Rally for the Union.

In less than four weeks, the people of the United States will have, by their free ballots, to decide the most important election, ever held on this continent.

The issue is Union or Disunion. Other issues may be interpolated and magnified, but they are of inferior consequence; the great and real issue is, the preservation of our form of free government, or the evils of Civil Discord, the danger of Anarchy and the prospect of States dissevered, discordant and belligerent, as the alternative.

In this fearful crisis, every lover of his country is expected to do his duty, as becomes a freeman. Fellow-citizens, are you prepared for the responsibility? Girt on the armor of patriotism, carefully survey the field, be ready, and may He who has hitherto guarded and guided us in every step by which we have advanced to the dignity of a great, powerful and enlightened nation, preserve us a united people!

"Eternal vigilance is the price of liberty." See to it, therefore, that apathy or neglect afford no occasion for vain regrets and remorse. Let every man go to the polls, and forgetting party distinctions, repudiating the behests of party leaders, and burying by-gone political animosities for a season, vote with an eye single to the preservation of the Union, the maintenance of the Constitution and the Enforcement of the laws.

The enemies of the Constitution, whose fanaticism threatens evil and danger, are one in sentiment and purpose. The intoxication of prospective success excites their zeal beyond the restraints of prudence.—The opposition is divided; its strength is frittered away in unprofitable contentions upon abstract propositions, and fostered prejudices. If the Union be dissolved, how can the factionists hope to decide their petty quarrels, where will the demagogues then be; how shall the right they now profess to struggle for, be longer guaranteed to them?

The time has come to meet the impending crisis in a manly, decided and Constitutional manner. It is clear that the friends of the Union must make common cause; and rally under leaders, who can and will save the Union, restore peace and mutual trust, and crush out sectionalism. Who can do it? Can Douglas and Johnson achieve it? Can they repose the country so much needs? They may be many times stronger in the popular and electoral vote than their rival Southern factions; yet every one knows, they are impotent against Lincoln and in no possible event can either of them be elected to the Presidential office. Can Breckinridge and Lane accomplish more? Mr. Breckinridge is practically out of the fight; his friends know he stands no earthly chance, and that his continued candidacy only gives "aid and comfort" to Lincoln. Granting all the strength his most zealous friends claim for him, what can these avail? Absolutely nothing, except to weaken and divide the strength of the Union nominees! The calculation of Mr. Lane's election by the Senate, is too remote and uncertain to authorize his course thus far. The only candidates, says the Frederick Examiner, who stand a chance of defeating Lincoln and Hamlin, are Bell and Everett; the contest lies between Bell and Lincoln, and the duty of every conservative citizen is plain and urgent. The Union must and shall be preserved; Lincoln must and will be defeated, and the way to do both is by giving a united and cordial support to Bell.

The struggle is no child's play; it will be fierce and arduous. "Work, work," Conservatives, your country calls. From this hour to the close of the polls on election day, be active, energetic and diligent. Reason with your neighbors, see that every voter goes to the polls, and whatever the citizens of other States may do, let it be written that the citizens of Maryland have done their duty, and all will be well.—There's no time to lose; delays are dangerous; be up and doing; and let the moral grandeur of the spectacle be presented to the world of the people of Maryland being united in defence of their beloved country, whether it be threatened by a foreign foe or domestic treason!

Marylanders at a Republican Meeting

The Rev. French S. Evans, of Baltimore, addressed a republican meeting at Germantown, Pa. on Thursday. According to a sketch of his remarks in the Philadelphia Press, he announced himself as the son of a Virginia slaveholder, and a political friend of Lincoln. He is reported to have further remarked:

"The South was too weak, too poor, to exist apart from the North. Kindred association coupled Maryland and Pennsylvania—Baltimore and Philadelphia—hollowed battle ground. John M. Botts was referred to by the speaker as three-fourths a republican. In a few years every Southern State would be swarming with open republicans."

Wm. Pinckney Ewing and Montgomery Blair, of Maryland, also spoke at the same meeting.

Immense Grain Trade at Chicago.

At Chicago, reducing the flour to bushels, the receipts of wheat during the month of September amount to 3,809,536 bushels, against 3,332,412 bushels in August. The total receipts of all kinds of grain (including flour) amount to 5,024,440 bushels. The receipts of wheat during the past month are larger by *one million* bushels than ever before during the corresponding period.

