SATURDAY MORNING.....SEPT. 15, 1883.

THE MODEL AMERICAN GIRL.

A practical, plain young girl,
Not-afraid-of-the-rain young girl:
A poetical posy
A ruddy and rosy,
A helper-of-self young girl.

At-home-in-her-place young girl;
A never-will-lace young girl;
A toiler serene,
A life pure and clean,
A princess-of-peace young girl.

A wear-her-own-hair young girl;
A free-from-a-stare young girl;
Improves every hour,
No sickly sunflower,
A wealth-of-rare-sense young girl.

Plenty-room-in-her-shoes young girl;
No indulger-in-blues young girl;
Not a bang on her brow,
To fraud not a bow,
She's just-what-she-seems young girl.

Not a reader-of-trash young girl;
Not a cheap-jewel-flash young girl;
Not a sipper of rum,
Not a chewer of gum,
A marvel-of-sense young girl.

An early-retiring young girl;
An active, aspiring young girl;
A morning ariser,
A dandy despiser,
A progressive, American girl.

A lover-of-prose young girl;
Not a turn-up-your-nose young girl;
Not given to splutter,
Not "utterly-utter,"
But a matter-of-fact young girl.

A rightly-ambitious young girl;
Red-lips-most-delicious young girl;
A sparkling, clear eye,
That says "I will try,"
A sure-to-succeed young girl.

An honestly-courting young girl;
A never-seen-flirting young girl;
A quiet and pure,
A modest demure,
A fit-for-a-wife young girl.

A sought-everywhere young girl;
A future-most-fair young girl;
An ever discreet,
We too seldom meet
This queen-among-queens young girl.

A TUNNEL UNDER THE STREETS OF ST. LOUIS FULL OF STRANGE RELICS.—Some workmen engaged in digging for the foundation of a massive steam shears about to be erected in the centre of the works of Rohan Bros., in Collens street, St. Louis, encountered a cavity about seven feet in height. Entering it, the men discovered that the cavity was of solid rock, while the ceiling was supported by upright posts. An exploring party was at once made, composed of Councilman Stone, Mr. Dennis Devery, and Messrs. John Michael and Philip Rohan. After proceeding in a straight line east for about fifty feet, the party came to an angle, and followed another end of the cave which pointed towards Cave street. Beyond the turn was another and smaller opening, which they entered, and walked on for some distance, when they came to another turning-point to the north. This turning was about seventy-five feet long, and at the end of the distance the cave again turned east, and then the exploring party came upon several relics of undoubted historical value. Councilman Stone found an Indian bow and a quantity of pottery and flint-locks. Mr. John Rohan unearthed a small brass or copper box, which, being opened, disclosed to view fine parchment documents neatly folded and written partly in French and partly in Spanish. The discovery of the cave created the wildest interest in the neighborhood, and the place was visited by a number of gentlemen. The place was put in the possession of the Missouri Historical Society, who will make a thorough investigation and report what they find to the scientific world.

JUSTICE FIELD AND THE PRESIDENCY.—Justice Stephen J. Field has written a letter to Mr. Wm. L. Royall, of New York, in which, in discussing the presidential question, he says his candidacy in 1880 was made at the solicitation of those who thought he might do something to bring the two sections of the country—the North and the South—into better relations with each other. Defining his present position, Justice Field says he favors a tariff having for its main purpose the raising of revenue, with incidental protection for our industries. He further says he would have such treatment shown to the Southern States by the general government that the people of that section would feel that they are a part and parcel of the nation and have as deep an interest in everything which concerns the whole country as those who live at the North, and to accomplish this they must be treated on terms of equality.—Justice Field says he has "always thought that there should be a return to the South of the unjust cotton tax that was exacted from it," which he estimates at $70,000,000, and which he says: "were taken from the people without warrant of law. In regard to Mr. Tilden he says: "There is very general and very just feeling that the country, as well as himself, was greatly outraged by the action of the electoral commission, and there is almost universal wish that the wrong thus inflicted should be redressed."

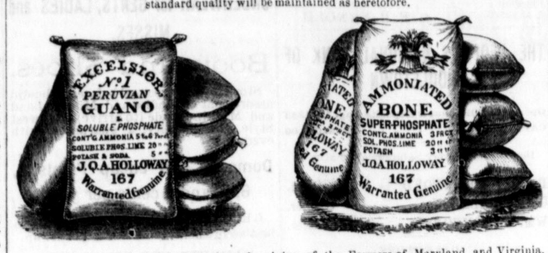
TO WHEAT GROWERS.
The undersigned, PIONEER in the Manufacture of Fertilizers in this City, and ORIGINATOR in 1858 of the Formulas and Processes of manufacture of
"EXCELSIOR" and AMMONIATED PHOSPHATE,
So well and favorably known by the Agricultural public, relying upon his experience and personal reputation hitherto acquired in the uniform excellence of these Fertilizers, as manufactured by him, continues to offer them to the Farmers and Planters of Maryland and Virginia, with the assurance that the high standard quality will be maintained as heretofore.



