Heartburn

What is commonly called heartburn is nothing more or less than sour stomach or accidity of the stomach It is usually a concomitant with dyspepsia or indigestion, frequently caused by the use of tobacco or spiritus liquors and want of proper exercise. Sugar, sweets and saccharine vegetables, such as are easily turned sour in the stomach, should be avoided, and plenty of exercise taken. The following formula will remove these conditions promptly and can be obtained at a small cost from any good prescription druggist: Kastor Compound, 1 oz.; Fluid Extract Cascar-Aromatic, 1 oz.; Tr. Cinchona Compound, 2½ oz.

The Taking Cold Habit

The old cold goes; a new one quickly comes. It's the story of a weak throat, weak lungs, a tendency to consumption. Ayer's Cherry Pectoral breaks up the taking-cold habit. It strengthens, soothes, heals. Ask your doctor about it.

The best kind of a testimonial—"Sold for over sixty years."

NO CONNECTICUT PEACHES.

Connecticut's million dollar peach crop will be a total failure this year according to an announcement made here to-day by J. H. Hale, the largest grower in Connecticutt who also owns orchards in Georgia and Delaware.

Hundreds of buds have been examined by Mr. Hale from his orchards in Clastobury and everyone is dead. The mild weather of last November is said to have swelled the buds and the extreme cold that followed killed every vestige of growth. For several weeks the veteran Connecticut grower has been experimenting with slips from his trees trying to start the buds by keeping them in water in the hot house. Not a bud has developed, showing that the crop is a total loss.