A Legislator in the Penitentiary.

The "honorable" Thomas J. Munday, an ex-member of the New York Legislature, was sentenced on Thursday by Recorder Barnard, of the Court of General Sessions, of New York city, to four months imprisonment in the penitentiary at Blackwell's island for an attempted outrage upon a little girl.

Garibaldi and Cavour.

A letter from Turin says that the principal ground for the dislike felt by Garibaldi towards Count Cavour is the unpardonable sin, in the Dictator's eyes, of ceding Nice to France. Count Cavour, moreover, personifies diplomacy, the particular object of Garibaldi's hatred.

Important State Elections.

The great States of Pennsylvania, Ohio and Indiana, held their State elections on Tuesday. Pennsylvania and Indiana chose Governors and other State officers, and Ohio a Supreme Judge, Attorney General, and member of the board of public works, and all three States elect their members of Congress. The Legislatures thus chosen in Pennsylvania and Indiana will each have to elect a United States Senator.—Iowa also voted same day for Congressmen, Auditor, and other State officers.

In Pennsylvania the candidates for Governor were Foster, dem., and Curtin, republican. Last fall the republican majority in the State for Auditor was 17,291, and in 1858, for Supreme Judge, it was 26,987.

The candidates for Governor in Indiana were Hendricks, dem., and Lane rep. At the election in 1858, for Auditor, the democratic majority in the State was 2,141.—There was no general election last fall.

In Ohio the candidates for Supreme Judge were Smith, dem., and Brinkerhoff, rep. Last fall the republicans elected their Governor by a majority of 13,226.

The candidates for Auditor in Iowa were Maxfield, dem., and Cattell, rep. In 1858 the republican majority for Secretary of State was 3,337.

☞ In consequence of Union Bridge being the terminus of the Western Maryland Railroad which will necessarily induce many persons to locate and build where a large amount of business will be done, to such we call your special attention, as you can save money by calling on the undersigned who will furnish you *with all the comforts of life*, as well as all kinds of *building material* at such prices as would almost induce you to locate here without the very flattering prospects and inducements held out to you by the early completion of the Railroad. In prospecting around, don't forget to call and see the inducements held out to you by SHIRK & ZIMMERMAN, at their warerooms, on Main street, near the Railroad depot lot.

☞ The Disunionists of Virginia are in a beautiful quandary! A correspondent writes that the Douglas and Breckinridge committees were in session at Richmond on Friday and Saturday, and after coquetting with each other for two whole days, came to the conclusion that a fusion between the two wings was utterly impracticable. The Douglas men obtained a decided advantage over the Breckinridge men, throwing all the onus of disorganization and factiousness on the latter. The Douglas committee have dispatched a messenger to Kentucky who carries with him a request to Breckinridge to answer the Norfolk questions. This is a splendid diplomatic movement on the part of the Douglas men, and will result, in any event, in adding thousands of votes to the Douglas party. Quarrel on, boys, Bell is sure of the State!

Letter from Hon. Mr. Crittenden.

The Louisville Bulletin publishes a letter from Mr. Crittenden, addressed to his friends at New Albany, Indiana, in reply to a request for a speech defining their duty as Indianians in the present crisis.—Mr. Crittenden declines speaking, but writes as follows: "If I were a voter in the State of Indiana, and believed that there was a probability that Mr. Bell could carry the State by its popular vote, then I would unhesitatingly give my vote to Mr. Douglas, and I should do this, thinking that thereby I performed my duty as a true Union man and rendered both to my country and to Messrs. Bell and Everett the candidates of my choice, the best service that circumstances permitted me.

☞ The friend who sends us a communication of six mortal foolscap pages to prove that John Bell is the only National candidate before the people for the Presidency, and that he is sound to the core on the slavery question, must excuse us for not publishing it, for want of space. The man who doubts John Bell's orthodoxy on slavery, is either an idiot or an ignoramus, and deserves a strait-jacket—nay, more, should undergo the purgatory of reading twice a day the Democrat's declarations of the certainty of Breckinridge carrying Maryland!

Bell and Everett Meeting.

A despatch from St. Joseph's, Missouri, says that a demonstration was held there on the 4th by the Bell and Everett party. The city was thronged with delegations from abroad, and a procession formed a mile and a half in length. The procession marched to the fair grounds, where many speeches were delivered. This evening there was also a torchlight procession, brilliantly illuminating the city. The number present is estimated at 15,000.

