FOR 10 CENTS Pocket Telegraph Snapper and Alphabet Card. Send us the names of 10 young men in your locality, over 14 years of age, and not more than one out of each family, who might become interested in a telegraphic course, and 10 cents in cash or stamps, and we will send you an engraved card of the entire Morse characters and our vest pocket telegraph snapper. This little device, smaller than a silver dollar, can be carried in the pocket or palm of the hand, and all telegraph characters can be produced with it as load and distinct as on a regular telegraph instrument and the sound is identical. No battery required. It will afford you amusement and be the means of teaching you to read the characters by sound. Write to-day.

JOHN F. HOWARD.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes *than any other drug with which I am acquainted.* In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly period), arising from or accompanying an abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, *there is no medicine in use about which there is such general unanimity of opinion.* It is *universally* regarded as *the* tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

WILL ADD MILLIONS TO TEXTILE OUTPUT.

Massachusetts Mill Now Turning Out Linens "Made In America."

The starting up at North Brookfield, Mass., of the first mill to make linens from American flax makes the following article from the Sunset Magazine of especial interest. This pioneer Oxford mill has a capacity of 1,700 dozen towels a week, besides "savoil," a linen machinery waste, and "oxolint," for surgical purposes. The Sunset's article, referring to the process used by the North Brookfield mill, says:

"Some part of the $22,000,000 now paid by America to Europe for linens will hereafter swell the profits of the American farmer. This is the inevitable result of the process perfected by a Massachusetts inventor for transforming flax into linen fiber in a less number of hours than it takes weeks to accomplish the same results by the methods followed abroad.

"The invention that is to give the American farmer a chance to market his flax straw and which will introduce for the first time into American mills the making of linen fiber has been perfected by Benjamin C. Mudge, a graduate of the Massachusetts Institute of Technology. It is partly a mechanical and partly a chemical process, and the inventor has over and over again demonstrated that he can by this process make linen fiber out of flax in half a day.

"Of course cotton millers have been somewhat concerned as to the effect of this invention on their business, and experts who have investigated this side of the question have made up their minds that if it is possible to obtain linen fiber in sufficient quantity at low cost they can make a virtue of necessity when the time comes by substituting linen for cotton in their mills so far as this is required by popular demand. But, however this may turn out, there seems no reason to question that Americans will soon be able to afford the freest use of linen from American mills that will add hugely to the total of cotton fabric production, now valued above half a billion dollars a year."

New Telegraph Company Incorporates In New York.

With the incorporation of the Telepost company of New York another important step has been taken in the establishment of the company's plans for a new national telegraph system. The parent organization, incorporated under the laws of Maine, has a capital of $18,000,000. The subsidiary New York company is the operating company, formed to comply with the transportation company law of the state. It will at once apply for rights of way north of New York city, the immediate purpose being to connect this city with Albany and to reach the independent telephone lines, which will in some cases be used jointly by the telepost and the telephone companies. Simultaneous use of wires for telephony and telegraphy is made possible by means of the Delany rapid automatic system owned by the Telepost company.

Equal Pay Issue Spreads.

Started by the women schoolteachers of New York city, the equal pay for equal work slogan is now being heard throughout the state, in Philadelphia and in other cities. Communities not heretofore concerned over the fact that it would cost New York about $10,000,000 a year to raise the salaries of 13,500 women teachers to an equality with the pay of the 1,300 men employed, now realize that if the equal pay principle is conceded and the single woman put on a wage equality with the married man tax burdens will increase to war time proportions.

NEW RECIPES.

Lincoln Loaf.

Beat half a cupful of butter to a cream. Gradually beat in one cupful of sugar, then one cup of currants and the beaten yolk of three eggs. Add alternately half a cup of milk and one cup and three-fourths of sifted flour, sifted again with four level teaspoonfuls of baking powder and lastly the whites of three eggs beaten light. Turn into a shallow pan, dredge the top with granulated sugar and bake about forty minutes.

Yankee Pudding.

Remove all lean and rind from a piece of sweet salt pork; chop fine. Take a half cupful of chopped pork, roll in flour and sift. Add to it a cupful of molasses, two-thirds of a cupful of sweet milk, a cupful of chopped and seeded raisins, a cupful of currants, one egg, one-half teaspoonful each of cloves, cinnamon and nutmeg, a teaspoonful of soda dissolved in warm water and flour enough to make very stiff. Steam three hours and serve with hard sauce. You cannot get the best results from this or any other recipe unless you have fresh currants and raisins.

