Kent News.

CHESTERTOWN:
SATURDAY MORNING.....Oct. 7, 1882.

The Rag-Pickers' Harvest.

As many as 2,000 rag-pickers find employment about the streets of New York city. They are almost exclusively Italians, who have displaced the Irish and Germans who used to do the work. Their gatherings of rags are valued at $750,000 a year. The hand cart dealers do a business of $3,000,000 a year. The aggregate rag trade of the city amounts to $30,500,000 a year. A prominent dealer estimates the number of rag dealers in the city at 800, about a fifth of them doing a large business. The general trade is controled by a few extensive dealers. Last year the cotton rag importations reached $10,000,000 in value, the home gatherings being worth $12,000,000; the paper mills taking the whole supply. The cotton rags are worth from 1½ to 6 cents a pound. The latter are used in making shoddy goods. The rags are sorted by women, who earn $5 a week, and packed by men, whose wages range from $12 to $14 a week. Some of the larger dealers have accumulated large fortunes.

A SAD PICTURE of life in Ireland is drawn by a correspondent of the Springfield *Republican*. He declares that no one can conceive how wretchedly poor and destitute human beings can be and live until he has ridden by cabin and crib and all the nameless shifts for shelter that offend the eye between Glengarrift and Killarney. Not one decent home, not one comfortable, tidy dwelling, not one cleanly, well-fed, neat human being did he see. Troops of sad, wan, starved children nearly naked, smeared to the eyes with dirt and ashes, followed him mile after mile plaintively wailing "A penny if ye plaze, sur." Men and women with the dull, dead expression of despair in their eyes waded out to gaze upon him from their cabins and holes in the ground, or between the rocks, literally ankle deep in mud and clay in such tattered tatters that Lazarus was attired in princely robes in comparison. Deer stood in the fields and birds sat upon the trees, fearless of man, for no Irishman is permitted to have a gun or to touch bird or beast, even though his family starve before his eyes. In the whole long ride of fifty-four miles he never saw a dog; and he exclaims: "Think of a people too poor to keep a dog!"

ORIGIN OF THE ROSE.—It is not known from what country the rose originally came, though its antiquity is proved by the Old Testament and in the Iliad. Persia, Egypt, Greece, all possessed roses, and Herodotus speaks especially of those that bloomed in the gardens of Macedonia, which he says, grew without cultivation and were delightfully fragrant. Many fables are told respecting its origin. The Greeks believed that Flora, having lost a favorite nymph, entreated the gods to change the dead body into a flower, and that to gratify her they each bestowed on the newly-created rose some especial charm so that she might reign as queen over all the other blossoms. The Turks honored the rose as having sprung from the sweat of Mohamet, and the Persians held that it was created without thorns, these disagreeable appendages having been added on the entrance of Aboumanus (the evil one) into the world.

A CHILD'S PRAYER ANSWERED. — An evangelist of to-day tells that, after one of his meetings, he observed that a little girl kept her seat after others had left. Thinking that the child was asleep he stepped forward to awaken her, but found she was praying that God would send her drunken father to that meeting-house that very night, there to be converted. The evangelist waited, and soon a man came rushing in from the street and knelt trembling at the child's side. He had been brought thither by a sudden impulse, which he could not resist, and then and there he found Christ. The child's faith was honored in the conversion of her father.

A CORRESPONDENT of the Scientific American says: "Let any one who has an attack of lockjaw take a small quantity of turpentine, warm it and pour it on the wound, no matter where the wound is, and relief will follow in less than a minute. Nothing better can be applied to a severe cut or bruise than cold turpentine; it will give certain relief almost instantly. Turpentine is also a sovereign remedy for croup. Saturate a piece of flannel with it and place the flannel on the throat and chest, in every case three or four drops on a lump of sugar may be taken inwardly with good results."

EX-SECRETARY EVARTS tells a delightful story at his own expense about a small donkey which he sent up to his country-seat for the use of his children. One of his little daughters going out with her nurse to admire the animal in its paddock was sorely distressed when the donkey lifted up its voice and brayed dolefully. "Poor thing! Poor thing!" exclaimed the sympathetic child; but suddenly brightening up she turned to her nurse and said: "Oh I am so glad. Papa will be here on Saturday, and then it won't feel so lonesome.

"How DOES yer like yer new place?" asked one dressed-up negro women of another, as they met on a corner of Austin avenue. "I hain't got no manner of use for the folks, but I has done sabed up seben dollars and a half outen de market money, and I hasn't drawed a cent ob my wages yit" "Eh! was you I would make 'em pay me my wages ebery week in advance. Dey mout keep some ob hit back when you comes to settle up wid 'em.—White folks am mighty onreliable heah in Austin." "Dar's no danger. Me, and de white folks I'se working for, has puffec confidence in each other."