The Great Party.

It really seems that the formation of this great Union party is a special interposition of Providence. Henry Clay foretold its formation; John J. Crittenden moved its organization, and the *people* selected John Bell and Edward Everett, two of the purest patriots and best statesmen living, to complete its organization, insure its success, and place our nation where George Washington left it. Clay, Crittenden, Bell, and Everett—what a combination of talent and patriotism! This Union party must succeed.

☞ "It is our decided conviction that any man who would pronounce John Bell unworthy of Southern confidence would, with a fair chance and a small temptation, steal a nigger."—*Prentice.*

☞ At the Yancey Disunion meeting, on Saturday night, the Editor of the *Citizen* pronounced John Bell unworthy of Southern confidence, but he is a Buchanan office-holder and a convicted libeler and was hooted by the crowd.—*Examiner.*

☞ The Hon. David Paul Brown, of Pa., is out in a letter announcing his intention to vote for Foster dem., for Governor, in order to defeat the republicans, and thus aid the cause of Bell and Everett, his favorites in the presidential struggle.

☞ The real estate of the late John Byers, located within a few miles of Westminster, was sold at public sale on Saturday last by E. F. Crout, Trustee, to David Reese, for $80 per acre.

☞ We are pained to learn that HENRY G. LANTZ, formerly of this County, met with a distressing accident at his residence in Ohio, one day last week. He was engaged in sawing saw logs, when the chain broke and a log rolled over him, breaking his thigh and several ribs.

☞ A large detachment of U. States troops will leave New York for Texas and California in about a month.

Sale Register.

A parcel of land containing 7 or 8 acres, situated in Hampstead, will be sold by Jno. E. Smith, to-morrow.

Several farms, one of them a valuable mill property, and an amount of personal property will be sold on the premises, 6 miles south of town, by Jno. B. Boyle, on Thursday next. This sale should command attention, as the lands will probably sell low, and are situated in a section of country where prices are daily rising. See advertisements.

☞ There was a rumor when the "Glasgow" sailed, that the Head of the Church was himself a fugitive. The rumor may not be true, as yet, but the events, it is easy to see, are rapidly hurrying on to a point which must convert what may be just now only a current report, into an accomplished fact. As the plot thickens, it will be observed, that new actors are appearing on the stage. Kossuth is expected at Naples, and Kossuth at Naples means Garibaldi in Venetia, and a rekindling of the revolutionary fires in Hungary.

☞ Some fellow, not fearing market-wagon dogs and not regarding the looming up of iron-grated doors, one night last week happened to stumble into Noah Sneach's wagon, at West End, and helped himself to some thirty or forty pounds of nice fresh butter. Wonder if he means to go into the packing business, or did he imagine one of the two wings of the great defunct intended to hold a barbecue, whereby he would make heavy sales?

☞ We call attention to the advertisement of the Erie Sewing Machine Company, in this paper. The Company must be doing a fine business, we judge, for their advertisements appear in nearly all our exchanges, and often do we see the Company and their Machines complimented by the Press.

☞ An interesting revival of religion has been in progress for the last ten days at Jerusalem Church, Bachman's Valley.—The religious services are under the direction Rev. DR. HAUER. Quite a number of persons profess to have found peace through Christ Jesus. May the good work continue to progress.

☞ An arrival from Havana brings a copy of the Diario, which contains an account of Walker's execution. He died with fortitude, professing to be a Catholic, and saying that his war on Honduras was wrong, and that he alone was to blame and accepted death with resignation.

☞ Now that the season of pumpkin pies is fully upon us, some craven wretches who are fond of the luxury nearly stripped a field of fine pumpkins for one of our neighbors at the well past, one night last week. Thou shalt not steal—pumpkins, should ring in that fellow's ears until the very thought of pumpkin pie would make him sick.

☞ Our Corporation authorities are guilty of committing at least one good act for which every decent person will commend them, that of *impounding* every straggling porker found at large on our streets. A sale, or a fine or two, will remedy the evil. Keep the ball rolling.

☞ The steamer Uncle Sam sailed from California for New York last week, with $1,040,000 in treasure.

☞ Maj. Jackson, the Governor elect of Missouri, has made another speech, in which he declares that his speech before the Breckinridge convention was misunderstood. He now declares emphatically that he is for Douglas.