Prize Recipe.

The following method of making "old fashioned Dutch currant bread" was awarded the prize in a recipe competition just closed:

One pound of flour, three-quarters of a pound of currants, four ounces of candied lemon peel, two eggs, half a teaspoonful of salt, butter the size of a large egg, one-third of a cup of milk and one cake of yeast. Beat the eggs with the salt until very light, add the flour and very slowly the milk; make a light batter. Add currants and chopped candied lemon peel, the melted butter and the yeast. Let it rise one hour. Bake this bread in a tin buttered and lightly sprinkled with flour one hour in a moderate oven.

STATE DOES NOT PAY WOMEN SAME AS MEN.

Side Light on the "Equal Pay For Equal Work" Issue.

Examination of the roster of state employees does not bear out the statement widely circulated by the women schoolteachers of New York that throughout the state civil service salaries are fixed without regard to sex. While it is evidently the intent of the law to pay women the same salaries received by men in identical positions, the fact seems to be that the state is compelled to pay male employees higher salaries than it pays women employees or that men are invariably appointed to the higher clerical positions.

The state roster shows in the board of charities one man clerk $1,000, three women clerks $720 each; corporation tax bureau, six men clerks averaging $1,540, one woman clerk $600, two men stenographers $1,500 each, three women stenographers $740 each.

In the state department of education there is one man clerk in the administration division at $900 a year, while four women clerks receive an average salary of $540. In the examiner's division the two men examiners are paid $1,200 each, while fifteen women examiners average $770 each. The same rule prevails in the department of excise, the state department of health and the office of the secretary of state.

These cases are not exceptional, but are representative of the scale of men's and women's wages paid throughout the state civil service. The figures show that the claim put forward that it is only in the schools that women receive less pay than men is entirely unfounded and that in practice there is no such thing as "pay for position."

TO CUT TELEGRAPH RATES.

Automatic Apparatus For Sending and Receiving and Lower Line Cost Will Bring Price Down to a Cent a Word

How the new telegraph company, the Telepost, will be able to do a profitable business at its rate of a cent a word between all points was explained this week by a New York representative of the company.

"We have in the Delany automatic sending and receiving apparatus," he said, "a means of reaching speeds of 1,000 words a minute. Making the most liberal allowance of time for the preparation of the tapes by which this system operates, we can handle telegrams several hundred times faster than the present companies do.

"The result is that the four wires of our trunk lines will give us the same capacity as sixty-eight Western Union wires. The saving on construction is enormous. Our outlay per mile will be only one-fifth of the cost of the old companies for lines of equal capacity.

"These are the main but not the only economies that will enable the Telepost to make money at its rate of 25 cents for twenty-five words. There will be no bookkeeping, the blanks on which messages are written being sold like stamps for face value. We expect to employ experienced operators, but for a given volume of business we shall not need nearly so many as the old companies employ.

"Of course our rates were not decided upon without the most careful computation of costs. We shall, as a matter of fact, have a larger margin of profit than the Western Union or Postal show even at their higher rates. This is true of 'teleposts' delivered by mail for 25 cents for fifty words as well as of telegrams."

"Identical Education" a Failure?

That the present identical education of boys and girls has been weighed and found wanting is acknowledged by those in closest touch with the children approaching adolescence.

What habits acquired by the child will insure success for the man or woman? Certain habits—regularity, punctuality, personal cleanliness, moral rectitude, respect for authority, devotion to duty—are needed by both men and women and can be instilled by either men or women teachers into both boys and girls. As the boy approaches the age of puberty then let his teachers be men. Other qualities—physical courage, a spirit of fair play, resentment under insult, business integrity—can be best developed by men teachers in boys' schools, just as gentleness, tenderness, sympathy, tactfulness, the spirit of hospitality, charity in thought and kindred traits can best be instilled by women teachers in girls' schools.—Julia Richman, District Superintendent of Schools, in New York Tribune.

I AM A MOTHER

How many American women in lonely homes to-day long for this blessing to come into their lives, and to be able to utter these words, but Because of some organic derangement this happiness is denied them.

Every woman interested in this subject should know that preparation for healthy maternity is accomplished by the use of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Maggie Gilmer, of West Union, S. C., writes to Mrs. Pinkham:

"I was greatly run-down in health from a weakness peculiar to my sex, when Lydia E. Pinkham's Vegetable Compound was recommended to me. It not only restored me to perfect health, but to my delight I am a mother."

