. Lager beer contains a little malt, plenty of water, some inferior hops, rosin, tar, saleratus, soda, with four different chemicals to make it keep after brewing.—*N. Y. Witness.*

IN THE FAR DISTANT FUTURE.—The great question suggested by Malthus as to the over population of the globe, leading to the starvation of the people, is one which is in the far distant future. The agricultural capacity of the earth is but little developed. Here in the United States, with 3,000,000,000 square miles of generally fertile and productive land, we have a population of but 40,000,000. What might exist here we see by the example of little Belgium. It has an area of one-quarter of the State of Ohio, and it has double the population of Ohio. In other words, if Ohio was as densely settled as Belgium, it would have a population of 20,000,000 souls, or one-half the whole of the United States. This little territory, which is one of the greatest of manufacturing States, raises all the food which she consumes. The people, although of course not enjoying in so large a degree the creature comforts enjoyed by citizens of Ohio, are nevertheless, well satisfied and contented with their lot. The resources of this small kingdom are extraordinary. Her foreign commerce, with her 5,000,000 of people, is one-half as great as that of the whole of the United States.

FIRE-PROOFING MATERIALS.—For preserving structures from decay, and giving them also great power of resistance against fire, a London journal says that nothing appears thus far to have proved more effectual under a great variety of circumstances, than the silicious paint invented by Mr. Ransome, so well known for the artificial stone that bears his name, and which is now used in such large quantities. The composition of this paint is described as being somewhat analogous to that of the artificial stone; that is, it consists principally of a mixture of pure silex and soluble silica, which is laid over the surface to be protected, and covered afterwards by a second coating of chloride of calcium, which converts the paint into an impervious coating, effectually preventing the penetration of damp into the structure, and, as has been demonstrated in frequent and notable instances, resisting to an extraordinary degree the action of fire.

THE Idea of connecting France with Great Britain by means of a railroad line carried through a tunnel under the sea, which has long been a favorite one with engineers, seems to be approaching a practical realization. The French engineers have satisfied themselves that the scheme is quite practicable, and have made an estimate of the cost of the proposed tunnel, which they think can be completed by the expenditure of four million pounds. The lowest depth of the Channel has been ascertained to be about one hundred and forty feet, while the width of the sea intervening between Great Britain and France is twenty miles. It is said that the railroad companies most interested in the project have resolved to begin the tunnel on each side of the Channel, and to perforate it to the extent of one kilometre—something less than a mile—from each shore, believing that when the feasibility of boring for that distance is proved by experiment, the public will be satisfied that the entire work can be successfully accomplished, and that there will be no difficulty in raising the capital which will be required to carry out the design.

SAWDUST BRANDY.—We are sorry to learn that a German chemist has succeeded in making a first-rate brandy out of saw dust. We are a friend of the temperance movement, and we want it to succeed, but what chance will it have when a man can take a rib-saw and go out and get drunk with a fence rail? What is the use of a proibitory liquor law if a man is able to make brandy smashes out of the shingles of his roof or if he can get delirium tremens by drinking the legs of his kitchen chairs? You may shut an inebriate out of a gin-shop, and keep him away from taverns, but if he can become uproarious on boiled sawdust and dessicated window sills, any effort at reform must necessarily be a failure. It will be wise therefore, if temperance societies will butcher the German chemist before he goes any further.—*Dunn County (Tenn.) News.*

It has been noticed that nothing makes a woman laugh so much as a new set of teeth.

Be your own Physician.

There is no case of Dyspepsia that Green's August Flower will not cure. Come to the Drug Store of C. F. STAM & BRO., and inquire about it. If you suffer from Costiveness, Sick Headache, Sour Stomach, Indigestion, Liver Complaint, or derangement of the System, try it. Two or three doses will relieve you.

AGUE CONQUERER is the only remedy in the United States that contains no Quinine, Arsenic or other poisons injurious to the system, that will cure Fever and Ague, Intermittent or Billious Fevers, &c., and the Chills not return during the season. It permanently cures Fever and Ague of long standing.

