CAMBRIDGE:

SATURDAY, JUNE 20, 1835.

☞ The Orphans' Court of this county will sit on Monday next.

LATER FROM EUROPE.

We received by yesterday evening's mail, papers containing the intelligence received by the Orpheus, Capt. Bursley, which arrived at New York on Tuesday.

The dates from Paris are to the 13th of May, yet they do not contain any additional information in reference to the indemnity. We conclude, therefore, that the Chamber of Peers had not at that date acted on the bill which passed the Chamber of Deputies.

Mr. Livingston and family, were at Plymouth, England, the frigate Constitution having put in there in consequence of head winds.

GREAT BRITAIN.—Parliament resumed business on the 12th, but nothing of consequence had been done.

The West Riding district of Yorkshire had returned Lord Morpeth by a majority of 2000 votes.

The member from Strand has accepted the Chiltom Hundreds to make room for Lord J. Russell.

The Melbourn ministry have had, so far, great difficulties to contend with, and do not appear to have much confidence in their strength. Their ability to carry on the government must be regarded as very problematical, considering that in the House of Commons they have only a majority of from 15 to 30 in a body composed of between six and seven hundred members. The conservative party seem to be very confident of their strength, and we should not be surprised if on some important question they would out vote the Ministers.

The Coronation of the Emperor of Austria, was to take place on the 14th of June, (Sunday last,) at the Cathedral of St. Stephen, in Schoenbrunn.

The new novel, *Horse Shoe Robinson*, by the author of "Swallow Barn," J. P. Kennedy, Esq., is announced for sale by the Baltimore book sellers, in the papers of yesterday.

Peaches, fully ripened in the open air, are said to have already appeared in Charleston.

The Bank of Darien, Ga., was on the night of either the 6th or 7th inst., broken open and robbed of upwards of $100,000.

The premium paid by Messrs. J. I. Cohen, Jr. & Brothers, for the two million loan of the State of Maryland, bearing six per cent interest, and irredeemable for thirty five years, was $16 40 for every hundred dollars. The State Treasurer issues bonds, and not certificates, for the loan.

The United States Gazette of Wednesday states that the venerable Chief Justice Marshall remains very unwell at his lodgings in Philadelphia.

The abandonment of Algiers is talked of. The cause assigned is its great expensiveness to the French Government, without any commensurate national benefits.

The Union Party of Georgia are to meet in Convention at Milledgeville, on the 1st July, to take measures for counteracting the plans of their adversaries, the adherents of the States' Rights Party.

A traveller in the Island of Cuba has estimated that ten thousand dollars worth of cigars are consumed daily in the city of Havana.

An Affair of Honor took place on Wednesday afternoon, at Govanstown woods, between Lieut. B. W. Wright, of the Navy, and George Styles, Esq., of Chestertown, Md. After an ineffectual fire, the former expressed himself satisfied, and the affair terminated.—*Balt. Gaz.*

We learn from a gentleman lately arrived in this city from Florida, that the severity of the last winter has been even more extensively destructive to the Orange trees than was at first apprehended. The loss is immense. The trees are frost stricken to the very roots. Three years must elapse before Florida can produce oranges in any quantity, and at least seven years will be required to bring the trees to their former perfection.—*Philad. Gaz.*

New Orleans, May 30.—Desirous as we are that every object of internal improvement should prosper, we view with some degree of apprehension for the fortunes of New Orleans, the project now seriously contemplated of constructing a rail road between St. Louis and Wheeling or Cincinnati. If this succeed, the merchants of this city may bid adieu to much of their western trade, unless they adopt more resolute measures than any now in progress: for a rail road line being once established to either of those cities on the Ohio it will undoubtedly be continued to Baltimore; and even the rail road hence to Nashville will be rendered subservient to the rising greatness of the monumental city.

It is said that about 2000 new building are now going up in New York, and that the population of the city will increse 10,000 during the year.—*Philad. Gaz.*

The legislature of *Indiana* have passed a law providing for the organization of AGRICULTURAL SOCIETIES *in the several counties of that State, as also for a* GENERAL STATE SOCIETY, *all which are endowed with chartered privileges.*

The insecurity and mutability of public affairs in England, during the last ten or twelve years is curiously illustrated by the fact that there are at this moment no less than eight Ex Chancellors of the Exchequer living.

