SELF-DENYING PATRIOTISM

The general denunciation by Americans of plans for shipping American planes to feed the flames of Spanish islation and prevent such shipment; it reflects an improved sense of patriotism.

are applying the term "unpatriotic" to the demand for a sickness that is the condition of obtaining the coveted serlicense to ship this war material. A definite advance can vice." So says the bulletin of the medical association. Figbe recorded in public thinking on this question. Once the ures are then quoted from Germany to prove that from 30 public would have known nothing of such plans. Even a to 50 per cent of the cases treated "are created or aggrafew years ago the popular concept of patriotism had more vated" by this situation. Here is a type of aggressive mental to do with assertion of national rights (which might mean suggestion that is being recognized more and more in difmerely the profits of a few nationals) and the assertion of fering phases. readiness to fight than with keeping out of a fight.

patriotic" any profiteering which may entangle America. much or more under insurance systems. This present incident only re-emphasizes the attitude which last year caused abandonment of oil leases in Ethiopia.

America shall have no part in supplying the materials for chine, of itself dangerous. prolonging mass murder in Spain. This sense of loyalty to humanity may some day become even stronger than patriotism. But meanwhile it is heartening to have the pacific rather than the belligerent side of patriotism developed.

"unpatriotic" when there is a chance to profiteer on other materials of war, such as cotton, wheat, scrap iron, cellulose, oil, etc., in which millions may be interested, there will be no danger of their getting into a war which is no rightful concern of theirs. And the new patriotism will have been proved. It will be more than a word to throw at one exporter; it will be a rule of action for all, a rule under which By the Year \$1.00 all are ready to make the sacrifice now demanded of one

HEALTH ASSURANCE

A strong voice is now lifted against proposals to include health insurance in the United States Social Security Act. The measure that has had such ardent backing from the American Federation of Labor has brought the sharpest opposition from the American Medical Association.

Thus one of the largest organizations of physicians and civil war is vastly encouraging. Not only does it promise surgeons contends officially that health insurance is not the early action by Congress to plug one gap in neutrality leg- answer to the public health question. It charges, first of all, that health insurance begets illness in those countries where it has been tried. It seems that the very notion of payment in advance for medical care creates a desire to get some Beginning with the President, Americans everywhere thing back, and this desire "has a tendency to create the

WHITAKER IROU CO.

Here's a fine way to start the day off wrong. Friend Husband complains about no hot water for shaving. And Friend Wife will take no blame for it.

It's a sad situation . . . but unnecessary. If this family would only get an Electric Water Heater, they'd solve this irritating -yeapainful-problem for evermore. For, it would give a continual supply of hot water-enough to keep everybody clean, sweet and happy. And the blessing

is—you pay little (see special rate below). As for the Heater—popular 50-gallon size costs only \$80 cash. Slightly more on budget plan — \$2 down, 36 months to pay. And you pay only 11/4c per kilowatt hour* to operate an Electric Water Heater on our special, low off-peak rate.

consumed. (Minimum monthly bill, \$1.)
