AUCTION SALES

TRUSTEE'S SALE.

BY VIRTUE OF A DECREE OF THE CIRCUIT COURT of KENT COUNTY sitting as a Court of Equity the undersigned, as Trustee, will expose to PUBLIC SALE to the highest bidder, on

SATURDAY,

the twenty-eight day of August, 1852, at the tavern porch of Mr. John McDaniel in Chester Town, at 3 o'clock, P. M., the following property, being part of the Real Estate of John Maslin, dec'd, lying on the North East prong of Langford's Bay in Broad Neck in said county, and containing

13 Acres, 1 Rood and 32 Perches,

more or less, as appears by an actual survey recently made, being part of the

'Old Plantation.'

Upon the premises, are TWO SMALL TENEMENTS of the rental value of fifty dollars.—About one-third of the land is

Wooded,

and among the varieties are some thriving **CHESNUT.** About 200 panels of fencing will go with the land to the purchaser.

The Soil

is good for wheat and corn, and susceptible of improvement from the application of Lime &c. There is some

MARSH,

but the situation is high and healthy with a spring of excellent water. There are a veral fine

OYSTER BARS

within a few hundred yards of the shore.

THE FISHERY,

which has been used for a number of years, is said to be a good one.

There is a road leading to this property from the public road, This land adjoins the lands of Jacob Maslin, and the other lands of the late John Maslin. It will be sold clear of Dower, and Mr. John Maslin (jr.) residing on the adjoining land will shew the premises to any one desirous of examining them.

The Terms of Sale

as prescribed by the Decree, are that the purchaser shall give Bond to the Trustee with approved security for the purchase money in three equal instalments, in six, twelve and eighteen months from the day of sale with interest from the day of sale.

The creditors of the late John Maslin, are notified to file their claims duly authenticated with the Clerk of the Circuit Court for Kent county, within 4 months from the day of sale.

AUCTION SALES

TRUSTEE'S SALE.

BY virtue of a decree of the Circuit Court for Kent, sitting as a Court of Equity; the undersigned, as Trustee, will expose to public sale, to the highest bidder, on

TUESDAY,

the 24th day of August, 1852, at 12 o'clock M. at the tavern porch of John McDaniel in Chester Town, Kent co., all the right, title, interest and claim of John Startt in and to that

Farm and Plantation

composed of the tract or parts of tracts of land called

'Bachelors Choice,'

AND

"Readon,"

supposed to contain about

282 Acres

of land, situate, lying and being in Kent County, in the lower part of Quaker Neck, adjoining the lands of C. Brown and others; and in the occupancy of O P Jones, who will show the premises to any one who may wish to view them.

The situation of this Farm is not only beautiful but also highly desirable—it lies directly on Chester River, in view of some of our finest *OYSTER BEDS* and where the choice fish and wild fow of our waters in their season can be had in great abundance—The soil is good, and there is an abundance of

WOOD

AND TIMBER

for all the purposes of the farm.

The improvements are a BRICK DWELLING and Kitchen,—an excellent BRICK STABLE and all the other necessary *OUT-BUILDINGS*—young thrifty

Apple and Peach Orchards

and a fine selection of Pears.

This property will be sold to pay and satisfy certain debts originally owed to Sol R Startt by the said John Startt—hence the terms of sale as prescribed by the decree, are cash to be paid on the day of sale.

RICHARD HYNSON,
Trustee.

SEALED PROPOSALS

WILL be received until the first day day of September next by the Commissioners of Kent county, Maryland, to contract for building a Tressel Bridge (with draw or pivot 25 feet in width) over Morgan's Creek, near Chestertown. Said creek is 150 feet wide, 12 feet deep, part sandy and part muddy bottom, with a solid eight or ten feet bank on the west side and marsh on the east. The abutment on the west side might be of stone, on the east it will be necessary to pile; the distance between the tressels to be 20 feet, length of trestles 16 feet, floor 12 feet, railing 4 feet high; the whole of the timber used to be the best white oak, except the floor, which must be of two inch white pine, and the floor of said bridge when completed to be 5 feet above the high water of spring tides. The proposals will be expected to embrace a drawing or discription of the proposed bridge and draw or pivot, also of the opinion of contractors of the relative merits of the pivot over the draw or vice versa, and their costs, (our object being to get that which is least liable to be out of order, most durable and easiest worked,) also, the size and length of the piles, size of the tressels, joists, braces, &c.&c.; also the proposed manner of forming the abutments, their height and thickness, and the difference in cost between stone and wood. The bridge to be completed and ready for travel by the first day of December next. All of the white oak timber can be furnished ready sawed ½ mile from the bridge site.

The said Commissioners will also receive proposals as above to open and grade the new road from the intersection of Armstrong and Ringgold's line with the public road, to Morgan's creek, and from the Bridge site on the east side of said creek across the marsh (which is to be brushed and raised 2 feet high and 20 feet wide by hauling dirt thereon) till it intersects the public road at Wallis woods.

Address, post paid, to

A. W. MELVIN,
Clk to Commissioners,

who will on personal application shew bridge site or give any additional information desired.

July 31, 1852—5w.

TO THE PUBLIC.

WE, the undersigned, having signed a notice forwarning all persons from placing lime, lumber or other manure in front of, or on our premises, did not design or intend by said notice, to prevent farmers and others from puting lime on the side of the road above our buildings, but only intended to prevent them puting lime and other manures opposite to or very near our dwelling and on our side-walks and annoying our families with the dust from the lime, which has been the case heretofore.

Any quantity of lime might be deposited on the road side above our dwellings, where the road is much wider and better for that purpose. As the former notice was signed hastily and not drawn up by ourselves, we deem it proper to explain our intentions in that notice by this article.

Report of Analysis of Quick LIME.

DELIVERED by Messrs Ermentrout at my farm. The specimens were taken with my own hand from a number of cart loads after they were deposited in the field, and the sample was a fair representation of the whole:

Lime weight of, as pure Lime, or Oxide of Calcium,	60.37
Magnesia, weight of, as pure, or Calcined Magnesia, or Oxide of Magnesia,	02.38
Potash and Soda,	01.00
Iron and alumina, or clay,	06.60
Silica, or sand,	01.10
Silica acid, or soluble silica,	03 00
Bone earth, weight as Phosphate of Magnesia,	00 40
Loss, supposed to be carbonic acid and water,	05.15
	100

REMARKS—Every hundred bushels of this Lime contains Phosphates about equal to one bushel of Bones When bones are dissolved and infinitely divided, it is said that the immediate effects of one bushel is equal to four; if so the value of these phosphates is more than one bushel.

Respectfully,
DAVID STEWART, M. D.

Extract from a letter of Fred. Wm. Heckell, M. D. of of New York.

"As under manure we understand a compound substance which restore to the soil, what previous or succeeding crops abstract. Therefore, it of course follows, beyond a doubt, that your lime must be beneficial to any soil and prevent its exhaustion." This Lime will be forwarded on accommodating terms.
