CAMBRIDGE:

SATURDAY, NOVEMBER 16, 1833.

☞The Orphans' Court of this county will sit on Monday next.

MOST REMARKABLE.

Atmospheric Phenomenon.—An aerial spectacle, the most beautiful, most magnificent, most sublime, probably ever seen by the eye of man, was beheld here on Wednesday morning last, between one o'clock and the break of day. The night was beautiful and serene, the clear heavens were thickly studded with bright and twinkling stars, and the air was keen, pure and bracing, when a splendid meteoric array burst upon the vision, filling the looker-on with wonder, admiration and awe. Many meteors vividly shot, or, more familiarly speaking, "falling stars" descended, from every direction, with various and fantastic shapes, in considerable variety of size and brilliancy, leaving fleeting trails of different lengths and different forms. Peculiarly bright as was the night, it was constantly made much more luminous by the effulgence of these extraordinary scintillations—whose dartings were so incessant and number so great, that the phenomenon presented, was similar in appearance to what we might imagine that of a shower of fire to be. We cannot, however, now pretend to give a just account of the interesting and unprecedented exhibition, were it possible. But shall, in all probability, have occasion to refer to it again, when we are not so pressed for time and room. Verbal intelligence from several sections of this county and a part of Delaware, represents that a similar occurrence was witnessed there.—From what we can gather, it was first observed here about one o'clock, (certainly as early as four or five,) and continued until lost in day light.

P. S. We have received Baltimore papers up to yesterday, containing intelligence from New York, Philadelphia, Washington and Alexandria, at which places, as well as at Baltimore, the above phenomenon was seen.

The Jail of this county is at the present time, we understand, without a prisoner.

A daring Bank robbery was committed in Philadelphia between Saturday evening and Monday morning last. The Mechanics' Bank of that city was entered and robbed of about four thousand dollars in specie. Up to Monday afternoon, no clue tending to the detection of the perpetrator or perpetrators of the act, or the recovery of the money, had been found.

We are indebted to Capt. Ross, of the "Cambridge Packet," Capt. Taylor, of the Steam-boat "Maryland" and the editors of the "Gazette" and "American," for Baltimore papers of yesterday, Thursday and Wednesday, from which we give to-day sundry extracts.

Portugal—At the date of the latest advices, (October 1st,) Lisbon remained as per the previous accounts, but *an attack by Don Pedro on Don Miguel was hourly expected.*

COLONIZATION.

The Maryland State Colonization Society, design, as a means of effecting the great objects of their institution, to purchase a territory at or near Cape Palmas, on the Coast of Africa, and to establish a colony there, to be under their exclusive control, and called "Maryland." The healthiness and other local advantages generally of the proposed colony, are said to be equal to those of any section on the coast. In order to accomplish the end in view, the comparatively small sum of twelve thousand dollars is needed by the society, in addition to that portion of their present funds which can be appropriated to the fulfilment of the project. And the Board of Managers have, consequently, appealed to the people of this state for aid, confident that such an amount for such a purpose will be promptly contributed.

The activity, energy and effect with which the grand undertaking of colonizing our colored population in Africa is prosecuted, are evidently increasing, and are viewed with more and more approbation. This is gratifying, and should make the friends of the cause, whose number is also rapidly increasing, persevere. Let the work be but carried on with spirit, and the day will come when christianity and rational liberty, moving hand in hand, will spread their genial influence over benighted and miserable Africa, enlightening and rendering her happy—and then may be heard, in accents of joy, the countless voices of recently exalted men, happy and free, praising the day that gave birth to the American Colonization Society.

The ship Jupiter, chartered by the U. S. Colonization Society, was to sail from Hampton Roads, for Liberia, on the 5th instant, with fifty colored emigrants.

A fire occurred at the town of Somerset, Pennsylvania, on the 16th ultimo, which occasioned a loss of property to the amount, it is computed, of 60,000 dollars. In Baltimore, and it is likely other places, measures have been adopted to receive contributions to assist the sufferers by the event.

The Richmond Enquirer states that Peter V. Daniel has declined the appointment of Attorney General of the United States, recently conferred on him by ths President.

The President has despatched Francis S. Key, Esq., to Alabama, in consequence of the existing difficulties relative to the Indian lands within the limits of that State.

Havana papers to the 12th ultimo, state that the Cholera has entirely subsided, but that another disease, called the *Sarampion*, has assumed there an epidemic character.

