A ONE CENT BUSINESS.

How a Fortune is Made by Buying and Selling Pennies.

There is a man in this city who is amassing a handsome fortune by buying and selling pennies, two and three cent pieces and five cent nickels. In many of the newspaper offices, news depots, ferry offices, retail houses where cheap goods are sold, bakeries and other places, the accumulation of small coin very often becomes so large as to be cumbersome. It cannot be disposed of, for coin is so plenty that customers object to taking it in change in any great quantity, and in business houses where it is needed the regular sources of supply are always ample. The coin might be sent to the Philadelphia Mint for redemption, but the requirements of the redemption department are enough to discourage any business man. To send pennies to the Mint they must first be sorted and wrapped in packages of five dollars each. Coin of each separate mintage must be put together. It will not do to mix the old-fashioned coppers with the bright or bronze-colored nickels, nor can a two or a three-cent piece be mixed with the pennies. If they are packed in this way they are not even counted at the Mint, but are shipped back to the sender without delay or notice of any kind. The law also prescribes that the coins shall be packed in iron-bound boxes, and shipped at the sender's expense. As coins are heavy, the cost of transportation is considerable. The officials count the money at their leisure, and sometimes the sender does not hear from his consignment in nearly a year. He thus loses the use of his money for that length of time. This combination of vexatious details prevents those who have an accumulation of coin from sending it to the Mint, and it seems as though the officials at Philadelphia intended that they should not be troubled with it.

Every day a man rides to the newspaper and other offices in a buggy, and buys the coin which has been taken in from the newsboys and the customers. For the pennies and two-cent pieces he pays ninety-seven cents a hundred, and for the three and five-cent nickels he gave ninety-nine cents for a dollar's worth. The sellers are glad to dispose of the coins at this discount. The man then rides to about the only tradesmen in the city who desire a quantity of pennies—the pawnbrokers—and to them he sells the coins at par, taking their notes for three months in payment.

The pawnbrokers who have shops among the poorer classes say that they need small denominations of fractional currency or coin, as many of their loans do not exceed ten or fifteen cents. Many poor persons pawn their articles of wearing apparel or trinkets only when driven to do so by the wart of a single meal of food, and such are not particular as to the denomination of money they receive. The pawnbrokers give their notes without interest, thereby gaining the use of the money for three months.—[*New York Sun, Nov.* 3.

THE VICE PRESIDENT ON THE ELECTIONS.—Vice-President Wilson gives the New York *Tribune* his views on the republican defeat, and says the result shows the necessity for a liberal and magnanimous policy. With statesmen for republican leaders he believes the party will recover itself two years hence. He believes the democrats will by their blundering policy contribute to that end. As to the cause of the late defeats he said thousands of republicans did not vote or voted against the party to check some of its tendencies, and if the party adopt a prudent, liberal and lofty course it will sweep the country again. Among the other causes were the dissatisfaction of the unemployed, who had lost work from the effects of the panic; the burden of the Louisiana matter, (and he don't think either party right in Louisiana,) and the third-term question. He does not believe a third term candidate could carry any of the Northern and but few of the Southern States.

Governor Thomas E. Bramlette, manager of the Gift Concerts in aid of the Public Library of Kentucky, of Louisville in that State, will do us a favor not to tempt us more with advertisements of that institution. The laws of the State forbid the publication of such advertisements, and do not discriminate between one of this kind, which is honest and for a good purpose, and shyster concerts. We know that some one will, on the 31st of November next, bag $250,000, and others smaller sums, and that the money will be promptly paid, as has been the case in the four preceding ones; but the law will not allow us to publish their advertisements. Keep them away from us.

BRIEF Colloquy in Texas between a tourist and a native:

"My friend, why is it everybody in this country thinks it necessary to carry one or two revolvers?"

"Well, stranger," said the Texan, "you mought travel around here a good long time and not want it, but when you do want a pistol in this country you want it bad."

UNEMPLOYED LABOR.—It is feared that the approaching winter will be a bad one for multitudes in the large Northern cities, who, previous to last year, were strangers to extreme want. It is said that there are tens of thousands of laborers and mechanics already unemployed, and thousands will be added to this vast army when the season for out-door work shall cease.

THE theory that America was not discovered by Columbus is getting fresh support. Mr. R. B. Anderson, of the University of Wisconsin, is coming out with a book to prove that the Norsemen of the tenth century were the true discoverers.

Dr. Bull's Cough Syrup is a purely Vegatable Compound, innocent in nature and wonderful in effect. For children it is invaluable, curing Croup, Whooping Cough, etc., in a few hours. Price 25 cents per bottle, or five bottles for $1,00.

A RUSSIAN proverb says: "Before going to war, pray once; before going to sea pray twice; before getting married, pray three times."

A MAN in Cincinnati advertising for a situation, says: "Work is not so much an object as good wages."

Dr. Boschee's German Syrup,

Cough no more! How much joy there is in every household to know that they can at last procure a remedy for any case of coughs, severe colds settled on the breast, Consumption or any disease of the Throat and Lungs, that is certain to cure. It is a satisfaction to know that a person is safe from the dangers of this disease—all you need do, is to go to your Druggist, C. F. Stam & Bro., and get a bottle of Boschee's German Syrup; two or three doses will relieve you at once. If you doubt what we say to print get a sample bottle for 10 cents and try it, or a regular size for 75 cts

SIZE AND COST OF EUROPEAN ARMIES.—The following extracts are taken from a series of tables published in Vienna.

The Russian army comprises 862,000 men, 181,000 horses, and 2,084 cannon.

Germany has 37 divisions of infantry, 10 divisions of calvery, 337 batteries of artillery, comprising 835,000 men, 96,000 horses, ahd 2,022 cannon.

Austria has 45 divisions of infantry, 5 divisions of cavalry, 215 batteries of cannon, making a total of 740,210 men, 58,125 horses, and 1,600 cannon.

English armed forces comprise 471,000 men; Frrnce 300,000 men.

The remaining States of Europe make up with the above a total of about 5,000,000 of men. If each man could earn on a average one dollar daily, here would be a total loss to the world of five millions of dollars a day. And the cost of support and wages of the men alone, including officers, will make five millions more, or ten millions a day exclusive of the cost of arsenals, forts, ships, wagons, tents, hospitals, &c.

THE beautiful should never be out of thought. It is as right that the bread should be put upon the table in a comely shape as that it should be eaten.

MARRIAGE is often the end of man's troubles—which end?

DR. RADWAY'S
Sarsaparillian Resolvent
THE GREAT BLOOD PURIFIER.
HAS MADE THE MOST ASTONISHING CURES; SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT
Every Day an Increase in Flesh and Weight is Seen and Felt.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other Fluids and juices of the system the vigor of life, for it repairs the wastes of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumorous discharges from the Ears and the worst forms of Skin diseases, Eruptions, Fever Sores, Scaldhead, Ring Worm, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm and all wastes of the life principle, are within the curative range of this wonder of Modern Chemistry, and a few days use will prove to any person using it for either of these forms of disease its potent power to cure them.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does secure—a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of waste, its repairs will be rapid, and every day the patient will feel himself growing better and stronger, the food digesting better, appetite improving, and flesh and weight increasing.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases, but it is the only positive cure for
Kidney & Bladder Complaints,
Urinary and Womb diseases, Gravel, Diabetes, Dropsy, Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are brick-dust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and white bone-dust deposits, and when there is a pricking, burning sensation when passing water, and pain in the Small of the Back and along the Loins.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.
