therefore we have always advocated the sowings of plenty of seed. On grounds worthy of being cultivated in wheat, less than 2 bushels of seed per acre should never be sown, and under peculiar circumstances of soil and exposure we should not hesitate to sow from 2 1 2 to 3 bushels per acre.

GERMAN PUBLICATIONS.—No less than six thousand books and pamphlets in all branches of human knowledge, were published in Germany during the year 1841. A fourth part of them consisted of theological treatises, sermons, and works of piety; nine hundred were of theology proper.

MILLIONS DIE THAT MIGHT BE SAVED BY SHERMAN'S LOZENGERS.—DR. VAN YORX.—Dr. sherman's Agent, 89 Chesut st. Philadelphia was applied to by a poor woman, whose daughter, 7 years old has been sick for nearly three years. Her stomach was as large as a grown persons, her arms and legs swollen so that she could not walk, two celebrated Doctors attended her and had exhausted their skill without any benefit. The Doctor believing it a case of worms, gave her a box of Sherman's Worm Lozenges, in two days she returned with joy beaming in her eyes, and said the Lozenges had saved her child's life. The first dose brought away nearly a pint of worms in one living mass [illegible] could not count. She is now a living witness of the almost miraculous efficacy of Dr. Sherman's Worm Lozenges.

CONGRESSIONAL INTELLIGENCER.

The Proprietors of the NATIONAL INTELLIGENCER, in order to meet the wishes of those whose circumstances or inclination do not allow them to subscribe even to a weekly Washington paper during the whole year, have determined to issue, during each session of Congress, a weekly sheet styled "THE CONGRESSIONAL INTELLIGENCER," to be devoted exclusively to the publication, as its limits will permit, of the Proceedings of both houses of Congress, and Official Reports and Documents connected therewith, including *a complete official copy of all Acts passed by Congress during the session*

To bring the price within the means of every man who can read, the charge for this paper will be for the *first* session of each Congress One Dollar and for the *second* session of each Congress half a Dollar.

The price of the CONGRESSIONAL INTELLIGENCER, to be issued on each Wednesday during the approaching Session of Congress, will therefore be One Dollar; paid in advance.

To enlarge upon the value, to those who take no newspaper from Washington, of this publication, containing an impartial but necessarily [illegible] account of the Proceedings in Congress [illegible] an authentic official copy of all the laws [illegible] who takes no such paper ought to take one, if he does not prefer remaining ignorant of what most nearly concerns his own destiny, and that of his family and of his posterity for ever.

When six copies are ordered paid for by any one person, a deducion of one-sixth will be made from the price: that is to say, a remittance of Five Dollars will command six copies of the Congressional Intelligencer for the next Session. A remittance of Ten Dollars will secure thirteen copies; and for Fifteen Dollars remitted from any one person or place twenty copies will be forwarded.

☞Payment in advance in all cases is indispensable.

WEEKLY NATIONAL INTELLIGENCER.

This paper, being made up of such portion of the contents of the National Intelligencer proper as can be compressed within the compass of a single newspaper, continues to be issued and mailed to subscribers every Saturday at two dollars a year, payable in advance in all cases—no account being opened with subscribers to the weekly paber.

To bring this paper yet more nearly within reach of such as desire to take by the year a cheap paper from the seat of the General Government, a reduction will be made in the price of it where a number of copies are ordered and paid for by any one person or association at the following rates:

For Ten Dollars six copies will be sent.

For Twenty Dollars thirteen copies; and

For each sum of Ten Dollars, above Twenty, eight copies will be forwarded, so that a remittance of Fifty Dollars will command thirty seven copies.

☞Publishers of papers throughout the several States and Territories who will give a single insertion to this advertisement (with this note annexed) and send one of their papers to this office with the advertisement marked therein, shall receive the Weekly National Intelligencer for one year free of charge.

☞500 *Pages for Fifty Cents!!!*

PROSPECTUS OF THE CONGRESSIONAL JOURNAL.

The editors of the *United States Journal* propose to commence, with the next session of Congress, a weekly publication under the above title, to continue through the whole session, at the unprecedented low price of

FIFTY CENTS,

to each subscriber for a volume of *five hundred pages!* It will contain a faithful and impartial record of both Houses of Congress, the gist of all the important speeches which may be delivered, &c. &c. The most competent reporters will be employed and nothing shall prevent it being made worthy of the patronage of the public generally. The Journal will endeavor, in its records, to do justice so both parties will feel allowed to patronise its publichtion. It being the long session, as it is called, the volume will contain at least 500 pages; each number will contain sixteen pages of solid matter, which will enable the publishers to give all the proceedings worthy of being preserved in book form, for binding and future reference. The exceedingly low terms will place it within the reach of all; the publishers hope that their friends will use their exertions in obtaining subscribers

☞Those who forward Five Dollars shall receive Eleven copies—Ten dollars, Twenty-three copies—Twenty dollars, FIFTY copies—reducing the price to forty cents, for a volume of 500 pages.

☞A title page and complete index will be added at the end of the volume, to make it more convenient for future reference.

THOMPSON'S VEGETABLE ANTI-BILIOUS PILLS.

PREPARED BY A. C. THOMPSON, CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion. Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although many children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food, hence Worms are most common to children, although many grown persons are subject to them. I have known persons to advanced age to have them.

It is well known to the Medical profession, that meny diseases are brought on, and continued by reason of Worms, and, many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with a remedy that will [illegible] them.

It is often a difficult matter to expel Worms, from children, although numerous remedies have been recommended, and used for that purpose, yet there are [illegible] properly combined, and judiciously used, will seldom fail in accomplishing the object.

In consequence of my frequent failures in 30 years practice to expel worms from children, with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable Extract, and combines the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS.

CAMBRIDGE, April 25, 1845.

To Dr. A. C. Thompson,

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in alluding in no measured terms of praise to the Vermifuge properties of the compound; which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the pretean complications so often manifested in Verminose irritation, will seldom disappoint us in our most sanguine expectations.

Very respectfully yours,
THOS. HY. HANDY, M. D.

CAMBRIDGE, April 26, 1845.

My Dear Sir,

I believe that your "*Preparation for Worms,*" will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above commendations of *Dr. Thompson's Vegetable Worm Syrup.*

THOMPSON'S VEGETABLE ANTI-BILIOUS PI[illegible]

PREPARED [illegible]

[illegible] invariably attendant on [illegible] nature or essence," but as all [illegible] directly on the Liver, all fearful [illegible] or less of a bilious character, whether of [illegible] tant, remittant or continued type [illegible] of those cases, where the Viscera [illegible] branes are attacked, and pain in all [illegible] of Rheumatic, and inflammatory affections [illegible] met with in districts of country where [illegible] prevail.

Therefore to repel these [illegible] ease, depending on a derangement [illegible] have prepared, for the benefit of fam[illegible] accommodation of the medical practi[illegible] cient, and safe remedy, which can be [illegible] containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the system—and may be used in all cases where purging is necessary.

And in the following diseases in particular.

Bilious Ague, Inflamatory and nervous Fevers; all affections of the liver, Bilious Cholic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or Fits, Rheumatism, Pleurisy, dysenteryfoul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the Eastern Shore of Maryland, he deems them entirely unnecessary, as the medicine will recommend itself in every family where it may be used, and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti-bilious Pills, to give them a character. Nor does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommended them to all who may stand in need of medicine.