☞ A festival in aid of the cause of Garibaldi in Italy, was attended by some 1,500 persons in Baltimore, last week. Patriotic addresses were delivered which were enthusiastically received.

☞ The Baltimore Sun should be voted a chronic old granny, and be presented with a pair of leather spectacles for inspecting the supposed faults of others, and a stick of candy for its ungading and everlasting grumbling.

☞ Returns from Pennsylvania indicate the election of the Republican candidate for Governor by at least 20,000 majority; and Ohio *ditto*, by a crushing vote.

☞ The Postmaster General has established a Post Office at Harlesville, Baltimore County. The Post Office at Kempltown, Frederick County, has been re-established.

☞ The Evangelical Lutheran Synod will be held in Frederick, on Thursday, 18th inst. The attendance is expected to be large and the proceedings interesting.

☞ Our real estate agent, Richard Manning, has sold to E. Hiram Gardner, the brick dwelling and lot of Lawrence Zepp, at the East End of town for the sum of $2,000.

☞ We learn from the Democrat that on Saturday week 30½ shares of stock in the Bank of Westminster were sold at $26 per share, being $6 per share premium.

☞ The election for Mayor and City Council of Baltimore was held on Wednesday. Up to the time of closing our form we have no returns.

☞ The State of Florida has evidently been carried by the Democrats by a decisive vote, electing the Governor, Congressmen and Legislature.

☞ President Buchanan has been engaged by Mr. Bonner, editor of the New York Ledger, as a contributor to that journal. He is to write a sketch of the life of William Lowndes.

☞ Our Methodist Protestant friends in Westminster and vicinity intend holding a series of meetings commencing to-morrow night. Services will be held every night during the ensuing week.

☞ Now, brother PRESS, what do you think of this Radish? measuring 36 inches round and weighing 5½ pounds, grown by Jesse Yingling, West End.

☞ The Breckinridge Democracy advertise a grand rally at the Court House, Westminster, to-morrow. The speakers announced are Messrs. Lowe, Martin, Pearce, Griswold, Vansant, Parkin Scott, Ritchie, Franklin, Dallas, Crout and Liggett.

☞ The entire population of Annapolis, is 4,658, including 1,643 white males, 1,484 white females, 551 free colored males, 505 free colored females, 220 male slaves, and 255 female slaves.

☞ A private despatch from St. Paul, Minnesota, says, that Governor Williard, of Indiana, died there on the 5th, of consumption.

SUDDEN DEATH.—WM. T. Rowlenson, the late proprietor of the Public Monitor, a paper published at Easton, Md., was found dead at his residence in that town on Monday morning.

☞ Snow fell on Friday in considerable quantities on the line of the Grand Trunk railway, between Island Pond, Vt., and Acton, Canada.

☞ The Franklin, N. C., Observer, hitherto neutral, has changed its name to "Western Carolinian," and is strongly advocating the election of Bell and Everett.

☞ We learn that Cashier JACOB REESE one day this week sold his splendid new dwelling adjoining the residence of Dr. WARFIELD, to Dr. JAS. L. BILLINGSLEA.

☞ George W. Sherwood, Clerk of the Baltimore City Court, died in that city on Wednesday of last week, aged 49 years.

☞ The Artizan's Bank in New York has closed its doors, and its affairs are to be placed in the hands of a receiver.

☞ William Larkin was arrested in Baltimore on Saturday for shooting Mrs. Buck for refusing to give him whiskey.

☞ The Fair of the Maryland Institute was opened in Baltimore on Tuesday night under most flattering aspices.

Let the People take Notice.

That the Lynchburg *Republican*, a hot Breckinridge organ, announces that "the moment the lightning flash shall convey the intelligence of the election, it will unfurl to the breeze the flag of *Disunion*."

Let the people remember, also, that the *Republican's* position is the position of nine-tenths of the Breckinridge papers in Virginia? The *Republican* is only a little bolder than the others—that's all.

Colored "Wide-Awakes."

The republicans of Chelsea, Mass., had a procession on Wednesday night, and among the clubs in line was the "Attucks Wide-Awakes," composed entirely of black men. Hon. J. A. Andrew, the republican candidate for Governor, honored them by taking his place in the line, just in their rear, the mayor of the city and other "white folks" following. These facts we take from the Boston Atlas, repub.

