HANDY THINGS TO KNOW.

Here are some figures and rules very handy to know and to have at hand, in the mind or on paper:

A rod is 16½ feet or 5½ yards.
A mile is 320 rods.
A mile is 1,760 yards.
A mile is 5,280 feet.
A square foot is 144 square inches.
A square yard contains nine square feet.
A square rod is 272¼ square feet.
An acre contains 43,560 square feet.
An acre contains 4,840 square yards.
An acre contains 160 square rods.
A section or square mile contains 640 acres.
A quarter section contains 160 acres.
An acre is 8 rods wide and 20 rods long.
An acre is also 10 rods wide by 16 rods long.
An acre is about 208¾ feet square.
A solid foot contains 1,728 solid inches.
A pint of water weighs one pound.
A solid foot of water weighs 62½ pounds.
A gallon of water holds 231 solid inches.
A gallon of milk weighs 8 pounds and 10 ounces.
A pint of water holds 28¾ solid inches (.875).
A barrel (31½ gallons) holds 4½ solid feet (.211).
A solid foot contains nearly 7½ solid pints (7.48).
A bushel (struck) contains 2,150 solid inches.
A bushel (heaping) contains 1¼ struck bushels.
A struck bushel contains 1¼ solid feet.

THE LIVING EARTH.

As another illustration of the life that dwells in nature, let us briefly consider earthquakes. The peculiar terror of an earthquake lies mainly in the suddenness of its approach. Volcanic eruptions are usually preceeded by rumblings, or jets of steam, or other unmistakeable tokens. Hurricanes and cyclones in like manner have heralds that announce their coming. But with an earthquake there are no premonitory symptoms. The great earthquake which took place at Lisbon in the year 1755 found the people engaged in their ordinary occupations. All the shocks were over in about five minutes. The first shock lasted about six seconds. In that brief space of time most of the houses had been thrown down and thousands of men, women and children crushed beneath the ruins. At times the ocean lends fresh terrors to the scene. Thus at Lisbon a wave of water fifty feet high rushed in among the houses and covered what still remained. In the island of Jamaica on a different occasion two thousand five hundred houses were buried in three minutes under thirty feet of water. Recent delicate scientific experiments have discovered the fact that the surface of the land is never at rest for thirty hours at a time. Thus those great earthquakes which make epochs in history are merely extreme cases of forces that seldom sleep.—*Extract from a lecture by A. Eubank in Indian Engineer, published in Calcutta.*

Singing in the Home.

Cultivate singing in your family. Begin when the child is not three years old. The songs and hymns your childhood sang—bring them back to your memory and teach them to your little ones; mix them all together, to meet the very moods that in after life come over us so mysteriously sometimes. Many a time and oft, in the very whirl of life, some little thing will wake up the memories of early youth, and we almost see again the ruddy cheeks, the smiling faces and the merry eyes of the schoolmates, some grayheaded now; some mouldering in the grave; and anon, "the song my mother sang" springs unbidden to the lips, and soothes and sweetens all these memories.

At other times, among the crushing mishaps of business, a merry ditty of the older times pops out its head, breaks in upon the train of thought, throws the mind into another channel, and light breaks from the cloud in the sky, and a new courage is given to us.

The honest man goes singing to his day's work, and when his labor is done, his tools aside, and he is on his way home, where wife and tidy table and cheery fireside await him, he cannot help whistling or singing.

THE minister's wife sat on the front porch mending the clothes of one of her numerous progeny. A neighbor passing that way stopped in for a friendly chat. A large work basket half full of buttons sat on the floor of the porch. After various remarks of a gossipy nature the visitor said: "You seem to be well supplied with buttons, Mrs. Goodman." "Yes, very well, indeed." "My gracious! if there ain't two of the same buttons my husband had on his last winter suit! I'd know 'em anywhere." "Indeed," said the minister's wife calmly; "I am surprised to hear it, as all these buttons here were found in the contribution box. I thought I might as well put them to some use, so I—what must you go? Well, be sure and call again."

