W. S. & A. M. CULP

M. KRAMER, The New Blackiston Building

ROCK HALL, MD.

THIS ADVERTISING is a sort of mutual affair, which has a tendency to strengthen the confidence which must exist between the seller and the buyer. Little profits and judicious advertising is the foundation upon which a successful business can be built. We call the KENT NEWS readers attention to our special sale of MEN'S AND BOYS' CLOTHING. A summer suit at reduced prices right in the height of the season is somewhat of an innovation, yet a call for these goods will convince you that they are extra values at our reduced prices. Then our SHOE BUSINESS is a hobby of ours. We try to keep the Shoe to please each and every patron. This necessitates us to carry a very large stock of shoes, and from this stock the most fastidious can be suited.

We carry a full stock of MEN'S HATS, LADIES' AND GENTS' FURNISHINGS, DRY GOODS OF EVERY DESCRIPTION, CARPETS, MATTINGS AND OIL CLOTHS. A nice line of GENERAL MERCHANDISE.

We hope to receive a liberal share of your patronage in the future.

We are yours for business,

M. KRAMER, - ROCK HALL, MD.

Now For Your Feet

When you want a shoe for any occasion you want one that is "Just Right" not "nearly so" nothing but "just right" suits and nothing but giving satisfaction suits us, that's why we take pleasure in offering you our new spring styles, made on custom shaped lasts with the "Just Right" details that make them a winner. We have all kinds and grades in great varietv in Pat Colt, White Canvass and Russett in Oxfords and high cuts. The only place in town where you can buy the celebrated W. L. Douglass Shoes for men and boys. White Canvass, Tan Shoes and Oxfords are the "right thing" this season. My stock in these is all new, every pair of them.

Buy Your Shoes From The Shoe Man

Under Stam's Hall.

where you can always find a large line to select from. Fifteen years experience in the business. One price to all. Prices the lowest. If you wish to be strictly in it this summer you will have to have a pair of white and tan shoes—8 styles in white and 20 styles in tan.

Thomas G. Wroth,

The Shoe Man, Under Stam's Hall.

METAL PENS.

One of Ancient Roman Make Has the Distinctive Slit.

Some curious one has collected a mass of interesting facts concerning metallic pens. Some of these references run back as far as the fourteenth and even the thirteenth century, and, curiously enough, in the case of the manuscript of Robert d'Artois, the forger scribe, is said to have used a bronze pen in order to disguise his writing and make his deception more safe. A Roman metal pen is said to have been found at Aosta, not a mere stylus, but a bronze pen slit, and there is some evidence of a pen or reed of bronze nearly as early as the invention of printing in the fifteenth century. More than a hundred years ago some steel pens were made in Birmingham for Dr. Priestly, and some of these placed into the hands of Sir Josiah Mason in his early days with Mr. Harrison, but all seem to have been lost. The first pen of metal of a definite date, beyond all question, is one in a Dutch patent book of 1717. At about the same time a polite ode of Pope's refers to a "steel and golden pen," but these were evidently luxuries only, and it was not until about the end of the first quarter of the last century that metallic pens became more generally in use. In the "Local Notes and Queries" in the Birmingham Weekly Post definite evidence has been given of steel pens as early as 1806 and more commonly in 1817, but it was about 1823 and 1824 that the great revolution came by which pens were made by a cheaper process—the hand screw press which pierced the pens from steel rolled into tube fashion and the joint formed the slit, but these required considerable labor to shape them into pen form. The use of the screw press belongs to the period of John Mitchell, Joseph Gillot and Josiah Mason, but on a careful review of the facts it seems to be clear that John Mitchell has the best claim to be considered as the original introducer of press made pens.—Buffalo Times.

PITH AND POINT.

Being worthless pays no dividends.

Keeping a diary is nearly as hard work as keeping a dairy.

Being favorably impressed is the cheapest way we know of being a good fellow.

Nothing makes us quite so mad as to have people say, "What made you do it?"

It is terribly hard to impress people with the importance of aiding in a good cause.

Every one realizes when he goes to a photographer's that he is not looking his prettiest.

It is all right to do things for your town, but first do things for your home and family.

We are all pretty easily pleased when we consider that three or four times a day we see exactly how we look in the looking glass.—Atchison Globe.

Antiquity of Cheating.

False weights were found in the ruins of the oldest city that has yet been exhumed. And false weights will probably be consumed when the earth drops into the sun and the heavens are rolled together like a scroll. Ancient records and ancient statute books are full of evidence that every modern practical device down to adulterations and crooked scales was familiar to our ancestors of the plateau of Iran before the migrations. Vice is the old inhabitant; virtue is the newcomer, the immigrant, received with reluctance and compelled to fight for every inch of ground he gains.—Reader Magazine.

A Great Lack of Love.

