OCEAN CITY ASK U. S. TO LEASE RESORT

Commando troops may replace bathing beauties on the beach at Ocean City this summer, if Mayor Clifford P. Cropper, the Chamber of Commerce and hotel men have their way.

In a proposal made to Senator Tydings, the Mayor, Charles W. Purnell, president of the Chamber of Commerce and John Lynch, president of the Hotel Owners' Association, offered the complete facilities of the ocean front resort as a training base for Commandoes the Coast Guard or naval forces.

They asked the Senator to arrange a conference with officials of the War and Navy departments so that their proposal might be placed before them officially.

Hotel and housing facilities which annually accommodate vacationists, would be made available to the Federal Government on terms similar to the ones under which the Government recently gave its approval to Miami Beach, Florida, the Ocean City authorities said. The military forces have leased Miami Beach hotels.

They pointed out that the Eastern Shore of Maryland, Virginia and Delaware has been included with the District of Columbia in the Third Civilian Defense Area and that rigid restrictions on the movement of small vessels and lighting of hotels and cottages will be enforced, seriously affecting summer visitors and hampering trade.

The resort, it was said in the proposal, has housing accommodations for 15,000 persons, which should appeal to the Government for various uses.

The agreement to make the offer was reached at a joint meeting of the town officials.

HEALTH DEPT. GETS MANY REQUESTS FOR BIRTH CERTIFICATES

With the demand by the Government that anyone and everyone admitted to areas where sabotage might easily be carried on, present a birth certificate or proof of citizenship, thousands of people who had never before given thought to the matter have been busy getting their births registered.

It was not until 1898 that registration of births started in Maryland. During the first few years it was considered just another of those annoying things by many of those who should have registered the births, with the result that it was not until 1916 that the percentage of completeness was considered sufficiently great to admit the State to the U. S. Registration Area. Since then the percentage has gradually increased so that now over 99 per cent. of the births that take place are registered.

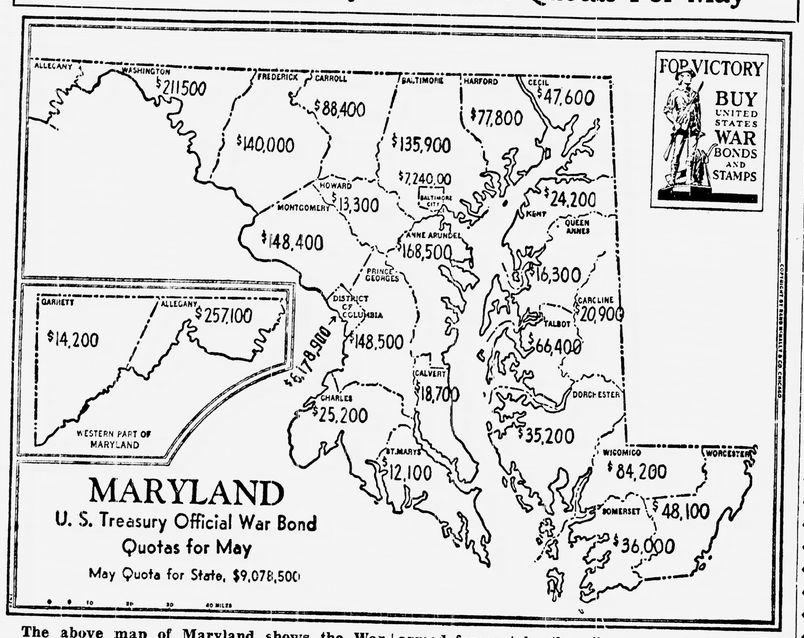
The County Health Department has numerous calls about births each day. The majority of those who come to the office have succeeded in getting their births registered. A few people who have no family records or who have never stayed in one place long enough to vote, have had to go away without thei rcertificate.

The cases that are presented are very interesting. One man who had worked for a large aviation corporation during the last war, found that if he hoped to get into the same line this time he would have to have his birth registered. This he was able to do with very little trouble. Another man whose business required that he visit large refineries at frequent intervals, was likewise able to secure a certificate in spite of the fact that he had been born long before registration of births started.

Numerous rumors have arisen about the difficulty in getting one's birth registered. This talk has undoubtedly scared off many individuals who might be able to help with the war effort were they in defense plants. The best advice that the County Health Department has to offer is that you come to them with your papers before you send them to Baltimore and they can give you a very good idea as to whether you have sufficient evidence to send in.

Several people have gone to Baltimore with their papers only to find that they did not have enough evidence and were unable to secure a certificate. They could have saved themselves a trip and a lot of time if they had called at the County Health Department with their papers before going.

Official U. S. Treasury War Bond Quotas For May



The above map of Maryland shows the War Bond quotas, by counties, for the month of May, 1942. Total War Bond quota for the State is $9,078,500. Every income earner in the State is expected to step-up War Bond purchases on a basis of ten per cent or more of income. This is necessary to help America's armed forces take the offensive against the Axis powers. The American voluntary method of War Bond purchases must be successful in reaching the quotas set by the Treasury Department for every county in the nation. The job of every American now is to stop spending and save dollars to help win the War.

NEW REGISTRATION FOR WPA NURSERY SCHOOL

There is to be a re-registration on June 1 and June 2 at the WPA Nursery School on West Street, next to the Parking Lot. The School is open from 9:00 to 12:00 and from 1:00 to 4:00 o'clock. Children from 2 to 5 are eligible. If you wish to register your child in the Nursery School, call between the hours of 12:00 and 2:00 o'clock on June 1 or June 2.

STRAWBERRY CROP MARKETED EARLY THIS SEASON

The bulk of the strawberry crop is being marketed this year in the first two weeks of the season.

Dr. George Langford, of the State Department of Entomology, following field surveys, said lime dusting recommended by his department had controlled effectively the weevil pest in many berry patches, but that nothing could be done about the weather.

Gorwers said that despite indications of a labor shortage for harvesting the berry crop, the shortage had failed to materialize.

Prices to the growers have averaged more than $3 a crate, the highest average reported in the last ten years.

Growers are reported to have complained that the Fairmore, a new type of berry being raised experimentally this season, has been condemned by city buyers as a "poor shipper". It is one of the sweetest varieties, the growers contend, but city buyers believe its dark red color indicates it is overripe.

Midshipmen in the Merchant Marine Reserve the same pay and allowances as midshipmen in the Regular U. S. Navy, while on active duty.
