...enjoyment they took ... of the ... their delights. We look at the vacant seat ... unity table, and call to recollection their endearing graces, and the manly deportment with which they were wont to fill them. All these and a thousand other little things are held dear in the memory of those which have been similarly bereaved, and which fills the heart with sorrow and grief; yet we would not forget one of them.

"Sorrow for the dead, is the only sorrow from which we refuse to be divorced. Every other would we seek to heal—every other affection to forget; but this would we consider a duty to keep open—this affection we cherish and hood over in solitude. Where is the mother who would willingly forget the infant that perished, like a blossom, from her arms, though every recollection be a pang. Where is the child that would willingly forget the most tender of parents, though to remember be but to lament. Who, even in the hour of agony, would forget the friend over whom he mourns—Who, even when the tomb is closing upon the remains of her he most loved; when he feels his heart, as it were, crushed in the closing of its portals, would accept of consolation that would be brought by forgetfulness?" "No, the love which survives the tomb is one of the noblest attributes of the soul.

If it has its woes, it likewise has its delights; and when the overwhelming burst of grief is calmed into the gentle tear of reflection—when the sudden anguish, as the convulsive agony over the present ruins of all that we most loved, is softened away into pensive meditation on all that it was in the days of its loveliness, who would eradicate such sorrow from the heart? Though it may sometimes throw a passing cloud over the bright hour of gaiety, or spread a deeper sadness over the hour of gloom; yet who would exchange it, even for the song of pleasure, or the burst of revelry? No; there is a voice from the tombs softer than song. There is a remembrance of the dead to which we turn even from the charms of the living."

This property borders on the creek of the creek, and to which there are attached a very convenient ship yard and a convenient landing—a valuable wharf—this property will be divided into parcels and sold if desirable to suit the convenience of purchasers. Also "Hurtons Desire, Turkey Point and Woodyerton, not distant from Church Creek and chiefly covered with fine wood and timber. This property is known as that purchased from James A. There is not an opportunity in this place to give a more detailed description of the foregoing property. Persons disposed to buy, must examine for themselves. A few of the young Messrs. Dixons will afford every facility for an examination of the property and persons will call on them at Church Creek. THOMPSON'S VEGETABLE WORM SYRUP,

PREPARED BY

DOCTOR A. C. THOMPSON,

CAMBRIDGE, MD.

The most common cause of Worms is unwholesome food, with bad digestion. Worms appear most frequent in children of a relaxed habit, whose bowels contain a preternatural quantity of Mucus or Slimy Matter, although in my children who appear of a robust constitution are liable to have them, especially if they have lived on unwholesome food; hence Worms are most common to children, although many grown persons are subject to them. I have known persons to advanced age to have them.

It is well known to the Medical profession, that many diseases are brought on, and continued by reason of Worms, and many children die annually in consequence of their not being timely expelled from them. It therefore becomes a subject of great importance, to know when they do exist, and to be prepared with a remedy that will be certain to expel them.

It is often a difficult matter to expel worms, from children, although numerous remedies have been recommended, and used for that purpose, yet there are articles if properly combined, and judiciously used, will seldom fail in accomplishing the object.

In consequence of my frequent failures in 30 years practic to expel worms from children, with the remedies in common use, I have been induced to prepare a remedy in the use of which I have but seldom failed. Therefore to serve the cause of humanity and to be instrumental in saving the lives of many children, I offer it to the public as *Thompson's Vegetable Worm Syrup.*

This most valuable Vermifuge is prepared entirely of Vegetable extract, and consumes the most active and efficient worm medicine in use, and can be recommended as a perfectly safe remedy in all states and conditions of persons, who are infested with worms, and as all children are more or less liable to have worms, every family in the community should never be without it.

RECOMMENDATIONS

CAMBRIDGE, April 25, 1847.

To Dr. A. C. Thompson.

DEAR SIR:—A knowledge of the various vegetable medicinal agents embodying your "*Vegetable Worm Syrup,*" and their anthelmintic power, separately considered, justifies me in affording to my patients terms of praise to the Vermifuge properties of the compound; which I take very great pleasure in recommending as an heroic, safe and efficient anthelmintic, which if properly adapted to the protean complications so often manifested in Worm irritation, will seldom disappoint us in our most sanguine expectations.

Very respectfully your,
THOS. HY. CANDY, M. D.

CAMBRIDGE, April 26, 1845.

My Dear Sir.

I believe that your "*Preparation for Worms,*" will give general satisfaction—being an excellent combination of the most certain anthelmintics.

Yours very truly,
ALEX. H. BAYLY, M. D.

To Anthony C. Thompson.

I concur in the above recommendations of *Dr. Thompson's Vegetable Worm Syrup.*

WILLIAM H. WINGATE, M. D.

THOMPSON'S VEGETABLE ANTI-BILIOUS PILLS,

PREPARED BY

A. C. THOMPSON, M. D.

Cambridge, Md.

As Dr. Thomas justly observes "it is impossible to give a concise and proper definition of the disease known by the name of Fever, as it has no symptoms invariably attendant on it, which can point out its real nature or essence," but as all fevers, act directly or indirectly on the Liver, all febrile diseases partake more or less of a bilious character, whether of the intermittent, remittant or continued type; hence the frequency of those cases, where the Viscera, Glands and membranes are diseased, and put in all the various forms of Rheumatic, and inflammatory affections, so often met with in all streets of country where bilious diseases prevail.

Therefore to repel these complicated varieties of diseases, depending on a derangement of the Liver, I have prepared, for the benefit of families, and for the accommodation of the medical practitioners, and efficient, and safe remedy, which can be relied on, as containing a combination of such vegetable extracts as are usually employed in general practice, scientifically arranged so as to act on the Liver, and biliary secretions, and thereby prevent or remove those diseases, arising from a redundancy or a deficiency of bile in the systems—and may be used in all cases where purging is necessary.

Also in the following diseases in particular.

Bilious Ague, Inflammatory and nervous Fevers; all affections of the liver, Bilious Cholic, Jaundice or obstruction in the Liver, Indigestion, or dispepsia, convulsions, or Fits, Rheumatism, Pleurisy, dysenteryfoul Stomach, colds, and costiveness;

Numerous certificates might be obtained in commendation of these pills, but as the inventor is so extensively known, having been a practitioner of medicine for nearly thirty years, on the eastern shore of Maryland, he deems it an entirely unnecessary, as the medicine will recommend itself in every family where it may be used and the inventor would here remark, that he claims no new discovery in the articles which compose his Anti bilious Pills, to give them a character. Neither does he recommend them as a cure-all for all diseases, as there are too many of such articles imposed on the public, but from a conviction of the necessity of an article, in which the public can rely. He can from long experience in practice, with confidence recommend it to all who may stand in need of medicine.