The Cholera has ceased its ravages in the city of Mexico—says the New Orleans Bee, which has intelligence thence to the 21st September—but the mortality had been such that the exhalations from the dead bodies had corrupted the atmosphere, and it was anticipated that that pest would either re-commence its ravages, or that a new plague would take its place.

LATE FROM ENGLAND.

The packet ship Virginian, Capt. Harris, arrived at New York from Liverpool, whence she sailed on the 8th ultimo, has furnished the New York Courier with London dates to the 6th, and Liverpool of the 7th of last month, both inclusive.

Donna Maria arrived in the Tagus on the 22d September, and her reception is represented to have been most enthusiastic. The Miguelites appear to continue in force before Oporto, and we perceive that from Lisbon, Don Pedro had been compelled to send out an expedition for the purpose of obtaining a supply of provisions, which was not entirely successful in the attainment of its object.

It is announced but not officially, that the King of Spain is dead. He is said to have died on Sunday, 29th Sep.

The deliberatoins of the three allied sovereigns in Bohemia had terminated.

Our accounts from Paris are three days later than before received. Some agitation prevailed among the Carlist party, particularly in the southern Departments, but the government appears to attach little importance to it, and it is probably not deserving of much.

HOLLAND.

The *Frankfort Journal* says—"Private letters from Holland, upon which we can place reliance, announce that on the approaching opening of the States General the Majority will express a wish that the definitive treaty of peace should be concluded without delay, seeing that the Dutch nation can no longer support the burden imposed upon it by the existing State of affairs."

The Nuremburg Correspondent of the 27th Sept. contains the following, of the 22d, from Berlin:—"One of the principal European questions—namely, that relative to Holland and Belgium—is said to have been decided at Munchengrantz. Tired of the delays of the Conference, the three Monarchs have come to a positive determination on the subject, and have decided that Luxemburg shall not be separated from the German Confederation, and in consequence, it will belong to Holland. On other points also, an *ultimatum* has been agreed upon, which is generally in favor of Holland.

A new Cotton Factory, capital $100,000 is about to be established at Richmond, Va.

The Washington Examiner states that the Rev. John Robb, late Chief Clerk of the War Department, has been appointed Superintendent of the United States Arsenal, at Springfield, Mass., vice Col. Roswell Lee, deceased. We understand the duties of Chief Clerk are temporarily performed by Daniel Kurtz, Esq., of the Indian Bureau.

The Sugar Crop of Louisiana, it is said, will be more productive the present than any former year.

The legislature of Georgia met a Milledgeville on Monday, the 4th instant. The Union party have a majority in both houses, and succeeded in electing their candidates for all the offices.

Parisian Fashions.—The Petit Courier des Dames says that the powder, plaits and sleeves of the middle age are all coming into fashion, and that the style evidently assumed by the belles Parisiennes is the Gothic. Timidly tried at first, says the journalist, and looked on as a rash attempt, this first advance to the ancient costume, has now assumed a singular consistency. Those who then declared them extravagant and unbearable, now find them charming. To plain and simple toilets are fast succeeding those of a historical and rich character; in place of modest crape comes rich brocade. Buskins of Turkish satin of the color of *hanniton* (the May fly,) are worn, silk gaiters also.

The Oyster Case.—This case which we stated in our last, had come up for trial before Kent County Court, was finally determined on Saturday last; the Court affirmed the decision of the Magistrate in fining each vessel captured, in the sum of $100 with costs of suit.—*Chestertown Md. Inquirer, Nov. 9.*

Emigration.—The season for the arrival of emigrants, says a Quebec paper of Oct 21, may now be considered closed. The total number on the exchange books (21,945) is 3000 less than half of last year. It is satisfactory, however, to know that those who arrived during the past summer, were, generally speaking, of a more wealthy class than we have been accustomed to receive.

A Challange.—The owner of the colebrated horse Bertrand, Jr., the southern hero, has published a card offering to run him over the Charleston, S. C., course against Woodpecker, the Kentuckian, or any other horse, for 5,000 or 10,000 dollars, half forfeit, to come off next February.

Samuel B. Chapman, of Burlington (N J.) has lately invented a machine for shaving shingles, which promises to be a great public benefit. By the old system an industrious man may, by great labor, accomplish 400 in a day. Mr. Chapman's machine shaves 400 in an hour, with ease, and does it better than it could be done by hand. One great advantage which the new mode possesses is obvious—it makes all the shingles precisely of a size—so that when laid upon a roof, there will be no small crevices for the passage of water.