There is a pleasant story being told just now of an Irish priest who, taking leave of his congregation, gave his reasons for going: "First, you do not love me, for you have contributed nothing to my support; second, you do not love each other, for I have not celebrated a marriage since I arrived; third, the good God does not love you, for he has not taken one of you to himself; I have not had a single funeral."—London Telegraph.

Why She Loved Her.

Mrs. Cummins—So you love your grandmamma, do you, Gracie? And why do you love her? Gracie—Because she used to punish mamma when mamma was a little girl. I hope she used to spank mamma as hard as mamma spanks me.—Boston Transcript.

The Flight of Birds.

One of the few men to recover sight after being blind from the birth of recollection was reported to have wondered at nothing so much as the flight of the birds. "Why do not people make more fuss about them?" he said.—London Outlook.

Faulty Theory.

Gus de Smythe—Those new boots of yours squeak awfully. Perhaps they're not paid for yet. Johnny—That's all nonsense. If there is anything in that, why don't my coat and vest and my trousers and my hat squeak too?

Old Enough to Notice.

"Are your papa and mamma at home?" asked the caller.

"No," replied little Marguerite; "one of them may be here, but they never are both at home at the same time."—Chicago Record-Herald.

Generous.

"Some men say," remarked the beautiful heiress, "that I have no heart."

"Oh, that doesn't matter," replied the poor but willing to be honest youth. "I'll give you mine."—Chicago News.

ARMOUR'S

Royal Ammoniated or Bone

FERTILIZER

HIRAM M. BROWN, - - Sole Agent

Kent and Queen Anne's, Vicinity of Chestertown.

WE, FOR THE 60TH SEASON PRESENT

...Our Fertilizers...

TRADE MARK

TO THE FARMERS AND PLANTERS OF KENT and adjoining counties. With pride we say that we are better equipped than ever, this year to give you your money's worth.

Many cannot understand why, after so many years doing business here, that Wilbur W. Hubbard's Fertilizers are more extensively used year after year. But the mystery is solved by a visit to our factory, which is always open for inspection to the public, and those who go down to our works marvel at the pains taken in manufacturing the goods.

First the bone is shoveled in the crusher with a scoop shovel and prepared for the Denmead mill, then it is dissolved, and after getting in good mechanical condition, if making a dissolved bone goods, so many pounds of bone is put in the mixer. The nitrate of soda, fish and high grade potash are added, the whole thoroughly mixed, passed through a phosphate mill and screened and thrown up in bulk, to remain until it is shipped, and then it is bagged in new treated acid proof bags and sent out in splendid shape. We are often asked, "why don't you run the goods when first mixed, right in the bags, and not go to the expense of treating the bags, as do other manufacturers?"

We are often asked if this is not a needless extreme, but we reply—it pays to make the best.

Whilst there is some loss by evaporation by bulking, an additional expense in rebagging and an expense to treat the bags, when we remember that a farmer appreciates a good goods, and in first class mechanical condition it pays to go to extremes as it is impossible to make a first class fertilizer otherwise, and by treating our customers right in their purchases, making the time of payment of the bill to suit them, we have gotten a personal hold upon our trade.

The Fertilizers for 1905 are the best we have ever put out. Each year has its experiences. We learned something in 1904—the users of Wilbur Hubbard's Fertilizers will get the benefit of it. A poor article may sell rapidly for a time if it is pushed energetically, but a record of steady gain over a period of 60 seasons among the same people, can only be achieved by a good, reliable article. You can only judge the future by the past. If you have used Wilbur Hubbard's Fertilizers in the past you may be assured they will give you satisfaction in the future. If you have not tried them, we ask you if a record of Thirty (30) successful years with the farmers of the Middle States is not a sufficient guarantee to justify you in using the goods.

Soliciting your patronage, and thanking all our friends for their substantial support in the past, we remain

Very truly yours,

Wilbur W. Hubbard,
Manufacturer of Standard Bone Fertilizers,
July 15, 1905. CHESTERTOWN, MD.

GRATITUDE

is the sweetest flower that blooms in the human heart, that may be true and it may not, however, I am very gratified to the farmers and public generally for their liberal patronage during the spring trade. I am now ready to serve your wants for the fall work.

JUST RECEIVED A CAR LOAD OF THE

Superior Grain Drills

And DISC HARROWS, on wheels. Also the EVANS DISC HARROWS, none better SPRING TOOTH and SPIKE TOOTH HARROWS. I can furnish you with a Hoe Drill, single or double disc, in any size. I am also agent for the Light Draft Ontario Drill. Come and see it.

Corn Harvesters

If you need a Corn Harvester, don't forget that the McCormick is the best in more ways than one, it is the strongest, lightest, will pick up down corn better and carry more corn than any other Harvester made. It is not necessary to bind the corn to carry it 40 hills before dumping. A large line of repairs on hand, though few needed.

Fertilizers

Piedmont Mt. Airy Guano Co.'s goods are sold by me at very close prices. Some of the best farmers are using these goods with very satisfactory results. I ask a trial.