For growing Wheat it is the universal opinion of the Farmers of Maryland and Virginia, after over twenty years experience in the use of these FERTILIZERS, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore fully 50 per cent. cheaper.
With my present advantages and superior facilities for manufacturing, I challenge competition with any Fertilizer sold in the United States, in Quality, Mechanical Condition and Price.
By strictly adhering to my Original Formuals, using only the most concentrated materials, and superintending in person their manufacture—as for past TWENTY YEARS
Uniform Quality is Guaranteed.
☞ Farmers, to secure the ONLY GENUINE EXCELSIOR and PHOSPHATE, should see that every bag is branded as above, with the ANALYSIS and MY NAME IN RED LETTERS.

BORDLEY BROS.'
Promised Clothing Advertisement.
☞ **We are now selling off our ENTIRE CLOTHING STOCK FAR BELOW COST!** ☜
PREPARATORY TO ENLARGING OUR STORE.
We most positively mean just what we say. We know how absurd it is to advertise a sale like this, unless you mean it. We do mean it, and will most positively prove it to every customer. We have on hand a balance of about $2,500 or $3,000 worth of Spring and Summer Clothing, and rather than carry it over until next season we have marked every garment down so remarkably low as will certainly make it go. There are plenty of people who still want Summer Clothing and now is certainly your chance. It is impossible to quote the price on one-tenth of our stock in the small space allotted us. You will have to examine them at the Store to find out how
Surprisingly Low we are Selling these Goods!
Below we quote the price of a few goods in order that you may form some idea of how we are selling them:
Indigo Blue Middlesex Flannel $10.00. These Suits sell everywhere at $14.00. We only have a few more of them left. A dozen different kinds of Solid Wool Suits for only $10.00, which formerly sold for $15.00. This is really below wholesale cost. We have a good wearing suit which cost $5.00 and retailed for $6.50 which we are now selling for only $3.00. Solid Wool Suits in a great many varieties for 6 and 7 dollars. We are selling our Finest, Light, Col'd, Solid, Wool Pants for only $4.00, some of the pants cost $5 and $6. We have also, Wool pants which we are selling as low down as $1.50. We are selling a fine Solid Wool Suit for Boy's (13 to 17 years old) for only $6.00 which cost $8.00 and we sold for $10.00. Single pants in endless variety from 37½ cts. to $4.00. These pants cost from 75 cts. to $6 and $7. Summer Coats at 25 cents, formerly retailed for 50 cts. We are selling the balance of our STRAW HATS at any thing you see proper to give for them.
We have the finest line of White and Fancy Colored Vests which we are selling for only 50 cents. We know full well that it is a very hard matter to believe this advertisement, but to prove it to you all we ask is an inspection of our Stock and you will certainly be convinced that every word advertised is strictly true. We have a few cheap Men's Suits, which in order to get rid of we are selling for only $2.50 (whole suits).
We have about 200 CHILDREN'S SUITS LEFT,
(knee pants) which we are closing at $1.00, $1.25 and $2.00. These suits cost just double the money. As soon as you have finished reading this, just make up your mind to come in the store and ask us to quote prices, if we don't surprise you with unheard of low Prices we will make you a present of the finest Suit we have in stock.
Respectfully, &c.,

We Desire to Call the Thoughtful Attention of Farmers
TO THE SUPERIOR MERITS OF
ORCHILLA GUANO
AS A FERTILIZER FOR
WHEAT AND GRASS.

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

"ORCHILLA" is no new thing. For eighteen years it has been undergoing trial,—and well has it stood the test. At first, its progress to favour was naturally slow; but merit will, sooner or later, have its reward, and now its sales every year are largely increased over those of the preceding year, and the friends of its early days are its best friends now.

It has been used extensively in Maryland, Pennsylvania and Virginia, and from its abundant success everywhere, we are justified in recommending it to you as being well adapted to your soils. No fertilizer for your use has had such unvarying success and continued popularity. Some of the largest and best farmers in these three States use it almost exclusively

It is Successful, because it is Nature's own provision for her exhausted fields.

