CURES BLOOD, SKIN DISEASES CANCER, GREATEST BLOOD PURIFIER FREE.

If your blood is impure, thin, diseased, hot or full of humors, if you have blood poison, cancer, carbuncles, eating sores, scrofula, eczema, itching, risings and bumps, scabby, pimply skin, bone pains, catarrh, rheumatism, or any blood or skin disease, take Botanic Blood Balm (B. B. B.) Soon all sores heal, aches and pains stop and the blood is made pure and rich. Druggists or by express $1 per large bottle. Sample free by writing Blood Balm Co., Atlanta, Ga. B.B.B. is especially advised for chronic, deep seated cases, as it cures after all else fails.—1a7*.

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system.

A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful. Mr. L. C. Rodgers, of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to tie his own shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foley's Kidney Cure."

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints.

W. R. Ward, of Dyersburg, Tenn., writes: "This is to certify that I have used Orino Laxative Fruit Syrup for chronic constipation, and it has proven without a doubt, to be a thorough, practical remedy for this trouble, and it is with pleasure I offer my conscientious reference." Sold by all druggists.

TRADE MARK

WILBUR W. HUBBARD'S FERTILIZERS

MUST HAVE

Superior quality and absolute Uniformity and Purity. This spring makes their 64th season in business and their trade has increased each year in spite of competition, their sales for the past year having been larger than ever before. Can the sales of an inferior article constantly increase all these years?

Our fertilizers are not better than all others, but they have been, and we are willing for you to try them in competition with any goods on the market.

WE PRESUME

you are now thinking about Asparagus, Corn, Potatoes, Peach Trees and top dressing your hay. Well we have the goods to apply and at all right prices.

BUT FOR TOMATOES

Everybody knows that our Peerless is the goods to use on them, for it has quality and is made of the very best materials known to the trade and one ingredient we use in it is the only phospate that contains this article outside of France where it has been used so successfully in tomato and truck fertilizer.

Mr. Jas. F. David of Smyrna says he grew with it last year the finest tomatoes he ever saw grow he picked a basket that weighed 1½ lbs. each. He grew onions that measured 13 inches in circumference. He grew corn some stalks 13½ feet high and ears 14 inches long. The late Captain Emory grew on one occasion 17 tons per acre. Mr. Zac T. Gilbert grew 19 tons to the acre. Mr. G. W. Collins has bought as high as 50 tons per year, and his men grew from 12 to 15 tons per acre. We have sold already in Anne Arundel county, the lower counties and New Jersey, hundreds of tons. Messrs. Baker and Morgan have bought as high as twelve hundred dollars worth; Captain Dashiel says he would have it if he had to give $50.00 per ton for same. Mr. Joseph Downey says when he was canning that he could actually tell the difference in tomatoes grown with Peerless when brought to his cannery. Mr. Numsen says he knows that tomatoes grown with our goods are fine. Mr. Frank Moore, who runs Assaw Balts & Co's cannery, says the best tomatoes brought there are from Peerless. Mr. Loose, a customer of his, says a ton of Peerless grew him $96.00 worth more tomatoes than another goods costing $7.00 less per ton. Mr. Money says it is certainly good. We could go on, but with a testimonial will close.

Unsolicited some time ago Mr. J. W. Elburn & Son came in our office and said: "I believe your Peerless to be the best tomato goods I ever saw. You remember what an advocate I was of it when I lived out at the mill. Well, wherever I have lived since, on the Western Shore or elsewhere, I would have it, and last year I put some of this same goods on some onions grown from the seed, and they were as fine as Burmudas. Many measured 4 inches in diameter, and I grew over 600 bushels per acre, or at rates of 1162 baskets. I used it on strawberries and picked 8000 quarts per acre.'

MADNESS OR DEATH.

The Inevitable Fate That Awaits the Absinth Tippler.

