Warm Waves
Are rolling in. You can't escape them; but you can escape the sleepless nights, loss of appetite, and languid feeling that result from draining the nervous force by muscular or mental exertion in summer's torrid days. The use of Paine's Celery Compound, that great nerve tonic, will at once strengthen the nervous system, and fortify it against the attacks of summer debility. This preparation is a medicine, not a drink. It is a scientific combination of the best tonics, giving last ing benefit to body and brain. It cures all nervous diseases, and has brought new life and health to thousands whose weakened nerves were the cause of their many ills. It is especially valuable at this season, when feeble persons are so liable to sunstroke, a disease which is nearly always fatal. Paine's Celery Compound, by restoring perfect health, almost entirely removes the liability to this dread disease. If you feel the effects of summer's heat, you can't afford to delay another day before gaining the vitality only obtained by the use of this great medicine.
