CHRONICLE.

CAMBRIDGE:

SATURDAY, JUNE 25, 1836.

More Indian Difficulties are apprehended.—Private accounts from Washington state that, owing to recent movements among the Cherokees, a large force (volunteers and militia, we presume, for the regulars are all absorbed by the Creeks and Seminoles and the Mexican frontier,) is about to be sent to Athens, Tennessee—and that Inspector General Wool is ordered to take command.

Death of James H. M. Clayton.—The Post Master at Dover, sent us the following note by this day's mail:

"By a letter I received this evening, June 17th, from Brookeville, Indiana, I am informed that James H. M. Clayton died at that place on the 7th of this month, and was buried in the Methodist burying ground on the 8th instant, at 5 P. M. He was on his return home. The letter was directed to "Post Master, at Dover, Delaware," and subscribed by George Berry."—*New Castle Gazette.*

The rumor is general that Gov. Cass will go to France, and be succeeded in the War Department by Mr. King, of Alabama. It is not known who is to have the Russian job.—*Alexandria Gazette.*

Gold.—The New York Mercantile Advertiser of Monday says:—"The Sampson, which arrived at this port from London on Saturday, brought out £80,000 sterling in Sovereigns; 50,000 for the Bank of America, 30,000 for J. L & S. Josephs & Co."

FROM MARYLAND IN LIBERIA.

Dr. James Hall, Governor of Maryland in Liberia, arrived in this city on Friday evening last. The intelligence that he brings of the condition of affairs at Cape Palmas, is highly gratifying, and fully corroborates the statements that have heretofore been received of the prosperity of this important and interesting settlement. The emigrants by the Fortune, which left Baltimore in December, 1835, arrived out quite well, and on the 24th of March, the date of the last advices, had passed through the fever without loss.—*Balt. Amer.*

Commodore Porter.—We learn from the European correspondence of the Albany Daily Advertiser, that our charge d'Affaires at Constantinople has been compelled by ill health to travel for a season. He set out in April, intending to visit France and Switzerland before returning to Constantinople.

Mr. A. Naudain, U. S. Senator from Delaware, has resigned his seat. The Legislature of Delaware is now in session and will proceed immediately to fill the vacancy.

The Legislature of Delaware has chosen Richard H. Bayard U. States Senator, vice Arnold Naudain, resigned.

A few individuals of New Orleans have subscribed the sum of $21,000 for the purpose of securing the return of the Italian Opera corps to that city next winter.

A numerous meeting of merchants in Providence, has resolved to ask from the United States Bank, the establishment of an agency in that city.

An attempt has been made to indict six or seven of the ringleaders engaged in the late burning of M'Intosh, at St. Louis. The effort, however, has failed. The Grand Jury has decided, that the murder was the act of several thousand persons, and that no half dozen individuals ought to be held responsible for it.

Extract of a letter dated New Orleans, June 2: "General Houston is in bad health, and without good attention, I fear, will lose his life—his wound in the foot is very bad, and I think must mortify. He is quite unable to stand, and fainted yesterday when a little fatigued."

The reports which have been recently noticed, of the existence of differences between Gen. Houston and the Cabinet of Texas, appear to be well founded. On this subject the National Intelligencer says:—"We are enabled to state, from recent private information, that a breach has taken place between Gen. Houston and the President and Civil Government of Texas, so wide as to induce the General's retirement from command, had his wound not required his visit to New Orleans for medical advice. The officers, whose names have been published as having arrived with him at New Orleans, partake of his dissatisfaction; and the consequences of this quarrel, which does not appear to have been sought by the General, may yet be disastrous to the cause which his late astonishing military success would have been thought to have so much contributed."

Mulberry culture.—Several spirited and enterprizing citizens of our town, have engaged in the Mulberry culture. The seed were planted some time last month, and notwithstanding the cold, rainy weather, which it was feared would prove, in some degree, injurious to them, we are gratified to perceive that they have come up finely, and the plants are in a prosperous and growing condition.—*Denton Adv.*

A patent has been taken out in England for tanning with blackberry bushes in lieu of oak bark.

FROM EUROPE.

The packet ship Independence, at New York, brings to the editors of that city Liverpool papers to the 24th May, inclusive.

The Independence made her outward passage in fourteen and a half days, and has returned in twenty days, performing the voyage out and home in *thirty-four days and a half*—a shorter period than was ever before known.

There was a great increase of trade with the United States. The Liverpool Albion of the 23d May says—"The shipments to the United States have been most extensive for the last 6 weeks. They exceed, we are told, those usually made in the spring for the American market, and they are increasing, instead of diminishing, as the season advances. The weekly packet ships cannot take a quarter of the goods that are offering, several of the latest having been compelled to refuse merchandise a week before their day of sailing. The Independence, which sails in the morning, had all her space engaged ten days ago. The consequence is that transient ships are in great request, and freights have risen. Still, the goods are delayed from the want of suitable conveyances—the American ships receiving the decided preference of shippers."

The Irish Municipal Corporations Bill, after being amended so as to greatly impair its efficacy, passed the House of Lords on the 18th. The amendments were to be considered in the House of Commons on the 1st of June.

The Water Witch, British brig of war, lately captured a slave vessel at Whydath, on the coast of Africa which had on board nearly 600 slaves.