Afflicting Occurrence at West Point.—A most painful accident occurred last Monday at the Military Academy at West Point. Two of the cadets were amusing themselves at fencing, when in the heat of play, the foil of one was thrust into the eye of the other and penetrating to the brain, inflicted a wound of which the unfortunate cadet (a son of Captain Carter, of Virginia,) died in a few hours. The anguish of mind experienced by the survivor is, we understand, so intense that the liveliest apprehensions are entertained that grief will wholly overthrow his reason. The two cadets were intimate friends, and were practising at their foils for mere sport, before a number of their companions. The classmates of the deceased entered into a subscription to erect a suitable monument to the memory of their ill-fated associate.—*N. Y. Eve. Post.*

A French writer concludes a notice of American poets with the following sentence, wherein is broached a new idea as to the source of poetry. "An American Byron is impossible: there must probably be a long period of time, many faults, much suffering, before the great Federal Republic reaches that point of corrupt perfection and depraved civilization which yield poetry."

Dr. Gregory suggests that the occasional failure of vaccination to prevent the small pox, may be attributed to the change effected by 35 years abstraction from the original source of the remedy, and the mutation that it may have undergone in the system. He advises resorting to the Kine again for efficient remedy.—*Annap. Repub.*

Cobbett has published a "farewell letter to Sir Robert Peel, and a hearty welcome to his successor," in which he observes—

"It is curious how this thing called the Government of England has worked along with regard to me. Since about the year 1797 it has grown into a new sort of government; and I do verily believe that the history of my life will be the history of its life, for we have been at war from the day of its birth; or, at least, from its very infancy. It has, in its march, destroyed or silenced every formidable assailant except myself; and the war between me and it is certainly as curious a matter as ever attracted the attention of mankind."

The Planets inhabited.—We cannot discover any reason why the planets should be provided with atmosphere, unless it was that they might all be habitable; but those planets claim our attention on another account. The axis of every planet, as far as we can discover, is inclined to the plane of its orbit. The effect of such inclination, like that of the earth, is a change of the seasons—a change that seems to be calculated to increase the fruits of the soil for the benefit of man and beast. From the proofs already stated, and this additional circumstance, we infer, without hesitation, that the planets are all inhabited.—*Scientific Tracts.*

Microscopic Engraving.—Mr. Charles Toppan, of Philadelphia, has engraved the whole of the Lord's prayer on the tenth of a square inch—a space less than one-fifteenth the size of an average sixpenny piece—so that instead of *one* copy of this prayer within the compass of a sixpence, Mr. Toppan's graver would produce fifteen. The whole Bible, printed in a character equally minute, would only cover a space of seventeen inches square.

Married, in Marcellus, Onondaga county, on the 4th ult., Mr. ORLANDO BEACH, to Miss JULIA HERRING.

There 're many fish that swim the tide
Which anglers cannot reach;
A *Herring* here becomes a bride,
Flirting too near the *Beach*.

Notice to Revolutionary Officers and Soldiers.

WAR DEPARTMENT—*Pension Office, June* 2, 1835.—WHEREAS the 4th section of the act of the 3d of March last, entitled "An Act to continue the office of Commissioner of Pensions," directs that the duties heretofore required of, and performed by the Secretary of the Treasury, under the provisions of the act approved on the 15th of May, 1828, granting allowances to the Officers and Soldiers of the Revolutionary Army, and in relation to Virginia claims for Revolutionary services and deficiency of computation, be transferred to the Department of War, from and after the 1st of the present month, and the Secretary of War having, by directions from the President of the United States, assigned those duties to the Commissioners of Pensions, public notice is hereby given to all concerned, that communications in relation to the claims arising under the acts aforesaid will in future be addressed to said Commissioner.

MILLS AND LAND FOR SALE.

I WILL SELL, at private sale, the Grist Mill and premises where I now reside, formerly Evitt's Mill, about four miles from Federalsburg, Dorchester county, Md. This mill is on a first-rate stream of water, runs with an overshot wheel, two run of stone; and in the quality of meal and flour manufactured, is not inferior to any in the county, if to any on the Eastern Shore. There are from

80 to 100 acres

of Land, a two story Dwelling House, a kitchen, out-buildings, and a store-house; the situation is pleasant and healthy, with several never-failing springs of excellent water, and is a good stand for a store or other public business.