It is Low Priced, because we have none of the expense of manufacturers, and, without regard to its high commercial value, we base its price solely upon its actual cost to import.

We refer you below to some of the farmers who have used it, and ask you to enquire of them as to its merits.

WOOLDRIDGE, TRAVERS & CO., Importers,
64 BUCHANAN'S WHARF, Baltimore.

JESSE HUFFINGTON, Allen P. O., Wicomico Co., Md., says: "I have been using Orchilla Guano for a number of years. I have tried it carefully on my own land, and have seen its results on my neighbors' lands also, and I assure you I cannot say enough in its praise. From the condition my land is now, I am free to say that I consider, if I had given away the first crop I raised from Orchilla, I would have been well repaid by the improvement to my land, and the crops I get now. If I could get any fertilizer in the market at the same price as Orchilla I would far rather take Orchilla, because I have proved to my satisfaction that it is not only good for one crop, but it is a permanent improver of the soil, and will insure fine grass for years to come. I don't care how poor the land is, I believe Orchilla will bring it up. There will be twice as much sold in this neighborhood this fall as was last."

WM. C. SATTERFIELD, Greensboro', Caroline Co., Md., August 1, 1882, says: "I have been using Orchilla Guano for fifteen years largely. I have frequently tried other fertilizers, but fell back on Orchilla. I believe it a good, *permanent improver of poor lands.*"

JOHN PRICE, Cordova, Talbot Co., Md., writes, June 18, 1883: "After several years' trial of Orchilla Guano, I like it so well that *I do not want anything better.*"

GEO. C. GRAHAM, Trappe, Talbot Co., Md., writes, June 20, 1883: "I gave Orchilla Guano trial last fall by the side of two other brands of high-grade standard fertilizer and I am best *pleased with the Orchilla.*"

H. H. PRICE, Longwood, Talbot Co., Md., writes, June 21, 1883: "I have used Orchilla Guano for several years, and have tested it by the side of high-priced fertilizers, and I *decidedly give the preference to* Orchilla."

W. SPRY SHERMAN, Vienna, Dorchester Co., Md. writes, July 16, 1883: "Most of the best farmers and heaviest wheat growers of this district—such gentlemen as JAMES MITCHELL RIED, ALFRED H. MERRICK, WM. H. TURPIN and others, have used Orchilla Guano for years, *and still use it almost exclusively.* In fact, some of our large wheat growers, who for years declined to use it, are now using it *exclusively* for wheat and corn, and say that it is the BEST fertilizer in the market for clover and grass. The sales this year will be much larger than ever before."

THOMAS H. TRAVERS, Taylor's Island, Dorchester Co., Md., writes, June 11, 1883: "I used on my wheat last fall 2½ tons of Orchilla Guano, at the rate of 250 pounds to the acre. It covered over one of my fields, and a part only of the other. My regret now is that I did not buy enough to complete my seeding entire, as it would have paid me 100 per cent. on its cost. I am positively certain that I have *more than double* the quantity of wheat on the fertilized ground that there is on the unfertilized; some of my neighbors say there is three times as much. The young clover from the Orchilla is all that the most exacting farmer could desire. This is the second year I have used Orchilla, and it has given me the same gratifying result each year, growing me more wheat and clover than any other fertilizer I have ever used— Peruvian Guano not excepted. I do not hesitate to say that I believe it is unsurpassed as a grain and grass producer. I shall continue to use it as long as I conduct a farm—if it can be had, believing that with it, and the use of clover seed alone, the highest state of fertility may be reached."

ROBINSON BARNES, Taylor's Island, Dorchester Co., Md., writes, June 25, 1883: "I purchased a ton of Orchilla Guano last fall, which I applied to my wheat at the rate of 150 pounds to the acre. It has given me great satisfaction. It has produced *more than three times as much wheat* as where no fertilizer was put in the same field. The grain is fine and plump, and the heads are the largest I have ever grown. This is my first use of Orchilla, and I want no better manure. I will use it this fall in increased quantity."

JESSE W. DOWNS, Dayton, Howard Co., Md., writes, June 16, 1883: "I have used Orchilla Guano for the past four seasons on wheat, rye, corn and potatoes, and find it equal to any high-priced fertilizer that I have used in the past ten years. On good land it makes fine crops at once, and on thin land, I have watched its action carefully, and can say with truthfulness that it is a sure and permanent improver of the soil. It certainly makes 'poor lands rich.' I am only sorry I did not get hold of it long ago. All who have used it in this neighborhood speak well of it, and will use it again this fall."

WM. HEPBRON, Lynch's, Kent County, Md.,