The papers notice the large amount of gold continually shipped from England to this country.

The chancellor of the exchequer had given notice of a bill to remove the civil disabilities affecting the Jews.

We understand that ten sail of the line and twelve frigates have been ordered from Brest to the Mediterranean, where they are to remain as a *permanent* fleet. These ships of war, combined with the English fleet already in the Mediterranean would form a naval force more formidable and more effective than could be mustered by any combination of Northern or hostile powers, and we presume it is intended to increase the English fleet, so as to render it equal in force to the French.

The general discussion of the budget was closed in the chamber of deputies on the 19th. It was admitted that there would be a deficit of £1,600,000 in the revenue for the year 1836.

Five Giraffes, or Camelepards, an animal never exhibited alive in this country, are to be sent over shortly to this city by a French gentleman, who succeeded in getting them, whilst acting as aid de-camp to Ibraham Pacha in his war against the Wahabees.—*New York Star.*

A Substantial Compliment was paid to Mrs. Edward Knight, the distinguished vocalist, at her recent benefit at Vicksburg, Miss. She was requested to sing the Vicksburg Volunteer Banners Song. The Vicksburg crops were invited to attend the Theatre. When the moment for the favorite song arrived, seven of the principal officers came on the stage; one standing in the middle and holding a banner, with three on each side of the stage. When the song was concluded, one of the officers advanced, and placed a wreath on the head of the fair vocalist. The song was encored amidst loud cheering. But the most substaintial part of the compliment was, that among the leaves of the wreath several hundred dollar notes were found.

The citizens of Vicksburg are as noted for generosity as for killing gamblers.

A duel was fought in New Jersey on Tuesday, the 7th inst. between two Frenchmen, one from New York, the other from Philadelphia, which resulted in the death of the former. They fought with swords.

In the progress of the great trial at Paris, an artist who was in court made a drawing of Fieschi, and handed it to him for his opinion thereon. Fieschi looked at it for a few moments and then wrote beneath, "I find myself a very ugly fellow," signed his name, and then returned the book. Immediately after, the sketcher was offered 400 francs for the drawing and autograph.

Musquitoes.—The annexed recipe is highly recommended in a New Orleans paper:

To prevent Musquitoes.—Attach a piece of flannel or sponge to a thread made fast to the top of the bedstead, wet the flannel or sponge with Camphorated spirits, and the musquitoes will leave the room!

It is stated in the New York Star that a book of 278 pages was stereotyped, printed and bound in the publishing establishments of the Harpers, in thirty six hours.

A peck of green peas was sold at Boston on Mondry for ten dollars and a half.

White Indians.—A western paper states that in the far West, (where is the far West?) there are two small tribes of white Indians. One is called the *Mawkeys*, and the other the *Nabhoes*. They are described as of the ordinary stature, with light hair, blue eyes, and skin of the most delicate whiteness. They are an innocent, inoffensive people, who live by agriculture.

The inhabitants of Louisville have commenced building a bridge over the Ohio river at that city.

The Newbern, (N. C.) Spectator says that considerable injury has been done to the cotton crops in that neighbourhood by the heavy rains.

To the Public.

THE subscriber has been informed that there is a report in circulation stating that he has disposed of his possessions on the Choptank, and ceased to keep the Cambridge Ferry. This report was undoubtedly gotten up by some malicious individual with a view of injuring the subscriber, and, if suffered to remain uncontroverted, the aim of its originator would certainly be attained. The subscriber, therefore, takes this method of informing his friends and the public, that there is not the slightest foundation in truth for the above mentioned report; but that, on the contrary, he still keeps the Cambridge Ferry, and expects so to do the remainder of his days. His Boats are substantial, safe and in good order, and are under the management of as prompt, active, trusty and experienced hands as those belonging to any boat that has hitherto been, or may hereafter be, stationed on the above named ferry; while he keeps, as usual, good Horses and Carriages for the accommodation of travellers. He has signals on both sides of the river, which his boat will always answer with the utmost despatch, so that no one shall be kept waiting longer than shall be absolutely necessary.

The subscriber returns his thanks to his friends and the public for the very liberal patronage which he has heretofore received from them; and, as his long experience in the business, and his determination to use his best efforts to please, induce him to hope that he will give general satisfaction, he respectfully solicits a continuance of their favor.

A Great Bargain.

THE subscriber, having located himself permanently at the South, offers for sale his VALUABLE PLANTATION near Transquakin River, in Dorchester county. The tract contains about

650 ACRES,

four hundred of which are in cultivation and the balance heavily timbered. The tilable portion is divided into three fields, each of which is peculiarly adapted to the growth of corn and wheat. My residence in a distant State is my only reason for offering this land, as I am persuaded that a better investment cannot be made in this country.

The purchaser will be required to pay the whole of the purchase money in cash, excepta twenty five hundred dollars, upon which credit of three years may be had. Negroes would be received in payment, at the market price.

The subscriber is confident in the assertion that the Farm now offered for sale is as productive as any farm of the same size in the county.

If not sooner disposed of at private sale, this farm will be offered at public auction, in Cambridge, on the 2d Monday in July next.

The subscriber will remain here until the day of sale, and will, with great pleasure, show the premises to any and all persons wishing to purchase.
