Postponed Trustee's Sale.

BY virtue of a Decree of the Circuit Court for Kent county, sitting as a Court of Equity, the subscriber, as Trustee, will offer at public sale, on

TUESDAY,

the 8th day of February next, at 12 o'clock M., at the tavern of John McDaniel, Esq, in Chester Town, the DWELLING HOUSE, CARRIAGE HOUSE, BLACKSMITH SHOP,

AND BACK BUILDINGS, which Thom. & O. P. Jones purchased of Mr. Wm. Vannort, situate on the corner of Market Space and Club Lane, in Chester Town, opposite McDaniel's Hotel.

Some of these buildings are nearly new, and all in a thorough state of repair. Their arrangement for convenience of manufacturing, repairing and vending carriages is perfectly unexceptionable. Mr. Vannort carried on a few years ago, at this stand, the business of making carriages, &c., very successfully. He was succeeded by the Messrs. Jones who also had an excellent business.—The present occupants, Messrs. Jones & Howard have had invested but little capital in their business, hence their operations have been limited.

To an enterprising and thrifty carriage maker, these premises offer every inducement to purchase. It is the only stand in the county at which carriages are or have been made, to any extent, for years. The purchaser will be able no doubt, to secure nine-tenths of the county custom, as he will have little or no competition.

THE TERMS OF SALE,

as prescribed by the decree, are CASH to be paid on the day of sale, or upon the final ratification thereof.

RICHARD HYNSON, Trustee:

Jan 15 1853—tds

N. B—The Trustee is warranted in saying that the above terms will be materially changed on the day of sale—instead of the cash being required, as prescribed by the decree, the parties at whose instance the sale will be made, will make arrangements to give the purchaser a liberal credit.

Report of Analysis of Quick LIME

DELIVERED by Messrs. Ermentrout at my farm. The specimens were taken with my own hand from a number of cart loads after they were deposited in the field, and the sample was a fair representation of the whole:

Lime weight of, as pure Lime, or Oxide of Calcium,	60.37
Magnesia, weight of, as pure, or Calcined Magnesia, or Oxide of Magnesia,	22.38
Potash and Soda,	01.00
Iron and alumina, or clay,	06.60
Silica, or sand,	01.10
Silica acid, or soluble silica,	03 00
Bone earth, weight as Phosphate of Magnesia,	00.40
Loss, supposed to be carbonic acid and water,	05.15
	100

REMARKS—Every hundred bushels of this Lime contains Phosphates about equal to one bushel of Bones. When ones are dissolved and infinitely divided, it is said that the immediate effects of one bushel is equal to four: if so the value of these phosphates is more than one bushel.

Respectfully,
DAVID STEWART, M. D.

P. S. The above Lime is called the Epler's Rock, Reading Lime, proprietors, Zacharias & Ermentrout, Reading Pa.

Extract from a letter of Fred. Wm. Heckell, M. D. of of New York.

"As under manure we understand a compound substance which restore to the soil, what previous or succeeding crops abstract. Therefore, it of course follows, beyond a doubt, that your lime must be beneficial to any soil and prevent its exhaustion." This Lime will be forwarded on accommodating terms.

Dr. R. T. Allen, of Kent county, Md. has seen the original letters and report and has given us permission to refer to refer to him for further particulars.