Holloway's Pills.

Apoplexy.—Ye who are in hourly dread of death, whose lives hang on the snapping of a thread, would act wisely in having recourse to occasional doses of these safety-valves or life-preserving pills—they regulate the action of the vital functions, equalize the circulation of the blood, and invigorate the nervous system. ☞ AS EACH MONTH rolls around the demand for Lindsey's Blood Searcher increases, owing to the fact that a single trial at once removes the doubts of the most incredulous, and fully satisfies them that it is the only preparation now before the people that will in all cases do all that is claimed for it. The worst cases of Cancerous Formation, Scrofula, Erysipelas, and Tetter Affections give way to its potent influence. Thousands of persons who are now alive and well, must thank the discoverer of this preparation that they have not been swept away by the unseen hand of death. The best evidence of its real value is, that the best physicians in the land recommend it highly, and acknowledge the claims of the Blood Searcher upon the community.

CORRESPONDENCE.

MCKENDREE'S MILLS, *October* 2, 1860.

Mr. Editor: We had the pleasure of attending the celebration of the fourth anniversary of the *Sams' Creek Sabbath School*, on last Saturday, the 29th, and being so highly pleased with the creditable manner in which the exercises were conducted and the beautiful appearance which the School presented, has induced us to express by your permission, through the columns of your paper, our approbation of the exercises, and our thanks to the managers for the courteous manner in which we were treated by them. We know there are many persons who object to the holding of celebrations or festivals by Sabbath Schools, but we think if they would take into consideration the very pleasant and agreeable manner in which such occasions are spent and the enjoyment of the exercises by all who are connected therewith their prejudices would be easily overcome. But we must return to what we were going to say of the Sams' Creek celebration.

About 9 o'clock in the morning the School and teachers, under the direction of the Marshal, Mr. H. T. CLEMSON, formed in procession in front of the Church, from whence they marched, preceded by the New Windsor Brass Band, and under the waving folds of the beautiful Stars and Stripes, to the grove of Mr. CHARLES B. SIMPSON near by, where a stage very handsomely decorated with wreaths and flowers had been erected for the accommodation of the speakers who were to address the audience. After the meeting was properly organized, an opening address was delivered by Prof. R. L. BREWER, of Liberty, who spoke for a considerable length on the importance of the correct moral training of the youthful mind and the benefits to be derived from an early connection with the Sabbath School. He was followed by Dr. T. W. SIMPSON, also of Liberty, who delivered an able address in favor of the Sabbath School cause; after which the hour of noon having arrived, the exercises closed by Rev. D. EVANS REES.

The scholars again formed in procession and marched back to the Church, where they were treated to a bountiful supply of cakes and confectionaries, of which they partook freely and gratefully.

Upon the whole, we think the celebration of the Sams' Creek School a complete success. Especial credit is due the ladies for the tasteful manner in which everything under their supervision was gotten up; and more than honor is due them for their noble efforts in promoting the interests of the School since its first organization. The writer of this heard the Superintendent, Mr. NAILL, once say that he felt at one time like abandoning all hopes of raising a School at Sams' Creek, and if it had not been for the assistance and encouragement which he received from the ladies, he would have been compelled to give up the undertaking for want of patronage, but through their combined efforts they succeeded in overcoming all difficulties and now have a School numbering about seventy-five scholars, which is a very respectable country school, and no doubt by the fifth anniversary being an honorable and praise-worthy cause, you can gain much useful information from it which may be of lasting benefit in your future lives. Once these things we know, and that is, you will never have cause to regret the time and labor you have spent in the Sabbath School.

We return our thanks to the Superintendent, Mr. N. H. NAILL for the courteous manner in which we were treated by him, and our best wishes shall be for the success and prosperity of his School.

ONE WHO WAS THERE.

FREDERICK, *October* 6th, 1860.