Also, three FARMS adjoining the Mill, on the northwest fork of Nanticoke river, containing, the first,

302 ACRES,

the second, **246 acres,**

and the third **60 or 80 acres**

of Land. This land is of good quality, now in cultivation, and has a sufficient quantity of timber to each farm. There are common frame buildings, and a good well of water on each of them.

Also, two other FARMS, immediately on said river, the first containing

246 acres,

and the second about **135 acres**

of Land. The soil is light, but an excellent situation for vessel building. A large vessel may be built within 150 yards of the house, and launched into 11 or 12 feet water at half her length. There are also fine springs of excellent water, and a large proportion of woodland.

Also, **100 ACRES OF WOODLAND,** within half a mile of said river.

Also, a LOT in Federalsburg, with a two story Dwelling House, well finished, a kitchen, carriage house, stables, and other out-buildings sufficient for a large family, all nearly new.

Also, in said village, a SAW MILL, on an excellent stream of water, with all her appurtenances.

All or any of which property I would sell on accommodating terms. Further particulars can be known by applying to

W. HUGHLETT,
Near Easton, Talbot county, Maryland,
OFFERS FOR SALE A TRACT OF

VALUABLE LAND,

LYING and being in Dorset county, within about three miles of New Market, and the same distance from Choptank river, containing about

Six Hundred Acres,

upon which are two tenements. One of the tenements has of cleared land about three hundred thousand corn-hills, divided into three fields, and the other about sixty thousand, with Dwelling Houses, &c. &c.; the residue covered with most valuable Timber. I am desirous to sell at a fair and reasonable price, either for cash or upon a credit, to a responsible purchaser.

ALSO, A TRACT OF LAND of about

300 ACRES,

upon Great-Choptank river, in Caroline county, adjoining the estate of the late Captain William Richardson, Garretson, Reese and others. The greater part of this land is believed to be covered with valuable Pine and Oak Timber. There is a small tenement, but the cleared land is considerably worn. It is believed that the timber and wood, at a reasonable value, will pay all expenses, and pay the price demanded for the land. My inability to attend to the management and improvement induces me to be desirous to sell for a reasonable price. This land is upon the river, a fine shore, where the wood and timber can be taken off; and a fine fishery may be made.

Persons wishing to purchase, will please make early application.

If the above lands are not sold, they may be rented to improving tenants on long leases.

Galloway, June 20, 1835. 4w

NOTICE.

ALL persons who rented Farms, Houses or Lots of the subscriber for the present year and wish to renew their leases, will please call and inform him of the fact before the expiration of this month. Those indebted to him for negro hire or on any other account, are requested to pay the same immediately.

All business in his line will be thankfully received and duly attended to.

TEMPERANCE CONVENTION.

THE State Temperance Society has recommended that the several Temperance Societies in each county form a County Society auxiliary to the State Society, and in pursuance of said recommendation, the several Temperance Societies of this county are requested to send Delegates (such a number as they may see proper,) to a Convention which will be held at the Methodist Episcopal Church in Cambridge, on Monday, the 20th day of July next, at 2 o'clock, for the purpose of carrying the said object into effect.

The advantages to be derived from united action in this cause must be obvious to every one, and it is sincerely hoped that no Society, whose members feel an interest in promoting temperance, will fail to be represented in said Convention.

It was intended that it should be held on the 4th of July, but the probability that many persons would be engaged in their harvests caused its postponement.

Cambridge, Nov. 8, 1834.

VALUABLE
REAL ESTATE.

PURSUANT to authority derived from the Chancellor of Maryland, I will sell, to the highest and best bidder, on Saturday, the 18th day of July next, the following property. To such persons as wish to invest capital in real estate, the opportunity will be very inviting. The property will be sold at auction, in Vienna, between the hours of one and two, and the terms, as prescribed by the decree, are one-fourth cash on the day of sale, the balance to be paid in six and twelve months, is equal parts, with interest from the day of sale till paid.