According to a London paper, the notorious Mrs. Trollope was recently taken before the Bow street Police, and fined 21 shillings, for an assault on one of her servant girls.

A counterfeit ten dollar note of the Philadelphia Bank was detected last week at Lancaster. It is said to be well executed.

DIED,

On the 4th instant, after a protracted illness, Mrs. *Nancy*, consort of Mr. Levin Keene, in the 64th year of her age. In the death of this amiable woman not only her family, but society has sustained a great loss. The disease which terminated her earthly career, was that slow but cerrain harbinger of death, the consumption. During her long and painful affliction, (which she bore with christain fortitude and resignation,) she was never heard to utter a murmuring word, and although she suffered long, she suffered patiently—and, when the hour of her departure arrived, death for her had no sting, the grave no terror. She was a person of amiable manners and engaging disposition; as a wife, she was affectionate and attentive; as a mother, tender and discreet; as a neighbor, benevolent and social; and, as a christian, meek and charitable. The life of such a woman needs no panegyric—Let her, therefore, rest in peace; and may the bright example which the history of her virtues affords, not be lost on her acquaintance, her relations, and the community.

In this county, on Tuesday night last, Mr. *William McKenzie*, at an advanced age.

CAUTION.

I DO again most positively forwarn all persons from trusting, on my account, without a *written* order, any of my servants, or any one else under my employ. A former notice similar to this has been measurably disregarded. This, too, may be treated in a like manner; but I care not—the consequence must rest upon others—it shall not hurt me—for I am firmly resolved no longer to pay any debts contracted on my account without my authority as aforesaid. My determination is fixed—Let those concerned remember it—If they do not, *they must suffer—I will not.* I have been repeatedly injured in this particular; and the remembrance of that injury, and the resolution which I have come to, impel me thus peremptorily again to caution the public.

ONLY LOOK.

I SHALL offer for sale, on Monday, the 2d day of December next, one of the best FARMS on the Eastern Shore of Maryland. It is beautifully situated on Great Choptank river, near Cambridge, and contains

330 ACRES.

One hundred and fifty acres are in fine thriving Young Timber, and the cleared land is laid off into four fields, each containing about forty acres, and having a fine stream of water running through it. The soil is excellent, and the crops grown on this farm are never surpassed by any in the neighborhood when properly managed; and as great a yield of corn, wheat, tobacco, or other crop, can be produced from it as any Eastern Shore land.

Besides an excellent two story Frame Dwelling—which has, with the addition, above and below, fifteen different apartments, all finished—there is on the farm every out-house a farmer can want—barn, corn-house, granary, stable, carriage-house, quarter, smoke-house, poultry-house, &c., all in good order. There is also a fine thrifty Young Apple Orchard, of 200 trees, choice fruit; as well as an excellent Peach Orchard. There are likewise to be had, on or about the premises, wild ducks, wild geese, and fish, in their season.

Those who wish to settle on such a farm, will find this opportunity the best likely to be offered for some time; and, when the delightful situation and intrinsic value of this farm are recollected—when its proximity to Cambridge, its neighborhood, its buildings, its fine condition, and its great fertility, are considered, it is expected there will be many competitors for it: And, as I calculate on leaving the State, I shall certainly sell if a moderate offer be made. A liberal discount, too, would be made to a *cash man.*

I will also sell my

Dwelling and STORE HOUSE,

in Cambridge, if a price near their value should be offered for them. They are very eligibly situated on High street, near the Court House. The Dwelling is of brick, two stories high, finished from the cellar to the garret, and is as good and comfortable a house as any in the place. The Store House is 30 by 30 feet, will hold 10 to 15,000 dollars worth of goods, is of a good plan, and among the best stands in town.

A more minute description could be given, and many inducements to purchasers named, but it would be better for those who wish to embark in the mercantile business and secure a fine residence here, to come and see the property.

The terms will be made known on the day of sale.

I will also offer for sale a 20 acre LOT near town—It is tolerably well enclosed, and set in clever.

THOMAS HAYWARD.

Cambridge, Md., Nov. 16 3w

P. S.—I will sell, at my farm, Sandy Hill, on Saturday, 30th instant, many articles in the Farming and House-keeping way; and, as I shall sell without reserve, great bargains may be had.