Mr. Editor: News being the grand dedeleration of all Editors, and pressing it matters not of what kind or class, as they are facts, I will write from that principle, and endeavor to give you the "ins and outs" of politics in this County. To judge from the number of Politicians we have here, you would readily conclude that a liberal quantity of Patriotic had been bestowed upon this city, ready and willing to serve their country, being not particular as to the duty provided the "loaves and fishes" were generously divided amongst them, which is I believe strictly in accordance with the established principles of the Democratic party. On last Saturday the secession wing of Democracy endeavored to get up a demonstration which is conceded by men of all parties to have been a complete failure. It was on the 29th of September that the number of endorsers of abolitionism in this County was pretty fairly tested. Handbills were posted up throughout the County a week previous to the meeting notifying the people that the "Sovereignty of Alabama the great exponent of disunionism and fanaticism, would hold forth to the terrified Breckinites and dishelge his plans to all who are in favor of breaking up the Union, and forming a Southern confederacy. Let it be said to the honor and wisdom of this people, as exhibited by the result, that they have once that conservatism and love of the Union is the principle to which they cling that they discard the teachings of fanaticism, and prefer placing their trust in the wisdom of John Bell and Edward Everett. His audience numbered between four and five hundred people, twenty-five of which were endorsers of Bell and Douglas men. The meeting was almost in toto void of enthusiasm or applause. His speech was confined principally to an abuse of the Democratic Party and Douglas wing, asserting the support given to either was only adding more strength to the Republican Party, however, not attempting to prove it (from the fact of his being unable) the truth of his assertions. He did not display so much soundness of argument or familiarity with logic as we should expect of a person, who has become so prominent in the ranks of disunionism. His speech was a perfect string of equivocations from beginning to end, composed of ifs and impossible probabilities, nor did he offer one single sentiment which could possibly be taken as an indication of his attachment for the Union, but on the contrary a desire for its dissolution.—Maryland a border State she has more interest than any other State, she has more kindred ties to bind her to the Union than any other State, she has suffered more from Northern aggression, (if any) than the whole South almost combined, she has always proven loyal to the Constitution, and to the boundaries are Statesmen whose intellect and wisdom far surpasses that of Mr. Yancey; she has always been able to take care of her own interests, and in this political crisis she does not desire the torch of disunionism to be hurled within her limits by the factious and ambitious politicians who have already by his own party in 1850, in the person of W. L. Yancey, of Alabama.

On last Saturday evening the Hon. Coleman Yellott addressed a large and enthusiastic meeting of the Union party in the Court House Square, which was truly an able and patriotic production, and was received with much applause. The Union party is daily gaining strength, and rapidly thinning the ranks of Democracy. That period is not distant when the ranks now been attained when the reflecting and patriotic masses of all sections have determined to forsake Democracy and work out its final extinction. It is only when the grave issues prematurely framed by two sectional factions are presented to the American people, when the source from which sprung the Black Republican party, is arrayed in sectional strife against its offspring, calls forth and demands the Union-loving spirit of the people to crush out sectionalism and secession. Kentucky, beneath whose sod repose the ashes of the immortal Clay, has raised her voice in support of the Union party. This is a fact, and this action has taken place, a new light has broken upon the political horizon, party strife is ignored and repudiated, that corruption and fanaticism give place to virtue and honesty. NEW PUBLICATIONS

THE GENESEE FARMER.—The October number of this standard agricultural journal is on our table, filled as usual with interesting and useful information for the farmer and fruit grower. The Farmer is the only agricultural journal of the kind published in this or any other country. It is the "Farmer's Own Paper," and hundreds of intelligent farmers in different sections of the United States and Canada communicate their experience to each other and the world through its pages. Thereare over fifty articles in this single number. Full and reliable reports of the principal markets in the United States, Canada and England are given and no effort is spared to make it worthy of the support of the agricultural public. It is said to have, with one exception, "double the circulation of any similar journal in this country or the world." Yet it costs only fifty cents a year; and the publisher offers to send the paper *free* for three months to all who subscribe at this time for the next year. Fifteen months for half a dollar! Send the fifty cents in stamps to JOSEPH HARRIS, Rochester, N. Y., or get one of your neighbors to join, and send a dollar bill.

OUR MUSICAL FRIEND, a monthly publication of piano music, usually containing six pieces, which cannot be purchased at music stores for less than *twenty-five cents each*. We can attest its singular value and attractiveness. The selections are of the very highest and rarest order. In no other shape can so much excellent music be obtained for so small a sum of money.—Terms, $1 50 per year. Address SEYMOUR & Co., N. Y.