1st. TOWN HILL.—This Farm contains about

140 1-2 acres,

and is beautifully situated on the Nanticoke river, and is adjoining the town of Vienna. The improvements are a *new* two story Dwelling House, large and commodious, cook-house, cellar, granary and other necessary out-houses, all new and convenient; the yard, garden and pleasure grounds, all well and handsomely enclosed; an Orchard, young and thriving, including apple, pear, peach and other fruit trees. This property is justly considered one of the most delightful places of residence in the county. The soil is considerably improved, and susceptible of the highest state of culture.

2d. ST. ANDREWS, which contains about

319 ACRES,

is also situated on the Nanticoke river, and immediately adjoins Town Hill. The buildings are indifferent, but the soil is of the best character and considerably improved, and there is also an abundance of wood and timber.

3d. Lot No. 1 and Lot No. 4 of NANTICOKE MANOR, containing

556 1-4 ACRES,

is situated on the Nanticoke river, and adjoins the lands of the late Michael Fitchett on the south, and St. Andrews (above described) on the north. The soil of this tract is of the same quality and character of Town Hill and St. Andrews, above described.

4th. SCOTT'S PURCHASE and OPOSSUM RIDGE, containing THIRTY ACRES, situated on the main road from Vienna to the Big Mills.

5th. Mrs. Ann King's right of dower in the Lot sold by Thomas Hayward to Thomas H. Hicks, and by the latter sold to Jer. Colston.

All persons having claims against the estate of Jer. Colston are now notified to file them, with the proper vouchers, in the Court of Chancery, within six months from the day of sale, otherwise they may derive no benefit from the proceeds of this sale.

TRUSTEE'S SALE OF
Valuable Real Estate,
ON PRATT STREET, BALTIMORE, AND ON CHOPTANK RIVER, CAROLINE COUNTY, MD.

BY authority of a decree of the High Court of Chancery of Maryland, I will offer at public sale, on the premises, on Thursday, the 9th of July next, at 10 o'clock, A. M., all that Lot of Ground and premises, No. 11, Pratt street, city of Baltimore, two doors below Charles street, and four doors above the Baltimore and Ohio Rail-road Depot. This lot is a parallelogram, fronting twenty-five feet on the south side of Pratt street, and extending back eighty feet to an alley twenty feet wide.—The improvements upon it consist of a three story Brick House, with a two story back building attached thereto—the front is divided into two stores, and now occupied by Mr. John Simonson, Chair-maker, and Mr. D. Smith, Boot maker. I understand this property, from its location, is very valuable, and offers strong inducements to those who are disposed to invest their money in productive real estate. The title is in fee simple, clear of all ground rents, &c. Those who are disposed to purchase can examine the premises for themselves, or enquire for particulars of Peter Gould, Esq., South Charles st., near Pratt-st.

Under the same decree, I will also offer at public sale, on the premises, on Thursday, the 16th of July next, at 3 o'clock, P. M., that beautiful property situated on the Great Choptank river, Caroline county, Md., known as Richardson's or Gilpin's Point, now in the occupancy of Robert T. Keene, Esq., late Sheriff of said county. This tract contains about

360 ACRES,

of which a large portion is covered with valuable Timber, very convenient to navigable water. The improvements thereon consist of a large frame mansion House, with kitchen, smoke-house, wash-house, quarters, &c., together with a large and commodious Store House, with a brick cellar; and there is also attached a substantial wharf recently re-built, upon which there is a very ample granary for the reception of the produce of the country, with valuable sheds and a carpenter shop appendant. As a stand for the sale of goods, &c., this situation is not surpassed, perhaps, by any country place on the Eastern Shore. The quantity of grain and other produce received, is, I understand, quite sufficient to keep a bay vessel constantly employed in running it to market. Connected with this property there is a profitable Herring and Shad Fishery. This situation is highly desirable for business or pleasure, being about 12 miles from Easton and the same distance from Denton. The premises being supplied with a spring of never failing water, and remarkable for healthiness, may be considered amongst the most beautiful, pleasant and lucrative seats upon the Choptank river, and offer great temptations to purchasers. Those who are disposed to purchase can examine the property for themselves, or, for information, may enquire of Gen. Wm. Potter, of Caroline, or of Robt. T. Keene, Esq., on the premises.

According to the Terms of Sale of the above property, prescribed by the Decree, one third of the purchase money is required to be paid on the day of sale, and the residue in two equal payments of one and two years, with interest from the day of sale, to be secured by bond, with surety to be approved by the Trustee.