"MISTA CHURMAN, I can't help cussin', butterberdam ef things ain't mixed, an' de Rippublkin paty is gwine to de devil — Dar's Guvnor Moses a raisin' uv bonds an' pothecaryin' uv em, an' den gittin de money an' puttin' of it in his pocket. I don't like dis pothecary biznez no how, and in specialy when it comes to money matters. Now Guvnor Moses heap better stop pothecaryin' dem bonds an' leave em in de safe whar dey won't do nobody no harm; an' I repeats, sah, I can't help cussin', butterberdam ef things ain't mixed, an' de Rippublkin party is gwine to de devil fast enough."—*Speech of a South Carolina colored citizen.*

A SHARP REBUKE.—Detroit judge to Daniel Smith: "Whiskey is what ails you, sir, and if some good kicker would get hold of you and boot you from Hamtramck to Springwells, it would do you more good than a run of the fever. When I see a young man like you loafing around in rags, eyes red, nose red, boots out, pockets empty and feathers in his hair, I wonder why the lightning ever strikes any one else. Take him back, Bijah, and when the Maria starts make him waltz up lively."—*Free Press.*

☞ There are more than ten thousand people in the United States who expect to be the happy possessors of the first grand prize in the Kentucky Gift Concert of $250,000. All of them but one will be disappointed. One will get it, for Gov. Bramlette, the manager, at Louisville, has announced that the Concert will positively take place on the day named; that there will be no further postponement, and that the capital prize will be the sum stated, without reduction, whether the tickets are all sold or not, And if our readers want to know more of it, write to him.

IT is not often that a wife of twenty-five helps a husband of seventy odd out of a prison, like Mme. Bazaine, and a terrible doubt suggests that, perhaps, she expected him to let go of the rope, and fight it out with the sharks.

THE Chief of Police, of Knoxville, wears three diamond studs, a diamond pin and a diamond ring, and the Knoxville papers are just mean enough to want to know how he got 'em on a salary of $900 per year.

TO THE PUBLIC.

THE subscriber most respectfully informs the public that he has made arrangements with Dr. Thos. H. Whaland to carry on his

MILL

near Chestertown, for the present year.

His long experience in the business and his reputation as a Miller warrants him in the belief that he can give universal satisfaction.—As soon as practicable he intends to keep on hand a good supply of

CORN MEAL,

WHEAT FLOUR of al grades,

HORSE FEED, &c., &c.,

which he is determined to sell at reduced prices.

He only wants to make the regular toll, and capital is small and he does not intend to keep books.

He will use all means to make the Mill a public convenience as well as a source of profit. A trial is all he asks.

Most respectfully,

SAMUEL A. ANTHONY.

VINEGAR BITTERS

VEGETABLE — FREE FROM ALCOHOL — PURELY — CALIFORNIA — DR. WALKER'S — EUREKA

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative, and Anti-Bilious.

Iron in the Blood

PERUVIAN — AN IRON TONIC — SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

See that each bottle has PERUVIAN SYRUP *blown in the glass.*

DYSPEPSIN

DYSPEPSIN

A Certain Cure for

DYSPEPSIA, LIVER COMPLAINT, Jaundice, Billiousness, Sick Headache, and Habitual Costiveness.

WHAT is life without the enjoyment of health? If you had the wealth of Cœsus, and afflicted with Dyspepsia, or its kindred diseases, you could not enjoy life. Dyspepsia is a prevalent disease in the U. States, brought about by our habits and irregularities. The Materia Medica has been exhausted to find a remedy, and the skill of the most learned Physicians has failed to effect a cure. Notwithstanding this declaration we unhesitatingly say—"MILLER'S DYSPEPSIN" is a Certain Cure for Dyspepsia and the many complaints incident thereto. It has been before the public a sufficient length of time to fully test its merits, and in every instance where it has been used according to directions, it has resulted in giving relief and effecting a cure. With each bottle is a Circular, describing the symptoms of the diseases named, and for which only we claim it as a specific.

☞ Give it a fair trial, and rest assured you will be benefitted.