THE RURAL REGISTER, published monthly in Baltimore by S. SANDS & MILES, at $1 per annum, is a general favorite among our Belair, which is a high compliment to the publishers and their numerous farmer patrons in this section. Beside the large amount of agricultural reading the literary department is well sustained; indeed we cannot see how so large an amount of matter can be furnished for so small an amount of money and put up in such elegant style.

PETERSON'S COUNTERFEIT DETECTOR, for October 1st, is now ready, with another far similitude of a genuine bank note plate, which was engraved for the bank of Morgan Geo., a bogus concern and is now altered successively for the perpetration of frauds on other banks. It is well for dealers to be on their guard, and to fix the design of these bogus plates well in their memory, as it would take a daily issue of counterfeit detectors to keep pace with the fertility in fraud shown by the counterfeiters. Seventy-four new counterfeits have been put into circulation since *Peterson's Detector* for September 1st was issued. These are described in the present number. It is the only perfect and reliable Detector published, and we would advise all to subscribe for it. Price One Dollar a year monthly.

THE HERALD OF TRUTH is published weekly and arranged for binding. Each number contains *two sermons* by distinguished Evangelical clergymen both of this country and of Europe, besides usually *ten or fifteen columns* of other religious reading including reports of the Fulton street and other daily Prayer Meetings, and numerous articles by eminent divines. A noted writer of the Scottish Religious Press says of the "Herald of Truth:" "No paper published in America is more highly recommended by eminent clergymen of every evangelical denomination and notice it is full of information and interest to the pastor, the private Christian, the family, the Sunday School teacher, the theological student, and the Christian Association;—and could the paper find its way into every family in the land its influence for good would be unbounded." Subscribers to the paper get *one hundred and fifty sermons*, besides over *six hundred columns* of other reading, for $2. Single numbers 5 cents, or $2 per annum, in advance. Two copies $3, five copies $8, and an extra copy to the person forming the club. Ten copies $14, and an extra copy. Twenty copies $25, and an extra copy. *Specimen Free. Faithful Agents* wanted to solicit subscriptions among the different evangelical denominations in city and country. Address "*Herald of Truth*," No. 130 Nassau street, New York.

☞ The friends of Dr. Simpson will be pained to learn that he had an attack on Sunday night last, of irritation of the air passages, a tendency to pneumonia, which deprived him of his speech and sight for several hours.

☞ A tailor on Broadway won $15,000 by betting on "Planet," at the late race. He will now probably "cut" the shop instead of pantaloons.

☞ The Breckinridge faction held a meeting at the Court House on Saturday night, Levi Evans in the Chair, and Joseph Shaw, Secretary. Addresses were delivered to a slim wet-blanket crowd by Messrs. Crout, Dallas and Liggett. The most interesting feature of the meeting was the elegant performances of the Cornet Band, who really out-Heroded Herod.

☞ A beautiful pole and streamer bearing the honored names of Bell and Everett, was raised at Cassell's mill near Wakefield, on Saturday. An enthusiastic crowd was in attendance, and stirring speeches were delivered by Messrs. Webster and Christ.

Politics in Rhode Island.

There is a good prospect of a union of all the opponents of Lincoln in Rhode Island. The Douglas electoral ticket, just nominated, is composed entirely of old line whigs, of great popular strength.

Black Republican Profanity.

Carl Schurz, the pet orator of the black republicans, speaks of God as "that ordeal gentleman beyond the stars."

To Consumptives.

☞ THE Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge) with the directions for preparing and using the same, which they will find a SURE CURE for CONSUMPTION, ASTHMA, BRONCHITIS, &c. The only object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address Rev. EDWARD A. WILSON, Williamsburg, Kings County, New York. oct. 5.

IT IS A COMMON OBSERVATION that there are more sufferers from debility, among Americans than can be found among any other civilized nation. The reason is obvious. We take too little exercise, and forget the wants of the body in the absorbing pursuits of business. In all such cases, ordinary medicines can do little good. What is required is just such a tonic and invigorator as Dr. J. Hostetter has given to the world, in his CELEBRATED BITTERS." The weak and nervous denizen of the counting house the exhausted toiler upon the shop board, and the prostrated student of the midnight lamp, have found a wonderful regenerator in the "Bitters," and prefer it to more pretentious, but less efficacious medicines.—But it should not be forgotten that the agent which is so magical in its influence upon a frame which is merely debilitated, is equally powerful in assisting nature to expel the most terrible forms of disease. Who would not give it a trial?
