Dr. Bull's Cough Syrup is reliable. Why try a new medicine when this old reliable remedy can be had for 25 cents. all druggists.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

MODES IN NEW YORK

Changes in Styles—Apron Tunics—Princesse Coats—Indro Silk and Linens—Lingerie Modes—Rat-Tail Braidings—Hats and Parasols.

While there are rumors probably well founded that fuller and more fanciful styles are to follow the present clinging modes, the Directorie still holds its own, and many of the best tailors and dressmakers are turning out skirts as plain and clinging to below the hip line, as were worn during the winter.

APRONS AND TUNICS.

All sorts of apron tunics are increasingly worn, especially in the "Moyen Age" models sent over from Paris and with these the skirt below the "apron" is often laid in full kilted pleatings, which however do not flare in the least at the foot.

PRINCESS COATS.

The Princess dress is a practical and popular fad of this season. Made in serge, black and white checks, and substantial silks that stand the wear required from a satisfactory outer garment, these coat-suits are invaluable for traveling and general knockabout use.

INDRO SILK AND LINENS.

The new "Indro" silks that are the smart substitute for the too much imitated rejahs, are made up in ways that adapt them for any sort of wear, and like handsome linens will go to "Mill or Meetings" with equal propriety, hence these are invaluable to the woman whose few dresses must answer for many occasions.

Natural or gold shades, willow greens, and soft old rose coloringe all make up

delightfully in the 3 piece jumper and coat style, in Princess, or the ever popular coat and skirt tailored type of costume.

HATS AND PARASOLS

While the umbrageous shapes that reduce their wearers to mere animated pivots are seen on all sides, such extremes are not adopted by women noted for their exclusive and distinguished apparel. There are now, as always, numerous moderate shapes that do not extinguish their wearers. Black hats with white or colored trimmings, and dead white chips and rougher straws with black garnitures, are reckoned especially smart and these have the merit of going well with any toilet.

Very fine leghorn and Italian straws in yellow tone faced with black velvet, or with the upper side of the rim so faced, are rather wide as to brim, and high as to crown, roll well at one side. These are perhaps the smartest models seen on girls and young women, and go especially well with tailored suits and Princess coats. Parasols of star shape covered with woven raffia are the latest and most expensive craze for the same sort of wear.

USE BAY HERRING AS FERTILIZER

Maryland's fine herring are being sold at $1.50 a 1,000, to be used in the manufacture of fertilizer. This was the statement made by Commander Howard of the oyster navy, who called on Governor Crothers at the State offices in the Union Trust Building, just back from a trip down the bay.

"Buck shad," said Commander Howard, "are selling on the bay at 8 cents apiece, and roe shad are bringing 20 cents. They are very plentiful this year, especially in the waters on the Western Shore of Maryland, but exposed conditions on the Eastern Shore have so far interfered greatly with the catch. Herrings are very plentiful; I saw one catch of 90,000 sold at $1.50 a thousand, loaded on a vessel and carried off to Virginia to be used in the manufacture of fertilizer."
