The Horses of Cuba.

Our Home Journal says the saddle horses of Cuba have a peculiarly easy gait.—The speed attained in ordinary traveling is fully equal to that of a smart trot, and is both easy and delightful. It is neither a gallop, trot, pace nor rack; the gait resembles what is familiarly known as "single foot" in the West. When the horse is in motion his gait appears to be that of a rapid trot, but it is not; it is executed by moving both fore and hind feet independently of each other, so that but one foot is lifted at a time, the effect of which is to gain the smoothest movement possible to imagine. This gait, though said to be natural to Spanish horses, which are for the greater part descended from Spanish and Barb stock, is partly the result of education, for to possess it in perfection the horse undergoes severe training, his value being greatly enhanced thereby.

IMPOTENT MISCHIEF.—The New York *Express* speaks of an atrocious combination of avarice, sectionalism and demagoguism which is going on in that city to fire the hearts of colored preachers in the South by sending among them incendiary papers, filled to the muzzle with attacks upon the Southern white people and upon the national peace policy of the President. A characteristic feature of this combination is that what is done, is done in the name of religion. It is said that there are 5,000 colored preachers at the South, and subscriptions are called for to send copies of The Witness, owned and edited by unnaturalized citizens, to this army of colored preachers, the obvious purpose being to add fuel to the long existing political race differences at the South. The purpose is a detestable one. After the experiences which the colored people have had of those engaged in this fresh enterprise of hypocrisy and greed, in the name of religion, it is to be hoped they will have too much sense to be deluded by men who only wish to use them for their own selfish and base purposes.—*Baltimore Sun.*

THE proposition, now under consideration by Generals Sherman and Sheridan and Commissioner Smith, to organize an Indian police force out of the subjugated Sioux, with Spotted tail in command, under the nominal rank of major, is a novel one in this country, though experiments of a similar kind were long ago tried by the British government both in India and its Cape colony with entire success. Whether it could be safely attempted here is a question which can hardly be decided in advance of actual trial. The familiarity of the Sioux with the country to be policed, their skill in woodcraft and their great powers of endurance are all advantages of a positive character, and precisely those most lacking in the regular army; if military discipline supplemented these qualifications the Sioux would be worth thrice their number of soldiers for purposes of frontier defense. But it would hardly pay Uncle Sam to equip and arm and dicipline an Indian cavalry force unless their loyalty could be implicity relied upon. It would not be pleasant and it might not be easy to subjugate them should they turn savages again.—*Balto. Gazette.*

STRENGTH OF THE RUSSIAN NAVY.—It appears from a recently-printed report of Chief Engineer King, of the United States navy, on European ships-of-war, that the Russian navy is now composed of 28 armed ships and 196 other vessels of all classes, carrying altogether 521 guns. The personnel of the navy consists of 81 flag officers of all ranks, 1,224 other officers, 513 mates, 210 artillery officers, 145 engineer officers, 545 mechanicians, 52 constructors and 260 medical officers. Except for coast defense, the report states that the Russian fleet is rather numerous than powerful. The Peter the Great and the Minin are the only two vessels on the list of sea-going armored ships which approach the modern standard of fighting efficiency. For coast defense Russia has a considerable fleet, of which the circular-armored ships Movgarod and Admiral Popoff are mentioned as very formidable. The speed of all her monitors is given at from six to eight and one-half knots, and they are not provided with spurs for ramming, and must, therefore, be considered as weak vessels, fit only for operation in shallow water.

THE DEMAND FOR SHIP TIMBER.—The existing troubles between Russia and Turkey and the unsettled condition of other European powers growing out of the difficulties have already created a demand upon this country for timber suitable for shipbuilding, and agents of several foreign powers are here for the purpose of purchasing such timber. Two cargoes were recently shipped to France, and it is said that more has been purchased for Great Britain. But little live oak timber is in the market, the government having nearly all this timber stored at the various navy-yards amounting in the aggregate to about 1,200,000 cubic feet, though much of it is decaying for want of suitable places to preserve it.

