O'CONOR CALLS FOR HALT OF U. S. POWER

As assurance of victory becomes stronger on the battlefields of Europe and Asia, there are elements in this country who would destroy the system that made these military successes possible, Governor O'Conor asserted in a speech to the Salisbury Rotary Club.

These forces, he said, are those which seek every opportunity and excuse "to pile more and more power in Washington" and there is danger that" there can never again be the full proper functioning of the American system of government as our forefathers ordained."

Warning that powers surrendered by the States under the pressure of argument that centralization was necessary for victory, may never be returned, the Governor said the time has arrived to call a halt and seek restoration of State sovereignty.

"In our thinking about the future," said the Governor, "one of the most important facts to remember is that our nation must be completely sound internally if we are to discharge the responsibility of leadership and guidance for the world that, whether we like it or not, will be our lot in the post-war era.

EXPANSION OF WAR RESEARCH URGED

A special House committee urged today that post-war American military authorities greatly expand their research setup to combat such innovations as the German robot bombs.

REIMBURSE CORN DUTIES

The War Food Administration will reimburse importers for the import duties on Argentine corn to be fed to farm livestock in Maryland and other feed - deficient States. Farmers will buy this corn through regular trade channels.