THREW THEIR CARDS AWAY.—"Three were but few soldiers in the war, says a veteran, "who were not card players, and they nearly all liked to own a deck, but they had a dread of being killed with a deck on their person. Whenever we heard the cannons begin to boom, and the guns of the picket men begin to clatter, we knew that the battle was coming, and you would see men by the hundred drawing their cards from their pockets and throwing them along the road."

SHEEP.—The number of sheep in the world is estimated as follows, according to the latest statistics:

South America, 100,000,000; Australia, including New Zealand, 77,000,000; Europe, 212,000,000; Africa, 20,000,000; Asia, 50,000,000; United States, 45,000,000; Canada, 3,000,000; All other countries, 5,000,000.

In the United States the average yield of wool is about six pounds per head.

JUST so long as the pitcher of a baseball club gets $2,000 a year, and a preacher a scant $600, just so long will there be good pitching and poor preaching.

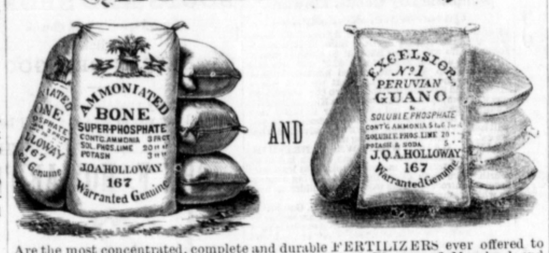
TO CORN PLANTERS!

HOLLOWAY'S



AND

Are the most concentrated, complete and durable FERTILIZERS ever offered to the public. It is the universal opinion of Farmers and Planters of Maryland and Virginia, after more than Twenty-eight years' experience in their use, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore 50 per cent cheaper.

UNIFORM QUALITY IS GUARANTEED!

Farmers, to secure the *ONLY GENUINE EXCELSIOR and PHOSPHATE* should see that every Bag is branded as above, with the *Analysis and My Name in Red Letters.*

PURE GROUND RAW BONE:	PURE DISSOLVED RAW BONE:
5 to 6 per cent. Ammonia, 50 to 52 per cent. Bone Phosphate.	*3 to 3 1-2 per cent. Ammonia, 32 to 36 per cent. Bone Phosphate*

It is no longer a question for the farmer to determine whether Fertilizers pay him or not; it but remains for him to determine the kind and quality which pay him best. We make a specialty of furnishing in quantities to suit the purchasers every article used for the purpose of fertilizing the soil. We sell it separate or will manipulate and mix it to order according to any formula which may be required. Our brands of ammoniated Bone Superphosphates we guarantee to be made of the best and purest materials, and which have stood successfully the test and competition of 40 years, we respectfully commend to farmers who are not governed in their purchases by the low prices regardless of the more important considerations of quality.

We have also a Carefully Prepared Fertilizer for Peach Trees, Corn and Oat Fertilizer, BIRD GUANO AND POTASH.

A REMEDY FOUND AT LAST TO CURE
HOG CHOLERA!

LIEBERMAN'S
Hog Cholera Remedy
WILL POSITIVELY *CURE* AND *PREVENT* HOG CHOLERA!

IT is not a new remedy, but has been tried and experimented with for two years and found that if used when the hogs are first attacked that it will cure the Diseased Hogs and prevent the contagion from spreading to the others in the same pen.

SYMPTOMS OF HOG CHOLERA:

It is essentially a malarial fever. The animal however fierce and obstinate formerly is found more gentle and tractable; it shows decided signs of fever, elevated temperature alternating with cold shivers; the ears are more or less lopped; hindquarters weak and the hog shows a strong tendency to lie down on the least provocation and hide in the litter, rising only when wanting to drink; no appetite but great thirst. It often stands drawn together, with arched back and tucked-up abdomen. Its gait is staggering and its grunt weak. Its cough is weak and has a peculiar hollow sound, not easy to describe. It breathes hard, with pumping flanks and soon loses flesh. The skin is harsh and scaly and soon becomes discolored with purplish patches around the snout, between the forelegs and inside the thighs.

PRICE 50 CENTS, BY MAIL 75 CENTS.