What is absinth? It is prepared by pounding the leaves and flowering tops of various species of wormwood, star anise root, sweetflag root, leaves of dittany and other aromatic plants, and steeping them in alcohol. After eight or ten days the mixture is distilled, and oil of aniseed or some similar essential oil is added. This is the method of producing the genuine absinth, but it varies usually in the direction of cheapening production and increasing profits. Poisonous wood alcohol is used for macerating the vegetable ingredients, and inferior and often injurious herbs are employed. These do not always produce the much desired greenish opalescence, and turmeric, indigo, sulphate of copper and other coloring matters are employed. The consequences of regularly drinking even carefully prepared absinth are in the end ruinous to mind and body. The main difference between the various qualities of the liquor is the rapidity with which deleterious effects are produced. A man can go on drinking the better qualities a little longer before he becomes a mental and physical wreck; that is all. And, whether one drinks to excess or only takes a regular daily dose, the end is the same. The sequence of events and their duration only are different. In the first case the large doses of the liquor necessary to produce any effect speedily render the victim unable to eat food. He is tortured by an unquenchable thirst. Hallucinations speedily follow, and the grave or the madhouse is the inevitable end. The absinth tippler goes to ruin down an easier slope. His earliest symptoms are loss of weight and strength, followed by the development of muscular twitchings and a tottering gait, somewhat similar to that of locomotor ataxia. Then hallucinations set in, accompanied by gradually spreading paralysis, which ends in death. If a person is a regular daily drinker of absinth, whether he drinks to excess or only tipples moderately, ruin of the nervous system, followed by madness or death, is absolutely certain.—Exchange.

SOME NEW YORK FIRSTS.

The first governor was Peter Minuit. He was appointed in 1626.

The first male child born of European parents was Jean Vigue (1614).

The first female child born of European parents was Sarah Rapalja (1615).

The first physician was Dr. Johannes La Montague, who began practicing in 1636 and who for many years was the only doctor.

The first engineer was Kryn Frederick, who was authorized by the governor in 1626 to superintend the construction of a permanent fort on Manhattan Island.

The first meeting room for religious services was (1626) in the loft of the horsepower mill located on what is now South William street, near Pearl.—New York Herald.

The first warehouse was erected in 1626. It was a rude, inartistic structure, one corner of which was set apart as a village store. Here the Indians came for a drink of the white man's "fire water."

A Dutch Superstition.

Live but to learn! When you give a pointed or sharp instrument to a friend he makes return of a penny, so that friendship may not be pierced or cut. I gave a kitten to our washwoman, the daintiest bit of Wilhelminesque ware in this country—æetat thirty-five, avoirdupois 222. She was nearly tickled to death. "I won't thank you for the present," she said, "because the kitten would pine away and die." She then explained that in Holland to thank a friend for a present was always supposed to bring bad luck. Maybe all men these days are Hollanders. The more favors you do them the less they thank you.—New York Press.

Why Tears Flow.

All human emotions, however slight they may be, either decrease or increase the circulation of the blood. Those emotions that bring tears cause the blood vessels around the eyes to expand, thus flooding the lachrymal or tear glands with blood. The tear glands always secrete a little to keep the eyes cool and moist and carry off specks of dust through the nasal passages, but the extra supply of blood increases this secretion to such an extent that it cannot go off in the usual way, so overflows.

Von Moltke at Cards.

Count von Moltke, Germany's great field marshal, never lost a battle, and it annoyed him to lose a game of cards. A biographer says of his old age: "The family were trained to let him win if they could without his noticing their maneuver, and they would reckon up the sums to the smallest amount. 'It is really wonderful that I have won in spite of my bad play,' he remarked to me once rather suspiciously, but he abided by the result."

A Free Hand.

"You sketch with a free hand, Miss Brownsmith," remarked the professor, who had been critically examining her portfolio.

"Entirely free," said the young lady as she cast down her eyes in soft confusion and waited for the professor to follow up the opening.

Liberal.

The new pastor of a country church said to one of his deacons, "I find that Brother Liukum has very liberal religious views."

"Yes," replied the deacon, "Brother Linkum is more liberal in his views than in his contributions."