Mrs. Josephine Hall, of Bardstown, Ky., writes:

"I was a very great sufferer from female troubles, and my physician failed to help me. Lydia E. Pinkham's Vegetable Compound not only restored me to perfect health, but I am now a proud mother."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

SHAFER, REDMILE & COMPANY
KENNEDYVILLE, MARYLAND.

Schley Russell
RECORD 2.18¼

Taken in 3rd heat of winning race. Timed separately in a race in 2.09¼.

His record is no measure of his speed. He has on several occasions shown two-minute speed or better.

SCHLEY RUSSELL is 17 hands high and weighs about 1300 lbs. His colts are large and well-formed; and those old enough to drive show considerable speed.

SCHLEY RUSSELL is a son of Victor Russell, 2:29 sire of Marydel, 2:12¾; Leon Russell, 2:18¾; Schley Russell, 2:18½; Lady May, 2.15¼, etc. Victor Russell is a son of Happy Russell, sire of 37 performers in standard time.

SCHLEY RUSSELL's dam was by Corsican, a son of Orange Blossom.

SCHLEY RUSSELL, 2.18¼, will make the season in Kent and Queen Anne Counties at $10.00 for the season and $20.00 to insure.

ALBERT STORY, Owner.
mch14-tf Chestertown, Maryland.

ADELECT 40,163

Registered under first rule. He is of the Electioneer, George Wilkes and Nutwood combination of blood lines, the greatest that is known to the world for extreme speed and endurance. He also combines the blood of Green Mountain Maid twice and Miss Russell once, the two greatest brood mares of trotting speed from 150¾ to 2:10 that is known to the world; and others such as Lula 2:15, an ex-champion, Wildflower (?) 2:21, champion 2-year-old, and of the world for 8 years; and Mayflower 2:20½, dam of eleven, including two of the world's champions. He will make the season in Kent and Queen Anne's counties. TERMS $20.00 TO INSURE A MARE IN FOAL. Where there are two or more mares will make special rates for same.

For further particulars address

WM. C. TOWNSEND,
mch14-tf Chestertown R. R. No. 3.

MARVEL KING,
NO. 35781.

One of the best bred stallions in the State. His dam has produced three in the list, who are all own sisters to Marvel King. His breeding is the best, as shown by the world's greatest money winners and the world's record breakers. His blood lines contain such noted strains as the Wilkes, Nutwood and Mambrino King.

He is by Marvelous 2.22, sire of Wilkesbrino, 2.14¾; Winnie H., 2.15¾; Marveline, 2.18; Steed (3 yrs.) 2.22¾; Marlow, 2.22¼; Elsie Mar, 2.23¾; Marvel Girl, 2.23¾; Marvel Branch, 2.24¼; Marmalette, 2.25¼; Adversity, 2.27¾. Dam the great brood mare Mytle King, dam of three in the list, including Marveline, 2.18; Elsie Mar, 2.23¾; Marvel Branch, 2.24¼. Marvel King is a handsome brown, stands 16.1 and weighs 1175 pounds. Bred by C. W. Baker, Aberdeen, Md. Individually he is a horse of grand finish and plenty substance, with a fine disposition.

TERMS—$15.00 season, $25 for two; $25.00 to insure or two for $40. $5.00 single service payable on demand.

For further particulars see

GEORGE BRICE,
m14-tf. Chestertown, Md.

ADBERT, 35508.
RECORD 2.26¼.

This stallion will make the season in Kent and Queen Anne's counties this Spring, 1908. His pedigree shows him to be one of the finest bred horses in the East. Last year he worked a mile in 3.22, last half 1.19, last quarter in 32. He shows plenty of speed and good finishing qualities.

Any one wishing to breed for speed, high-class roadsters or general purpose horses will find it to their best interests to use this stallion. He is a beautiful seal brown, 15½ hands high, weighs about 1000 lbs., well built, sound limbs. His colts are always of fine size, well colored and fine limbed. Many of these which have been handled for speed have showed plenty of it. All are good gaited trotters, none of them have ever paced.

TERMS—$15.00 single mare; $25.00 for two with privilege of returning until a living foal as long as Adbert is owned by me.

Anyone wishing services of this horse can obtain same by writing me.

COOPER TARBUTTON,
mch21-tf Millington, Md., R. F. D.

HERMAN