REFUSING TO PRAY FOR THE PRESIDENT.—Since the November election the Rev. Dr. J. S. Harrison, rector of the Episcopal church at Monticello, Fla., has in his services omitted the prayer for the President of the United States. He takes the ground that Mr Hayes was not elected and must, therefore, be an usurper. He consequently does not recognize Mr. Hayes as the President of the United States in prayer, as provided in the church service. He has no objection to praying for Mr. Hayes as "a man and a sinner," and in suitable language, as the *de facto* ruler of this nation, but he will not pray in the language of the prayer book for him as the rightful president of the United States.—*Jacksonville Sun.*

SOME SOUTH CAROLINA STATISTICS.—South Carolina is an old State, with a fixed, stable and well-settled society. In 1700 it had a population of 247,073, the whites preponderating. In 1800 it had 300,000. In 1840 it had 594,398, with the negro in excess. In 1860 it had 703,-708, and in 1870, 705,606, of which 415,-814 were negroes. Charleston had a population of 48,000, of which 22,000 were negroes. Thus the population, it will be seen, had been of slow growth, and consequently the society solid and stable, and largely of English, German and Irish origin, with large admixture of the French Hugnenots.—*Nashville American.*

AMUSEMENT.—Theatre goers and all such as keep late hours are very liable to contract a severe cough or cold. A safe and reliable cure is Dr. Bull's Cough Syrup. The price is only 25 cents.

BLUE glass spectacles worn low on the nose are recommended to young men whose mustaches are debilitated.

OVER 20,000,000 young forrest trees were planted in this country during the past year.

DISH WASHING WITHOUT SOAP.—Have your dishwater hot, and add a very little milk, as this softens the water, gives the dishes a nice gloss, and preserves the hands. It removes the grease, even that from beef, and yet no grease is ever found floating on the water as when soap is used. The stone vessels should be set on a stove with a little water in them when the victuals is taken from them; thus they are hot when one is ready to wash them, and the grease is easily removed. Tinware keeps bright longer cleansed in this way than by using soap or by scouring. The habit so many have acquired of scouring tins is a wasteful policy, as the present style of tinware will not bear it.

NOT ALLOWED TO DYE HIS HAIR.—Geo. Klein, of Memphis, is very bald, only a fringe of hair remaining low down on his head. He recently had the smooth surface dyed with very bright colors, divided into squares of crimson, yellow, green, and so on. His pall, under a good light, looked like a section of rainbow. He went to church, and detracted attention from the services. He went to the theatre, and received more notice than the performance did. At length he was committed to an asylum as a lunatic. He declares that a country is not free in which a mnn may not dye his head according to his own fancy.

WHITE, smooth and soft any lady's hands, arm or neck may become, who uses Glenn's Sulphur Soap. Pimples or other disfigurments of complexional nature, are surely obliterated by this healthful promoter of beauty. Depot, Crittenton's No. 7 Sixth Avenue, N. Y. Hill's Hair and Whisker Dye, black or brown 50 cents. m 12-4t.

LESS than ten per cent of the area of the United States is under cultivation.

FALSE IMPRESSION.

It is supposed by a certain class of citizens, who are not practical or experienced, that Dyspepsia can not invariably be cured, but we are pleased to say that GREEN'S AUGUST FLOWER has never, to our knowledge, failed to cure Dyspepsia and Liver Complaint in all its forms, such as Sour Stomach, Costiveness, Sick headache, palpitation of the heart, low spirits, &c., &c. Out of 30,000 dozen bottles sold last year, not a single failure was reported, but thousands of complimentary letters received from Druggists of wonderful cures. Three doses will relieve any case. Try it. Sample Bottles 10 cents. Regular size 75 cts. For sale by C. F. STAM, Chestertown, and E. B. BRITTON, Millington.

The Science of Life;

OR, SELF-PRESERVATION.

MORE THAN A MILLION COPIES SOLD.

Gold medal Awarded to the Author by the "National Medical Association," March 31ss, 1876.

JUST published by the PEABODY MEDICAL INSTITUTE, a new edition of the celebrated medical work entitlek the "SCIENCE OF LIFE; or SELF-PRESERVATION." It treats upon MANHOOD, how lost, how regained and how perpetuated; cause and cure of Exhausted Vitality, Impotency, Premature Decline in Man, Spermaterrhœa, or Seminal Losses, (nocturnal and diurnal) Nervous and Physical Debility, Hypochrondria, Gloomy Forebodings, Mental Depression, Loss of Energy, Haggard Countenance, Confusion of Mind and Loss of Memory, Impure State of the Blood, and all diseases arising from the ERRORS OF YOUTH, or the indiscretions or excesses of mature years.

It tells you all about the Morale of Generative Physiology, the Physiology of Marriage, of Wedlock and Offspring, Physical Contrasts, True Morality, Empiricism, Perversion of Marriage, Conjugal Precept and Friendly Counsel, Physical Infirmity, its Causes and Cure, Relations Between the Sexes, Proofs of the Expansion of Vice, The Miseries of Imprudence, Ancient Ignorance and Errors, MEANS OF CURE, Cure of Body and Mind. TRUE PRINCIPLES OF TREATMENT, Address to Patients and Invalid Readers, The Author's Principles. The price of this book is only $1.00

This Book also contains More Than FIFTY PRESCRIPTIONS for the above named and other diseases, each one worth more than the price of the book.