"WHETHER or not the scientists differ from Moses I do not know," says Dr. Joseph Parker of London, "but I do know that they all differ from each other."

DON'T CONDEMN A GOOD THING because you have been deceived by worthless nostrums. Parker's Ginger Tonic has cured many in this section, of kidney and nervous disorders, and we recommend it heartily to such sufferers.—*News.*

PHILADELPHIA.

To WHEAT GROWERS.

The undersigned, *PIONEER* in the manufacture of FERTILIZERS in this city and *ORIGINATOR* in 1858 of the formulas and process of manufacture of

"Excelsior" and Ammoniated Phosphate,

So well and favorably known by the agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these FERTILIZERS as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the *High Standard Quality* of each will be maintained as heretofore.

The above are the most concentrated *FERTILIZERS* ever offered to the farmer, combining all the stimulating qualities of Peruvian Guano and the ever durable fertilizing properties of Bones in fine, dry powder, prepared expressly for drilling.

For growing Wheat, it is the universal opinion of the farmers of Maryland and Virginia, after over twenty years' experience in the use of these Fertilizers manufactured by me, that an application of 100 pounds is equal in its effects to 200 lbs. of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.

With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in quality, mechanical condition and price.

By strictly adhering to my original formulas, using only the most concentrated materials and superintending in person their manufacture, as for the past *twenty-four years*,

Uniform Quality is Guaranteed.

☞ Farmers, to secure the ONLY GENUINE *EXCELSIOR* and *PHOSPHATE* prepared according to my original formulas established in 1858, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

for Building purpoes, at the following rates at the kiln: slaked, 6c. per bushel, quick, 12c. per bushel.
oc14-tf. WM. PERKINS.

Ayer's Sarsaparilla,
For Purifying the Blood,

This compound of the vegetable alteratives, Sarsaparilla, Dock, Stillingia and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions on the skin are the appearance at the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or organs, whose action they derange, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions, and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ring Worm, Ulcers and Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and, Head, Female Weakness, Sterility, Leucorrhœa arising from internal ulceration and uterine diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

Prepared by
DR. J. C. AYER & CO.,
Lowell, Mass.,
Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine. oc29 2.

My porcelain-lined Pumps are manufactured under license, and buyers are guaranteed against any and all claims from the Company holding the patent. *Don't fail to make a note of this point.*

BLATCHLEY PUMPS THE

Carefully made of Best Selected Timber.

ALL the most Valuable Improvements.

The BLATCHLEY PUMPS are for sale by the best houses in the trade.

Name of my nearest agent will be furnished on application to

C. G. BLATCHLEY, Manufacturer,
308 MARKET ST., PHILADELPHIA, PA.

ROLAND
CHILLED PLOWS.

Every farmer in Maryland should use the "**Roland.**" The Mouldboard is harder than steel. They will do more work than any other Plow with the same amount of draft. They run level and easy to the plowman. They will scour in any soil. Having the reversible slip point, strong handsale and chilled shares, they cost less for repairs than any other plow in the market. Made in Baltimore, the repairs can always be obtained without delay. The workmanship, material and finish is of the best. There are fourteen sizes and kinds, and they are suited to all kinds of soil. Send for descriptive circular.

CHAMPION
GRAIN DRILL.

This Drill has force feed distributors for both wheat and grass seed, and has the only fertilizer distributor that will not clog, and will evenly distribute wet and sticky phosphate. It will sow grain, grass seed and fertilizer more satisfactorily than any other drill in America. It is the simplest and strongest drill made. It is more easily managed and less liable to get out of order than any drill in the market. As it is the leading drill in this market, and several thousands have been sold during the past few years, a large stock of repairs is always on hand. Send for circular.

BRITISH MIXTURE.

The popularity of this celebrated fertilizer is not due alone to the price, but to the fact that its effects are uniformly good, and that it has been found the equal of the highest priced and best phosphates in the market. It gives more value for each dollar paid than any other fertilizer in the land. Send for circular and price list.

Back Ache

POSITIVELY CURED BY
Benson's Capcine Porous Plasters.

Reasons Why they are Preferred to All Other Porous Plasters or External Remedies:

First.
Because they possess all the merit of the strengthening porous plaster, and contain in addition thereto the newly discovered powerful and active vegetable combination which acts with increased power, stimulating, sedative and counter irritant effects.

Second.
Because they are a genuine pharmaceutical preparation, and so recognized by the profession.

Third.
Because they are the only plasters that relieve pain at once.

Fourth.
Because they will positively cure diseases which other remedies will not even relieve.

Fifth.
Because over 5000 physicians and druggists have voluntarily testified that they are superior to all other plasters or medicines for external use.

Sixth.
Because the manufacturers have received the only medals ever given for porous plasters.