Also, another valuable medical work, treating exclusively on MENTAL AND NERVOUS DISEASES; more than 200 royal octavo pages, twenty elegant engravings, bound in substantial muslin. Price only $2.00. Barely enough to pay for printing.

"The Book for young and middle-aged men to read just now, is the Science of Life or Self-Preservation. The author has returned from Europe in excellent health and is again the Chief Consulting Physician of the Peabody Medical Institute, No. 4 Bulfinch St., Boston, Mass."—*Republican Journal.*

"The Science of Life is beyond all comparison the most extraordinary work on Physiology ever published."—*Boston Herald.*

"Hope nestled in the bosom of Pandora's box, and hope plumes her wings anew since the issuing of these valuable works, published by the Peabody Medical Institute, which are teaching thousands how to avoid the maladies that sap the citadel of life."—*Philadelphia Enquirer.*

"It should be read by the young, the middle aged and even the old."—*N. York Tribune.*

The first and only Medal ever conferred upon any Medical Man in this country, as a recognition of skill and professional services, was presented to the author of these works, March 1st, 1876. The presentation was noticed at the time of its occurrence by the Boston Press and the leading journals throughout the country. This magnificent Medal is of solid gold, set with more than one hundred India diamonds of rare brilliancy.

"Altogether, in its execution and the richness of its materials, and size, this is decidedly the most noticeable medal ever struck in this country for any purpose whatever. It is well worth the inspection of numismatists. It was fairly won and worthily bestowed."—*Massachusetts Ploughman, June 3d, 1876.*

Catalogue sent on receipt of 6 cents for postage.

Either of the above works sent by mail on receipt of price. Address PEABODY MEDICAL INSTITUTE, (or W. H. Parker, M. D., Consulting Physician,) No. 4 Bulfinch Street, Boston, Mass., opposite Revere House.

It's Spring at Last!

AND AT

W. W. PARKS & SONS'

YOU WILL FIND

Goods to Suit the Season!

OUR purchases at a time are small, but we are frequently made, hence it is that we've at all times something new and attractive to show the people. Taking advantage of the market thus we are therepared to give our customers the advantage of low prices. These are facts, and we would not only say so, but are prepared at our counter to prove it.

With our recent purchases, our Stock in most all its branches is replete. Our Goods have been selected with care, and we feel confident that consumers generally will find it particularly to their interest to give our stock an inspection before purchasing elsewhere.

OUR STOCK OF DRY GOODS,

Embracing Prints, (choice styles) Muslins, Bleached and Unbleached, (from 4 to 10-4) Dress Goods (embracing Cashmeres) Black and Colored—Black from 45 cents and upwards—Cassimeres, Cottonades, &c., is large.

OUR STOCK OF GROCERIES is good, and we would invite the attention of those who are in the habit of sending to the city for the same. We give an inducement to purchasers who buy such largely. We think we can furnish FLOUR by the Barrel, COFFEE by the 25 or 50 lbs., and MOLASSES by the Barrel, about as cheap as they can be bought in the city, *including expense of getting.*

OUR STOCK OF SHOES is Large and we feel confident that purchasers will do well to examine the same before purchasing. A good Stock of HATS recently purchased, too.

OUR STOCK of CARPETINGS, embracing Cottage, Ingrain, Cotton and Wool, we would invite particularly the attention of buyers to. They are the cheapest in the county.

OUR STOCK of OIL CLOTHS (Floor) is Large. All widths, from 4-4 to 8-4.

$33 PER TON.

Liberal Discount for the Cash.

NO FERTILIZER ever offered to the public has met with the great success which this Guano achieved. Its sterling merit has made it indispensable for all who require a cheap first-class manure. In consequence of its high quality its sales have increased in a larger ratio than those of any other fertilizer. On all crops to which it has been applied it has produced the most gratifying results—largely increasing the yield.

On Corn, Oats, Garden Vegetables, Berries, and Small Fruits,

The SUN GUANO Acts Promptly,

And has frequently DOUBLED the ordinary Crop.

Although we have made a liberal reduction in price, we WARRANT THE STANDARD TO BE FULLY EQUAL TO ANY HITHERTO MANUFACTURED. Farmers should send in their orders to local agents early, as the demand for the Guano will undoubtedly be large.

Ayer's *Hair Vigor,*

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.
